

# THE BROADLANDS NEWS

VOLUME 17

BROADLANDS, ILLINOIS, THURSDAY, JULY 2, 1936

NUMBER 11

## Miss Adeline Hardy Marries T. Colteaux

Hume—Miss Adeline Hardy, daughter of Rev. and Mrs. Edward Hardy of Hume, was married Saturday noon, June 20, in the Methodist church parsonage at Hume to Theodore Colteaux, son of Mr. and Mrs. Frank Colteaux of Bloomington.

The bride was attended by Miss Theresa Colteaux, sister of the groom, and Edward Hardy, brother of the bride, served as best man.

Rev. Hardy, father of the bride, performed the ceremony. A wedding breakfast was served following the ceremony at the Hardy home.

Mr. and Mrs. Colteaux left for a wedding trip in Wisconsin and Michigan. They will make their home in Bloomington.

Mrs. Colteaux is a graduate of Colchester high school and attended Illinois Wesleyan university at Bloomington. For the past year she has been teaching at Dolton.

Mr. Colteaux is a graduate of the Bloomington high school and is employed by the Beich Candy Co.

## Miss Lois Wilson and Robert Walburn Wed

The marriage of Miss Lois Wilson, younger daughter of William Wilson, of the Pleasant Hill community, and Robert Walburn of Louisville, took place Saturday evening at 7:30 at Pleasant Hill Church. Rev. Neumeier, pastor of the church officiated.

The bride attended Longview High School, and has since been employed at Champaign. The groom is a farmer.

## John Rayl Given Dinner on His 83rd Birthday

A dinner was given Sunday at the home of P. O. Rayl in honor of his father, John L. Rayl, whose 83rd birthday occurred on the following Monday.

Those attending were his sister, Mrs. Sarah Holaday and son Jess Cuppy, of Eugene, Ind.; Harry Rayl of Chicago; John Nohren and family, Mrs. Alice Struck, Mrs. Lillie Bowman, P. O. Rayl and family. Mrs. John Rayl was unable to be present on account of illness.

## "Don'ts" For a Happy Fourth of July

Fourth of July is a safer holiday nowadays than it used to be—but it still results in a great number of deaths and accidents. The tragedy is that all those accidents and deaths are preventable. You can have a "safe and sane" Fourth that is also an enjoyable Fourth—if you'll remember the following:

Don't forget that the proof of Fourth of July patriotism is home protection.

Don't shut your eyes to the great Fourth of July hazards—fireworks, automobiles, drownings, fires, firearms, falls.

If you must have home fireworks, see that they are the safest procurable.

Don't discharge fireworks near buildings. Get out in the open. Don't let children play with matches. Keep matches out of their reach.

Don't let children throw sparklers. They remain hot for some time and are dangerous.

Don't let children discharge fireworks unattended.

Don't let children stand too close to fireworks that are being discharged.

Don't let children pick up undischarged fireworks. They might explode.

Don't forget, above all, that most Fourth of July accidents can be prevented.

## St. John's Evangelical Church

ROBERT J. BALDAUF, PASTOR.

Sunday, July 5—

9:30 a. m.—Sunday school.

10:30 a. m.—Worship service, followed by the quarterly congregational meeting.

