

News Items of 12 Years Ago July 2, 1926

A son was born to Mr. and Mrs. Harvey Rothermel.

Dr. T. A. Dicks, Carl Dicks and Owen Long were Indiana visitors.

Miss Wynnie Cadwallader left for a six weeks visit with relatives at Oteen, N. C.

A number of friends gathered at the home of Mrs. Paul Block to help celebrate her birthday.

Mrs. Lillie Bowman and Mrs. Mary Dicks entertained the G. T. Club at the home of the former.

Mrs. Emil Schumacher and children left for a few days visit with relatives at Huntingburg, Ind.

Mrs. Henry Mohr and Miss Florence Schumacher were attending at 10-day session of the Evangelical Leadership Training School at Elmhurst.

Mrs. Mabel Haines and daughter, Clara, returned home, after a two weeks stay at Scottsburg, Ind. Mrs. Haines was called there by the illness of her grandmother.

Roll of Honor

The following is a list of those who have renewed their subscriptions and new subscribers for this paper for June:

- Martin Sy.
- Thos. Bergfield.
- Alfred Poggendorf.
- Louis Stuebe.
- Roy Bergfield.
- John A. Rothermel, jr.
- Anton Menix, Columbus, Ind.
- Harlin Barnes, Akron, Ohio.
- Mrs. Anna Poggendorf, Danville.

FEATURES IN THIS ISSUE

Another important chapter of William MacLeod Raine's "To Ride the River With," an amazing new Western serial.

"We need to know more about good men who are occasionally great, and less about great men who are occasionally good" is the keynote for the Sunday School lesson by Rev. Harold L. Lundquist in this issue.

The fantastic but true story of a man who came out of prison to receive the Nobel peace prize is told by Lemuel F. Parton in "Who's News This Week."

