BROADLANDS, ILLINOIS, THURSDAY, FEB. 15, 1934

NUMBER 41

Entertain Friends at Bridge Party

Misses Merle Brewer and Margaret Gore entertained at a party at the home of the former on Tuesday evening.

Three tables of bridge were in play, Mrs. Mae Block winning the prize for high score.

Decorations were in keeping with the valentine season. Refreshments consisted of heart shaped sandwiches, pineapple-nut salad, ice cream wafers and coffee.

Those present were Mesdames: Gladys McClelland, Anne Baylor, Anna Struck, Mae Block, Edna Dicks, Misses Marie Struck, Dorothea Martinie, Alice Anderson, Marjorie and Mildred Freeman, Margaret Gore and Merle Brewer.

Programs at Illinois Theater

Following are the programs of the Illinois Theater of Newman:

Friday and Saturday, Feb. 16-17.—Slim Summerville and Zasu Pitts in "Her First Mate," with Una Merkle and Henry Armetha. Hectic, hilarious, hysterical comedy! Admission 10c-20c. Children's Matinee Saturday 3:00 p. m. Admission 5c.

Sunday and Monday, Feb. 18-19.—"Miss Fane's Baby is Stolen," with Dorothea Wieck, Alice Brady, Baby LeRoy, Jack LaRue and Alan Hale. Timely, dramatic, intensely gripping. Admission 10c-20c. Matinee, Sunday, 2:30. Admission 10c-15c.

Coming, watch for dates—"Duck Soup," "Lady for a Day," "Little Women."

News Items of 12 Years Ago

From an issue of The Broadlands News of July 1, 1921:

A daughter was born to Mr. and Mrs. Henry Kemper.

Rev. Krenzien attended Synod at Champaign.

A daughter was born to Mr. and Mrs. David Walsh.

Miss Bertha Lutge was given a surprise party in honor of her seventeenth birthday.

The Broadlands Blues defeated the Homer team on the local field 6 to 2.

Mrs. Lillie Bowman was given a surprise when about forty friends gathered at her home to help celebrate her birthday anniversary.

Broadlands High School News

WARREN RICHARD, REPORTER.

Kathleen David was absent on Thursday afternoon.

Max Thode was absent Friday morning.

Mary Campbell and Walter Schumacher were absent from school Friday.

Your news items would help to make this paper more interesting.

Some public officials are hand picked and machine made.

Bandit Killer Given a Life Sentence

(Editor's Note—It will be remembered that The News recently published a story telling of the murder of Mr. and Mrs. Henry Weiser, of Fay, Okla., next door neighbors of R. M. Hood, who is making his home here with his sister, Mrs. Yuba Catlett. Hence, we are this week publishing the following article concerning the conviction of the murderer.)

Taloga, Okla., Feb. 4.—After 26 hours of deliberation, a district court jury today had convicted Fred Streetman, 18-year-old escaped convict, of murder of Henry Weiser, Fay storekeeper, his wife and Tom Turnise, a passerby, in an attempted hold-up last December.

The jury, divided on the death penalty, finally refused to set the punishment and the District Judge E. L. Mitchell sentenced Streetman to life imprisonment.

Streetman confessed slaying the three, but contended he did not know he killed Mrs. Weiser and Turnise as he fired wildly in an effort to escape when Weiser resisted robbery.

Cleo Owens, 19, Streetman's girl companion, obtained a severance and is awaiting trial.

Will Serve Supper Saturday

The Ladies Aid of the M. E. church will serve a supper at Brewer's garage, Saturday evening, Feb. 17th, starting at 5 o'clock. Supper will consist of Chili soup with crackers 10c, Vegetable soup, crackers 10c, Pie 5c, Coffee 5c. Everyone welcome.

The News is \$1.50 a year.

Ralph Messman Is Given Party

Walter and Mildred Messman and Leora Gericke completely surprised Ralph Messman last Sunday evening on his birthday anniversary, when the following persons gathered at his home south of town: Mildred Kruke-witt, Wilbur, Mildred and Enola Sy, Marie, John and Ernst Mohr, Vera Summers, Wilma and Frieda Schweineke, Hilma and Wilbur Luth, Herman France, Vernon Luth, Alfred and Walter Seider, Alice Shaffer, Walter and Albert Nonman, Mabel, Nellie, Fred and Hazel Block, Mr. and Mrs. Louis Frick, Harold Smith, Bill, Emma and Bertha Seider, Esther and Caroline Wienke, Raymond, Arthur and Marie Struck, and Fred Messman.