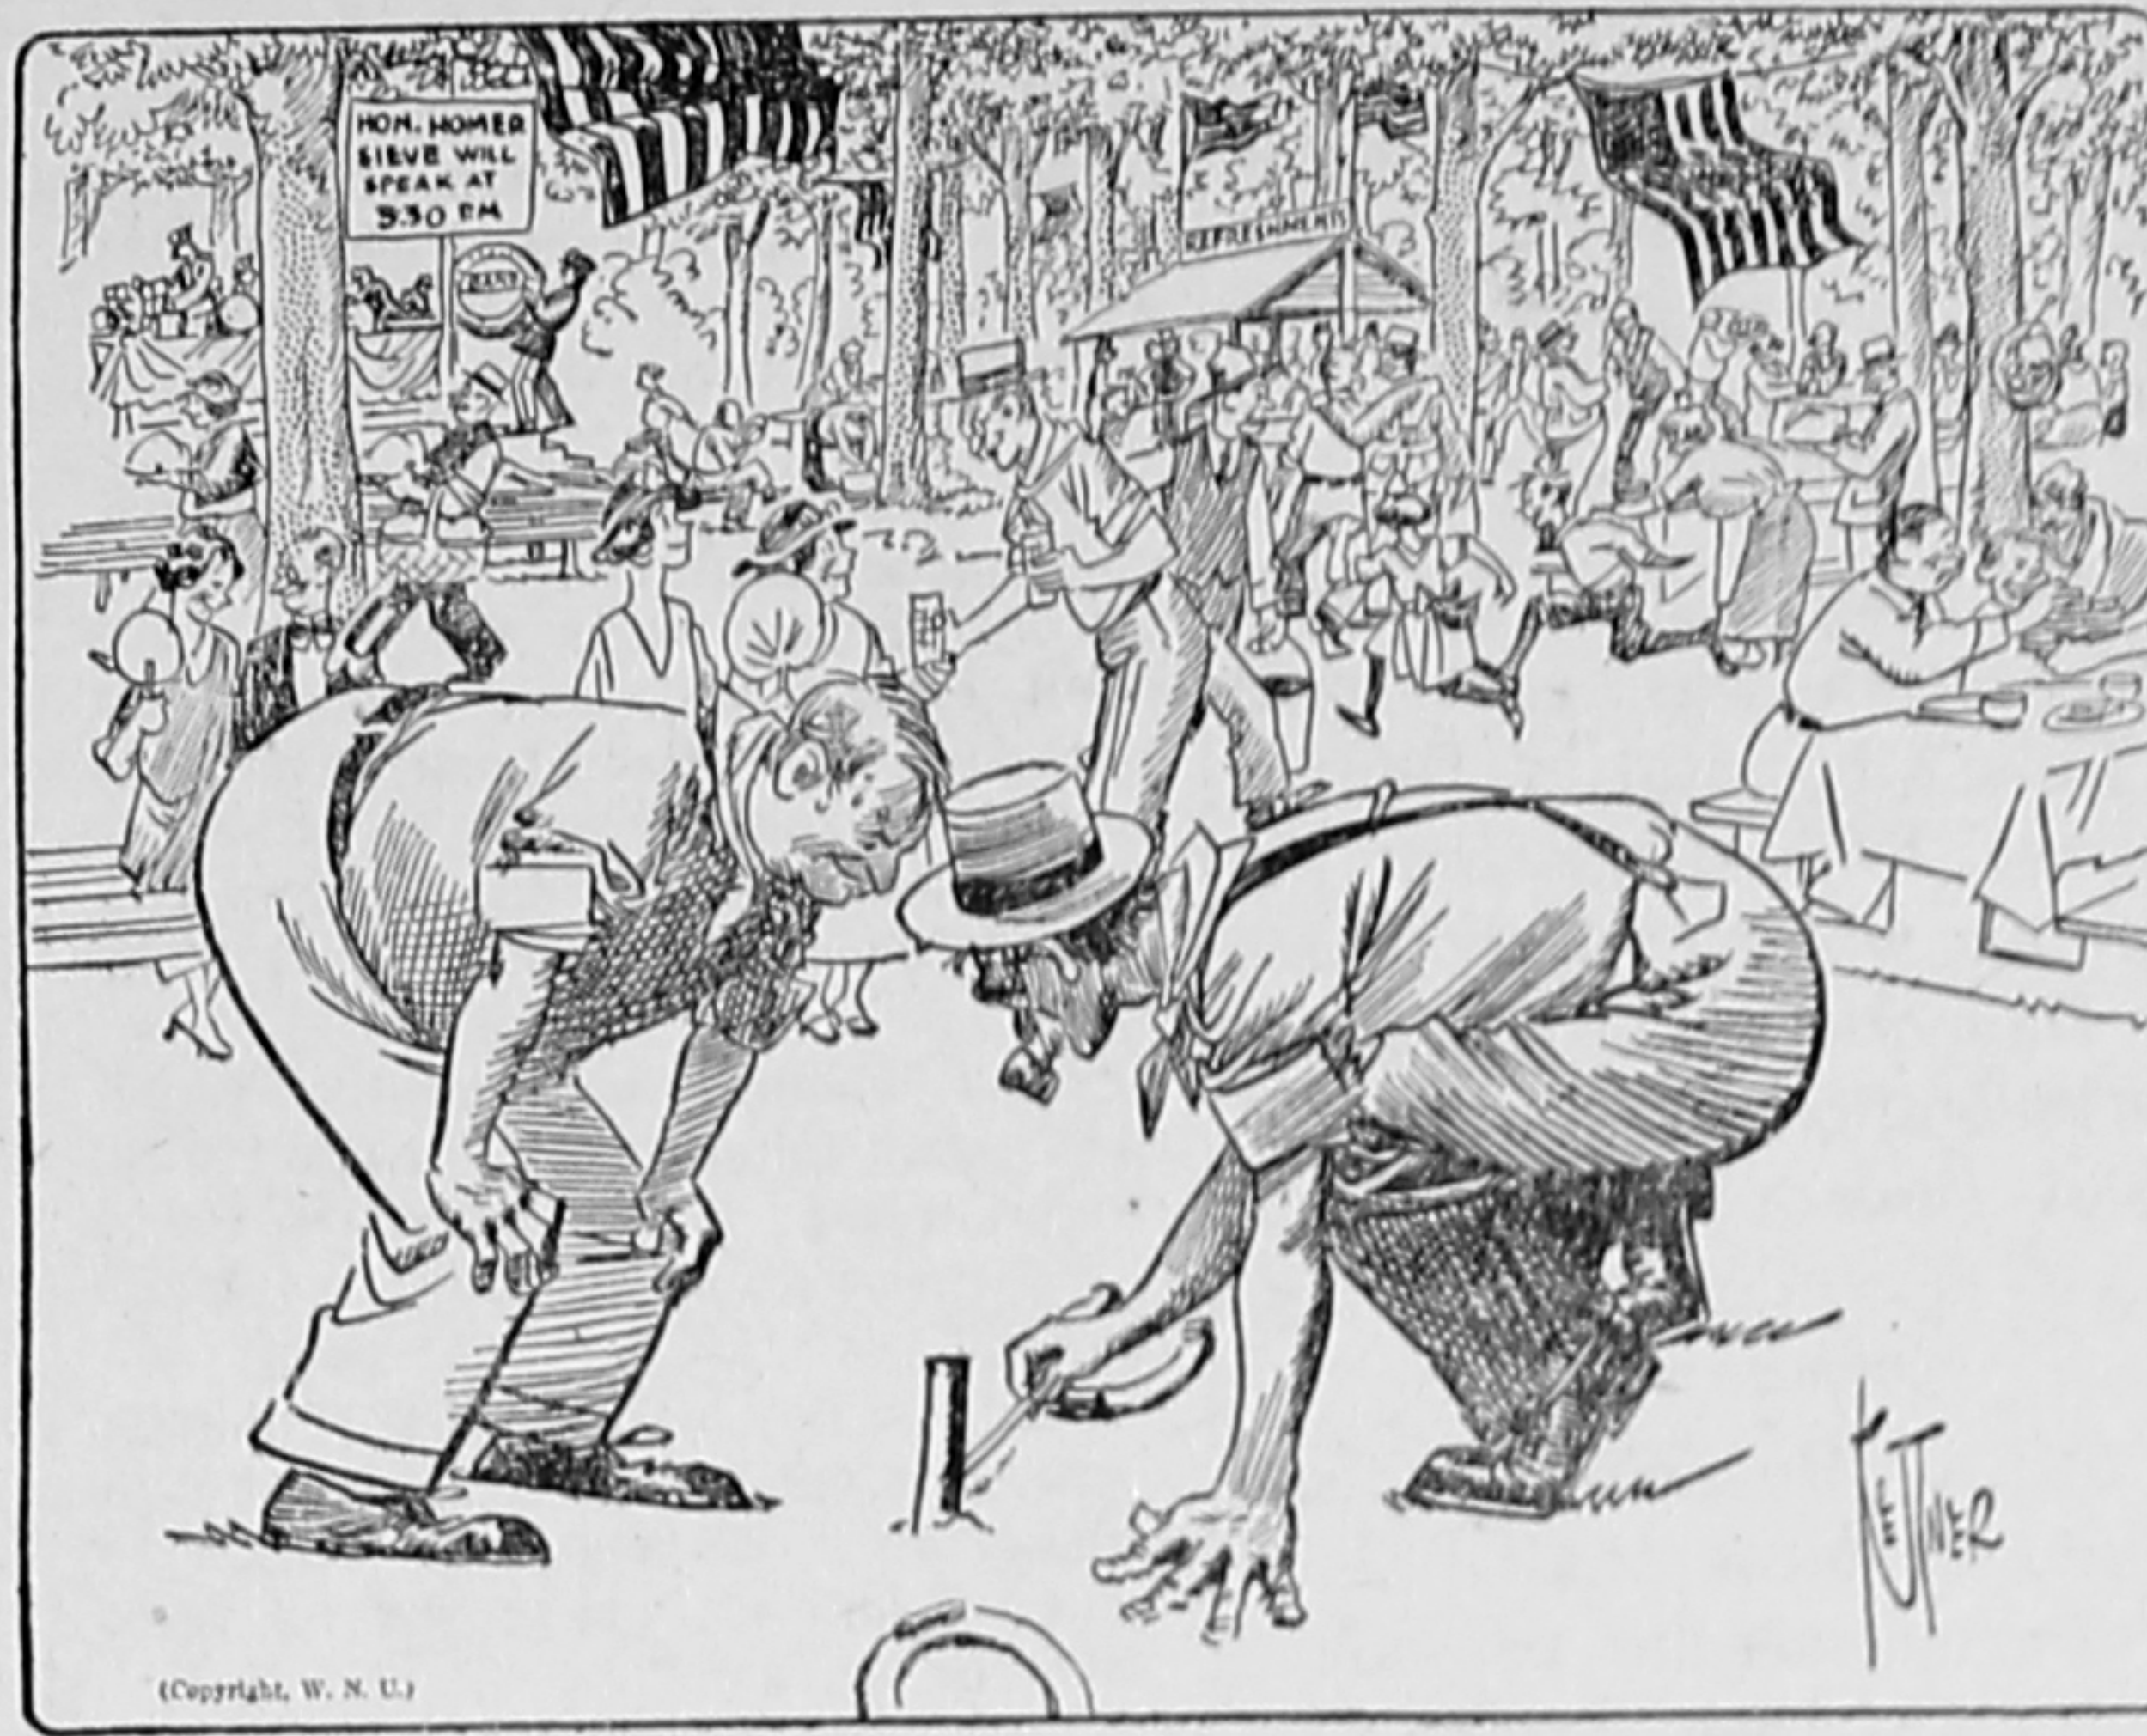

Tuesday, July 7—The Royal Guard Class will meet in the evening at the Karl Partenheimer residence.

Sundays July 12 and 19—There will be no worship services in this church as the pastor will be on his vacation.

Beginning Sunday, July 26, services will be held as usual again with the worship service at 10:30 a. m.

Lawn Mowers sharpened for 50c. August Zantow.

## The Fourth of July

## Local and Personal Local and Personal

Miss Marjorie Johnson of Danville is the guest of Mr. and Mrs. Ira Laverick.

Mr. and Mrs. Clark Henson, Mr. and Mrs. Harry Amos were Champaign visitors Tuesday.

Mrs. Nellie Astell and Mrs. Fred Messman were Champaign visitors on Tuesday.

Mr. and Mrs. Charles Smith spent Sunday with Earl Greenwood and family at West Lebanon, Ind.

Mr. and Mrs. August Wiese, Mr. and Mrs. Ernest Wiese, Mr. and Mrs. Clarence Killian spent Sunday at Odon, Ind.

Henry Killian, sr., Mrs. Walter Witt and Miss Florence Schumacher were Champaign visitors Monday.

Mr. and Mrs. Harry Amos of Sanora, Ky., arrived Monday for a visit with C. T. Henson and family.

Wayne and Jerry Combs of Springfield are spending this week with their aunt, Mrs. P. O. Rayl, and grandmother, Mrs. Bessie Loomis.

Frank Craig and family of Newman, Mr. and Mrs. Harold Williams of Charleston spent Sunday with Mr. and Mrs. Harlan Craig and Mrs. Mabel Haines.

The Broadlands Post Office will close on Saturday, July 4, at 9:00 a. m. The front door will be left open until 5:00 p. m. There will be no rural delivery.

Miss Katherine Milles returned to her home at Elmhurst, Monday, after spending the past week in the home of Mrs. Anna Poggendorf.

Mr. and Mrs. Ed Maxwell, children Montelle and Myrtle Mae, spent the past two weeks with relatives at Dodge City and Coffeyville, Kan.

Misses Marjorie Messman and Grace Lewis left Monday for several weeks outing at Camp Ontonogon at Alder Lake, Manitowish, Wis.

Mr. and Mrs. Norman Seider entertained at dinner, Sunday, Mr. and Mrs. Alvin Zenke, Alfred Zenke and family, Frank Frick and family.

