Legion Seeks to Pierce Mystery In Death of Newman War Veteran sponsible for the act.

surrounding the death of a world war soldier found dead in his never heard where American bed in the Kaiser hotel in Berlin, Germany, where he was serving with the American Red Cross mission after the war, is gradu- money on his person prior to his ally being unfolded by the American Legion service office.

Many incidents surrounding this strange death are still unsolved. The body was that of Brice Ringer, former Newman, Ill., young man, who was wounded on the battlefields of France while serving with the American Allerton High army and later transferred to the Red Cross mission in the German capital.

For many years this man's death was accepted as a suicide. Recently disclosures have reveal- have been absent from school ed circumstances tending to veil this week. such a verdict with doubt. If Ringer did take his own life, then his condition was such that this week on account of semeshe was mentally depressed and ters. ill because of his war wounds, according to Martin C. Tesch, American Legion service officer, who is attempting to fathom the with officials in Germany.

Upon the outcome of this investigation depends the ability of a dependent father of the de- at Hume last week ended with uel Morris, a spirit filled African ceased veteran to receive bene- the final scores for Allerton. fits due him if it can be deter- Thursday night score was 45-14 bors of missionaries in foreign mined that the son was murder- in favor of Fairmount. ly made would indicate that the cause of injuries. former Illinois veteran did not die by his own hand. This was a newspaper clipping printed in J. Richard The Amaroc News at Coblenz, Germany, in the issue of June 28, 1919, a few days after Ringer's death. The article was as follows:

"Private Brice Ringer, Red Cross worker on duty with the American Military Mission at Berlin, was found with a bullet through his head in his room at the Kaiser hotel in that city Saturday.

"An automatic pistol of the Lueger make was found beside Davis the dead man. And, as he was known to have carried a large sum of money which could not be found, it is not known how Broadlands boys in an opener 19he came to his death.

Repeated efforts have been made by relatives of Ringer to obtain records of the inquest supposed to have been held, but none has been received up to the present time.

The basis upon which the adjusted compensation claim was refused by the government to the veteran's dependent father was that the dead youth did not terminate his service with the government under honorable conditions.

In a recent letter to the investigation which was sent by Mr. Tesch, he outlined the following facts:

"There were apparently no eye witnesses and all the evidence is hearsay. First, the Sidell, Thursday, Jan. 26. veteran had a service-connected games will be played. disability from which he was suffering and evidence shows

that he was in ill health and in a depressed condition; and if his life was taken by his own hand, no doubt the veteran was not re-

"Another unsolved fact re-A tale of mystery and intrigue mains that this veteran was an American soldier and I have soldiers carried Lueger automatics. The fact also remains that this veteran had a large sum of death, which could not be found, and there are some possibilities of his having met death by foul means, there having been many agitations in Germany at that time."-Com'l News.

Prophecies Snow for Inaugural

President-Elect Franklin D. Roosevelt had better take his heaviest overcoat and woolly undies with him when he goes to Washington to assume the oath of office on March 4, according to Herbert Janvrin Browne, noted long range forecaster, who predicts a cold and blustery day, with possible snow. Mr. Browne, who is not connected with the United States weather bureau, is shown above in his laboratory.

Girl Hops Trains

in Evening Dress

Pittsburgh, Pa .- The food at the county jail tastes "mighty good" to Betty Wilson, twenty-year-old Denver girl who started hitch-hiking home from New York in evening clothes. She's glad also to be indoors with a snowstorm raging outside, she told attendants.

Betty was ordered held for five days by Magistrate Thomas D. Jones in Morals court when arraigned with two young men. Railroad detectives said the three were found sleeping under newspapers in a box car in the B. & O. yards

at Glenwood. She told Jones that for more than a year she saved her money to get to New York, but once there she lost her job. So she decided to go back home. Without funds she started hitch-hiking, but in Connelsville she boarded the freight train with the two youths whom she declared "perfect gentlemen."

A famous surgeon performed an operation on an Eastern potentate who came to this country, and was a bit uncertain as to what fee he should charge. Considering the operation, the surgeon thought it was worth \$5,000, but his wife disagreed with him. She said that here was one patient who could afford to pay more. Finally, the surgeon took a billhead, wrote on it merely, "The king can do no wrong," and sent it in. There are stories that he got a check for all the way from \$100,000 to \$250,000. Anyhow, it appears to have been a royal fee.

Every time I go to Princeton I realize all over again what a beautiful university it is, with its Gothic buildings and its great campus shaded by tall and ancient trees. Until recently I supposed that the university must have been founded by the Poes, but investigation discloses that those mainly responsible were an Ebenezer Pemberton of Harvard, and a Johnathan Dickinson of Yale. The latter was the first president, although the institution was then known as the "College of New Jersey" and situated at Elizabeth. It was not until Aaron Burr was president that it moved first to Newark and then to Princeton. Nassau hall, which I believe is Georgian in design, was started in 1754 and finished two years later.

They tell me that Johnathan Edwards was one of Princeton's presidents. I know that Big Bill Edwards was one of its guards. WORKING TO CAPACITY

William James once advanced the theory that few human beings ever work up to their fullest capacity. Vast energy resources are hidden by the habit of fatigue obstacles which we never break through. It is possible that we possess not only a second wind but a third and a fourth. "In exceptional cases we may find, beyond the very extremity of fatigue distress, amounts of ease and power that we never dreamed ourselves to own, sources of strength habitually not taxed at all because habitually we never push through the obstruction, never pass those early critical points," James says.

Hardly had they scuttled out | tion Africa? to the stove than Ben Cooper walked slowly down the street, paused a moment at Miss Lavinia's clematis-hung gate, then continued on his way.

"Is it possible," Ben was thinking, "that I am going to see the only woman I ever cared a hoot for, walked off with by an old duffer from town? He's called there now half a dozen times, if what everybody tells me is true and that means business. What a fool I have been not to have pocketed my pride years ago!"

A few minutes later, the Bradley sisters were rewarded for repeated trips into the parlor by seeing the courtly figure of Mr. Thomas Wendell emerge from their neighbor's house across the street. They would have given much to have heard what he said as he lifted his hat to 'Vinia who | stood in the doorway.

"I can count on your answer Wednesday without fail? I thank you." That evening, well after dark, when Julia and her sister were peaceably knitting together, Ben Cooper made his way to Lavinia's. They knew nothing of his visit. Lavinia herself, when she saw his once familiar figure at her door, drew back with her hand, still white and slender, against her throat. "Why, Ben-" she breathed. "It's me, 'Vinia," he said hoarsely. "I-I-er-that is, I just had to see you. May I come in?"

A moment later and he was seated stiffly on the edge of the long horsehair sofa.

"Tell me, Lavinia," he demanded sternly, "is it true that you are going to marry that old fossil from the

Lavinia gave an amused, throaty chuckle. "I don't know what business it is of yours," she said, "but I'm perfectly willing to tell you he's coming for an answer Wednesday."

"Wednesday," repeated Ben helplessly. "Wednesday." Then, with one single stride, he came over to her and picked her up in his two strong arms. "When he comes," he said harshly, "you tell him you're going to be married on Thursday to me. What fools we have been, Lavinia! What years we have wasted!" his voice broke and he pressed his head against Lavinia's hair, as Lavinia's two arms crept slowly up around his neck.

Wednesday, Mr. Thomas Wendell came for his answer, nor did it apparently displease him.

"I've dreaded to sell them, Mr. Thomas, for they were my mother's and her mother's before her. There were the twelve of them, but my fiance accidentally broke one of them. I'm sorry to have kept you dangling for a price, but at last, seeing I'm going to be married, I guess I can use the money for my trousseau."