The evening was spent in various contests after which jig-saw puzzles were put together.

Refreshments consisted of sandwiches, fruit salad, cookies, candy and coffee.

Ralph was the recipient of many beautiful gifts. The guests departed for their homes after wishing him many more happy birthdays.

Week's Program at Star Theater

Following are the programs of the Star Theater of Villa Grove:

Thursday and Friday, Feb. 15-16.—Robert Montgomery and Madge Evans in "Fugitive Lovers." A new smash hit by the screen's most popular star. Admission 10-25c.

Saturday Matinee and Evening Feb. 17.—Zane Grey's "The Thundering Herd." The thrill of America's making, with Randolph Scott, Harry Carey, Buster Crabbe, Noah Beery, Raymond Hatton and Monte Blue. Matinee 2:30. Admission 5-10c. Evening shows at 6:30-8:00-9:30. Admission 10-15c.

Sunday and Monday, Feb. 18-19.—We proudly present one of the ten best pictures of the year, "Only Yesterday," with the sensational new star, Margaret Sul-lavan, and the famous John Boles cast also includes Edna Mae Oliver, Billie Burke and Reginald Denney. A picture so utterly human and down to earth that you'll never forget it. You will say it's marvelous entertainment. Continuous show Sunday 3:00-11:00. Admission 10-25c.

Tuesday and Wednesday, Feb. 20-21.—H. G. Wells' famous fantastic sensation "The Invisible Man," with the Theatre Guild Star Claude Rains and Gloria Stuart. It's new, thrilling and different. You'll hardly believe what your eyes won't see and your ears will hear. The most novel entertainment since the coming of talking pictures. Shows at 7:15-9:00. Admission 10-25c.

Starting Sunday, Feb. 25th Marie Dressler in "Her Sweetheart."

There has been quite a change in the weather since the latter part of last week, when the mercury was hovering around zero. Today (Wednesday) the sun is shining bright and warm and the bees are buzzing around. Too nice to stay indoors.

Letters From Eddy, Jackson and David

Washougal, Wash., C. C. C. Co. 605, Jan. 9, 1934.

Dear Joe: Well I have at last got up enough energy to write a few lines. I have been aiming to write for some time.

We are having a good time out here in the mountains. We are in the region of that big forest fire that burned the western coast in 1902. From all reports there was thousands of acres burned at that time, and now we have got to cut all the dead trees out. Jim and I are working together while Bernie is driving a truck.

Well Joe we sure have to watch our step out here because we are ten mile from town (up-hill) and if we don't have a clear record for the week they will not let us go to town for the week end.

We are 28 mile from Portland, Ore., and only 22 mile from the army camp at Vancouver, Wash.

Our camp is on top of a mountain. It is called "Camp Bear Prairie" and is in army district F-56.

Well Joe I don't know much to write and it is all mixed up so I will have to quit. Tell all the folks back there Hello for me and tell them they should see the west, it sure is beautiful.

Well I will quit now.

Your Friend,
Merton Eddy.

Washougal, Wash., Friday, Jan. 9, 1934.

Dear Joe: As all three of we Broadlands boys were loafing to-night, we thought it would be a good time to write to you.

How is the old town of Broadlands? We are all O. K. and like the West fine. We are located 28 miles northeast of Portland, Ore. It is called "Camp Bear Prairie." It is a very beautiful place, but very rainy. It has never been cold here, only snowed once and that was gone in a few hours.

The work that we do here is build roads and fall the dead trees that was burnt in the fire that Merton is telling of. Jim and Eddy work together and I drive a truck for the Forest Service on the road gang. The roads that are built are just used to get into the mountains to fight fire.

This camp is going to Twin-Buttes this summer and if you don't see us by April 15, you will know that we have re-enlisted. Twin-Buttes is located about 80 mile northeast of "Camp Bear Prairie."

Well, Joe as this is about all the news, I will close hoping to hear from you.

Your friends,
Bernard Jackson,
James David.

P. S.—Merton gets The Broadlands News and it's good to get the home town news. Tell all the boys "Hello" for us. Our address is: C. C. C. Co. 605, Washougal, Wash.

Bernie.