Mr. and Mrs. Walter Poggendorf, Mrs. Wm. Wienke, Miss Katherine Milles, Mr. and Mrs. Bus Baldwin and son, and Mrs. Anna Poggendorf and family spent Sunday at Turkey Run and the Shades.

Mrs. A. A. Gaines of Chicago is here visiting relatives.

Chas. Swick arrived from St. Paul, Minn., Saturday.

A son, Robert Byron, was born to Mr. and Mrs. Oscar Smith, Tuscola, Friday of last week.

A light shower of rain fell here Thursday afternoon. Much more rain is needed.

Sterling Maxfield of Villa Grove spent Tuesday night with Andrew Henson.

Ilo Barnes and family of Indianapolis have arrived here to spend the Fourth.

Fred Eckerty and the Misses Juanita Bergfield and Anna Clem attended the Cole Bros. circus at Danville, Wednesday.

Mr. and Mrs. Sam Brown entertained over the week end: Mrs. M. S. Tuttle, Mrs. Thelma Tuttle, of Muncie, Ind.; Mrs. Ina Edwards, of Watseka; Nye Pruitt and daughter, Nyla, of Chebanse.

The rocking of some of the village streets was begun the latter part of last week. This will give most of our citizens a good rocked street, only three or four blocks remaining to be rocked.

After the regular meeting of Broadlands Chapter, O. E. S., on last Saturday night, Past Officers Night was observed. Guests were present from Newman, Hume and Homer Chapters.

After a short program refreshments of brick ice cream and cake were served.

R. M. Hood was given a pleasant surprise on Thursday afternoon of last week, when Mrs. G. L. Knapp, of Clinton, Ia., who had been visiting her sister at Ogden, Ill., paid him a visit. This was their first visit together in 45 years. Mrs. Knapp was a lifelong friend of the late Mrs. Hood, having baked Mr. and Mrs. Hood's wedding cake.

## Time Tables

## Miss Marie Struck is Bride of Paul Madigan

The marriage of Marie L. Struck, daughter of Mr. and Mrs. O. D. Struck of Longview, and Paul J. Madigan, son of Mrs. Helene E. Madigan, 905 South Locust street, on June 23, was announced Saturday.

The bride has been employed the past year as a teacher in the Pesotum Community high school. Mr. Madigan is employed in the office of the county clerk in Urbana.