"Is that so?" said Mr. Thomas Wendell politely. "My congratulations, and I'm grateful to get the goblets." "Funny," said Martha Bradley crossly, "how some people have all the luck. Not enough men to go round and Lavinia with two of 'em on her hands at once, now that Ben's come courting again, and some say they're going to

be married tomorrow!" "Listen to me, sister," said Julia sagely, "I wouldn't put it beyond Lavinia to have kept this city man on tenterhooks just to make Ben jealous. In a small town he was bound to hear that some one was calling on his old girl. I think she did it on purpose!" Martha laid down her tatting. "Julia," she said, slowly, "you said a mouthful!"

CORN & Grain Advances 20%

At KECK'S FURNITURE Co.

During Keck's Great Emergency Sale

The Most Unusual and Startling Offer Ever Made!

The Keck Furniture Company would like to see a substantial advance in Corn and Wheat prices, but it seems like an advance in grain prices must be at the famous "Prosperity Corner"—wherever that is.

Keck's know of hundreds of families who are waiting for an advance in grain prices so they can, without great sacrifice, buy a new Living Room Suite, a couple of new rugs, a new Range and any number of other things which are needed badly right now.

Keck's are, and you are, tired of waiting for Federal or some other kind of farm relief. Therefore to make a more profitable market for the farmers of East Central Illinois and create much needed business during their Emergency Sale, they offer from now until further notice, Two Cents per bushel More For Corn Or Wheat Than Quotations Are At The Elevators In Your Community-When Traded At Their Store.

Keck's prices during this offer will be the Lowest of any store in East Central Illinois—then from these lowest prices you folks with corn or wheat will have the added advantage of receiving two cents per bushel More For Your Grain.

Come to Keck's today and make your furniture selections-you will find one of the most complete and up-to-date stocks of any store in Illinois. Every piece goes in this event. Mothers, Wives and Daughters, here is your chance to get the new Furniture you have wanted so long, but for which "Dad" said he didn't have the cash. Bring "Dad" or "Hubby" into Keck's today. He will be as enthusiastic as you, when he sees how much More his Corn and Wheat Dollars buy at Keck's.

Mussolini's Optimism Loud Voice of Cash 10,000 Real Fighters The Dove Appears

Mussolini blesses the thirty-hour week, and would combine it with a "back-to-the-land" movement. He says, which will cheer you, Mussolini being intelligent and practical, that recovery will come next July, and that we are at the bottom of the depression now.

"I think the second half of 1933 will surprise you pleasantly," says he.

Here or abroad cash is the strong argument. American students at the University of Vienna were victims of offensive rowdyism. The American minister complained, with little effect. Now somebody discovers that foreign students spend \$1,750,000 a year, more than all the Austrian students spend, and that has caused a change in the attitude toward American students.

American doctors, finishing their studies in Vienna, spend a half million dollars there yearly.

If American students and doctors would return from foreign countries, they would find better universities and better medical school here, and have the satisfaction of spending their money in the United States, where they expect to make their money hereafter.

Ten thousand more Japanese soldiers are marching into China. Ten thousand Japanese, well drilled, well armed, with armored tanks rolling ahead of them, bomb-dropping airplanes overhead, represent a real fighting force.

China has learned about fighting in the last ten years of constant civil war and foreign war. She learned something in the war with Japan, and "beating China" is no longer a pastime.

Today's conflict is a struggle between quick action and savage fighting on the part of the Japanese, patient endurance and determination on the part of China to outlast Japan's financial resources.

You read in Genesis, chapter eight, that the dove came back to the ark, "and, lo, in her mouth was an olive leaf," so Noah knew that the waters were abated from off the earth.

Business and financial newsdoves are beginning to bring little olive leaves to the ark of the depression. Net income of railroads in the East has risen 15 per cent in November,

compared with October. Building operations in America went up more than 18 per cent in November, over October. We are gradually climbing up out of the slough.

The government discovers that milk kept in grass green bottles preserves its quality, does not grow rancid. If you haven't green bottles, black will do as well.

Years ago Joseph E. Uihlein of Milwaukee discovered that dark brown bottles preserve beer from damaging effects of sunlight, and advertising the fact ably added several million barrels to his annual output of beer.

Auguste Piccard, who has twice visited the stratosphere, going higher above the earth than any other man, arrives here to explore the stratosphere again, in the cold region of Hudson bay. Professor Piccard has a twin brother in America, also a scientist, Jean Piccard, who devotes his learning to the phenomenon of twin births. Jean Piccard believes that left-handedness and twin births are in

same way connected. If you are left-handed it is possible that you are one of twins, the other one having failed to reach maturity.

The senate judiciary committee has reported favorably, by a vote of 10 to 4, a resolution to repeal the Eighteenth amendment, under which this nation has been drinking bootleg gin and whisky instead of milder drinks, properly made. The saloon is forbidden in the report and states that want to have prohibition on their own account will be protected and encouraged in that desire.

They will also have, largely, a monopoly of bootleggers and racketeers, but some, at least, will know how to attend to that.

German industry shows a gain of 13 per cent, encouraging for all industrialists and workers.

American industry would also show substantial gains quite promptly and American employment would show gains if this country would buy only goods made in America by American workmen and paid for with American money. It is pleasant to hear that friends across the ocean are doing better. It would be more pleasant to hear that ten or twelve millions of idle here were going back to work.

Buy American goods made by American labor.

In New York has occurred the most shocking crime of this crimeridden period. A child four months old, Frank Michael Cammarano, is found murdered in his crib, stabbed three times with a sharp blade. The knife had been left driven through his heart deep into the mattress of the crib. The police "suppose" it to be a crime of vengeance. Criminals of this kind cannot be discouraged by any gentle methods, unfortunately.

News Review of Current Events the World Over

Congress Not Accomplishing Anything Important-Budget Balancing Likely to Be Postponed-Johnson Assails Borah in Senate Debate.

By EDWARD W. PICKARD

"lame duck" session that ever will be held, political observ-

ers will be astonished. The Democrats. in numerical control of the house, seem bewildered and uncer tain; the Republicans gleefully assist in distracting their opponents and complicating their attempts at legislation; the more radical members of both

Rep. Rainey

parties slash right and left and add to the confusion. The senate doesn't especially like the house's beer bill, and the house doesn't approve of the repeal resolution before the senate. Proceedings in the upper chamber at this writing are held up by a filibuster conducted by Senator Huey Long of Louisiana for the purpose of defeating the Glass banking bill. And over all hangs the prospect that President Hoover will veto certain of the most important measures if they reach the

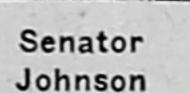

White House, As for balancing the budget, that President Hoover apparently has abandoned hope that it can be accomplished at this session, and the Democrats, including President-Elect Roosevelt, give no indication that they have decided how it should be done. They now deny that they plan to raise the income tax, the leaders who conferred with Mr. Roosevelt repudiating their first statements that such was their intention. Representative Henry T. Rainey of Illinois, majority leader, declares congress can balance the federal budget without the imposition of additional taxes, except a tax on beer, and his statement is greeted with general expressions of approval from the taxpayers and many members of congress. He says the budget should be balanced by cutting down the cost of government-a proceeding that has the nominal approval of both parties-and that the imposition of a heavier tax burden on the people would be to "invite revolution." All of which sounds fine, but so far congress has failed to reduce governmental costs in any appreciable degree. The amount it will save in this session may not be as much as \$100,000,000.

Senator Pat Harrison of Mississippi. one of the most astute of the Democrats, agreed with the Rainey program. "We." he said, "are going to try to retrench sufficiently to avoid levying of new taxes. It is too early now to tell just how close we can come to balancing the budget through economies. Our plan is to hold off on revenue legislation for several weeks while we try to secure enactment of the beer bill, re-enactment of the gasoline tax and all possible economies. When we know how much we can raise and save it will be time enough to talk of new taxes."