Market Report

Following are the prices offered for grain Wednesday in the local market:

No. 2 wheat	75c
No. 2 old corn	41c
No. 3 new white corn	39c
No. 2 soy beans	70c
No. 2 oats	30c

C. I. P. S. Co. advertises in this week's issue of The News.

G. T. Club Entertains Husbands at Party

Members of the G. T. Club entertained their husbands at a pot luck dinner and "500" party at the home of Mr. and Mrs. Geo. Cook, last Friday evening.

Mrs. Sue Harden held high score for the ladies and Forrest Dicks held high for the men.

Those present were Mesdames Gladys McClelland, Lillie Bowman, Pearl Edens and Sue Harden; Bud Struck, Messrs. and Mesdames Forrest Dicks, Albert Telling, Harold Wiese, Oscar Witt, John Fitzgerald, John Nohren, Fred Messman, Tom Bergfield, Charles Walker, Roy Bergfield, Ben Rayl, Walter Witt, Carl Dicks, Kenneth Dicks, Oliver Anderson, Chas. Smith, and Geo. Cook.

Ladies Organize Happy Hour Class

Class No. 9 of the M. E. Sunday School met at the home of Mrs. Leanna Miller on Friday afternoon of last week for the purpose of organizing. The class has an enrollment of 17 members.

Mrs. Mathilda Hardy was appointed chairman and presided during the meeting. The following officers were elected: President, Mrs. Leanna Miller; Vice President, Mrs. Mathilda Hardy; Secretary, Mrs. Anna Seeds; Assistant Secretary, Mrs. Maud Anderson; Treasurer, Mrs. Emma Jackson; Mrs. Addie Freeman was reelected teacher.

The name selected for the class is the "Happy Hour Class," and the motto, "Looking Forward," class flower, pink and white carnation; emblem, bible.

The next meeting will be held at the home of Mrs. Leanna Miller, March 1st.

Mrs. Eva Brewer is Hostess to M. E. Aid

Mrs. Eva Brewer was hostess to the M. E. Ladies Aid, Thursday, Feb. 8th, with Mesdames Mabel Haines, Pearl DeWitt and Helen Ward assisting.

The meeting opened with Mrs. Anna Laverick leading the devotional, after which Mrs. Hardy led in prayer.

Mrs. Cora Chafin was in charge of the business meeting. Twenty-two members answered roll call. A short program followed.

Mrs. Laverick read intimate sketches of the life of Lincoln. Mrs. Edna Telling read a paper on the life of Martha Washington.

Refreshments consisted of chicken salad, hot rolls with butter, and coffee.

Guests were Mrs. Belle Smith, Mrs. Lillie Bowman, Misses Margaret Gore and Merle Brewer.

Bergfield Bros. are advertising Friday and Saturday specials in this week's issue of The News.

Broadlands Lodge, A. F. & A. M., will meet on next Monday night.

Five more pages of Uncensored and Sensational War Pictures, vividly explained by Floyd Gibbons, famous war correspondent, will be published in next Sunday's Chicago Herald and Examiner. Be sure to watch for them every Sunday!

MODERN WOMEN SAVE TIME—LABOR—CLOTHES—MONEY with an ELECTRICAL LAUNDRY

THE truly modern women of today have no room for the time-consuming drudgery of old-fashioned methods, and equip their homes with the latest of all home servants. No more toiling over steaming washtubs for the owner of a new 1934 Electric washer. Just throw in the laundry and retire to the comfort of an easy chair—while Electricity does the work for less than ONE CENT an hour! No more days spent over an ironing board when an electric ironer will do the drudgery in two-thirds less time, for less cost, and far less labor than the old way. This year you can have an entire home laundry for the price of a good washer a few years ago. See the new 1934 THOR washers and Ironers today!

\$55.50 Cash (INCLUDING TAX) **\$5** DOWN

Model 42 Washer—complete with rigid span chassis, super-agitator and free-rolling wringer. Also a complete line of electric Ironers. Choose any model, pay only.....

BALANCE 1 YEAR

CENTRAL ILLINOIS PUBLIC SERVICE COMPANY

YOUR electric bill is really the measure of the time you have saved and the fatigue you have escaped. Many times when your electric bill takes a large place in your household budget, it drives a still larger expense out of the budget. Your electric refrigerator and range save food, your vacuum cleaner spares your carpet, your washer deals gently with clothes and prolongs their life. REMEMBER, the more Electricity you use the less it costs per kilowatt hour. Every new use reduces the average cost per unit while shouldering an increasing amount of your household drudgery.