The young couple will be at home to their friends after June 30, at 209 West Washington street, Urbana.—Champaign News Gazette.

## Haverstock Tent Show Is Here This Week

The Haverstock Tent Show, comedians, who are playing here this week are having good attendance nightly. Their shows are clean and everybody seems to be enjoying them.

"Oh! Doctor" is the title of the play for tonight, (Friday). This will also be Amateur Contest Night and cash prizes will be awarded.

On Saturday, the closing night "Sweet Papa Toby" will be presented. The show will not start until the free picture show is over.

## Mrs. Ruth Henson is Hostess to G. T. Club

The G. T. Club met with Mrs. Ruth Henson, Thursday of last week.

The business meeting was conducted by the President, Mrs. Leona Bergfield, after which "500" was played, Mrs. Jessie Bergfield holding high score. A new member's name was added, that of Mrs. Neva Frick. The initiation will be at the next meeting.

Refreshments consisted of individual cakes, fancy brick ice cream, and coffee.

Members present: Mesdames Edna Dicks, Bertha Cook, Mary Dicks, Leona Bergfield, Jessie Bergfield, Anna Struck, Neva Frick, Sue Harden, Ida Messman, Gladys McClelland, Della Nohren, Olive Rayl, Rosa Smith, Edna Struck, Edna Telling, Zermah Witt, Irene Witt, Irene Wiese, Elsa Walker, Ruth Henson.

The next meeting will be held with Mrs. Elsa Walker.

## Paul Johnson to Join Professional Ball Club

The following article which we copy from the Ypsilanti (Mich.) Post, issue of April 2, last, concerning Paul and Johnny Johnson, sons of Mr. and Mrs. Walter (Tobe) Johnson, former residents of Broadlands, will no doubt be of interest to some of our readers:

Paul Johnson, Roosevelt senior, will leave the latter part of this month for Charleroi, Pennsylvania, to become a member of that city's baseball club, an entry in the Penn State League and the property of the Detroit Tigers, to whom Paul is under contract.

Paul is following in the footsteps of his older brother, Johnny, who also belongs to the Detroit club and is now pitching for the Beaumont, Texas, club.

Aside from athletics, Paul has continually been a credit to his school, a diligent student, always conducting himself with becoming modesty and assuming a cheerful, friendly attitude in his relations with all whom he comes in contact. An example of the regard fellow students have for him is the fact that he was chosen class president for five consecutive years.

It is with genuine regret that Roosevelt High School bids farewell to Paul Johnson. The Rough Rider joins with the rest of the student body in extending to him sincere wishes for the best of luck.—Ypsilanti Post.

The News is \$1.50 a year.

## U. B. Aid Entertained Home Mrs. Olive Rayl

Mrs. Olive Rayl and Mrs. Alie Struck were hostesses to the U. B. Ladies' Aid, Wednesday afternoon, at the home of the former. Mrs. Agnes Turner had charge of the devotionals and Vice President Mrs. Jennie Nohren conducted the business meeting.

Refreshments consisted of pork sandwiches, perfection salad and ice tea, with fortune firecrackers as favors.

Visitors were Rev. J. F. Turner and Miss Marcelle Nohren.

Members present were Mesdames Lillie Bowman, Nola Donley, Dorris Campbell, Ella Maxwell, Leona Bergfield, Jennie Nohren, Jessie Bergfield, Betty McCormick, Della Reed, Belle Smith, Opal Thode, Zermah Witt Dophia Warner, Agnes Turner, Bessie Loomis, Lydia Brown, Alice Struck, Olive Rayl and Mrs. Reasor.

The next meeting place will be decided later.

## Officers Elected For Vacation Bible School

The Vacation Bible School closed last Friday with open house and a short program at the school.

A business meeting was held and the following officers were elected for next year's school: Dean, Margaret Gore; Secretary and Treasurer, Juanita Bergfield; Pianist, Anna Clem. The other officers are to be chosen later.

## Lodge Meets Next Monday

Broadlands Lodge, No. 791, A. F. & A. M. will meet next Monday night at 7:30.

Kenneth T. Dicks, W. M. Carl B. Dicks, Sec.

## Market Report

Following are the prices offered for grain on Thursday in the local market:

|                                |     |
|--------------------------------|-----|
| No. 2 new hard wheat.....      | 85c |
| No. 2 white shelled corn.....  | 72c |
| No. 2 yellow shelled corn..... | 63c |
| White ear corn.....            | 70c |
| Yellow ear corn.....           | 61c |
| No. 3 white oats.....          | 25c |
| No. 2 yellow beans.....        | 90c |

Is your subscription paid?

Read the ad of the Star Theater, Villa Grove, for the latest smash hits.

Lost—Black and white pig; weight around 40 lbs. If found notify Clark Henson and receive reward.

## News Items of 12 Years Ago

July 4, 1924

Mrs. Pearl Edens entertained the Home Bureau unit.

Miss Florence Kesterson was clerking in Bergfield Bros. store.

Arthur Busick arrived from Detroit, Mich., for a visit with relatives.

Vohn Snow arrived from Detroit, Mich., for a visit with his family.

Rose Ruth Hyatt drew the luncheon set given away by Bergfield Bros.

Mrs. Elva Harvey entertained at a dinner in honor of her husband on the occasion of his 48th birthday.

Mrs. Florence Johnson and Mrs. Rose Smith entertained the G. T. Club at the home of the former in Newman.

## Roll of Honor

The following is a list of those who have renewed their subscription and new subscribers for this paper for May and June: Adolph Bretz, Frank Mohr, Martin Sy, Mrs. Will Wienke, Mrs. George Kracht, Mark Moore, Roy Block, Glencoe, Mrs. A. A. Gaines, Chicago.

## M. E. CHURCH NOTES

W. Earl Ballew, Pastor

Beginning with next Sunday the church services go on "summer schedule." The Sunday School will continue to meet at 10:00 o'clock. The Preaching Service will be every Sunday morning at 11:00. The night services will be discontinued through July and August. Sermon subject: "Are Christians Expected To Be Saints?" Solo: "Sweet Will of God," sung by Jesse Ward.

**A Deserved Honor**

Few Americans ever heard of Dr. Charles Guillaume, a French scientist, recently awarded a special medal by the British Physical Society for the discovery of three important metal alloys. Yet one of these, called platenite, is said to save nearly \$5,000,000 annually in the manufacture of electric light bulbs.

Another is elinvar, an improved alloy used in the manufacture of watch springs, while the third is invar, a nickel-steel product which is practically free from expansion or contraction by change in temperature, therefore of great value in the manufacture of metal surveyor's tapes, clock pendulums and other articles.