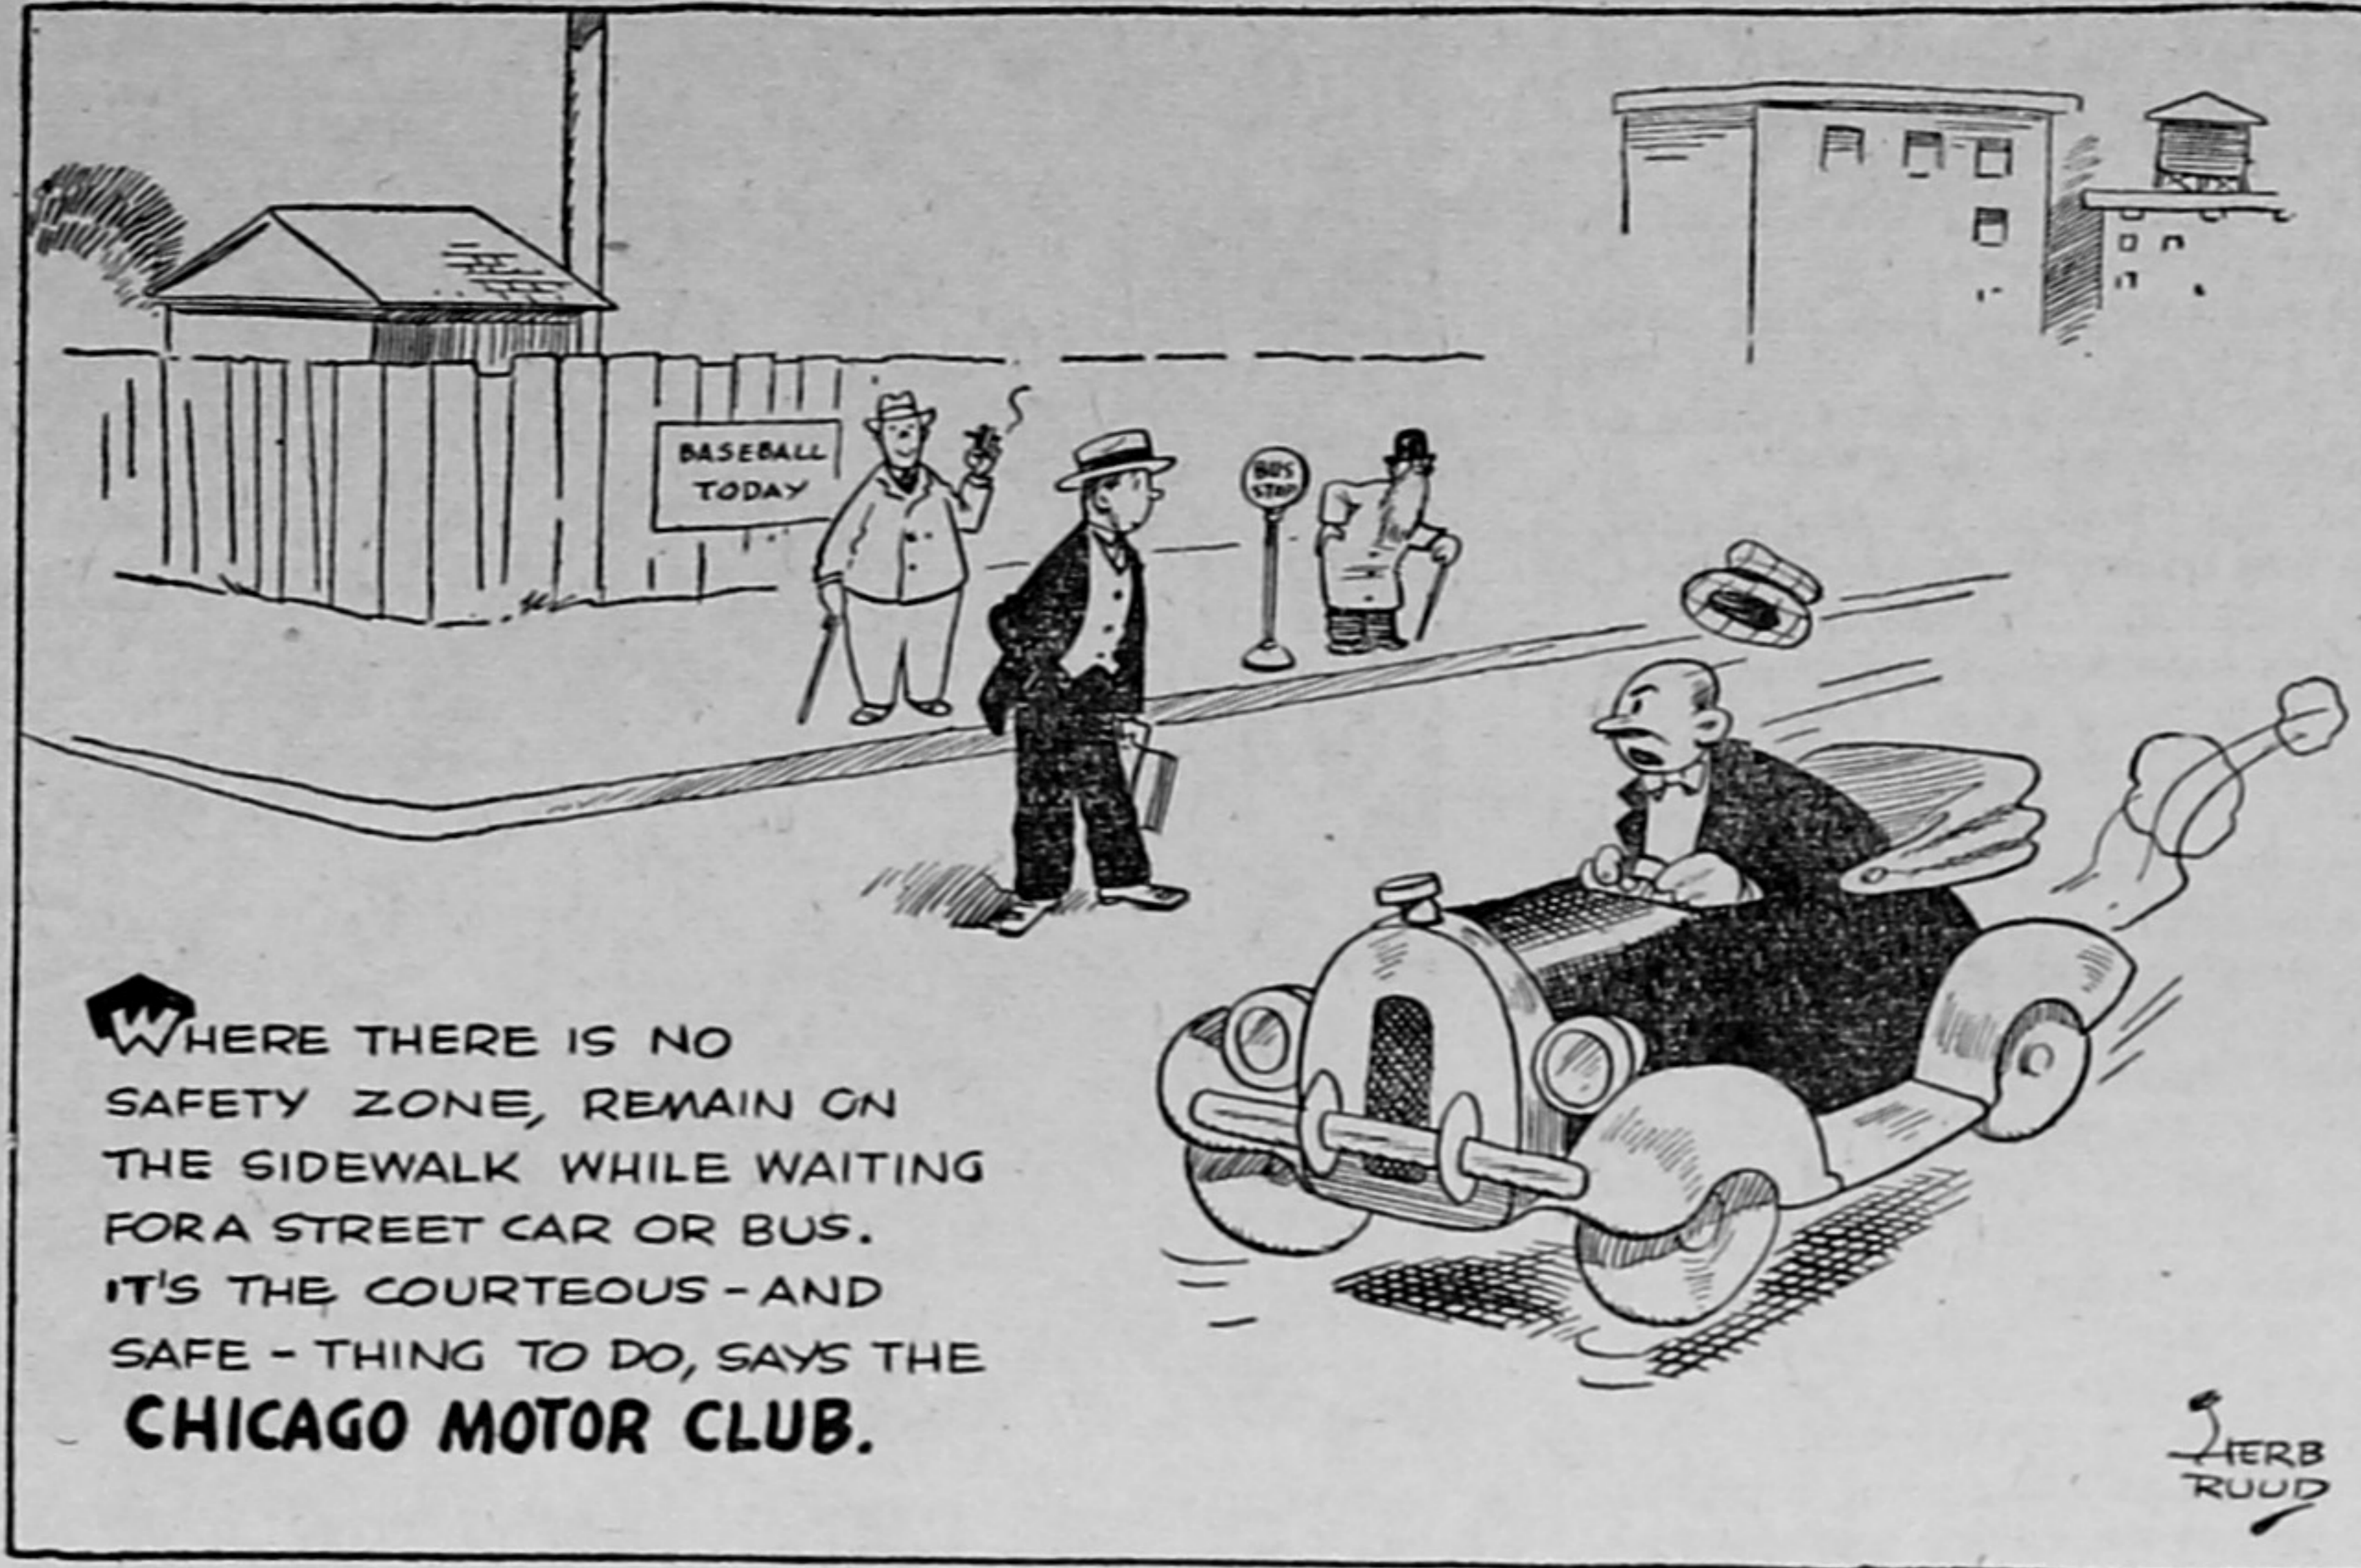

Carter Field comments on the political situation in Maryland and New York. He finds the political map cluttered with premature presidential booms. See his Washington letter.

Ice Cream Supper

The U. B. Ladies Aid will hold an ice cream supper in the Astell building, Wednesday evening, July 20. Everyone invited.

The assessment lists of Ayers and Crittenden townships appear in this issue.

"PEDESTRIAN POINTERS" SUGGESTED BY THE CHICAGO MOTOR CLUB

Local and Personal

Clark Henson and family and Hazel Baker spent the Fourth at Danville.

Mr. and Mrs. Ray McClelland spent Monday with friends at Danville.

Mrs. Grace Schecter of Danville spent the weekend with her mother, Mrs. Lottie Astell.

Mr. and Mrs. Walter Logan and son, Philip, spent the weekend at Greenup.

Smith Hamilton of Fairland spent the weekend at the A. S. Maxwell home.

Mr. and Mrs. August Wiese and Mrs. Clarence Kilian were Brocton visitors, Wednesday.

The statement of condition of the Longview State Bank appears in this issue.

Ray Holt, who has been a patient at Carle hospital, Urbana, has returned to his home here.

Mrs. Bertha Cook will be hostess to the Methodist Ladies Aid on Thursday, July 14.

Miss Evelyn Schumacher of Lakewiew hospital, Danville, spent the 4th with home folks.

Mr. and Mrs. Dean Upp, Vincennes, Ind., spent the weekend at the Henry Schumacher home.

Mrs. Lillie M. Bowman, who is attending school at Charleston, spent the 4th with P. O. Rayl and family.

Harlin Barnes of Akron, Ohio, has informed us that he has sold his property on the north side to Levi Hardyman of St. Joseph.

Mrs. Arthur Schumacher and daughter of Cleveland, Ohio, arrived Tuesday for a visit at the Henry Schumacher home.

Mrs. Mary Duncan and daughter, Dorothy, returned Sunday after a three weeks visit with relatives at Clay City, Ind.

Clark Henson and children were Champaign visitors, Tuesday evening. Maxine Snow accompanied them home for a visit.

Mr. and Mrs. Lloyd Cable of Steger, Ronald Cable and family of Chicago visited over the weekend at the A. A. Cable home.

Mrs. Elsie Cline of Danville spent the past week with her parents, Mr. and Mrs. August Zantow.

Miss Margaret Hudson of Danville is spending this week with P. O. Rayl and family. Miss Hudson is a sister to the Rayls' adopted son, John Paul.

Mrs. Marian Tuttle, Mr. and Mrs. Willard Lenox and son, Hugh, and Mrs. Colwell of Winchester, Ind., are here visiting Mrs. Ora Brown.

Mr. and Mrs. Lloyd Deal are parents of a daughter, who arrived at their home last Tuesday, states Dr. T. A. Dicks, the attending physician.

Will Smith, Harold Smith and family, Mr. and Mrs. Charles Smith were guests of the Will Johnsons at Danville, Monday evening.

Mr. and Mrs. Fred Messman spent Sunday with Rev. and Mrs. C. M. Temple at Lacon. Mary Frances Temple accompanied them home for a visit.

Mrs. Cora Alcorn and daughters of Chicago; Lyal Nesbitt of Berwyn; James Alcorn and family of Tilton, were Sunday guests of Mrs. Lillie Baker.

Mrs. Clyde Gore and daughter, Joyce, returned to their home at Flint, Mich., Saturday after a two weeks visit with relatives here and at Newman.

John Dewitt and family of Austin, Ind., were Sunday guests of Mr. and Mrs. Hugo Dewitt. Afternoon callers were Ernest Leerkamp and family and Floyd Erb and family of Sidney.

Mr. and Mrs. Virgil Reed and daughter, Nancy, of Champaign spent Sunday here with relatives. Their son, Jerry, who had been visiting here returned home with them.

Mr. and Mrs. Oscar Witt entertained at Bridge, on Monday night, Mr. and Mrs. Ray McClelland, Mr. and Mrs. John Nohren, Mr. and Mrs. Edward Nohren.

Bruce Massey and family of Chicago spent the weekend with Mr. and Mrs. Arch Walker. Mrs. Emma Massey who had spent the past three weeks here returned home with them.

Mr. and Mrs. Bud Struck and children, Mr. and Mrs. Louis Frick and son, Mr. and Mrs. Norman Seider and son, picnicked at Paris, Monday evening. Later they motored to Danville to see the fireworks.

Mrs. Alonzo Zantow and daughter motored to Champaign, Thursday afternoon to visit Mrs. Zantow's mother, Mrs. Lydia Cole, who submitted to an operation for removal of her appendix.

Mr. and Mrs. Henry Kilian, Sr., Mrs. Arthur Schumacher, and Mrs. Henry Kilian, Jr., were visitors at Vincennes, Ind., Thursday. Mrs. Dean Upp who had been visiting here returned to her home.

Kerna Block has purchased from Mrs. George Walker the building which houses the Standard Service Station and the half block of land on which the same is located. Hugo DeWitt, who conducts the station, retains the stock and equipment.

Mr. and Mrs. Howard Clem entertained at dinner on July 4th, Mr. and Mrs. Leonard Thomas, Jackson, Mich.; Earl Clem and family, Albert Clem, Harristown; Herbert Clem and family, Homer; James Thomas, Terre Haute, Ind.; Miss Marjorie Krukewitt, Homer; Miss Anna Clem.

A basket dinner was held at the home of Mr. and Mrs. Carl Dicks, July Fourth. Those present to enjoy the occasion were: Mrs. Eva Collom of Lander, Wyo.; Mrs. Harvey Kitchen of Danville; LeRoy Hobbs and family, Indianapolis; Forrest Dicks and family, Allerton; Kenneth Dicks and family, Dr. and Mrs. T. A. Dicks, Mr. and Mrs. Carl Dicks.

