#### **Biblical Dates**

Although students of biblical chronology have gone far toward determining the actual date of Good Friday, it is unlikely that the real date of the original Christmas day will ever be determined. We may be reasonably certain, however, says Tit-Bits Magazine, that it was not December 25, since that date occurs at the height of the rainy Judean season, when shepherds would certainly not be watching their flocks by night. In the early days of Christianity the feast was kept up at various dates in January, April and May, and it was not until the Fifth century that December 25 was agreed upon, probably from a desire to supplant the Saturnalia, from which pagan festival, however, several of our Christmas customs originated.