Scientists like Dr. Guillaume are laboring constantly to adapt new forces and new materials to the service of mankind, and the advance of civilization is due largely to their skill and patience. They are entitled to all the rewards and honors which may be bestowed upon them.

**Our Changing World**

Selecting a trade or occupation today is a rather more serious matter than in years gone by, owing to the rapid changes in methods of manufacture and in the products demanded by the public.

In hardly any line of manufacture does one know how soon some new method or process may render all his present skill useless as a means of gaining a livelihood. Highly skilled hand craftsmen in many lines are continually being replaced by machinery, while products which were formerly in great demand are rapidly becoming obsolete; such as the buggy and other horse-drawn vehicles.

Speaking from the manufacturer's standpoint, E. W. McCullough of the United States Chamber of Commerce said: "I could enumerate a hundred lines of business this evolution has wiped out, and lines without number have changed in materials, construction and form."

These changes have affected the individual workmen, as well as their employers, and never were changes made so rapidly as at present. Those who enter the mechanical trades must be prepared to adapt themselves to new conditions as they arise.

**Auto Power By Radio**

Another prediction which may sound fantastic was made some time ago, to the effect that we shall in a few years have automobiles that will run without fuel, the motive power being supplied from a central station by radio.

The idea is advanced, not by a crank or visionary, but by a no less authority than G. M. Williams, president of the Marion company, who declares that such a plan is receiving serious consideration by leading automotive engineers.

According to this plan, each car would have a certain receiving wave-length, and by throwing the switch a generator of corresponding wave-length in the central station would supply the power. Many cars might have the same wave-length, so long as the total load could be carried by the corresponding

generator. We do not vouch for the practicability of this suggestion, but only pass it on as an indication of what may happen. In any event it illustrates the daring conceptions of the modern engineer. And who can say that the idea may not some day be made to work?

**American Railroads**

The year of 1930 marked the 100th anniversary of the first regularly operated steam railroad in the United States, the Baltimore and Ohio, which in 1830 was only 13 miles long. Other construction under way brought the total for the country to 23 miles in that year.

By 1840 the mileage had increased to 2,818 and extensions were made with increasing rapidity during the succeeding five years. When the railroad was 50 years old, in 1880, the United States had 93,671 miles.

The ten years between 1880 and 1890 was the greatest period of railroad building. American roads built during that decade totalled 71,983 miles. The greatest railroad mileage was reached in 1916, when 254,251 miles were in operation.

Since 1916, owing to the abandonment of a number of unprofitable short lines, the mileage has been actually reduced, being now about 249,300 miles.

One of the most striking developments in railroads has been the increase in the size of locomotives. From a weight of less than five tons 100 years ago, they have been built larger and larger until today many passenger locomotives weigh 150 tons or more while those used in freight transportation range as high as 220 tons or more. A few special types exceed 400 tons.

With the growing competition of the automobile, truck and airplane, it is impossible to predict what the next century of railroading may bring forth. It is safe to say, however, that for heavy freight transportation the railroad will hold first place for many years to come.

**Raising a New Crop**

Owing to the widespread interest in a new and most promising "money crop" for farmers seen in the development of soybeans, some suggestions for beginners in that field recently set forth by the Iowa State College may be of interest.

In the raising of soybeans the following advice is offered:

1. Do not fail to inoculate the seed.
2. Disc or harrow repeatedly before planting, in order to free the surface of germinable weed seed.
3. Delay planting until late May or early June.
4. Use either Manchu, Illini, Dunfield or Mukden variety of seed, regardless of whether the crop is to be used for seed or hay.
5. Plant plenty of seed, not less than two bushels per acre if put in with a grain drill, and at least one bushel per acre if planted in rows.
6. Cultivate the crop with a harrow, weeder or rotary hoe in the early stages of growth to control weeds in the rows.

Because of the versatility of the soybean, it seems destined to become one of the nation's most important farm crops. Soybean oilmeal is already recognized as one of the finest protein feeds for livestock, while the oil is utilized in the manufacture of many commodities of wide-spread use.

Optimism is a fine thing, but we have observed that more optimists than pessimists go broke.

We have the constitutional right to the pursuit of happiness, but no assurance that we will ever catch up with it.

**Sidelights**

The Reverend Phillips Osgood of Boston says that one should laugh to keep from going crazy, and perhaps he is right. The trouble is that many of the things we should laugh about are those that nearly drive us crazy.

Soviet officials are reported to be taking steps to prevent the smuggling of Bibles into Russia, which is said to have been going on for some time on a large scale. Perhaps Americans would read the good book more if there were a law against it.

We read that the first appendicitis operation was performed at St. Luke's hospital in Denver in January, 1885, the patient being a young woman whose home was in Davenport, Ia. Surgeons before 1885 apparently overlooked one of their most promising sources of revenue.

Dr. R. A. Reynolds of San Francisco declares that a long study of criminals has convinced him that all of them are suffering from the improper functioning of one or more of the ductless glands. Possibly that accounts for the fact that nearly everybody seems at times to be a little "off" in some respects.

**Interesting Notes**

A transparent, glass-like form of rubber has been made at the Bureau of Standards.

While Clarence Hargus was digging a grave in a cemetery at Seymour, Mo., lightning struck and killed him.

John Wesley Woolens of English, Ind., when 89 years old and father of 20 children, won first prize in a jig dancing contest.

Tests by the United States Public Health Service prove that rain does not clear the air of impurities. Tests were made at 14 industrial cities.

Dr. Arthur Haas of Vienna University has computed the weight of the universe. In tons it is represented by 25 followed by 48 zeroes.

Known as the woman who ten years ago planned and announced her own funeral arrangements Mrs. Julia Heyer Parker of New Rochelle, N. Y., died recently at the age of 106.

Lucille Hyatt of Chicago at the age of three won a swimming contest open to children under five years of age. She learned to swim when she was 17 months old.

Miss Mary Doyle, 29, of Boston, blind since childhood, is an expert manufacturer of toys. She knits, crochets, and makes dolls and animals which she has never seen.

Mrs. Lydia Ann Graham, 98, carried on federal pension rolls as the last living widow of a veteran of the War of 1812, died recently at her home in Franklin, W. Va.

His car sideswiped by another and forced into a ditch, Leonard Morganson of Indianapolis left the scene of the accident to phone for help. Returning he found the driver and both cars gone.