Among the many who entertained friends over the Fourth of July were the Elmer Mohrs who had as house guests Sunday and Monday, Mr. and Mrs. Ira A. Stephens and son, Roger, of Champaign; Mrs. Helen Applegate, Geneva; C. W. Hayward, Elgin; Mrs. Grace Cox, Milford; Mr. and Mrs. Walter Kent and son, Stanley, Milford. Additional guests at the buffet dinner on Monday were Mr. John Ely, Champaign; Mr. and Mrs. Fred J. Mohr and daughter, Miss Mildred, and Mrs. Marie Edens, Broadlands.

Sidney Man and Daughter Drown While Swimming

Sidney—Funeral services for Thomas C. Ward, 51, and his daughter, Marjorie, 12, who were drowned about 2 p. m. on Sunday, in the backwaters of the Salt Fork creek, were held at 2 p. m., Wednesday, from the Sidney M. E. church, Rev. L. R. Seymour, officiating.

Ward, an expert swimmer, had taken his two daughters, Opal, 13, and Marjorie, 12, and Lois Jean Johnson, a neighbor girl, to the creek's backwaters in his pasture and was teaching them to swim. At the time of the accident he was holding Marjorie in the water when he stepped backwards into deep water and disappeared beneath the surface.

Opal, unable to swim, attempted to wade out to her sister and was overcome. She was rescued by Virgil Taylor and Royal Wright, who were visiting at a nearby home and heard her screaming.

Wade, however, was not found for 15 minutes. His body was fished out of the water near where he sank, by Taylor. Marjorie's body was found 35 minutes later by B. B. Nelson. An inhalator from the Urbana fire department was used on both, but failed to revive them.

Due to the fact that Ward was known to be an excellent swimmer, yet failed to come up after he sank, it was believed he had suffered either a heart attack or cramps.

O. K. Funds for Homer Water Works

Washington, D. C., July 5—Senator J. Hamilton Lewis' office today announced that President Roosevelt has approved an allotment of \$49,209 in WPA funds for the construction of a complete water system at Homer, Champaign County.

The work will consist of a complete system with well, pumping station, tanks, water mains, valves, hydrants, etc. No additional taxes or assessments are to be levied to cover the amount of federal funds expended for the job, it was said.

Final approval rests with the state WPA director, who will also have to set the time for the actual commencement of the work.

Federal funds for the job will be made available shortly after the state WPA chief has approved the project, it was said.

U. B. Ladies Aid Meets With Mrs. Allie Struck

The U. B. Ladies Aid met on Wednesday afternoon with Mrs. Allie Struck.

Mrs. Ruth Henson conducted the business meeting. Mrs. Leona Bergfield and Mrs. Bessie Loomis had charge of the devotions.

During the business meeting it was decided to have an ice cream supper, July 20.

Refreshments consisted of sandwiches, salad, wafers, and iced tea.

Those present were Mesdames Zermah Witt, Ruth Henson, Agnes Turner, Bessie Loomis, Jessie Bergfield, Jennie Nohren, Thelma Clem, Leona Bergfield, Ella Maxwell, Nola Donley, Lydia Brown, Allie Struck, and Rev. J. F. Turner.

Helen Smith and Gerald Gaines Wed at Longview

On Saturday evening, July 2, at 6 o'clock, at the home of Mr. and Mrs. Manuel Smith, Longview, marriage vows were read for their youngest daughter, Helen, and Gerald Gaines, son of B. B. Gaines of Newman.

Rev. J. F. Turner read the single ring ceremony in the presence of the immediate families.

Attendants were Miss Ruth Smith, sister of the bride, and Wayne Gaines, brother of the groom.

Mrs. Gaines was a lovely bride in pale rose silk, with an arm bouquet of white lilies.

Mrs. Gaines was a graduate of Longview high school in 1935, and from Illinois Commercial School in 1936, since which time she has been employed in the AAA office in Champaign.

Mr. Gaines also attended the Longview high school and was graduated in 1934. He attended Illinois College at Jacksonville for three years. He then entered the U. of I., where he received his A. B. degree in '38. He is now attending the U. of I. summer school.

Mr. and Mrs. Gaines will live at 511 W. Healey, Champaign, until school closes when they will move to Longview, where the former will teach Fonner school.

Parents of Son

The Paul Jerome Madigans of 1005 East Washington street, Urbana, have named their new son, born at Mercy hospital on July 2, Patrick Otto Madigan. He is to be known as just plain Pat. Patrick is in honor of Mr. Madigan's father, the late P. T. Madigan, and Otto in honor of Mrs. Madigan's father, Otto Struck, prominent resident of Raymond township. — News-Gazette.

Dinner For Thrashers

The Eckerty Cafe of Broadlands will serve dinner for thrashers, shellers, etc., this summer.

How long is it since you had the steering mechanism on your car checked? Is your automobile hard to steer?

One of a number of conditions may be responsible. The tires may be soft; the steering gear may need grease; tie-rod bushings may need lubrication. Other items should be checked, but these are some of the most important.

If, after checking these possibilities, you find the difficulty still there, better consult a mechanic. Very probably some part of the steering mechanism on the front axle is bent. It is absolutely essential that steering apparatus be in perfect working order at all times.