Some Exam Boners

Two volumes of amusing 'boners,' compiled by Alexander Abingdon from students' examination papers, have been published recently. A few samples follow: Acrimony, sometimes called holy, is another name for marriage.

In Christianity a man can have only one wife. This is called monotony.

Jacob, son of Isaac, stole his brother's birthmark. Climate lasts all the time. But weather only for a few days.

A census taker is a man who goes from house to house increasing the population.

Longfellow was born in Maine while his parents were traveling on the continent. He made many fast friends; among the fastest were Alice and Phoebe Cary.

Honors For Horses

Perhaps no horse was ever cared for with the attention given to Man o'War, one of the greatest racers of all time, living quietly on the Faraway farm, near Lexington, Ky., where a corps of trained stablemen minister to his every need and sentries guard him day and night.

Man o'War reached the pinnacle on his fame in 1920, in which year he won \$166,140 in prizes, being then a 3-year-old. He was retired from the track the following year and has been used for breeding purposes, many of his progeny having made notable records.

More than 95,000 visitors have registered in his "guest book" since his retirement. With the humility which characterizes the truly great, Man o'War receives the homage of his admirers with becoming equine modesty.

Offensive Signs

In keeping with what is becoming a world wide protest against offensive signs and billboards, the authorities of Paris have decreed that no signs shall be displayed on its famous thoroughfare, the Champs Elysees, which advertise any goods not actually sold on the premises.

Recently protests were heard in Spain concerning objectionable American billboards. In this country the women's clubs and other organizations are waging a campaign against the billboard nuisance.

By their erection of signboards which spoil the natural scenery along the highways and by encroachments in residential sections of our cities, the billboards people have brought upon themselves the just resentment of that section of the public which has regard for appearances.

When we become more civilized the billboard will go the way of the town crier. As an advertising medium it is an anachronism already.

An Unusual Divorce

While the idea of Mr. and Mrs. Florian L. Hummer of Cleveland regarding getting a divorce but remaining friends is not new, their experiment had a rather unusual sequel.

Deciding that they could no longer live as man and wife in happiness, they agreed to secure a divorce, but to remain in their \$40,000 home, she as manager of the household and he as merely a boarder.

At the end of 30 days they felt the urge to make up and

have the divorce set aside. Seeking the judge who had made the decree, they informed him of their desire. They were pleasantly surprised to be informed that the judge had never signed the record, having suspected how matters would turn out, consequently they had not been legally divorced at all.

There are probably many other couples who might save their matrimonial bark from shipwreck by a temporary severance of relations by mutual consent instead of rushing to the divorce court on slight provocation.

Using Our Leisure

Today the average person has more leisure than he had a generation ago, consequently he has more opportunities for cultural pursuits, if his inclinations are in that direction.

The average work day is shorter and thus even the manual laborer is enabled to share in the leisure which an advancing civilization has made possible.

How to suitably employ leisure time is consequently becoming a rather important problem, the solution of which must naturally be found by each individual for himself. Spare time may well be devoted in part to studies which lead to advancement in one's occupation or profession, or even to preparation for a more desirable calling. Correspondence courses afford many opportunities in these directions.

For those who have found their life work and are succeeding in it, leisure offers the means of broadening the mental vision by a better acquaintance with the masterpieces of literature and art, by developing a better appreciation of music, obtaining a better grasp of national and world affairs—in short it enables one to live a fuller life.

For attaining these ends almost unlimited facilities are within the reach of everyone, through books, newspapers, magazines, motion pictures and radio. By the judicious use of these, entertainment and education may go hand in hand.

The future happiness and prosperity of most of us depend upon how we employ our spare time.

Rise of a Bell Boy

Another striking illustration of what industry and thrift may accomplish, even under the handicap of meager education, is seen in the career of the late Ellsworth M. Statler, millionaire hotel owner.

Born a poor farm boy in Somerset county, Pennsylvania, he had little formal schooling, being forced to go to work when a mere child. Yet he became one of the most able and forceful speakers in the country. He often recalled that his first lessons in English were given him by Tom Duffy, a bartender in the McClure House in Wheeling, where young Statler first became connected with the hotel business as a bell-boy at a salary of six dollars a month.