Mrs. Adeline Slover of Keyport, N. J., a cripple for 15 years as a result of arthritis, was cured recently when a bolt of lightning struck her home and knocked her senseless. On regaining consciousness she was able to walk for the first time since 1921.

**Rabbit's Feet**

By E. P. O'BRYAN  
© McClure Newspaper Syndicate.  
WNU Service.

IT WAS the day of the Handicap and Rabbit Brown, colored stableboy, was on his toes. It was only the day of the Handicap, but it was Rabbit's birthday, and he had fortified himself well for the occasion. He saw Colonel Spottswood, his boss, headed for the stables and he began brushing his coat and making himself more presentable.

"I've brought you a new cap," the colonel said. "Today everybody connected with my stables wears my new colors. It's Mrs. Spottswood's idea. The other was too pale—not enough lavender. There, how do you like that?"

Rabbit breathed a muttered approval and reached eagerly for the new head-gear. "Laudy, suh; you sho' got a swell color. 'At's mo' lak it, boss. Yas, suh! Whoosie! Look at me!" he headed for the mirror in the stable to gaze upon himself under the new cap. "Now ain't 'at somethin'! Boy, is 'at keen!"

"How about your rabbit's foot?" the colonel inquired. "You don't want to forget that charm of yours today. From the way things look, we might need it."

"Oh, yas, suh. Ah got it sho' enough, boss. Got me a whole rabbit frum de butcher man dis mawnin'. Dey's fo' feet. Caint' go wrong wif fo' feet, Colonel. No, suh."

The colonel laughed and passed on. When Rabbit had adjusted the new cap at the proper angle, he laid the old one on top of a bale of hay and started polishing up the freshly amputated foot that was to be the good luck charm. He had selected one at random and tossed the others into his discarded cap.

"We've got to win today," Colonel Spottswood said, when he came for a final inspection of Gray Dawn. "You get that rabbit's foot working." "Yas, suh, Ah sho will. Gray Dawn got to win. Ah got ten dolla's bet, Colonel."

There was so much excitement when Gray Dawn was led out that Rabbit almost forgot his charm. It was not until Jockey Burke was up and ready to leave the paddock that he remembered, and then it was almost too late. Jockey Burke's new cap did not fit him properly, and there was a scurrying around for another. None of the new ones was small enough.

Someone finally brought a cap that fitted and Gray Dawn started for the track. "Hey!" Rabbit shouted. "Ah forgot somethin', Mister Burke. Here's take dis." He ran up and thrust the rabbit's foot into Burke's outstretched hand. "Put it in yo' pocket, an' good luck!"

Burke grinned and accepted the offering. "Thanks, Rabbit. Pray for us, too, will ya?"

Rabbit watched the horses pass in review and head for the barrier, then went out to climb the fence. He had a pair of binoculars in his hand. Suddenly he stopped, frozen in his tracks. What he saw horrified him. There was the rabbit's foot in the path where Burke had carelessly dropped it.

"Lawsy me!" Rabbit moaned. "Dat race done lost right naw."

He snatched up the foot and started running toward the barrier, but he saw it was too late. They would be off before he got there, and, if a boy were to go running toward those horses and scare them, the starter would raise plenty of fuss. He didn't dare take the chance. "Lawsy me!" he groaned helplessly.

Almost before he recovered his breath the horses were off.

At the half mile post Gray Dawn was fifth. Then the horse moved up. At the three-quarters he was third.

Rabbit began waving his arms and yelling at the top of his lungs. Unconsciously he was waving the rabbit's foot, which, by now, he had quite forgotten. He went completely berserk.

It was that last sixteenth that made track history. Gray Dawn slipped into the lead and won by a nose. Rabbit was so excited he fell off the fence. He gathered himself up and started running. He wanted to be in at the kill when Gray Dawn took his bow before the stands.

Colonel Spottswood never became so excited over a victory that he forgot the formality of a pat on the shoulder.

"Good work, Rabbit," he said as the stable boy pushed himself through the crowd. "No, suh, Ah's afraid it wasn't de rabbit's foot."

But just then Jockey Burke took off his cap to wave it at the admiring crowd and Rabbit's eyes grew as round as saucers, for out of the cap tumbled three rabbit's feet. He hadn't noticed until now that the cap they had given the jockey at the last moment was his discarded one—with the three extra rabbit's feet in it.

"It wasn't just a rabbit's foot dat won de race, Colonel," Rabbit amended. "It was rabbit's feet."

**No Force Needed**

No force is necessary to keep up the motion of the planets moving about the earth. A moving body will keep on moving forever unless some opposing force stops it. There is nothing in interplanetary space to stop the planets. The reason they keep their nearly circular paths around the sun is the fact that the sun's gravity, which pulls them inward, and their own centrifugal force, which tends to force them outward, exactly balance each other.

**For a SAFE FOURTH serve plenty of SANE FOOD**

**A**N eminent psychologist tells us that we are going through a time of change, and that people who slump down in their chairs and worry about the future are going to be all worn out before the change is effected. His advice is to do the next thing cheerfully, and let events take their course. One reason why we should celebrate this Fourth of July cheerfully is that the form of our government has not changed. So let's do it right merrily, and hope that it will not change for another hundred and sixty-four years, although history does not record any form of government that has lasted that long. Do you realize that our form of government in these United States has lasted longer than that of any other country without definite change?

**A Sane Celebration**

It is not necessary to burn fingers, blister noses or endanger young eyes in order to show how enthusiastic we are over our own form of government in contrast to the dictatorships and social experiments that are going on beyond the seas. So be sure to have only the safest of fireworks, and grown-ups to supervise the youngsters when they set them off.

One way to keep your celebration safe and sane is to devote as much as possible of it to the eating of safe and sane foods. There are few things that even the most adventuresome youngsters would rather do than eat. In order to help you with this idea, here are suggestions for a menu and recipes that will take a lot of eating and do no one any harm. It is meant, of course, to serve outdoors, but if Nature is unkind and the skies weep, it will taste just as good in the house.

- Chicken and Celery Sandwiches
- Pineapple Wheel Sandwiches
- Orange and Green Ribbon Sandwiches
- Chocolate Flip
- Prune Ice Cream
- Iced Sponge Cake
- Stick Candy

**Pineapple Pinwheel Sandwiches:** Mash two packages cream cheese well, and add one cup well drained crushed pineapple. Add one-fourth cup chopped walnuts and one-fourth cup chopped pimiento. Remove crusts from loaf of bread and cut in thin slices lengthwise. Spread with softened butter, then with the filling. Roll up tightly like a jelly roll, wrap in a damp cloth and place in refrigerator until ready to serve. Slice crosswise into pinwheels. Makes 25 to 30 sandwiches.