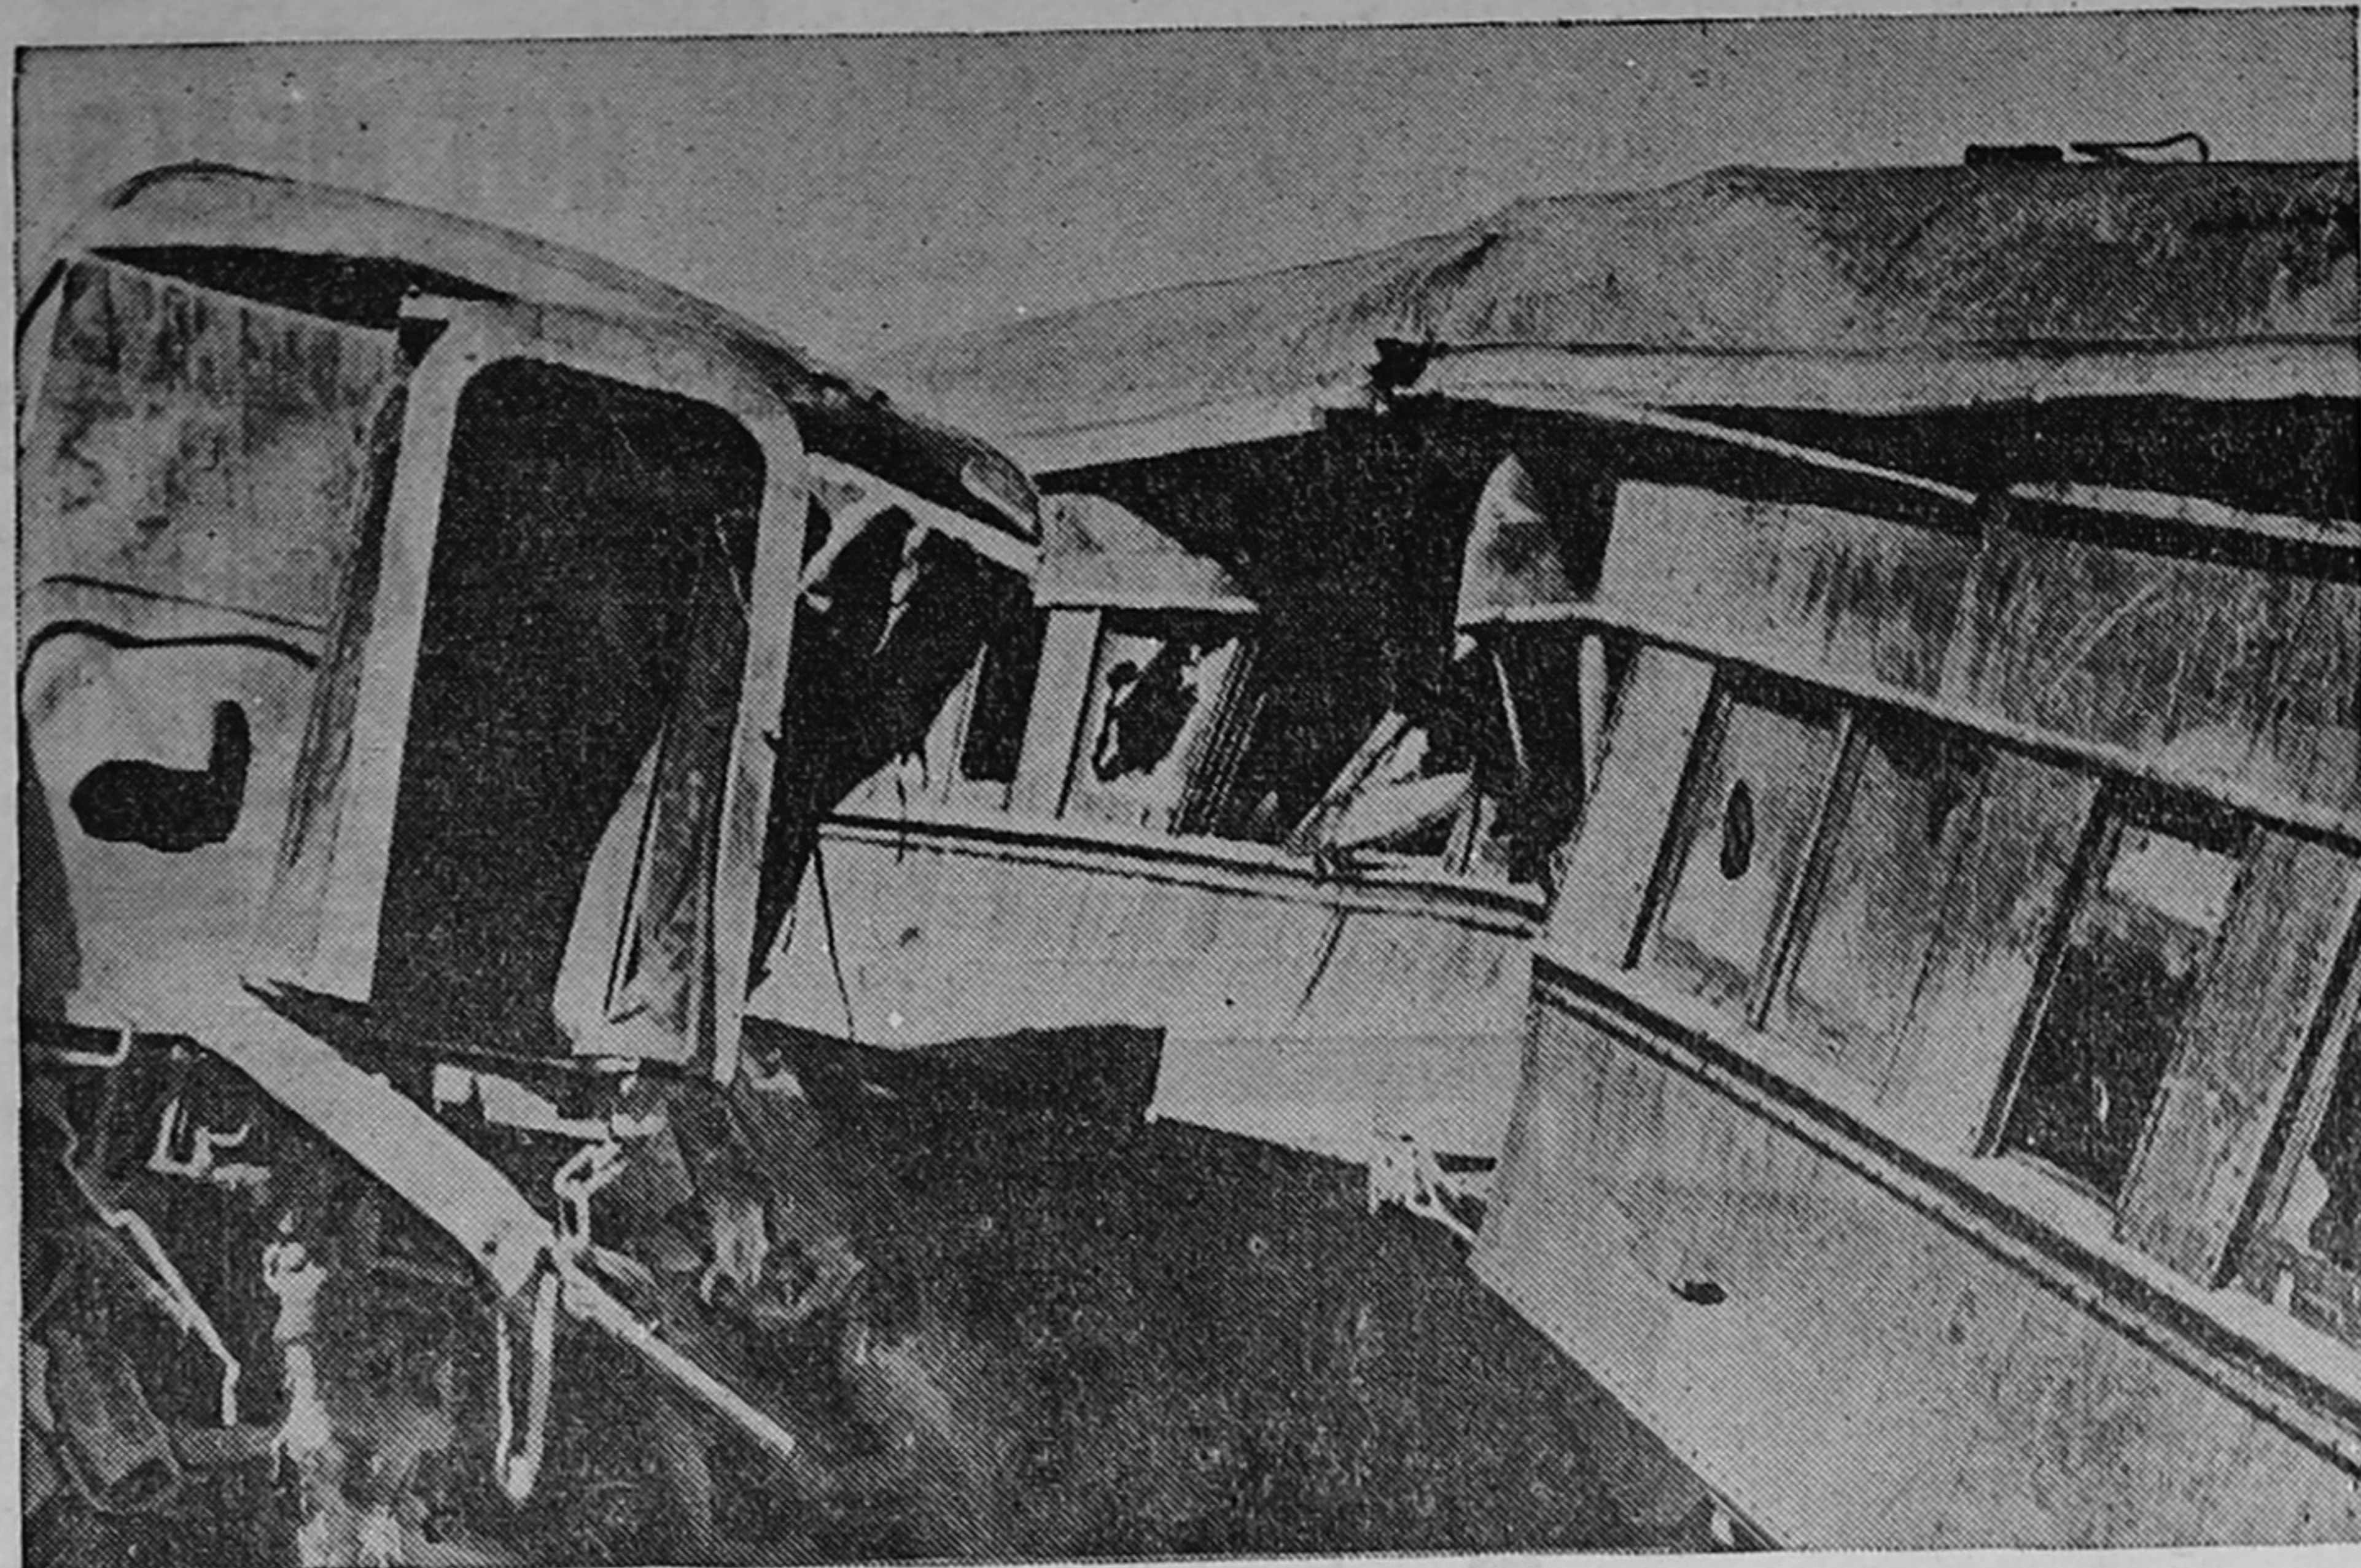

Market Report

Following are the prices offered for grain on Thursday in the local market:

| | |
|-----------------------|-----|
| No. 2 new hard wheat | 62c |
| No. 2 new white corn | 50c |

Scores Die in Worst Rail Wreck in Years

In the nation's worst railroad tragedy in years, approximately 40 passengers were killed when the Milwaukee road's crack "Olympian" train plunged into the flood waters of Custer creek near Miles City, Mont. A midnight "flash flood" carried away the trestle spanning the creek and the train plunged into the raging waters. These two coaches bore many of the passengers who lost their lives.