DEMOCRATIC logrolling and Republican tactics of hampering marked the debate on the domestic allotment farm relief bill in the house. Even if it were passed by house and senate it probably would be subjected to veto by the President. The measure was loaded down with amendments by representatives who refused to be controlled by their party leaders. Proposals to include rice within the benefits of the act were adopted 99 to 24; peanuts were added by the close teller vote of 111 to 110 and the butter fat products of the dairy industry included 102 to 75 on a rising vote. When it was finally assured of passage by the house, the Roosevelt farm relief program was rounded out with the introduction in the senate of companion bills designed to lighten the burdens of agricultural mortgages through the use of further federal aid and federal

CENATOR BORAH'S assertion in Ithe senate that France was justified in her stand on the war debt because President Hoover in his con-

ference with M. Laval had given the European debtor nations reason to believe their obligations to the United States would be scaled down if reparations were reduced brought on a sharp debate between the Idaho gentleman and Senator Hiram Johnson of California. The row started with the reading in the sen-

ate of letters from Secretary of State Stimson and Secretary of the Treasury Mills denying | put a bullet through his head as he that Mr. Hoover had given Laval any sat in his room in the house office such assurance. These denials, Borah | building. said, were inconclusive, though it is specific.

Johnson thereupon soundly berated and Benton McMillin, former goverscolded him for not giving the senate | member of congress.

TF ANYTHING of moment is accom- | the "facts" known to him when the mated by friends at about \$250,000. I plished by the present session of moratorium was before that body in John Coolidge, the former President's congress, almost certainly the last 1931. The exchange of personalities son, was provided for in a trust fund between the two erstwhile close estimated at \$100,000, created by Mr. friends was acrimonious.

Though Mr. Roosevelt declined to marriage to Florence Trumbull. co-operate with President Hoover on the war debt question, he is getting | year or so that he was in danger of his inauguration. In pursuance of this application for \$200,000 life insurance surging crowd which was gathered York with Secretary Stimson, Col. Ed- dition of his heart. ward M. House, who is an authority on foreign affairs; James W. Gerard, | LLINOIS Democrats victorious in American ambassador to Germany at the time the United States entered country a lesson on how to get elected had healed his wife's mother of a the war; Sumner Welles, who was at small cost, Figures submitted by assistant secretary of state in the Wilson administration, and Senator Swanson of Virginia, one of our delegates to the disarmament conference.

Over in France there is a growing belief that Mr. Roosevelt secretly engaged himself to a drastic revision of the war debts, and the public also refuses to accept Laval's denial that President Hoover promised him a re-

A S LAID before the senate, the resolution for repeal of the Eighteenth amendment was a compromise probably will have to wait for the between the drys and wets on the special session of the new congress. Judiciary committee and satisfied no one. It is designed to bar the saloon, nois—the contested victory of James retains for the federal government a Simpson, Jr., Tenth Illinois District but his deadly affliction was that of certain amount of control over the Republican congressman-elect, cost \$3,liquor traffic, aims to protect dry 950. Websubmission of the amendment to state er, Democrat, who spent \$1,525. legislatures rather than to special state conventions. Speaker Garner and Representative Rainey said the resolution in that form would not even be | ing rather successful attempts to stop introduced in the house if it were the sales of property for delinquent passed by the senate, because it does taxes and unpaid mortgages. In sevnot conform to the Democratic plat-

> DRESIDENT HOOVER in a special message asked congress to ratify the long-pending international arms convention or to enact legislation at this session, giving the Chief Executive wider powers in placing embargoes on shipments of arms to belligerents. Neither request is likely to be granted. Chairman Borah of the senate foreign relations committee has opposed the arms convention for years and is still against it, he and others holding that it would not interfere with the enterprises of the greater powers, but would discriminate against small nations. Senator Shipstead of Minnesota said he could approve nei ther plan, and some of the Republicans, notably Representative Hamilton Fish of New York, declared themselves against them.

> INGFISH" LONG'S filibuster against the Glass banking bill amused a handful of senators and a lot of visitors in the galleries, but kept

Sen. Glass

which rather annoyed the Virginian. He asserted that when recently he said he knew more about branch banking than Glass, he really "was not giving himself much credit." Then he produced a big Bible and read from Isaiah:

the senate from ac

complishing anything.

Huey made a number

of sarcastic allusions

to Senator Glass.

"Woe unto them that join house to house, that lay field to field, till there be no place, that they may be placed alone in the midst of the earth."

"Just change that to branch banks." he shouted, "and you've got what'll happen to the independent bankers." "If you don't take the house of Morgan into ccasideration," was another contribution, "you ain't going to regulate many banks with any bill you pass here. The house of Morgan is the undisputed kingfish of the banking business."

Long's plan to end the depression was characteristic. He would survey the country, order production to cease of any product of which there is now plenty, issue ten billion dollars of federal bonds for food, clothing, and public works, and "just a little capital levy" on the rich would pay for all of this program.

D EPUBLICAN membership in the house of representatives was reduced by two during the week by death. Congressman Robert R. Butler of Oregon died of heart disease induced by pneumonia. Next day the capital was shocked by the suicide of Samuel Austin Kendall of the Twenty-Fourth Pennsylvania district. For months he had grieved over the death of his wife and finally gave up and

Among other well known men who hard to see how they could be more | died were Guy D. Goff, former United States senator from West Virginia, Borah for his stand, and satirically nor of Tennessee and for 20 years a

IN RESPONSE to a special message I from the President urging "emerforced foreclosures, congressional leaders promised a partial revision of the bankruptcy laws at this session. The house judiciary committee began consideration of a bill embodying the principles suggested by Mr. Hoover to ease the debt situation during the present period of depression.

CALVIN COOLIDGE'S will was found among his personal papers and filed for probate. In a few words the document, drawn by Mr. Coolidge himself, leaves his entire estate to Mrs. Coolidge. The property was esti-Coolidge a short time after his son's

met in their annual conference at with their need. Purdue university : nd adopted a program developed by the farm management experts of that institution. The fourteen point plan, worthy of the attention of agriculturists of other ic got more than he expected. He destates, includes a policy of "pay as you go, reduction in costs especially those for outside labor, production of concentrated products to reduce marketing costs, production of high quality goods, taking advantage of marketing short cuts, increased intensity of operations on good lands, culling of live stock 'vigorously' and feeding of good animals well, increased attention to seed selection, testing and other crop practices, increased study of management practices, increased use of home grown seeds, producing more of the family's requirements on the farm, increased production of legume crops, avoidance of investments in permanent improvements, and making more use of governmental and educationa forces available to tarmers."

ESPERATE fighting for possession of the rich Jehol province was going on between the Japanese and the Chinese armies toward the close of

the week. The scene of the battle was Chiumenkow pass in the Great Wall, the "Pass of the Nine Gates." The Japanese, employing infantry, cavalry, artillery and bombing planes, attacked fiercely and occupied the northern end of the pass, but the Chinese concentrated at the southern end and put up a stiff resistance, being

Gen. Tsai Ting-Kai

aided by the mountainous nature of the country. Japanese planes flew far across the border of the province and bombarded the city of Jehol and other towns, the war office justifying this action by charging that the presence of Chinese troops there constituted a "menace" to the Japanese forces. Of course the Chinese were on their own soil, but a little thing like that does not deter Japan. The Tokio war office claimed victory at Chiumenkow.

Gen. Tsai Ting-kai, who commanded He has little confidence in the stamina all over the world. of Marshal Chang and seeks to replace him as commander in the Shanhaikwan region.

handed to all the foreign legations dering! IMPROVED gency action" to stave off wholesale UNIFORM INTERNATIONAL (By REV. P. B. FITZWATER, D. D., Mem-

> Lesson for January 22 JESUS FORGIVING SIN

ber of Faculty, Moody Bible Institute of Chicago.)