**Orange and Green Ribbon Sandwiches:** Drain contents of one 10-ounce can spinach well, add two chopped hard-cooked eggs and moisten with a little mayonnaise. Moisten one cup shredded raw carrot with mayonnaise. (You will need one-half cup mayonnaise in all.) Remove all crusts from loaf of whole wheat bread, and cut in four slices lengthwise. Spread slices with softened butter, then put together with the fillings like a layer cake, having the first layer of spinach, the middle of carrot and the top of spinach. Wrap up the whole loaf in a damp cloth and place in refrigerator until time to serve. Then cut crosswise into sandwiches. Makes about twenty-four.

**Safe and Sane Sweets**

**Chocolate Flip:** Mix together two cups evaporated milk, two cups water, two-thirds cup canned chocolate syrup and two-thirds cup pineapple syrup, from the crushed pineapple used in the sandwiches, and shake or beat until frothy. Pour over ice cubes or cracked ice in glasses, and serve with straws. Makes eight glasses.

**Prune Ice Cream:** Combine two cups condensed milk, one and a fourth cups bottled prune juice, one-fourth cup evaporated milk and two tablespoons lemon juice, and beat until well blended. Beat one cup cream to a custard, add and turn into refrigerator trays. As mixture freezes, beat once or twice with egg beater. Makes eight servings.\*

**No Price Raise for Fair**  
DALLAS, Texas.—Managers of Dallas hotels have agreed there will be no price increases for rooms or meals, during the Texas Centennial Exposition, June 6 to Nov. 29. Years of popularity for Dallas as a convention city, led to this decision, a spokesman said.

**Army Air Show for Fair**  
DALLAS, Texas.—The U. S. Army will spend \$50,000 on the Texas Centennial Exposition, establishing an encampment on the big Dallas lot and staging a huge aviation meet. The money comes from the \$515,000 the Federal Government has set aside for Exposition exhibits.

**PEAS**

**FOR ALL**

MOST people think of peas as just one small part of a meal and fail to realize how far they can be extended. But peas are important in the diet and so flexible that they can be made part of a recipe for one person, or used in quantity as an important ingredient of a recipe for fifty. Here's the proof. For your child's school lunch box what would be better than this

*Tomato Stuffed with Chicken and Pea Salad.* Cut stem end from one small or medium tomato, scoop out and drain, and dust inside with a little salt. Combine one quarter cup chopped canned chicken and two tablespoons canned peas, and moisten with cooked salad dressing. Fill tomato, replace top and set in lettuce-lined jelly glass or paraffined covered container. Serves one.

**In a Quantity Recipe**

And here's the rest of the proof. For a graduation or Junior-Senior banquet, a church supper, or any meal for many people, here is a recipe for

*Stuffed Potatoes with Curried Peas:* Sauté one-half cup minced onion in one and a fourth cups butter a few minutes, add two-thirds cup flour and six tablespoons curry powder, and stir smooth. Slowly add two and a half quarts milk (substitute part of the milk if desired), and cook until creamy, stirring constantly. Add the contents of five No. 2 cans peas, and season to taste with salt and pepper.

Meanwhile, bake twenty-five large Idaho potatoes until soft, cut each in half lengthwise, scoop out centers and mash and season to taste. Fill the potato cases with the curried peas and spread the mashed potatoes lightly on top. Sprinkle with one and a half cups grated cheese and brown in hot oven. The potatoes may be put through a pastry bag if desired. This makes fifty servings.

**Biggest Midway Grows**

DALLAS, Texas.—Entertainment attractions already under contract for the Midway of the Texas Centennial Exposition, which opens here June 6, will make it one of the most spectacular in Exposition history, W. A. Webb, general manager of the \$25,000,000 World's Fair, announced today.

Read the ad of the Star Theater, Villa Grove, for the latest smash hits.

**Why be NERVOUS**

There's a time-tested, harmless, preparation, compounded by a specialist in nervous disorders, for the relief of Sleeplessness, Irritability, Nervous Indigestion, Nervous Headache, Restlessness, the Blues and Hysterical Conditions.

During the more than fifty years since this preparation was first used, numberless other nerve sedatives have come—and gone. But the old reliable has always been in constantly increasing demand.

Only one medicine fits this description.

**DR. MILES NERVINE**

If you are nervous, don't wait to get better. You may get worse. Take Dr. Miles Nerveine. You can get Dr. Miles Nerveine—Liquid and Effervescent Tablets—at your drug store.

**HELPED 98 PERCENT**

Interviews with 800 people who had used or were using Dr. Miles Nerveine showed that 784 had been definitely benefited. Isn't anything that offers a 49 to 1 chance of helping you worth trying?

Get a package of Dr. Miles Nerveine today. If it fails to help you—take the empty bottle or carton back to your druggist, and he will refund your money.

THE Tamale Kid had been in wrong with the Tumble R outfit ever since he had wobbled feebly from the ranch house, where motherly Mrs. Walters had nursed him through three weeks of feverish illness, to smash the lock on the bunkhouse cupboard and drink himself sodden on the liquor he had found there.

"Tamale ain't altogether to blame," Cookie Humming Byrd argued. "He didn't ask to be brought out here. He crawled under the blankets in the boss' buckboard in Three Stars to sleep off a souse, an' the next thing he knew Freaney had him by the leg draggin' him to the hoss pond. With a yen for whiskey tearin' at his vitals givin' him a shot of redevye would have been an act of charity, in spite of doc's orders to the contrary. That stuff was for medicine." He grinned like a gargoyle. "Tamale wrote his own prescription."

Nevertheless, the punchers continued to snub the Tamale Kid with painful politeness. It got under his skin but he didn't let on, as he boasted and blustered and sneered. Then he did what none of the waddies had been able to do. He rode the blaze-faced dun ragged.

"Why shouldn't I make that cayuse say uncle?" he demanded insolently, as he dropped from the heaving, sweat-lathered animal. "Ain't I kicked thuh bangtails under thuh wire from Sheepshead to Tia Juana? Huh? Among other things, I can handle my dukes, too. Now I'm in thuh pink again. I can lick this whole kaboodle of cow chap-erones one at a time or all together. No foolin'." He squinted up at the foreman who was perched on the top rail of the corral fence. "Hop down, Freaney, an' get what's comin' to yuh."

While the others looked on with wide eyes and sagging jaws, the wiry runt gave his taller, heavier opponent a boxing lesson. Finally, his freckled, hatchet face as grim as granite, he doubled the foreman up with a vicious left in the solar plexus and laid him out, dead to the world, with a pile-driving right uppercut to the button.