TWO NO-HIT GAMES

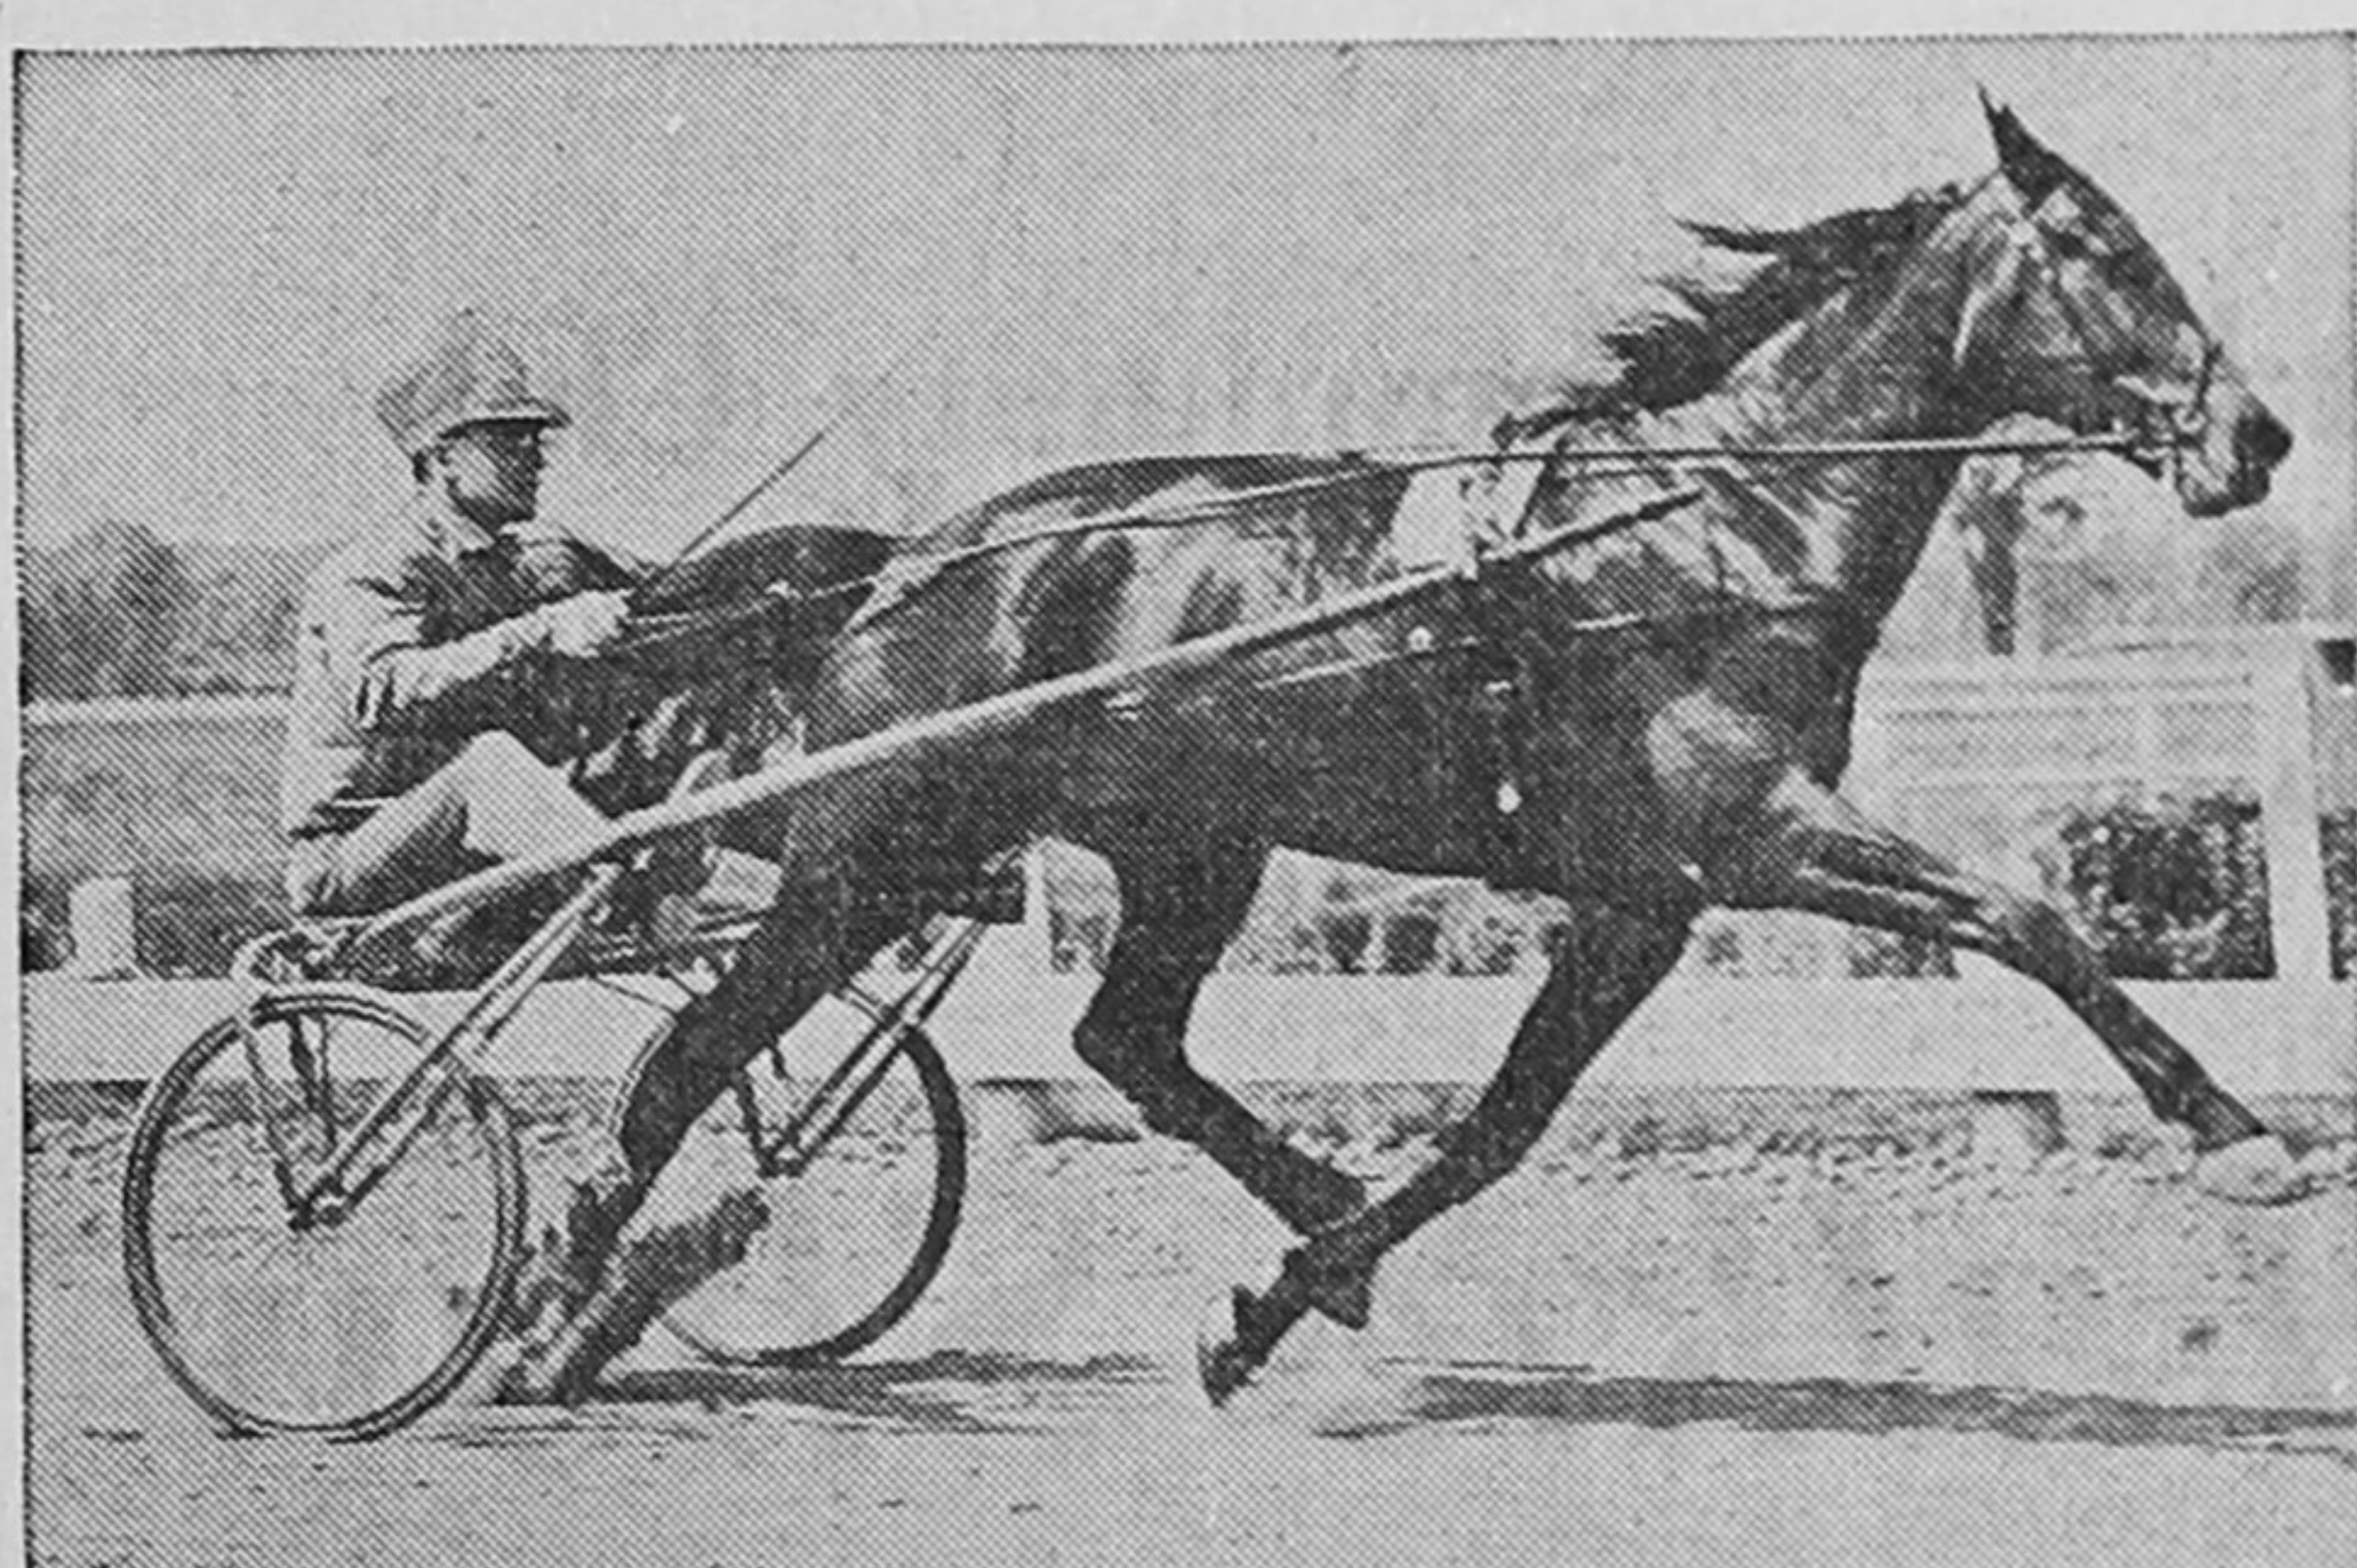

Johnny Vander Meer, twenty-three-year-old left-handed pitcher of the Cincinnati Reds who wrote new baseball history recently when he pitched two no-hit games in succession. He shut out the Boston Bees first, and then four days later took on the Brooklyn Dodgers in a night game at Ebbetts field and white-washed them 6 to 0. No other pitcher in the century-old history of baseball has ever pitched two no-hit games in the span of a single season.