C. 1933, Western Newspaper Union.

Mark 2:1-12. GOLDEN TEXT-The Son of man hath power on earth to forgive sins. Mark 2:10. PRIMARY TOPIC-Jesus Forgiving

JUNIOR TOPIC-Jesus Forgiving a INTERMEDIATE AND SENIOR TOP-IC-How We May Be Forgiven. YOUNG PEOPLE AND ADULT TOPIC-Jesus' Power Over Sin.

I. Jesus Preaching the Word (vv.

1. To whom (v. 2). It was to the about the house where Jesus was stopping. So great was the crowd that there was no room to receive them, even about the door. This house may have been the home of Peter where he fever. As soon as it was noised about that Jesus was in the house, the multistate to the clerks of tudes gathered. It is always so, that

the multitudes gather where Jesus is. 2. What Jesus preached (v. 2). He H. Dieterich spent on- preached the Word before he wrought miracles, for his supreme mission was to make known God's will. Miracles ship; the expenses of were not an end in themselves, but to authenticate his work. The people Senator Otis F. Glenn, came, some to be healed, and some out were \$5,838. Martin of curiosity. The Word of God should A. Brennan expended be preached to all so that the will of only \$2 in his success- God may be known even though the hearers gather with an unworthy mo-

II. Jesus Forgiving Sins (vv. 3-5). The man brought to him was suffering from the dread disease of palsy, sin. Palsy was a type of sin. The miracle was wrought by Jesus in confirmation of his message. It was vitally connected with faith. Observe:

1. Faith coming to Jesus (v. 3) The actuating impulse of the palsied man and his four friends who carried him was faith. They believed that Jesus had power to save.

2. Faith overcoming difficulties (v. 4). Though prevented by the crowd from coming to Jesus, they ascended the outer stairway and let the afflicted man down through the roof into his presence. They disregarded conventionalities, knowing that the all-im-CIVE THOUSAND Indiana farmers portant thing was to go to the Lord

3. Faith rewarded (v. 5). No word was uttered by either the paralytic or his hearers. No words were needed. Their action was enough. The paralyt sired healing of the body and he received forgiveness of sins-the healing of the body plus forgiveness of sins.

III. Jesus Answering the Scribes

(vv. 6-10). 1. Their objections (vv. 6, 7).

a. Why does he thus speak? b. Who can forgive sin? They were entirely right in their reasonings that only God can forgive sins. Their blunder was in not perceiving him as God. The very one who was speaking and acting was the living God.

2. Jesus' answer (vv. 8-10). Knowing their inner thoughts and reasonings, he manifested unto them his essential deity in that he had power to know their thoughts. He inquired, "Which is easier, to say, Thy sins be forgiven thee; or to say, Arise and take up thy bed, and walk? But that ye may know that the Son of man hath power on earth to forgive sins, (he saith to the sick of the palsy), I say unto thee, Arise, and take up thy bed, and go thy way into thine house." He was willing that his power in the invisible realm should be tested by his power in the visible.

IV. Jesus Healing the Paralytic

(vv. 11, 12). 1. His method (v. 11). He spoke the word and it was done. Christ's words were enough. This man was helpless and unable of himself to move, but with the command was given the strength to obey. It is always so, that when Christ commands he gives the strength to perform.

2. The obedience of the man (v. 12). He immediately arose, took up his bed and went forth among them all. The poor helpless man walked away with his bed upon his shoulder. At the words of Christ, disease and death flee away. This was a fine example again of divine healing.

3. The people were amazed, and glorified God (v. 12). They said, "We never saw it on this fashion."

World Movements God dwells in the great movements

the Chinese Nineteenth route army in of the world, in the great ideas which its gallant defense of Shanghai a year act in the human race. Hot Towel Unknown to

Chinese Street Barber One of the coldest jobs in Shanghai is that of the itinerant boy barbers who hang out their poles at any street corner and minister to their clients on the spot. The only point of dissension lies in the possibility that the client is colder than the barber. Icy cold water rubbed into the beard and the pate, the rude scraping of an old-fashioned Chinese razor-something like an inverted chisel-while the thermometer stands at freezing point and wind and sleet whistle around the client's ears, must

be an unpleasant experience. Still, most of these boys, who earn a very meager living, treat their clients to the semblance of a nice, clean towel or sheet around the neck, which is an improvement on the days when water was never used at all .-North China Herald.

Dorothy's Mother Proves Claim

Children don't ordinarily take to medicines but here's one that all of them love. Perhaps it shouldn't be called a medicine at all. It's more like a rich,

concentrated food. It's pure, wholesome, sweet to the taste and sweet in your child's little stomach. It builds up and strengthens weak, puny, underweight children, makes them eat heartily, brings the roses back to their cheeks, makes them playful, energetic, full of life. And no bilious, headachy, constipated, feverish, fretful baby or child ever failed to respond to the gentle influence of California Fig Syrup on their little bowels. It starts lazy bowels quick, cleans them out thoroughly, tones and strengthens them so they continue to act nor-

mally, of their own accord. Millions of mothers know about California Fig Syrup from experience. A Western mother, Mrs. J. G. Moore, 119 Cliff Ave., San Antonio, Texas, says: "California Fig Syrup is certainly all that's claimed for it. I have proved that with my little Dorothy. She was a bottle baby and very delicate. Her bowels were weak. I started her on Fig Syrup when she was a few months old and it regulated her, quick. I have used it with her ever since for colds and every little set-back and her wonderful condition tells better than words how it helps."

Don't be imposed on. See that the Fig Syrup you buy bears the name, "California" so you'll get the genuine, famous for 50 years.

Second Drawback One's nose at the grindstone involves too much talking about it.

Cough, Weak, Lost Flesh

Grand Rapids, Mich .- "My daughter seemed to be growing too fast. She developed a bad cough and it was necessary to keep her home from school as she

Miss G. E. Walton became very weak lost flesh," said Mrs. Thos. Walton of 843 Ionia St. "We owe the good health she is now enjoying to Dr. Pierce's Golden Medical Discovery. It not only stopped the cough but also increased her appetite and built good solid flesh so that she has no more trouble." Dr. Pierce's Golden Medical Discovery can be procured at any drug store. Write to Dr. Pierce's Clinic, Buffalo, N. Y., for free medical advice.

Rule for Life, Too He's a poor fisherman that will not wet his feet.

One Sure Way to

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood. attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter of how long stand. ing, is not relieved after taking according to directions. Askyour druggist. (Adv.)

Care for Your Hair with Cuticura

Before shampooing rub Cuticura Ointment gently into the scalp. Then make a thick suds with Cuticura Soap and warm water and shampoo, massaging the scalp well to stimulate circulation. Rinse thoroughly.

Their faith, determination in the days of Columbus shows that and pioneering spirit were responsi- a dinner in those days for anyone ble for developing and bringing to who really amounted to anything in our medicine shelves those well Spanish society consisted of from known package medicines which af- 12 to 16 meat courses. No person of ford economy and convenience, and quality would have dared serve vegewhich are so essential to our every- tables at his table, for in so doing day lives.

Today we take our family remedies for granted as naturally as we accept the air or sunshine.

Most package medicines were originally prescribed by that beloved individual, the memory of whose selfsacrificing life is most beautifulthe old family physician. Being prescriptions of merit which produced results, they survived. They became nuch in demand and consequently much prescribed by their originat-Perhaps the demand grew so rapidly that the old doctor found himself unable, with his limited equipment, his modest kit, to fill the need. Often he, sometimes assisted by his kinsmen or friends, prepared to meet the demand by a quantity production, that the meritorious prescriptions might receive the widespread use which their popularity justified. Then came years of toil, hardships, risks, struggles; with life's earnings and life's efforts invested. Eventually the laboratory and the machine entered the picture, and every invention of a modern world was utilized to increase perfection, production and distribution.