He was 33 when he opened his first restaurant under his own name in Buffalo. His first management of an enterprise of magnitude came at the age of 38, when he built and conducted a large hotel at the Buffalo Pan-American exposition in 1901.

He then began to build up a chain of magnificent hotels in various cities, including the great Hotel Pennsylvania in New York where he died.

Mr. Statler's rise was not due to good luck, although his business ventures were more than usually successful. It was due to the fact that he had learned the hotel business from the ground up, and was untiring in his efforts to please his guests. He was known as the most polite bell-boy, and when he became a magnate he still had retained the habit of politeness, and his outstanding trait was consideration for the comfort and happiness of others.

Greeley's Handwriting

Many stories have been told about Horace Greeley's notoriously poor handwriting, which was a constant nightmare to his associates, and especially to the printers, on the old New York Tribune.

One printer, being given a Greeley manuscript to set up for the first time, exclaimed: "My God, if Belshazzar had seen this writing on the wall he would have been more terrified than he was." Later, it is said, Greeley wrote to the foreman, directing that the printer be discharged because he made so many typographical errors. The printer got hold of the note before leaving, and carried it to the foreman of another newspaper as a recommendation—and got a job immediately.

Once Greeley was invited to lecture in Sandwich, Ill. He wrote that as he was overworked and would be sixty years old on February third, he felt unable to take the engagement. After much labor in deciphering the letter, the committee replied that they would be glad to have him lecture on February third, and that the fee of sixty dollars would be satisfactory.

A Manless Man-O-War

Among the amazing developments of the last few years is that of the radio robot, or mechanical device controlled by radio, which has assumed many forms, from a talking and moving mechanical "man" to a radio-controlled battleship.

So far, the most remarkable production in this line is the radio control equipment installed on a British battleship, whereby its movements may be governed by transmitters carried by a destroyer two or three miles away. As described by Dr. E. E. Free, this radio control enables the distant destroyer commander to cause these functions to be performed aboard the battleship:

Start and stop the engines, change course, throw up a smoke screen, and even regulate the playing of the ship's phonograph band; all without a single man aboard the vessel.

Many experiments, more or less successful, have been made in America with radio controlled airplanes, tanks, automobiles and motorcycles, as well as radio directed naval ships during target practice.

It would suit most of us if in the next war it were possible to send out machines alone to do the fighting, while humans remained behind the lines attending to their other duties.

Labor Secretary Tells Results of NRA Codes

Indianapolis—Secretary of Labor Frances Perkins told the United Mine Workers in national convention here that "results can be seen everywhere of the increased purchasing power that has come in industry under the NRA codes. Permanent legislation, creating a shorter workday and a shorter work week, temporarily established under NRA codes, should be enacted to afford the Nation's wage earners adequate income, security, and leisure. Every man and woman in this country who is willing and able to work needs to be permanently and securely employed," said Miss Perkins. "I am absolutely convinced that we cannot do this, that we cannot maintain permanent and secure employment except by a short workday and a short work week."

Digging His Own Grave
By R. T. M. SCOTT

AURELIUS SMITH'S fight with Bull Danby was a desperate affair. Smith usually fought with his mind while he allowed his lanky, lazy body to assume the most comfortable posture possible but, when Bull Dandy looted a Los Angeles bank, Smith found himself so close to death that he had to fight with everything that was in him. Smith knew Danby but had always failed to pin anything on him and Danby was convinced that Smith should be killed before he became successful.

Danby made the mistake of letting himself be recognized before he escaped in his high-powered car with the bank's money. Fifty miles from the city, on a lonely mountain road the bandit's car broke down. The police found it and were certain that Danby and his one companion had struck into the mountains on foot. The sheriff was organizing several posses when Aurelius Smith, in the pay of the looted bank, decided to look over the ground alone and in advance.

Near the deserted car was an old and precarious trail which ascended the mountain along the side of a deep valley. Smith, his long legs dangling from the back of a small burro, turned into this trail and began to ascend. The narrow and dangerous path wound tortuously and rose sharply. On one side the high mountain rose steeply and on the other side the deep valley dropped precipitously.

He had been riding for several hours when his burro halted suddenly. On the path ahead a large rattlesnake was coiled with raised head. Evidently it was temporarily blinded by the summer heat. Smith took a spare cartridge from his pocket and tossed it at the snake which struck viciously at nothing and glided under a small bush. At the same instant a rock crashed down the mountainside and struck the trail a few feet behind the burro. The animal dashed ahead but Smith kept his seat and pulled his mount to a halt at a spot where the trail broadened sufficiently to make a turn.