Newlywed Roosevelts Honeymoon

John Roosevelt and his bride, the former Anne Lindsay Clark of Boston, who went to Campobello Island, New Brunswick, Canada, following their wedding at Nahant, Mass. The young Roosevelts planned to continue their honeymoon with a trip to the West Indies.

Greyhound's Chief Rival

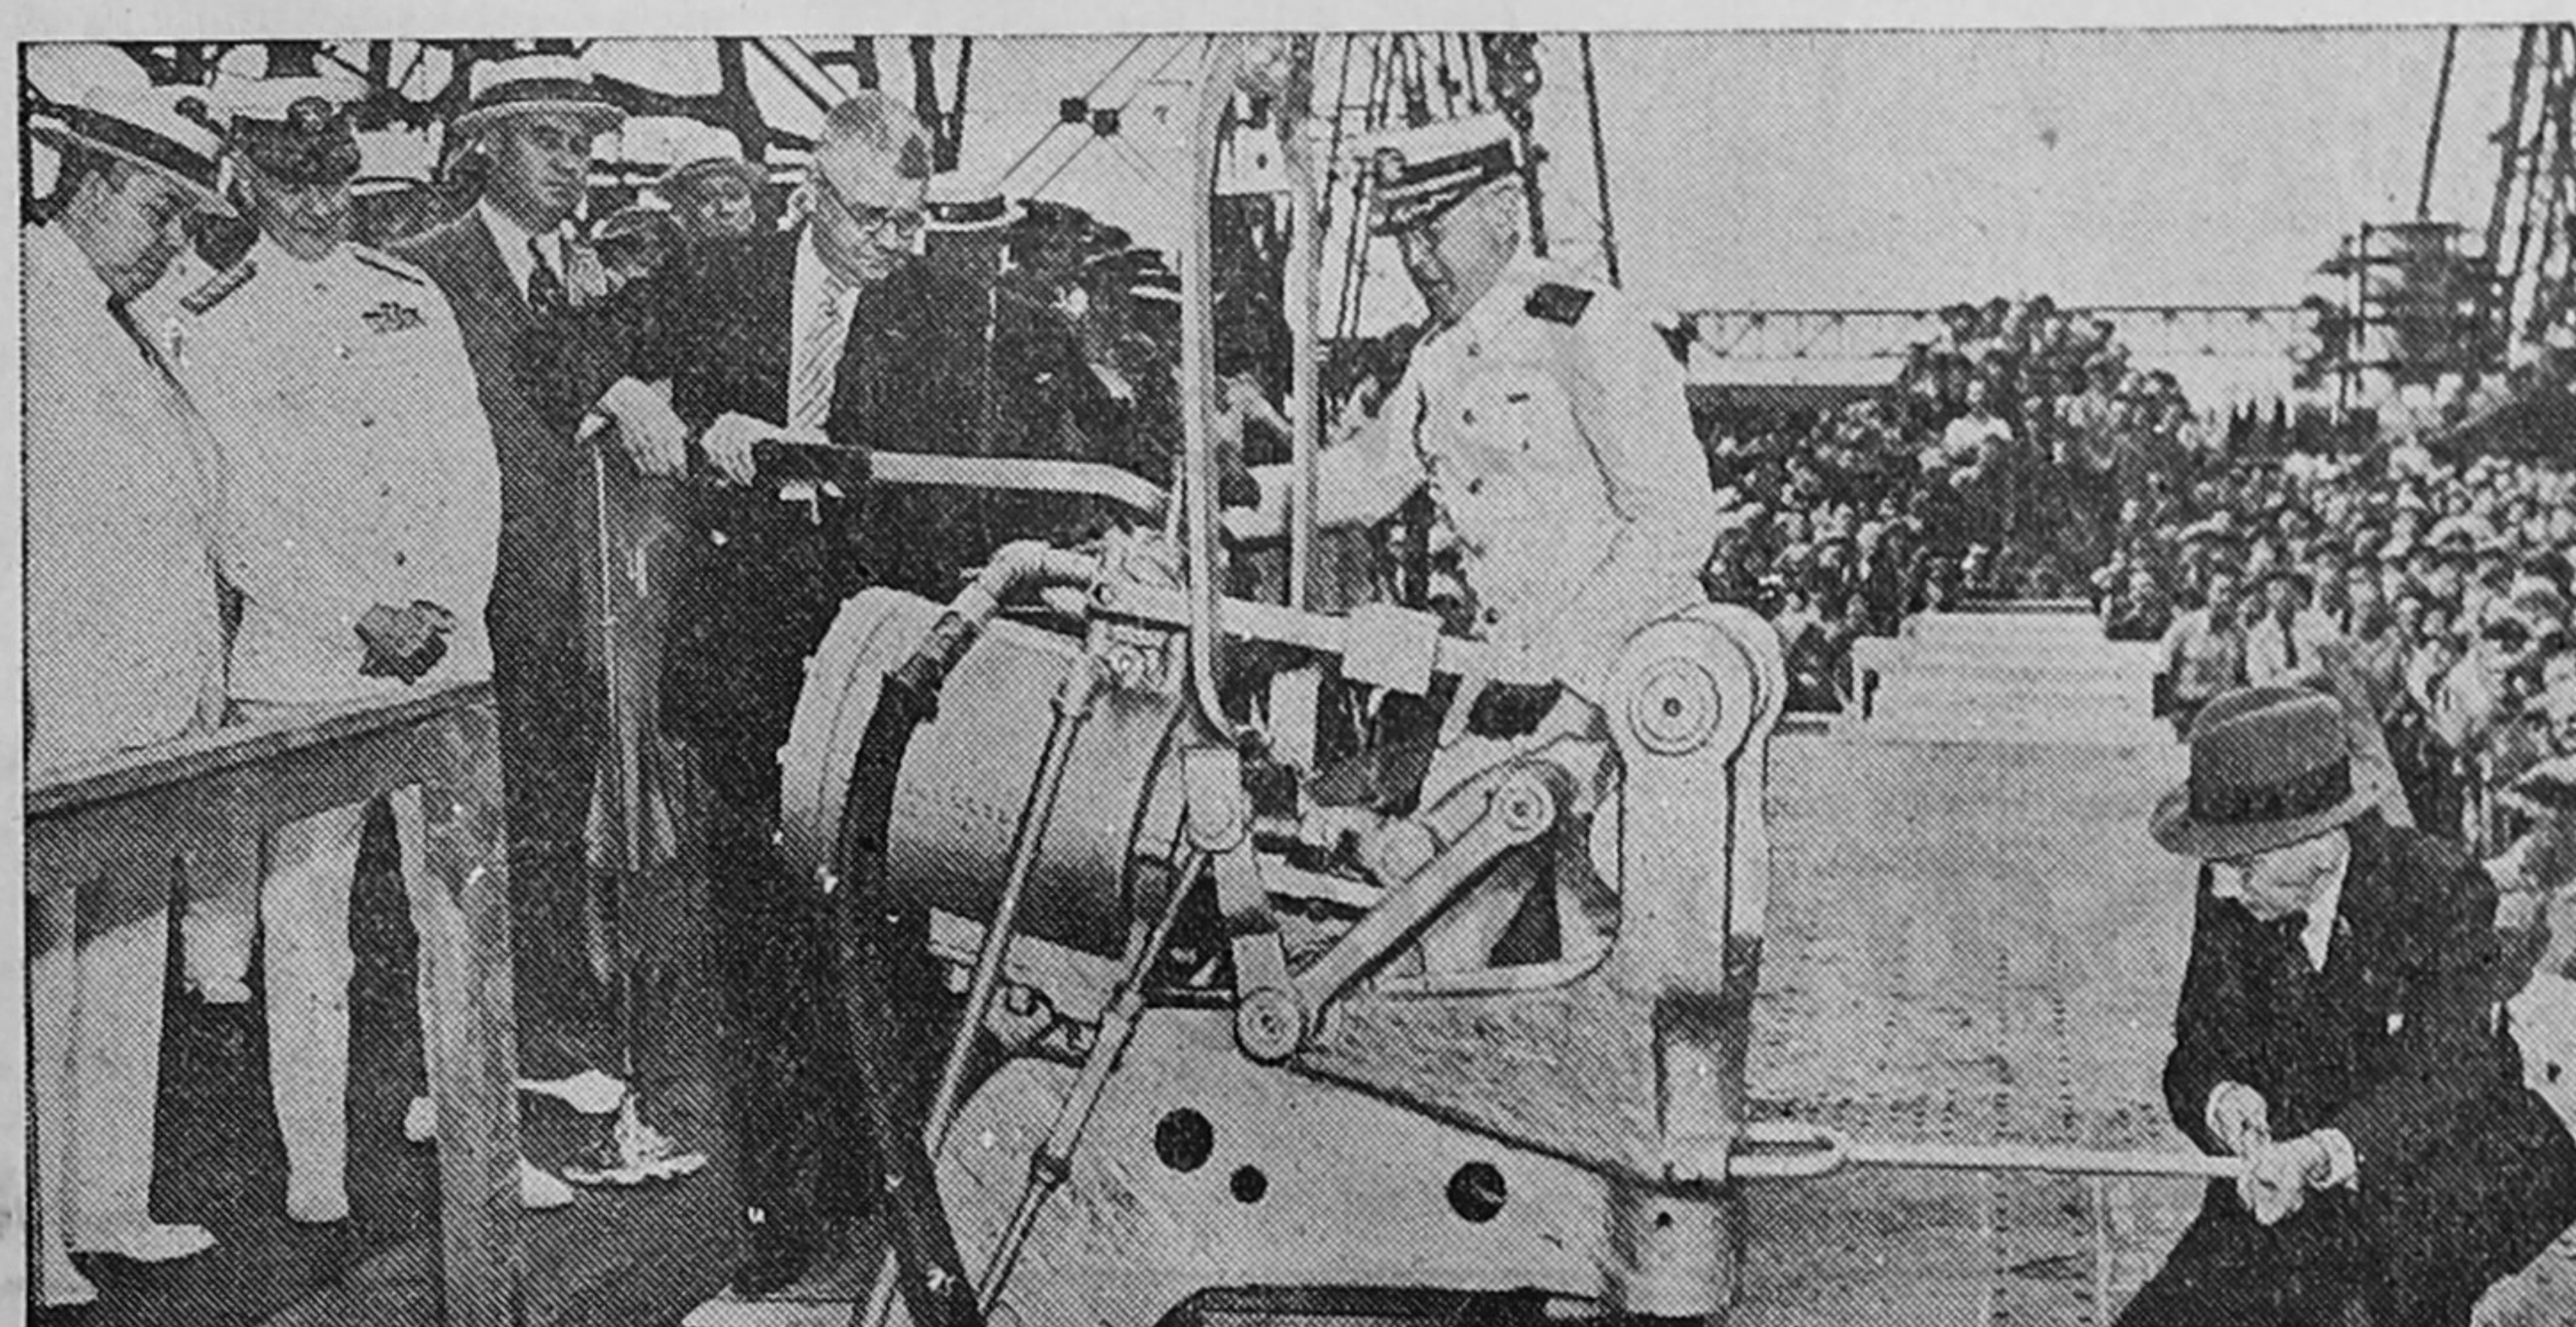

This superb action photograph shows Brogan, a 2:01 3/4 performer, owned and driven by E. Roland Harriman of New York, in a fast workout at Goshen, N. Y., recently in preparation for five clashes with the world's champion, Greyhound, this summer. Fans of this area will see Brogan first July 14 at Harriman's historic track.

IMPERIAL POTENTATE

Andrew A. D. Rahn, hearty imperial potentate of the Mystic Shrine who was elected to his post at the recent convention in Los Angeles, Calif. Potentate Rahn hails from the Zuhrah temple at Minneapolis.

Keel Is Laid for New U. S. Warship

The scene as the first rivet was driven for the laying of the keel of the navy's newest battleship, the \$65,000,000 dreadnaught U. S. S. Washington, at the Philadelphia navy yard. Left to right: Mayor S. Davis Wilson of Philadelphia; Rear Admiral Wat Cluervius, commandant of the Philadelphia navy yard; Lieut. Comdr. William Cunningham, representing Gov. George Earle of Pennsylvania; Rear Admiral Luther Gregory, civil engineer corps, (retired), representing Governor Martin of Washington; Capt. Alexander Hamilton Van Keuren of the civil engineer corps, in charge of construction at the navy yard; and J. C. Kauffman, master sheet metal worker at the navy yard.

WHAT to EAT and WHY

C. Houston Goudiss Noted Food Authority,
Explains What Is Meant by
CORRECT NUTRITION

Describes How to Construct a Balanced Diet, So Essential to Maintain Optimal Health

By **C. HOUSTON GOUDISS**
6 East 39th St., New York City.

TO SOME families, a summons to the dinner table means nothing more than a chance to satisfy hunger. To others, it represents an opportunity to gratify the palate, sometimes to the extent of overtaxing the digestive system. Neither of these extremes fulfills the true function of food, which is to provide adequately but not to excess, for growth, maintenance and repair of the body.

Food May Fail to Feed
You can satisfy hunger without providing correct nutrition. You can partake of delicious-tasting foods to the point of over-indulgence — without meeting bodily requirements.

The mere spending of money will not insure good nutrition, for extremely poor diets can be found in households where the income is large and the food budget is ample. What counts is learning to provide the right foods in the correct proportions. The return in health will be more than worth the investment of effort in acquiring this knowledge.

A Balanced Diet
Science has discovered what foods are necessary to help build top health and keep us 100 per cent fit. The amount of food required by a man for a day's work can be accurately determined. We know that a specific disease may be produced by one diet and cured by another; that growth can be influenced through changes in the quality of the dietary; that old age may be deferred by choosing the food with care. We know that the body is a working machine which never stops but may slow down or get out of order unless the daily diet includes every element, every mineral, every vitamin needed to maintain health and avoid the deficiency diseases.

Seven Essentials
There are seven factors to be considered in planning a balanced diet. Protein, for building body tissue and repairing the millions of cells that are worn out daily. Carbohydrates to produce quick heat and energy. Fats—a more compact form of fuel, which are also essential in a satisfactory diet. Minerals which serve both as builders and regulators of body processes. The six vitamins, A, B, C, D, E and G, that also act as regulators and prevent a number of deficiency diseases. Water—which serves as a vehicle by which food is carried to the tissues. And cellulose or bulk—required for the normal functioning of the intestinal tract.

Danger in Omitting One Food Substance
The homemaker who fails to take every one of these factors into consideration is depriving her husband of the opportunity to develop his greatest efficiency. Moreover, she may be robbing her children of their birthright. During every day of childhood, the body is being built, and defects in body structure are likely to arise if the child is improperly nourished. It is then that disease and disability make their appearance as a result of faulty nutrition. How tragic to deprive the young body of substances so necessary to its well being.

How to Check Diet for Balance
Perhaps you are like the homemakers who tell me that they do not know a protein from a carbo-

hydrate. Or it may be that while you understand the difference, you do not know what quantities should be included in the diet each day.