Whether an individual package medicine has been on the market for scores of years, or whether it is the more recent product of medical research, a large proportion o? package medicines in general are based upon solid scientific knowledge, and deserve the confidence of the public. Proprietary remedies which can ease human suffering, mitigate human distress, or add to human health and physical efficiency, at a price within the reach of the poor man's pocketbook, are indeed worthy adjuncts to American life, as well as American commerce. "They can be safely relied upon," as Lord Bacon expressed it, "to tune the curious harp of man's body."

Dinner Menus of Past and Present

In the yard next door a turkey gobbler paced back and forth, complaining bittterly about our tiresome habit of feasting on holidays. Once he was a luxury which only the affluent could afford, but now he is out of luck, for turkeys cost less than they have in many years. Time was when turkeys feared for their lives only twice a year, but now they're in constant danger because they have slipped from the luxury class.

Back in 1850 Christmas dinner for a well-to-do American family would have consisted of 12 meat courses and only a couple of vegetables. To-

GARGLE Thoroughly-Throw Your Head Way Back, Allowing a Little to Trickle Down Your Throat.

Membranes of the Throat for Prolonged Effect.

Remember Only Medicine Helps A Sore Throat

Modern medical science now throws an entirely new light on sore throat. A way that eases the pain, rawness and irritation in as little as two or three minutes.

Results are among the most extraordinary in medical science. On doctors' advice, millions are following this way . . . discarding oldtime "washes" and "antiseptics." For it has been found that only medicine can help a sore throat.

Simple To Do. All you do is crush and dissolve three BAYER Aspirin Tablets in half a glass of water. Gargle with it twice—as pictured above. If you have any indication of a cold—before gargling take 2 Bayer Aspirin Tablets with a full glass of water. This is to combat any signs of cold that have gone into your system. Keep on taking if cold has a "hold." For Genuine Bayer Aspirin will not harm you. Your doctor will tell you, it does not depress the heart. Get a box of 12 or a bottle of 100 at any drug store.

Reduces Infection, Eases Pain Instantly. Gargling with Bayer Aspirin will do three things: Relieve soreness at once. Allay inflammation. AND—reduce infection; which is the important thing in fighting a sore throat.

It requires medicine—like BAY-ER ASPIRIN—to do these things! That is why throat specialists throughout America are prescribing this BAYER gargle in place of old-time ways. Results are quick and amazing.

Be careful, however, that you get real BAYER Aspirin Tablets for this purpose. For they dissolve completely enough to gargle without leaving irritating particles. Watch this when you buy.

NEXT WASHDAY

So economical—TRY IT in tub, washer, dishpan

TOU'LL say its economical, too, when you see how I long one big box of Rinso lasts. That's because you only have to use a little Rinso to get a lot of the thickest, liveliest suds you ever saw...in any kind of water.

Rinso is equally good in tub or washer. Dirt loosens and floats right off in its creamy, cleansing suds. You don't have to scrub or boil the wash. Rinso does a complete job-just by soaking. This saves the clothes from being scrubbed threadbare; saves your hands from getting red and washworn, too. Rinso's active suds speed up dish-

washing-make all cleaning easier. Try Rinso in your tub or washer-and dishpan. Getthe BIGbox. A PRODUCT OF LEVER BROS. CO.

Objects of Education

In a series of newspaper articles Dr. Glenn Frank, president ium emanations used in treating of the University of Wisconsin, cancer. discussed some of the laws which he believes underlie a thoroughly modern education. Coming from such a distinguish- ordinary electric warming pads ed source they are worthy of serious consideration.

Among the principles set forth footstools. are these: We learn by action rather than absorption; learning is specific rather than general; the best things to learn are those which are important in our life and work; we should study the things that will most directly contribute to our efficiency and happiness.

Like many other educators of today, Dr. Frank does not believe that a college education is either necessary or desirable for everyone. The four years spent in college might often be better employed in gaining practical experience in a workshop or business. It depends largely on the natural talents and inclinations of a young person whether he should go to college.

For one who is of a studious some day the youngster's task disposition and aspires to enter one of the learned professions a college education is indispensable of course. For those who go to college merely to be able to say that they have gone to college it is a waste of valuable time.

As Dr. Frank very truthfully says: "We cannot prove that a college education guarantees a big income, or that it makes us happier men and women. Most of the old argument for college education is in the ashcan."

Opinions Should Differ

DRY SKIN YIELDS TO OLIVE OIL COSMETICS

By KAY CARROLL Noted New York Beauty Expert

THE "dry skin" is often due to nervousness, fatigue or undernourishment. Normal skins are apt to dry out from exposure to sun, wind and cold and also steam heat.

Women with dry skins should be careful to get enough sleep, and to avoid nerve strain. When they venture out into the open, especially during the cold, blustery fall and winter months, they should see that their skin is properly protected from the ele-

One of the best ways to do this is to use a small amount of olive oil in your make-up articles. There is one line of cosmetics, put up under the name of "Outdoor Girl" which actually is made with an olive oil base. These distinctive preparations have become exceedingly popular not only among women with dry skins, but among others who wish to prevent their

skins from drying up and becoming

lined and wrinkled. I was especially attracted to the Outdoor Girl face powder. In spite of its olive oil content, this powder is as dry, soft and fluffy as thistledown. Yet, it keeps the skin smooth and pliant and gives it resilience to resist wrinkles. I dust on a light film of this delightful powder before I go out and I find that it lasts until I come in again.

Another helpful remedy for dry skin is the Outdoor Girl olive oil cream. This luxurious emollient acts as a tissue food and restores to the cells their missing oils. When your skin shows signs of relaxing, Outdoor Girl skin freshener, a mild tonic with astringent qualities, may be used once in a while in combination with the cream. It is refreshing and stimulating and refines the skin texture.

CHAPTER XII—Continued

-15-"It's an abandoned mine; abandoned a long time ago, at that. As to where it belongs on the map, I don't know. You won't be afraid to stay alone for a few minutes, will you? I'm going to climb up and see where this bucket leads to. Just stay where you are until you hear me lift the bucket and drop it. Then climb in and shake the rope when you are ready for me to haul you up. Will you do that?"

"Yes," she agreed; and with that he laid hold of the rope and began to climb up.

When he had wriggled out at the top of the shaft and found, by groping around, that it was capped with a wooden windlass, he was willing to rest for a few seconds and catch his breath before giving Betty the agreedupon signal.

At once it was answered and he began to wind. In a few minutes he had drawn the bucket and its precious freight out upon the windlass plat-

When the candle was relighted it became apparent that they had ascended to what seemed to be nothing more than an upper layer of the rabbit warren of bewildering passages and drifts.

"Haven't you any idea where we are?" Betty asked.

"Wait a bit," said Landis; and then, "I've got it! Hasn't Bert Canby told you about his mine—the Quavapai?" "Yes."

"Well, there are two Quavapais; the new one that is being worked now, and lence, Landis crept forward. The tuna much older one," and he repeated for her Starbuck's account of the ancient workings. "That is about where we are," he concluded; "buried somewhere in those old workings. We'll keep on going while the candle lasts. There must be some connection between these old workings and the new. You're not too ared to tramp, are you?"

"I'm not tired at all, now. And we profound as that of the grave! must get out if we can. We haven't nothing."

period of fruitless wanderings in a maze that seemed endless.

dwindled to a half-inch that the really desperate character of their situation gripped Landis. With the light gone they would be utterly helpless.