Glancing upward he saw nothing but jutting rocks and steeply rising slopes. He bent forward slightly, ready to kick his heels into the burro's flanks. As he did so there was a flash and a sharp report from above. The burro started violently and Smith fell, a limp and inert shape upon the narrow trail.

There was silence and then a man rose from behind a boulder on the mountainside and looked down. As he did so an arm from the figure on the trail shot upward and there was a roar from a forty-five. The man dropped behind the boulder and the next second the lanky Smith was clawing his way up the steep slope.

Behind the rock, which had concealed his assailant, he found his man lying face downward, beside some canvas bags and a shovel. Pistol in hand he stooped to feel the heart of the prostrate man.

"Put 'em up!" Bull Danby rose from a rock twenty feet higher up the slope—gun in hand. Smith dropped his pistol and raised his hands while the man on the ground rolled over and stood up after securing Smith's pistol. Certainly Smith was caught. He stood quite still, his face expressionless.

Danby insolently confronted his captive. After staring gloatingly for a few seconds he spat full in Smith's face. Desperate as he was Smith did not forget the value of keeping his temper. He smiled.

That smile infuriated Bull Danby. He kicked the shovel toward Smith and told him to dig the hole bigger and at least six feet long.

UNI. CHEMISTS USE X-RAY TO HELP MANKIND

Important Findings Will Aid Medical World, Aviation, Industry.

University of Illinois X-ray chemists recently have made two important contributions to mankind. They have made the first definite scientific step toward the minimization of airplane accidents caused by defective propellers. A discovery that defective propellers may be found before they reach the actual breaking point has been made by Prof. George L. Clark of the University chemistry department.

The tiring and fatiguing of the metal alloy which cannot be detected by the eye often leads to the break in the blade which may send an airplane to destruction. Now by use of the X-ray these weakened propellers may be discovered and replaced before any damage is done.

These scientific findings, which are still in the preliminary stage, Prof. Clark says, may open the way for the establishment of X-ray testing machines at aviation depots.

If such machines were used it would take only a short time to check a propeller at the spot where they most frequently break down and do the most damage.

Also, Prof. Clark and an assistant, J. N. Mrgudich, have found a new method of quantitatively diagnosing the severity of rickets, a bone disease most common in children. Because of their discoveries the medical profession will not only be able to recognize earlier the existence of rickets, but will be able to diagnose more thoroughly the effects of the disease and the results obtained by treatment.

Their research not only confirmed previous theories of the longitudinal orientation of the inorganic fibrous tissues (miscelles) of the bone, but also disclosed the fact that rickets destroy this preferred orientation to a large extent.

"Upon healing, the inorganic miscelles of a rachitic bone do not regain their preferred orientation although the organic constituent assumes the same form as in the normal bone," Prof. Clark said. "In other words an apparently cured case of rickets does not find the bone restored to its original strong and healthy condition."

ILLINI DENTIST WARNS AGAINST UNCLEAN MOUTH

90 Per Cent of U. S. School Children Have Diseased Teeth.

Chicago, Ill.—The most prolific cause of all human ailments is the unclean mouth containing decayed and diseased teeth, and yet the appalling fact is that 90 per cent of the school children of the United States have decayed teeth and unhealthy mouths, Dr. Donald M. Galle of the University of Illinois College of Dentistry said here today.

"No matter how pure the water may be, how wholesome the food and how pure the air, these necessities of life cannot enter the system pure and wholesome if they have to pass through a diseased, unclean gateway," he said.

"The decayed teeth and the diseased mouth of the child are the most prolific carriers of the communicable diseases of childhood, such as diphtheria, measles, scarlet fever and even pulmonary tuberculosis.

"The resistance of a child with diseased teeth is so lowered that he is susceptible to all kinds of sickness and he has a poor chance of reaching adult life with a rugged constitution," said Dr. Galle.

Not only are many of these children physically defective, but also mentally defective, he opined.

"It has been conclusively proved that diseased teeth and unhealthy mouth conditions are the cause of more hold-overs or repeaters in our public schools than any other cause and much of our juvenile delinquency can be traced to this cause.