To simplify your task of serving balanced menus at every meal, I have prepared a Homemaker's Chart for Checking Nutritional Balance. In convenient chart form, it shows what foods should be included in the diet every day and gives the standard amount for each food. There are also skeleton menus outlined by food classifications, which enable you to plan balanced menus for every meal by making a choice from each group of required foods.

I urge every homemaker to write for this chart and use it daily. Then you won't make such common mistakes as serving a dried legume as a vegetable at a meal in which meat is used, which tends to concentrate too much protein in one meal; or choosing a too-heavy dessert following a main course that is overly rich in carbohydrates.

60 Per Cent Carbohydrates
Carbohydrates should form at least 60 per cent of the supply of food fuel. Rarely are menus deficient in carbohydrates, because they are so widely distributed in such common foods as cereals, bread, potatoes, macaroni products, sweets, and sweet fruits and vegetables, such as oranges, grapes, apples and peas.

Fats should supply about 20 per cent of the caloric content of the diet. They are obtained from butter, margarine, cream, egg yolk, salad dressings, vegetable oils and the fat of meats.

Success in Sewing
Success in sewing, like in any other field, depends upon how you approach the task in hand. To help you turn out clothes professional looking in every detail, we have a book which plainly sets forth the simple rules of home dressmaking. The beginner will find every step in making a dress clearly outlined and illustrated within its covers. For the experienced sewer there are many helpful hints and suggestions for sewing short cuts. Send 15 cents (in coins) today for your copy of **SUCCESS IN SEWING**, a book every home dressmaker will find of value.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

TWO of the most important things for midsummer are: a sleeveless dress of the most casual sort for sports and daytime, and a cool dress with cape or jacket, to wear on the street and for afternoons. The two here suggested represent the very best of these types. Make them yourself, in fabrics and colors of your own choosing, and rejoice in the knowledge that you have some very individual new clothes.

Sleeveless Sports Frock.
Even if you never take a tennis racquet in your hand, you'll enjoy having this cool, classic dress for summer daytimes. In pique, linen, seersucker or gingham, it will look and feel so cool and fresh! Perfectly straight and plain, it has darts at the waistline to make it fit with becoming slimmness. This is a diagram pattern—practically nothing to make! In just a few hours you'll have it all ready to button on at your shoulders.

Afternoon Cape Ensemble.
With or without the cape, this dress with lifted waistline to flatten the midriff, is a charming, slenderizing style. The cape is a darling—puffed high at the shoulders, and made with arm slits so that it won't be always slipping off your shoulders. Make this de-

Free Homemaker's Chart for Checking Nutritional Balance

PLANNING a balanced diet will cease to be a puzzle if you send for the Homemaker's Chart for Checking Nutritional Balance, offered free, by C. Houston Goudiss.

It lists the foods and the standard amounts that should be included in the daily diet, and includes skeleton menus for breakfast, dinner and lunch or supper, to guide you in selecting the proper foods in each classification.

A postcard is sufficient to bring you this valuable aid to good menu planning. Just ask for the Nutrition Chart. Address C. Houston Goudiss, 6 East 39th St., New York City

A protein food should be provided at each meal. Meat, poultry, fish, eggs, cheese, milk and most nuts supply complete protein. Cereals and legumes furnish incomplete protein which may be supplemented by the complete protein of milk.

The Protective Foods
It is essential that the diet should contain an abundance of minerals and vitamins which are furnished by the protective foods—milk, eggs, fruits and vegetables.

Cellulose or bulk is obtained from fruits, vegetables and whole grain cereals. Water comes from juicy fruits, succulent vegetables, milk and other beverages, as well as the water that is consumed as a beverage.

To provide adequate amounts of the seven food essentials at every meal—to avoid the mistake of serving too much of one type of food and too little of another—should be the worthy aim of every homemaker. You will find the task considerably easier if you send for the Homemaker's Chart. Tack it up in your kitchen or in the room where you plan your menus, and use it to check the nutritional balance of every meal you prepare.

If you faithfully follow the food program outlined in the chart, you will help to assure your family of correct nutrition. This is the most priceless gift you could bestow upon them. For nutrition is the architect that draws the plans of human destiny. In providing the right foods, you lay a firm foundation for health on which to rear a life of happiness and success.