"We are nearly at the end of things, Betty," he said soberly. "You see how much there is left of the candle. After It is gone we'll be just buried alive."

"I know; but I'm not afraid, Owen. It—it will be starvation, won't it? don't want to die, but I'm not afraid. Let's sit here on this pile of rock and face it the best we can."

For a little while they sat in silence. When he spoke it was to say, "I'm to blame for whatever happens to you, Betty. If I hadn't brought you along-the devils, whoever they are, who kidnaped you, wouldn't have left you to starve at the bottom of that shaft."

"Maybe not. But you mustn't think of that now. You did what you thought was best; we both did. Do you think they've got Wally, too?" "Im afraid they have."

"If he is gone, there is nobody to miss us; not very soon, anyhow. The Stillings will think I was invited to stay overnight with the Smiths; and the people at the hotel won't miss you, will they?"

"No, I suppose not." As he spoke, the remaining bit of candle wick fell over, to burn flickeringly for a few seconds before it went

After a moment in the Stygian darkness that followed the extinguishing of the candle, Betty said wearily, "I'm

awfully tired; aren't you, Owen?" "No; not very tired. But I know you must be. Put your head on my shoulder and go to sleep, if you can."

She did it, and after a little while he knew from her regular breathing that she had really fallen asleep. Before long he felt that he, too, was succumbing; and after a few efforts to fight off the lethargy of fatigue, his eyes closed in spite of his resolve, and

he slept. When he awoke Betty was still sleeping, with her head on his shoulder, and, sharp as was his desire to move | Landis saw him open the slide in the and stretch and get the stiffness out of his muscles, he was unwilling to disturb her.

It was while he was sitting with wide-open eyes staring into the darkness that he saw, or thought he saw, a faint thinning of the darkness at a point directly opposite. He stared again and saw nothing. Then, in a shelf. flash, the faint thinning of the blackness came again, and his start at this repetition of the phenomenon awoke Betty.

"What is it?" she asked. "I don't know. Look straight ahead; do you see anything?"

"Why-why, yes; it's light! Is who made it-the fellow we locked up someone coming for us?"

He rose stiffly and lifted her to her

not say it hopefully. What they saw, when they crossed to the mouth of one of the passages leading out of the space where they had slept, was a thing that Landis was not remotely expecting to see. The passage mouth was the entrance to a long, gently inclined tunnel, at the lower extremity of which was a faintly glowing electric light.

"What does that mean?" Betty asked, whispering as if she were afraid the miraculous light might disappear if she spoke above her breath. "It means that my guess was right. We've been lost in the old workings of the Quavapai, and that light is in one

of the new workings!" "Now that we know where we are, we can get out, can't we?" "We can try mighty hard, anyway.

bottom of this rathole." Approaching the lower end of the | in Canby's wake were strangers.

inclined passage, they could see that the light bulb was suspended from the roof of a much larger drift, through which ran a miniature railroad track. Landis asked Betty to stay behind in | to tell you to knock off a bit until I concealment while he went on to investigate. She consented, merely urging him to be careful.

"Don't worry about me; I'll hurry back after I find out whereabouts we strangers. Canby must have learned are, and the way out."

Reaching the larger tunnel he found it empty. Though the working tunnel was lighted, it was driven on a curve which limited the view in either direc-

Since there was nothing to determine a choice, Landis turned to the left. Before he had gone very far he heard the rumble of a car on the rails behind him and hastily crowded himself into a niche in the tunnel wall. When the car came in sight he saw that it was pushed by a single man. A slight upgrade in the drift made the man put his head down and brace to his work, so he saw nothing as he passed Landis' hiding place.

Watching the car, Landis had a curious shock when, just before it disappeared, the squeaky rumbling of the wheels stopped abruptly. The car moved as silently as if the wheels and the rails upon which they were running were shod with velvet.

Convinced instantly that there could be but one reason for the sudden sinel straightened itself and the scene he was more than half expecting to see was revealed.

In the tunnel heading a number of men were at work; two of them manipulating two big air drills which were visibly churning away at the rock face of the heading. But instead of the raucous clamor which this should have raised there was a silence as

Fully aware now of the use to which been kidnaped and shut up in here for his stolen invention was being put, Landis made a quick search for the That was the beginning of a long | hiding place of the black box. He had little difficulty in discovering it. It was half concealed in a shelf-like It was not until their candle had | niche of the tunnel wall close at hand, the electric current for its operation being taken from the light wires over-

> Landis saw that his time for action was short. In a few minutes, or perhaps seconds, the car would be coming out. Reaching up quickly, he opened a slide in the black box and did that which was needful to paralyze its delicate and intricate mechanism. Then, as the deafening, ear-splitting clamor of the chattering drills burst out in the heading, he leaped for branching side drift.

The effect of the suddenly released din upon the men in the heading was astonishing. They had evidently become so well used to the abnormal conditions that the sudden resumption of the natural order of things precipitated a wild panic. While two of the men hastened to shut off the air pressure from the drills, the remainder came stumbling out, some with their fingers in their ears, and so on out of

the picture. A moment later the two who had run to stop the drills came along, but they were not hurrying. When they came under the nearest light bulb Landis recognized them at once as two of the three he and Markham had seen in the lobby at the Copah hotel, two of the trio who had driven westward from Copah to disappear so unaccountably and mysteriously.

"What the h-l do you suppose went wrong with the machine?" one was saying as they passed.

"It got me for a second," said the other. "I wasn't looking for it. Think it gave the snap away?" "If it did, there'll be merry h-l to

pay. The captain 'll want to kill somebody. Today is the day when the big deal is to be pulled off."

This was all that Landis heard; and when he looked out he saw that they had taken the black box from its niche and were trying to make it function. Presently one said, "It's no good; she's gone out blink; burnt herself up inside somehow, I guess." Then side of the box and direct the beam of a pocket flash into the interior; saw him do this and heard his low whistle punctuated by the single word,

"What for?" queried his companion. "Smashed all to the devil," said the investigator, replacing the box on its

"Say! Didn't the captain give orders that one of us was to keep a strict watch on that box every minute of the day or night it was in here? And that isn't the worst of it. Do you I do, d-d well! It was the fellow Blade.

in the old Indian mine last night!" "You're crazy. That chute is a good feet. "We'll see," he said, but he did | two miles from the place where we locked that fellow up; and, allowing that he had a light—which he didn't he'd get lost a million times before he could find the way over here."

"I don't care. He's the only-" There were two empty dynamite boxes lying beside the railroad track, and Landis, looking on and listening in his covert, saw one of the men suddenly push the speaker to a seat on one of them, planting himself quickly on the other, and saying as he did so, "Cut out the chin music! Here comes the captain with his goldfishes! We want to let him find us keeping watch on that box!"

Landis craned his neck to enable him to see farther down the tunnel. A group of four men was approaching, the one in the lead carrying a flashlight. As the four passed he saw that We'll go down and see what's at the | the light carrier was Canby; but the three men who were picking their way

As the four came up, Canby stopped and spoke to one of the workmen.

"Air quit on you, did it, Jim? It's all right, I was just about to send in could bring these gentlemen in and show them what we've got."

Landis reasoned instantly that this was said for the benefit of the three from the panic-stricken miners the true cause for the stoppage.

"Of course, you can't tell much about a gold mine by merely looking at it," Landis heard the speaker say to the three as they stood in the heading. "The assays tell the true story of the values, and, as you know, we have given your examiners a free rein."

"You have done everything you agreed to," said one of the three. "There is only one thing that puzzles" us a bit; and that is, why you are willing to let go of so good a thing as this mine seems to be." Canby laughed easily.

