Very few loans on the land are made and with a lack of money plantations and owners are at a standstill.

Several pounds of fresh rice grown on the Sickie plantation were left with The Enterprise. It was given a test Wednesday evening and so good was it, that a demand for more will be made in due time.

"HIS MAJESTY, YOUR DOG"

A DOG-OWNER in one of our large cities recently received an elaborately engraved document the front page of which read:

The CANINE CATERING COMPANY request the pleasure of serving HIS MAJESTY, YOUR DOG and invite you to investigate their unique service R.S.V.P.

Above this formal invitation appeared a doggy crest, and on the inside pages the science, economy and convenience of this service were extolled. One page was devoted to "table d'hote" menus. The first, entitled "Veterinary Meal," was called "a ration scientifically balanced" and included

- Fresh Lean Beef, U. S. Inspected Raw or Cooked—Cubed or Ground
- Vegetable Vitamine Juices in Beef Broth
- Shredded Cabbage, Lettuce or Beet Tops—Optional
- Special Zwiebach or Shredded Wheat
- In Separate Cup—Optional

The second, entitled a "Kennel Meal (Raw)," was heralded as "a ration successfully used in many famous kennels," and included

- Fresh Lean Beef, U. S. Inspected Cabbage or Beet Tops
- Shredded Wheat in separate container

This page concluded with the assurance that "a special diet for invalid or growing dogs will be prepared according to the advice of your veterinarian."

No Surprise

The dog owner was not surprised at this elaborate document because he had seen a recent survey of sales in 102 principal cities which showed an approximate annual sales volume of \$48,000,000, and he knew that the total annual retail sales of prepared dog foods are approximately \$60,000,000! Moreover, it has been estimated that there are now about twelve million dogs in this country. So, what could be more logical than for someone to start this "canine catering company" to furnish food to "His Majesty, Your Dog"? One canning firm alone processes enough prepared dog food to feed half a million dogs a day.

Doggone Good Dinners

Prize dogs nowadays are not only fed whole wheat bread, pink salmon, spinach and evaporated milk from cans in order to nourish them properly and insure glossy coats by means of the vitamin contents of these foods, but a whole line of distinctive dog foods is especially canned for them.

There are more than two hundred brands of these. The best of dog foods are now scientifically blended, cooked and canned so that they will keep in perfect condition and be ready for your dog at a moment's notice. And

you can be sure that he won't growl about them, even if he's an epicure—we mean, of course, epicure.

There are canned foods for big dogs like Newfoundlands, St. Bernards and Great Danes, and lesser quantities of these are recommended for medium sized dogs such as English setters, Police dogs, Collies and Shepherd dogs; for little chaps such as Chows, Airedales, Spaniels and Terriers, and even for the smallest herds such as Chihuahuas and Pekingese.

Now a National Association

The result of all this is that a National Dog Food Manufacturers' Association has been formed, including leading manufacturers in its membership, and maintains offices at 608 Fifth Avenue, New York. The officers of this Association are H. C. Clayburg, California Animal Products Co., president; Carl J. Rich, Rich Products Corporation, first vice president; Stewart Rose, Simpson Products Company, second vice president; and Sidney Davidson, Foster Canning Company, secretary and treasurer. Its Board of Directors, in addition to the officers, includes Lawrence I. Becker of the Atlas Canning Co., F. J. McDermott, Frank O'Connell, E. E. Schlessler of Schlessler Brothers, Inc., and Walter Mowll of the Old Trusty Dog Food Company.

Lawrence I. Becker is trade secretary of the Association and states as its objects the promotion and betterment of the industry.*

HOMER PEOPLE ENJOY ORCHESTRA HALL SERVICE

Machinery may be ever so good and called standard but it will become vexing at times when breakdowns occur. Saturday afternoon when a 52 page telephone directory for the Champaign County Telephone Company was just half in number stitched, the stitcher broke. To late for telephones to be of service for Saturday afternoon is a holiday in cities, it was decided to go immediately to the factory Sunday afternoon for the repairs first thing Monday. The job must be delivered Tuesday.

The trip was made even tho the highway was clear of ice and traffic moved only 20 miles an hour. Being in the...

ening many places of amusement are open but Orchestra Hall for services of the Sunday Evening Club was more enticing than any amusement to the writer and Mrs. Morgan. It was a privilege to occupy the reserved section due to newspaper courtesy and a greater privilege to hear the noted speaker—Dr. Henry Coty, president of the Toronto University at Toronto, Canada, who on Tuesday was also a speaker at Lincoln Day exercises in Springfield, having been invited to the honor by Gov. Homer.

But that broken part was on the publisher's mind and as soon

as obtained it was hurry home. At 9 o'clock Monday night the new part was adjusted and after seven books were stitched it broke too. Sunday evening services were forgotten then as attested by Howard Lacey. But thanks to Roscoe Matthews, we heard he was a welder and Tuesday morning he did the job well. The first break was impossible to weld. But Roscoe's welding job was attached to the stitcher and the same shaft broke again in another place. Roscoe was on the job again and happy to conclude the job was delivered on time.