The next night the outfit was smoking and making chin music in the cookshack after supper, when the Tamale Kid got something off his chest that had been troubling him a long time.

"What's eatin' Walters n' the missus?" Byrd echoed the Tamale Kid's query. "It's that crook Hi Keller from Three Star." He spat noisily. "He's up at the house this minute."

"That Keller's team out by thuh corral?" the Tamale Kid asked.

"Huh-huh!" Byrd grunted. "Thuh old skindint's puttin' thuh screws on—"

"I rode my pinto hard today." The Tamale Kid yawned, stretched and got to his feet. "I'll be seein' how he's comin'."

As he hurried toward the stable through the blustery darkness, the ranch house door banged open and angry voices came to him. The Tamale Kid stopped in his tracks and stared. Gangling Hi Keller backed out on the veranda, gesticulating wildly. Walters' stocky frame was silhouetted in the rectangle of mellow glow.

"You're meetin' this note, Walters," Keller whined, "or I'm havin' your Tumble R, lock, stock an' barrel."

"I can't meet it!" Walters flung back savagely. "You know I can't! What's more, I've already paid what I borrowed. I never knowin'ly signed the note you're wavin' around your miserly head."

"It's bearin' your signature, ain't it?" Keller rasped stridently. The Tamale Kid inched closer, all ears.

"It sure is!" Walters retorted fiercely. "That's some more of your cheatin' hocus pocus."

"Take this note up next week," Keller shrilly laid down his ultimatum, "or else—"

Walters slammed the door in Keller's face. Tucking the note into an inside pocket Keller swung on his heel and, head down, plunged into the starless night. The next instant he collided violently with the Tamale Kid, who clawed energetically at the bigger man to keep from falling.

"Why don't yuh look where you're goin'?" Keller snarled.

"Why don't yuh go where you're lookin'?" the Tamale Kid laughed.

Snorting, Keller went striding to the corral. Chuckling, the Tamale Kid watched him climb into his buckboard, gather up the lines and head back for Three Stars. He was still chuckling when he returned to the cookshack.

"Keller's breezed," he announced, as he tiptoed his chair against the wall and began deftly rolling a brown paper cigarette. "Just left."

"The schemin' old devil!" Byrd growled, while the others nodded. "Makin' trouble for the whitest—"

"I've a hunch," the Tamale Kid interrupted, as he fumbled a soiled strip of paper from the breast pocket of his shirt, fashioned it into a taper and lighted it at the crackling fire, "that Keller's through botherin' thuh boss an' his misus for thuh time bein', anyway."

**Oldest Welsh Society**

The Welsh Society of Philadelphia is the oldest society of its kind in the United States—it dates back before the country was founded. Originally it was called the Society of Sons of Ancient Bretons and was designed to aid emigrants entering Philadelphia in colonial days. Included in the list of Welsh society members are such names as Thomas Jefferson, Abraham Lincoln and Charles Evans Hughes.

**Long View News**

Mr. and Mrs. John Keefe are visiting relatives here.

Mrs. Clarence Kraft was hostess to the J. F. F. club Thursday afternoon.

The Christian Church has announced an ice cream supper for Friday night, July 10.

Mrs. Mary Dillon returned home last week after having been a patient in Mercy hospital for several weeks.

Mr. and Mrs. James Parks and the Merton Parks family left on Thursday for a visit with relatives in Missouri.

Junior Seeds spent the past two weeks with his grandparents, Mr. and Mrs. Bert Seeds, at Broadlands.

Joe Ketterly and family of Indianapolis called on Mrs. Katherine Deere Saturday. They were enroute home after visiting in Tuscola.

A miscellaneous shower was given in the J. A. Wilson home, Wednesday afternoon, honoring Mrs. Lois Wilson Walburn, a recent bride. Assistant hostesses were Misses Mildred Wilson, Rachel Davis, Clara Wilson, Phyllis Toppe.

The monthly dinner of the Christian church was held Sunday in the A. R. Hales home. Other guests were Mr. and Mrs. Fred Messman, Mr. and Mrs. Dan Thomas, Mrs. Phoebe Mayvity, Mrs. Rene Brown and the Chas. DeWitt family.

WITHOUT WAX

WE WERE talking of antiques, when the Florentine gentleman of high birth said: "Come, let me show you my marble table in the garden." I followed him through the dark hall, stone paved, out into a beautiful sunlit Florentine inner court garden with great dark cypresses waving their tips in the breeze. Around the roots of these dignified old trees, centuries old, were little flower beds of bright posies confined by stone edges between which, in formal fashion, were inviting little paths.

It was a surprise garden in the rear of an uninviting looking stone residence set uncompromisingly on a none too wide side street in the city of Florence. Florence, Italy, is a surprise city anyhow, with its wealth of history, its tragedies, its bloody climb to light, its sacrifices in the name of power and religion, its art and literature. What a panorama of human achievements and failures, Florence presents to a sympathetic heart, as one recalls the de Medicis, Savonarola, Fra Angelico, the Brownings and the host of others too numerous to name. When I am in Florence I never really know in what century I am living, for these old memories press persistently into my heart.

We have wandered far from our sunlit garden into which I had followed my host to see his marble table. "Is it an antique?" I inquired as I noticed great cracks across the beautiful marble slab. "No, it is not," my friend responded. "Listen to this story!"

"The marble cutters of Florence are wily old fellows," he continued, "often when their chisels slipped too far they cracked the marble slabs. Into these cracks they poured soft wax. After the wax had hardened the slabs were polished and the tables sold for solid marble." The Florentines soon realized the deception and began asking when buying tables for those "sine cera"—(without wax).

Interesting it is to note that our word sincerity comes from the little phrase "sine cera," without wax, which is precisely what it means—for to be sincere is to be genuine, whether it be a table or an individual.

"To be without pretext or show Exactly what men think I am." If this be a good working rule for Florentine tables, to be genuinely sincere tables of solid marble, isn't it also a silver rule for you and me to follow in daily life, to be found always "sine cera"?

**Easy Method**

He—I have killed five flies, two masculine and three feminine.

She—How do you know that? He—Two were on the table and three on the looking-glass.

Blonde—Don't you love driving on a moonlight night like this?

Freshie—Yeah, but I thought I'd wait until we get further out in the country.

The world would be better and brighter if people were taught the duty of being happy as well as the happiness of doing their duty. To be happy ourselves is a most effectual contribution to the happiness of others.

The higher I get in the evening, the lower I feel in the morning.

Horse sense behind the steering wheel is better than horse power under the hood.