"I can give you the reason in four words, Mr. Fleming; I'm no mining man. A year ago I thought I was, and I let a bunch of scamps stick me for the old Quavapai. I found out pretty soon that I'd been 'done', but the extent of the old workings was sufficient proof that the mine had once been a producer. So I sent some good money after the bad, developing one of the old veins. Here is the result; but, good as it is, it hasn't made a mining man out of me, my interests now are all in the East, and I can't ride two horses at once."

There was more talk. After a time we have seen all we need to, and I guess we may as well adjourn to skies. Brewster and have our lawyers draw up the papers. What do you say, Fleming, and you, Cantrell?"

a moment later the group of four was set is adopting enthusiastically for on its way out.

locked up-the fellow that made that | suede worked in to relate it to the gray back-action loud-speaker over thereis the one that turned h-l loose on us a little while ago, and I'll make a tento-one bet he's hiding in that old chute right now. Let's go back and get him."

Then to Landis came the thought of what they would find in the inclined chute-Betty, waiting bewildered and dismayed. His groping hand reached backward and fell upon a miner's shovel, and with only this for a weapon he leaped up and darted out Berserkmad, to fall upon the retreating pair.

Fortunately for him the two men had their backs turned when he made his silent charge upon them, and before they heard him he had hit one a smashing blow over the head with his shovel, knocking him across the rails of the mine track. But before he could swing the shovel a second time, the other man had whirled, drawn his Colt and fired. It was merely a lucky chance that the heavy bullet struck the shovel blade and glanced aside to flatten harmlessly against the tunnel wall, but the chance sufficed. Before he could squeeze the trigger again, Landis was upon him, flailing at him with the shovel, mad with the madness that makes the fighting maniac in-

vincible. Driven back by the furious attack, the man tried to cover his face, A chopping blow of the shovel made him drop his pistol. At this he sought to close with the maniac, but Landis lowered his clumsy weapon from cutting to thrusting and the sharp blade of the digging tool caught the charging enemy just above the belt. He gave a grunt and bent double over the thrusting shovel, but in falling he got his hands upon his lighter antagonist and dragged him down.

Dropping the shovel, Landis tore fiercely at the gripping hands. Like grim death his opponent held on, struggling desperately for the breath the him of. It came at last, and when it did, Landis knew that the fight was which are sequin covered. lost; the man had him down, while he groped with the other hand for the dropped pistol.

Variety is think we are pretty well satisfied. I of waving palms under tropic starry

A most important lesson which fashlon teaches is the value of color-flamboyant, audacious color, if you please. There was no dissenting voice, and A formula for color which the smart passing the mouth of the shallow drift | winter sports outfits is gray for the basic color with accessories in a riot For perhaps five minutes after the of brilliant greens, blues, reds and or sound of the footsteps of the retreat- ange tones. Over a swanky gray cosing quartette had died away in the dis- tume consisting of trousers in dark tant reaches of the tunnel, the two gray with a tuck-in sweater in lighter dependable a gadget such as, for inmen who were barring the way for tone, the neckband and wristbands Landis made no move, and his impa- knitted in vivid stripes, she who skates tience to get back to Betty became a wears a patchwork suede jacket, in maddening obsession. Then one got lumberjack fashion, which startles the upon his feet and began where he had eye with its vivid coloring, being left off when the interruption had formed of swatches of blue, green, red and yellow suede sewed together in "I'm telling you that the fellow we crazy-quilt fashion, with enough gray of the sweater and trousers with which

> It does not look its high color in the picture, but if the skirt-and-jacket suit

Whether we be snow-faring fans or | Ify as being plenty colorful. The trimbright red corduroy. It is lined with natural chamois. The skirt is of rich green suede leather. Its buttoneddown-the-front fastening is the last word for sportswear.

Included among timely suggestions To begin with those who skate and for conservatively smart snow suits afforded by the plaid lining which is woven in flaming colors.

The commendable thing about modern winter sports togs is that no matter how pictorial they may be they never sacrifice the practical.

The sportswoman who knows her fashions never thinks of wearing a jacket or blouse which does not fasten with a metal slide or some such arrangement. That is, if she be not intrigued with some other equally as stance, the new fastening created by Schiaparelli which slips small wooden knobs through leather thongs. A row of 'em is warranted to "doll up" any ski or skate suit to the snow queen's taste. Howsoever to do the trick without ostentation you will please to note the pullover blouse pictured above in the group, which fastens with a metal slide at the back of the neck. The collar and gloves are striped in pale blue and brown.

DINNER JACKETS By CHERIE NICHOLAS

One sleeveless decollete gown with a flock of cunning dinner jackets equals a whole wardrobe of evening clothes. Which goes to show how practical fashion is growing during these days when economy is correct form wherever we may go. The model pictured is in black and white velvet. Gold or silver-spangled velvet would make up very prettily after this fashion. The list of flattering dinner jackets includes some very dainty fantasies made of choice lace either black or in ecru or flesh tints. Worn over black velvet or crepe dresses they transform the formal gown into a costume tuned to the semi-formal dine or dance hour. savage stomach thrust had deprived The flair for sparkle is reflected in the dazzling little capelets and jackets

Hatback Is Need

The strong popularity of the Victorian coiffure that sweeps all the curls to the back of the head makes know who smashed it? If you don't, ing human nature lovable .- Tolede the elevated hatback practically imperative.

GOLD AND SILVER SLIPPERS RETURN

The fashion tip given by one of the better shoe houses is to dye the heels and bows of an opera pump to match the gown or the accessories. This same house is showing a slipper that can almost be said to embody every color of the rainbow in a vivid pattern.

Velvet slippers are exceedingly smart. Many of them have straps and intricate trimmings of gold or silver kidskin. Some have both. Returned to favor are kidskin gold and silver slippers. A new note is a combination of the gold and silver.

The brocades are very smart. They are trimmed with the gold or silver kidskin. Some houses are showing a trim of opaque kidskin. There are satin and moire combinations to be had and crepe slippers to be dyed.

One-Sleeved Gowns Are Latest Freak in Paris

Two sleeves do not make a dress. Paris couturiers are striving to persunde their clients that one is quite sufficient.

However bizarre may be your mental picture of a one-sleeved gown, in reality the creation is sometimes effective. It's smartest, however, when applied to jackets.

These leave one arm covered with a fabric contrasting with the fabric of the dress sleeve. The armhole of the "missing sleeve" is trimmed with feathers, the other with fur.

Sequin Capes

A shoulder cape of sequins on black net or chiffon is charming worn with a simple evening gown. They can be bought separately to wear with different dresses.

Plaid Velvet

Plaid velvet bags with scarfs to match are gay and pretty to wear with your dark fur coat or with a solid color wool dress.

The Working Bride

"Teamwork" Often Results in Happy Marriage.

"What do you think of these modern marriages that have to be undertaken on the basis of the girl sticking to her job often with the strong possibility of there being the only job in the family? This has got so general now that I see in a report from the marriage license bureau of a big city that practically all of today's brides are working brides. Along with that goes a whole changed outlook on the home and marriage. One room and kitchenette will encompass all the hopes of 'home' for these young people. I think independence and self-reliance for women is good. But can you build families and family spirit and home life on such a foundation as I refer to?"

The answer is, I believe, that it has already been done. Brides holding on to their jobs did not originate with this depression. The idea has been in practice long enough so that almost any suburb can show a crop of couples of the vintage of eight or ten years ago who started out with both working, and then when John made good settled down to care for the cottage and babies.

As little Tommy says, there's nothing for nothing in this life. And the situation of the working bride is not all to the good. But in many ways it is distinctly a gain in the foundation of lasting marriage. Chiefly, to my mind, in the fact that starting with that kind of teamwork gives a girl a healthy realistic viewpoint on what today's breadwinner is up against, and when her young husband becomes able to carry the load of a family, his modest success will not shrink to the contemptible in the eyes of a wife full of illusion as to royal roads to riches and husbands who should come home from work all set to take their wives out for a good time.

