Sidelights

Dr. Henry Norris Russell of Princeton claims credit for the startling discovery that the earth's oxygen, so necessary to sustain life, will be exhausted in one billion years. Better fill up your oxygen tank.

Senator Carter Glass of Virginia was 77 years old a few days ago. He went to work in his office ahead of time, had his lunch at his desk, and threatened to "murder" the first individual who offered congratulations.

One day recently a traffic cop near Salinas, Calif., overtook a speeder and bawled him out with: "Do you think you are Barney Oldfield?" The speeder quietly said: "Yes." And so he was.

Life insurance statistics show that fat people are more likely to be killed in accidents than skinny ones. But, come to think of it, this is no great mystery in view of their handicap when forced to move rapidly to avoid being run down by automobiles.

During a storm off the New England coast a huge wave washed Jim Costa, a sailor, overboard, and shortly another washed him on deck again. Aside from fright and the loss of his false teeth he was none the worse for his experience.

After escaping from a Peru, Ind., jail recently, Ralph Cummings kept officers of the law at a distance by displaying a bottle which he said contained nitroglycerine. When he was finally surprised and nabbed, the bottle was found to contain hair oil.

As a comedian in the play "Laburnum Grove," Melville Cooper figures that he had eaten 1,944 bananas before coming to America from London, and is getting fed up. He now insists that the property man obtain for him the smallest bananas to be found.

Filmdom and his many admirers might have lost Warner Baxter, handsome and able actor, recently when he was bitten by a sometimes deadly black widow spider. But, due to what his physician described as "remarkable recuperative powers," he recovered in a few days.

What's New

A system for flashing photographs long distances by radio has been invented by Charles J. Young of R. C. A.

Resembling a large metal fish, a ten-foot submarine has been undergoing tests in the vicinity of Chicago.

Scientists gathered at Venice recently learned that the common onion radiates ultra-violet rays and cures many human ills.

Sweet corn can be preserved for months by freezing, the change of the sugar into starch being arrested by the process and the quality preserved.

Radio waves of very short lengths, four to fifteen meters, are being used in a new device for treating lung abscesses, carbuncles, infectious arthritis and other diseases.

German scientists have perfected a method of extracting the cellulose fibers from wood in such a condition that they form a satisfactory substitute for cotton, wool and silk.

Eyeglasses containing shatter-proof lenses have been successfully demonstrated in London for the use of athletes, particularly those who play football and baseball.

Nerves Do they torture you by day? Keep you awake at night?

What is it that keeps hospitals open and doctors busy? NERVES.
 What is it that makes your face wrinkled and makes you feel old? NERVES.
 Nine times out of ten it's NERVES that make you restless, worried, haggard.