"The dentist has become a very skillful operator in the field of reparative dentistry, but in spite of our knowledge of the sciences, and our skill as operators, we are falling hopelessly behind in combating the ravages of decay. We realize that we cannot cope with the disease by reparative measures; our only hope lies in prevention and today every conscientious dentist is directing his best thought and energy to this end.

"To succeed along this line of prevention, we must have the fullest cooperation of parents and children. They must realize the importance of mouth hygiene and oral prophylaxis," he said.

Illini Students Come From All Ranks of Life

Fathers of the 9,996 University of Illinois students are literally "jacks of all trades" as shown by statistics taken from the last registration of the students.

Business men's sons and daughters are the most numerous having the large enrollment of 4,217. Students, whose dads are skilled laborers are second in number with 1,424. By skilled laborers is meant mechanics, plumbers, machinists, etc. Farmer's sons and daughters are third with an enrollment of 1,237.

Professional men are listed fourth with 1,217 of their offspring enrolled. Other occupations are represented in the following order: Scientific professions, 409; Railroadings, 392; Governmental service, 324; unskilled laborers, 206; retired, 110; artistic professions, 63; and occupations not given, 889.

Breads For Frosty Days

YOU need good filling breads for breakfast these brisk mornings, and also fruit in several forms. Fortunately there are delicious ways to combine them. Here are some recipes which will prove it:

Wheat Fruit Bread: Sift together two and a half cups whole wheat flour, four teaspoons baking powder, one teaspoon salt and four tablespoons sugar, and add one well-beaten egg. Add one tablespoon butter, one cup milk and one cup well drained crushed Hawaiian pineapple. Bake in a loaf pan in a slow oven, 350 degrees, for from forty-five to fifty minutes.

Pineapple Half Moons: Cook together until thick the contents of an 8-ounce can of crushed Hawaiian pineapple, one-third cup sugar and a few grains of salt, then cool slightly. Sift together two cups flour, four teaspoons baking powder, one teaspoon salt and one tablespoon sugar, and cut in one-third cup shortening. Add three-fourths cup milk, roll out quite thin and cut in rounds. Put a teaspoonful of the pineapple on each round, fold over and pinch the edges together. Bake in a hot oven, 425 degrees, for twelve minutes. This makes sixteen.

This is a Honey

Pineapple and Honey Bran Muffins: Sift together one cup flour, four teaspoons baking powder and three-fourths teaspoon salt, and add one and one-quarter cups of bran. Add two well-beaten eggs, one-fourth cup honey, three-fourths cup milk and one tablespoon melted butter. Add one-half cup crushed Hawaiian pineapple after draining the syrup off thoroughly. Bake in muffin tins, 375 degrees, for twenty minutes. This makes twelve muffins.*

Executor's Notice

Those having Executor's Notices for publication can have them published in the local paper for about one-half the amount that daily papers charge.

The value of the dollar is important only to the fellow who has one.

Another paradox is that some sparsely settled sections have a dense population.

Allerton High School News

JESSIE R. WITT, REPORTER.

The clothing class is ready to start on another project. They are to make a cotton dress.

A Mother and Dad's meeting was held in the high school assembly on Monday night. Mr. Guinn was the speaker of the evening, and there were a few numbers of special music.

The Allerton Freshmen went into action last Friday evening and in a close tilt defeated the Hume Freshmen 16-15. The grade netters defeated Homer 18-15 in a well played game.

A volley ball tournament was held between the classes of high school in which the Seniors were undefeated. The Sophomores came second; Juniors, third; and Freshmen, fourth.

The Allerton varsity basketballers rested over a period of a week with no game. They meet Hume on their own court, Friday, February 16. A good game is expected with both teams equally matched.

The Juniors gave their play, "Oh Susan" in the Broadlands Opera House on Saturday night. It was very well attended. The boys quartet composed of Thomas Hendrix, Dayle Potter, Emery Seeds and Harry Archer sang two selections, "Honey Town" and "Startin' Bread." They were accompanied on the piano by Helen Goodall.

CHEVROLET FOR 1934

It's here now, for the first time: the car that all America has been standing by to see and drive—Chevrolet for 1934! And if you aren't among the first to attend the gala introductory showing, you're going to miss one of the biggest, most exciting events of the whole motor car year. There never has been a new Chevrolet model with so many basic and sweeping advances as this one. Its different—totally unlike anything you've seen or anything you will see in motor cars for 1934!