Game Called Russian Scandal

By ANTHONY REIMERT

(©, 1923, Western Newspaper Union.) DO YOU know the game called Russian scandal? It is very interesting. Of course it doesn't often work out as well as it did in Seaton's case. But then Seaton lived in one of those gossipy small towns where iness trip to Danville, Saturday. people are interested in their neigh- Alfred Thode accompanied him. bors, and Seaton was the sort of unfortunate man who lends himself to

that sort of thing. Seaton slightly. She was an unusual lono, the first of the week. sort of girl-the kind that men are first afraid of, then try to take liberties with, then go away and scandalize about.

Seaton was a clerk in the bank and pers Tuesday. sometimes went into the teller's cage. He was engaged to marry Mabel Lake. She was older than he was, and she didn't love him-didn't love any one, spending a few days with friends Sunday evening. ried, and she saw her chance in and relatives in Champaign. Seaton, who was an inoffensive sort of fellow. Got him to kiss her under the mistletoe, or something, and then said they were engaged. Seaton was Pesotum were dinner guests of

He happened to meet Doris at the day. door of her boarding house. She was a stenographer, and they had been to the same school. They stopped to Mabel. He said good night, sighed, day. and went on his way.

Doris looked after him and wished he were not going to marry Mabel. from her window. She told old Miss Briggs:

"There's that Mr. Seaton talking to the local U. B. Church. that Doris Bright. What's he want to be talking to her for when he's going to marry Mabel Lake? There's some thing wrong there."

he cashed a check for me yesterday," said Miss Briggs. "I wonder what he's planning!"

Old Miss Briggs met Miss Sutphen at the church sociable the following evening. "Have you heard what folks are saying about Mr. Seaton?" she and Mrs. L. S. Griffith, Mr. and asked. "There's something queer go- Mrs. A. S. Maxwell were dinner Bright. And he's been acting queer guests at the home of T. G. Maxat the bank."

Miss Sutphen met Mrs. Lowndes, the wife of Doris' employer, a few hours later. "Have you heard about that girl your husband has in his office?" ver Underwood of Bloomington, she asked. "They say she's carrying Ind., were guests of D. P. Brewon dreadfully with Mr. Seaton, and him going to be married. Something ought to be done about it."

Mrs. Sutphen, who had always been jealous of Doris, said to her husband: "John, I wish you would discharge that Miss Bright. People are saying brought home Thursday of last all sorts of things about the way she's week after being a patient in carrying on with married men."

So Doris got a week's notice without explanations.

wife of the bank president, who was as we go to press. talking to Miss Prim. "Yes, my husband's promised to discharge that Bright woman," she said. "She's been carrying on a clandestine intrigue with that Mr. Seaton, who's going to entertained at dinner, Sunday, marry Mabel Lake."

Hallory? They say he stares like a Brocton, and Mrs. Emma Block guilty man in the cashier's cage."

Mrs. Hallory told her husband, who investigated Seaton's record, and found that he owed a bill of \$200 to Joseph, the jeweler. It was for Mabel Lake's engagement ring, but Joseph didn't go into particulars.

Hallory, who was a timid man, called Seaton up next morning and discharged him with a month's notice, saying that the bank was cutting down its staff.

Mabel Lake, in tears, consented to a postponement of their marriage.

"Did you hear Mr. Seaton's being discharged from the bank and thrown over poor Miss Lake?" asked Miss Prim of Mrs. Rogers. "They say he's a regular bad one. And that Doris Bright's at the bottom of it."

Mrs. Rogers was a member of the ladies' chapter of town society. The following evening a band of six hooded men, with horsewhips, formed up behind the wall of the Ninth Methodist

Seaton had one friend in town-a little tobacconist whom he had once

lent \$5. He ran to him. "They're going to whip you and Doris Bright and ride you out of town on a rail," he gasped. "My wife's gone and warned her."

Seaton thrust a few things in a bag, hurried round to Doris, and found her at her door, suitcase in hand. "What are you going to do?" he

asked. "Get out of this town," said Doris

succinctly. Seaton took out his watch. "We can make the 10:10 from Southport, if we | hurry," he said. "We can get married in Lancaster. Lemme take your bag." They kissed hurriedly and started off

into the darkness. Brown's Refractory "Bus." "S'matter, won't your engine go?" asked the passing stranger of Brown, who was talking like a Dutch uncle

to his stalled car. "No," he growled. "I think they equipped this bus with one of those blankety stationary engines."-Cincinnati Enquirer.

many authors are writing just the sort of books they

Real Adventure Best. If your Bill doesn't take to fairy tales, to legends, to fables, don't force them on him. Offer him instead Char- Northbound lotte Kuh's delightful "A Train, A Boat, and an Island"-the story of a real family's real trip to Bermuda. Offer him Heluiz Washburne's fascinating "Letters to Channy"-a real mother's letters of a trip around the world written for her own little boy back home. Offer him "The Pilgrim's Party" or "The Cruise of Mr. Christopher Columbus" by Sadybeth and Anson Lowitz, two humorous and very interesting picture books that acquaint

younger readers with stirring history. Perhaps Bill wants to know more about motormen and firemen and what they really do. Mrs. Kuh's books for small children will help him out there. Perhaps he would like "How It All written and illustrated by Janet Smalley. It will tell Bill how primitive man watched the lightning and found he, too, could make fire by twirling two sticks around together. Later man found other ways of heating and lighting and at last we got our matches, gas, oil and electricity. The book goes on, in the simplest fashion, to show the beginnings of messages, of travel, clothing, houses. It is a thrilling sort of real fairy tale that particularly appeals to boys like Bill.

Travel Stories Are Good. What happens to a real letter after it gets posted may also interest some of our very youngest readers. William Siegel, a Russian artist, tells a simple story about that in "Around the World in a Mailbag." Bob and Betty's letter to their father doesn't reach him in San Francisco. So it is forwarded to China, Russia, France, and even to Egypt. But though the various postmen do their best the letter does not finally reach him until he is back in New York again. The pictures make this book especially at-

Here are just a few of the new books for fairy-tale-strikers. Many more are to be found in the libraries and bookstores. Just exactly the book your Bill is looking for is waiting for him there. And it is just the right

book for him at the present time. Take him along and let him help find it!

CORN-WHEAT! DURING KECK'S GREAT EMERGENCY SALE The Most Unusual and Startling Offer Ever Made!

The Keck Furniture Company would like to see a substantial advance in Corn and Wheat prices, but it seems like an advance in grain prices must be at the famous "Prosperity Corner"-wherever that is.

Keck's know of hundreds of families who are waiting for an advance in grain prices so they can, without great sacrifice, buy a new Living Room Suite, a couple of new rugs, a new Range and any number of other things which are needed badly right now.

Keck's are, and you are, tired of waiting for Federal or some other kind of farm relief. Therefore to make a more profitable market for the farmers of East Central Illinois and create much needed business during their Emergency Sale, they offer from now until further notice, Two Cents per bushel More For Corn Or Wheat Than Quotations Are At The Elevators In Your Community-When Traded At Their Store.

Keck's prices during this offer will be the Lowest of any store in East Central Illinois—then from these lowest prices you folks with corn or wheat will have the added advantage of receiving two cents per bushel More For Your Grain.

Come to Keck's today and make your furniture selections-you will find one of the most complete and up-to-date stocks of any store in Illinois. Every piece goes in this event. Mothers, Wives and Daughters, here is your chance to get the new Furniture you have wanted so long, but for which "Dad" said he didn't have the cash. Bring "Dad" or "Hubby" into Keck's today. He will be as enthusiastic as you, when he sees how much More his Corn and Wheat Dollars buy at Keck's.