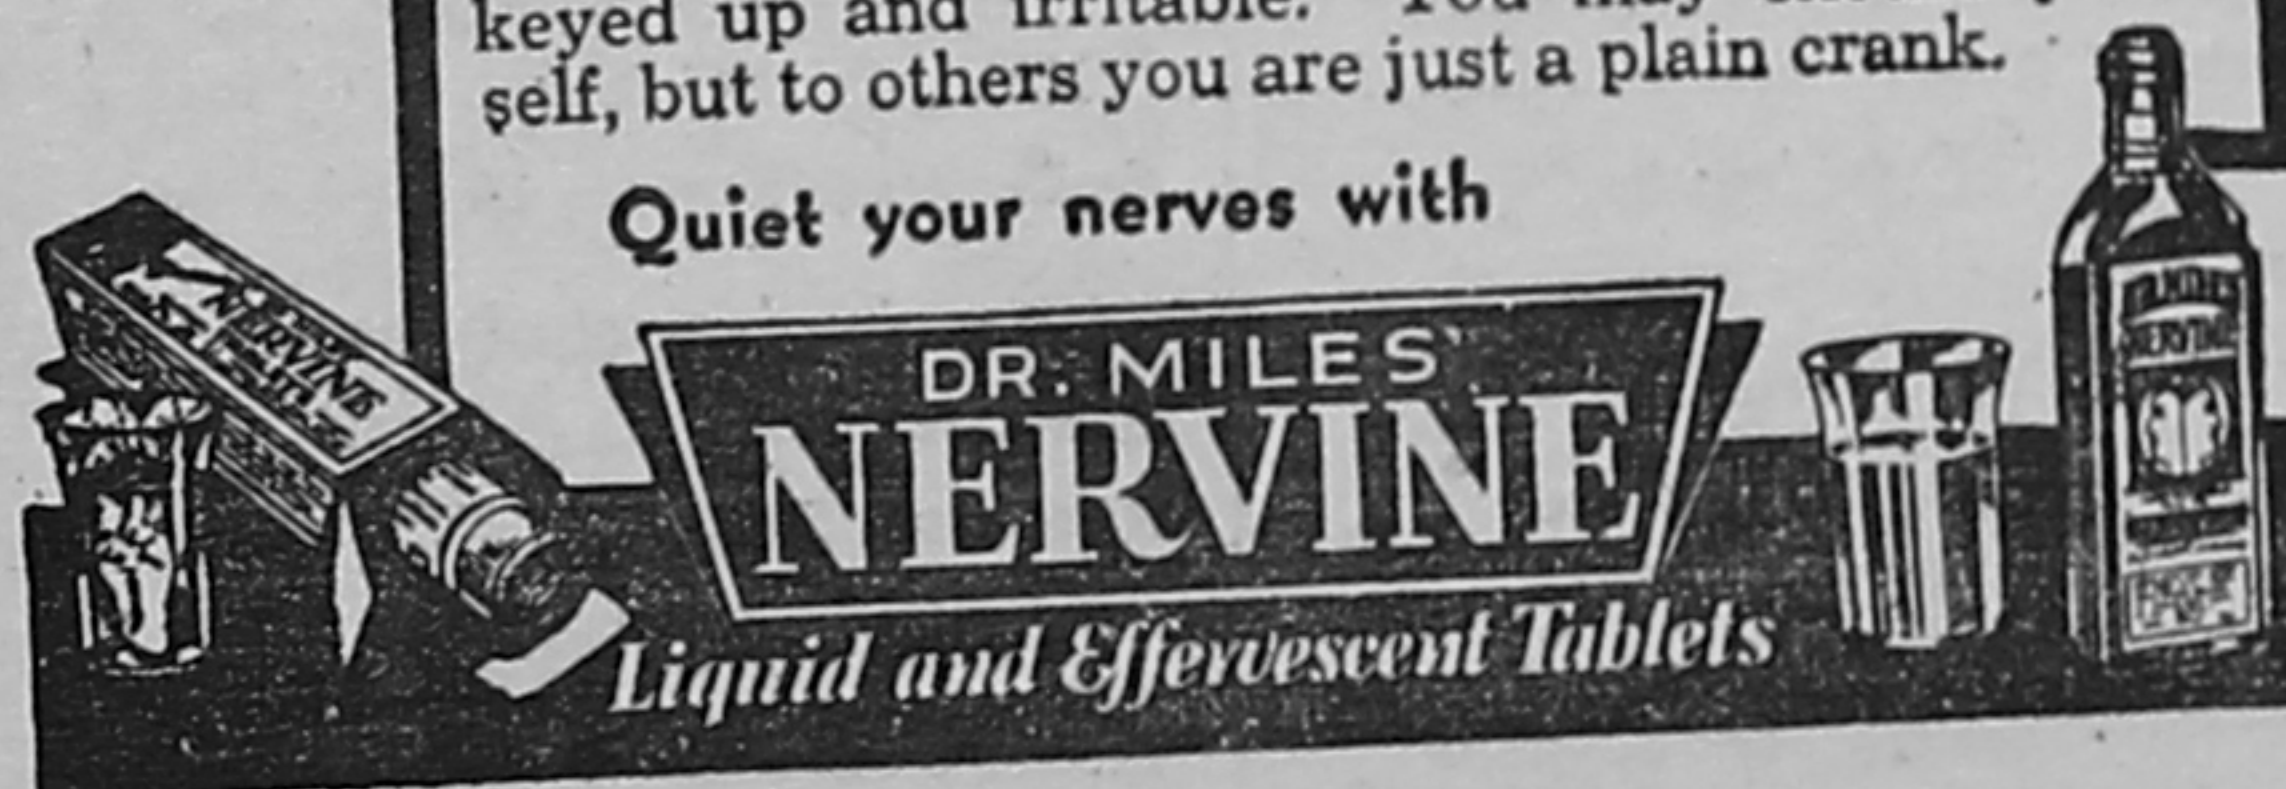

Nerves Do they make you Cranky, Blue--give you Nervous Indigestion, Nervous Headache?

When nerves are over-taxed, you worry over trifles, find it hard to concentrate, can't sit still. Nerve Strain brings on Headache.
 Nervous people often suffer from Indigestion. There may be absolutely nothing wrong with the organs of digestion, but the Nerves are not on the job to make the organs do their work properly.

Nerves Do they interfere with your work; ruin your pleasure; drive away your friends?

You're cheating yourself and the man who pays you if you work when your NERVES are not normal.
 You can't have a good time when you are nervous. You can't make or keep friends when you are keyed up and irritable. You may excuse yourself, but to others you are just a plain crank.

Quiet your nerves with

DR. MILES' NERVINE
 Liquid and Effervescent Tablets

A new world language is called Ro. If all the words are of one syllable like that the headline writers will welcome it.

Teacher—Can you tell the difference between foot and feet?
 June May—One foot is a foot and a whole lot of foots is a feet.

Teacher—Johnnie, what can you tell us about the intelligence of ants?

Johnnie—Well, they can always find the place where you go, for a picnic, no matter where it is.

Henry—Say, Pop, the early birds don't get all the worms do they?

Pop—I understood they did.

Henry—Well, the early apples get some of them too.

Shirley Temple
 in
NOW AND FOREVER

with

GARY COOPER - CAROLE LOMBARD

"HONOR BRIGHT," two words that have meant honesty and integrity to children for generations, will sweep the nation again with the release of Shirley Temple's "Now and Forever." For, in the picture, these words are a pact between Shirley Temple and her dad, played by Gary Cooper. Though one may tell a little white fib at times, when "honor bright" is spoken, the truth must be told.

COMEDY: CIRCUS HOO-DOO.