Life in Alcatraz

Alcatraz Island, the government prison in San Francisco Bay for incorrigible criminals, is one penal institution designed solely for punishment, rather than reform. Prisoners sent there are of such a vicious type that any attempt to reform them would perhaps be entirely wasteful effort.

There are about 370 inmates at present, including such notorious characters as Al Capone, "Machine Gun" Kelly, Harmon Waley and Albert Bates, kidnapers. In an interview, Warden Johnson said:

"We get the super-criminal, or at least those with super-ego, and our job is to defeat that ego. We play them down not up.

Every prisoner works eight hours a day, six days a week, in the prison industries, which consist of a clothing factory, mat factory and laundry. At work and in the mess hall, conversation is restricted to what is absolutely necessary, such as talking about their work or asking for food.

During recreation periods in the yard, general conversation is permitted, but not while going to or from cells. Except in the cases where conversation is specifically permitted by the rules, prisoners must remain silent.

Many young men now embarking on a criminal career may be headed for Alcatraz or the death cell, still it is hard to convince them that crime doesn't pay.

Tree Named for Lee

In the past a number of the giant sequoia trees of California have been named for distinguished persons, but in recent years the policy of the Interior Department has been to deny further additions to the list.

Upon request of the Daughters of the Confederacy an exception has been made, however, and one of the finest specimens in the Sequoia National Park has been named for General Robert E. Lee. Besides being a tree of almost perfect symmetry, it is one of the few among these ancient sequoias that has not been scarred by fire.

Among other notables for whom California's big trees have been named are Abraham Lincoln, William McKinley, and General Sherman. Some of the trees are more than 300 feet tall, and several are more than 30 feet in diameter. Although not the tallest, the General Sherman tree is the most massive of all, being 36½ feet in diameter and 279 feet high. The very largest are estimated to be not less than 8,000 years old.

It is a strange fact that the sequoia tree, named for Sequoyah, the illiterate half-breed American Indian genius who invented the Cherokee alphabet of 85 characters, is found only in the mountains of California. So far as is known, no trees comparable in size with the largest sequoias exist anywhere else in the world.

Moving Farm Products

One of the most essential services performed by the railroads is the moving of farm products, and for this reason farmers have a large stake in the future of rail carriers, whose plight is just now most serious, because of reduced traffic and high costs of

operation.

The benefits of prompt and dependable rail service to farmers are far reaching, and are particularly in evidence in the distribution of fruits, vegetables and other perishable products. It is through such services these food-stuffs, which are in season locally for only short periods, may be brought from distant regions at other times, thus making them virtually year-round articles of diet.

As was recently pointed out by President Downs of the Illinois Central, this broadening of the nation's food supply has been instrumental in raising our standards of living and making for better health. He also said: "For real aid to the farmer the transportation provided by the railroads for both perishable and non-perishable farm products is in a class by itself. These benefits are typical of railway transportation as a national asset. The protection of this asset is one reason for patronage of the railroads and for helpful public policies in matters of their welfare."

An Illinois Child Wonder

An Illinois lad who at the age of five years is said to have invented clocks and padlocks that were registered in the United States' patent office, seems to be worthy of a prominent place on the list of child wonders.

Newspaper records consulted by research workers of the Federal Writers Project, W.P.A., tell of such a child prodigy at Metamora during the time of the Civil war. While five-year-old compatriots were busy smashing their fathers' watches and household clocks, this youngster finished making a clock that actually ticked. He then began to develop a new kind of padlock. However, the adult world was too much concerned with the progress of military events to take notice of his accomplishments.

Not until the boy's twelfth birthday in 1870 was public attention focused on him. That year many of the Illinois newspapers carried stories concerning his remarkable abilities and some editorial writers hailed him as a genius. Research workers are wondering why no further reference to the boy has been found and why in not one of the newspapers consulted was the lad's name given, or that of his parents.

Early Cow Brokerages

Operating cow brokerages was a profitable business in central and northern Illinois between 1840 and 1860. Newspaper files consulted by research workers on W. P. A.'s Federal Writers Project carry occasional stories concerning persons who contracted with residents of Chicago, Springfield, Peoria, and other cities and towns in the state, to furnish them with good milk cows.

Brokers would scour the counties adjoining the area in which they worked for the required number and breed of cows. The cows would be collected at some central place and then driven by herds into the city for which the broker had contracts.

Old-time authors did their writing in attics, after getting their inspiration in cellars.

If a black cat crosses the road in front of your car, it's good luck—for the cat, if she makes it.

A Missouri mule was born with three hind legs. We have no ambition to inspect the phenomenon closely.

"Aunt Lizzie" Winn, 88, a Creek Indian woman from Oklahoma, has during her lifetime adopted and reared 53 children of the tribe.

Sidelights

An unusual story of a mule frightened to death by a small dirigible comes from Elkton, Ky. While pulling a plow on the farm of Cy Standard, the animal sighted the strange object in the air, and after rearing and plunging a few times, fell over dead.

Another of those indefatigable researchers has discovered that children born when their fathers are over 40 years of age have better chances of success than the offspring of younger men. The reason may be that the older fathers don't live to hold a bad example before the kids so long.

Taking no chances that their intended victim would be empty of pocket, two Chicago hold-up men telephoned for a quart of whiskey and asked that change for a \$20 bill be sent by the messenger. When he arrived they robbed him of the money, but refused the liquor, saying they didn't drink.

Effects of recent years on the male population, as tersely described by an Alabama sage: "Most of us started in on the depression with shining faces and well-creased pants, only to wind up with well-creased faces and shining pants." And, we venture to add, some of the ladies haven't fared much better.

Only a few years ago the drilling of an oil well to a depth of a mile was considered quite an achievement, but with improved tools greater depths have been reached. Last month the deepest well in the world was completed at 13,100 feet, or about two and a half miles in California, producing nearly 3,000 barrels of oil a day.

Real mothers-in-law are permitted a certain amount of leeway in messing up family affairs but a Glasgow judge has ruled that a mere prospective mother-in-law must refrain from such activities. Hence, Mrs. G. H. Stewart, who interfered with her son's intended marriage to Miss Grace Leighton, must pay the prospective bride \$750 as damages.

Administrators' Notice

Estate of Fred Dohme, deceased.

The undersigned, having been appointed Administrators of the Estate of Fred Dohme, deceased, late of the County of Champaign and State of Illinois, hereby give notice that they will appear before the County Court of Champaign County, at the Court House in Urbana, Champaign County, Illinois, on the 1st day of August, A. D. 1938, the same being the first Monday of August, next, at which time all persons having claims against said Estate are notified and requested to attend for the purpose of having same adjusted. All persons indebted to said Estate are required to make immediate payment to the undersigned.

Dated this 18th day of June, A. D. 1938.

THE SUNNY SIDE OF LIFE

Clean Comics That Will Amuse Both Old and Young

THE FEATHERHEADS

By Osborne

—On His Accustomed Rounds

QUAK

STUBBORN, PLUS

"Say, Mack! How's that new mule coming along that you bought?"

"Very stubborn. By the way, how is your wife?"

"'Bout the same, Mack."

HIS LONG CHANCE

Wife—When I married you I thought you were a wise man!

Hubby—Well, you were the only one that did!

EASY ENOUGH

"Why don't you study your history, Jimmy?"

"That's one lesson I don't have to get, father."

"How is that?"

"History repeats itself, you know."

SIMPLE ENOUGH

Niece—Yes. Tom and I prefer the simple life—simple food and simple dress.

Old Aunt—And I suppose simple laziness is at the bottom of the whole thing.

PREPAREDNESS

Wife—Dick, the cook's away, and tonight I'm going to give you a dinner cooked entirely by myself.

Hubby—Fine, my dear! You don't mind if I invite my old friend, Doctor Smith?

SLAM! BANG!

"You were late in going home last night—did you escape the storm?"

"Ran into it right at the door—and got soaked!"

OLD TIGHTWAD

Mr. Brown—I never talk back to my wife.

Mrs. Jones—How disagreeable you must be at times.

STINGING WEIGHT

"It takes 5,000 bees to weigh a pound."

"You wouldn't say that if you had ever had one sting you."

WNU Service.

JOSHUA, or as every one called him, Josh, was big and burly with the kind of red hair that seems always to have been rumpled by a stiff breeze. He was pugnacious when there was anything to be pugnacious about, but mostly he was easy going and kindly.

Josh was as butter in the hands of Daphne Barker, but no one but himself knew it. Daphne might have stepped from a Watteau canvas, so dainty, fair and fragile she looked.

Sometimes Daphne treated the good-natured Josh with all the loveliness in the world and sometimes she seemed to regard him as just a big, solid doormat. Josh absorbed her kindnesses and forgot the rest.

Daphne had heaps of flirtations. What pretty, fascinating girl has not? But always she drifted back to the great bulwark that was Josh.

He had not worried much about these affairs until the advent, on the screen, of the handsome, soulful-eyed, Andrew Castigny. Daphne simply went mad about him. Josh was certainly the doormat for a long period.

And during these fascinated days Daphne looked at Josh's unruly red hair and his big useful hands and his broad grin with comparisons in her mind that did not bode well for Josh.

When the great announcement came over the city that there was to be a movie garden party, and that Andrew was to dance for one dollar with all and sundry who had the dollar, Daphne knew that the great moments of her life were approaching. It was to be a tremendous affair and the whole of the city would flock to see the favorites of the screen in varied forms of charitable performances.

"No," declared Josh, adamant in his decision, "I'd rather go fishing than doll up on a hot day like this. You put on your best frock, look your prettiest and have a dozen or so dances with the great Andrew." He knew Daphne was annoyed, but

SHORT SHORT STORY

Complete in This Issue

he wanted to give her a free hand. In his heart of hearts Josh feared for the first time, for Andrew seemed like a man of refinement, real charm and manliness. Josh felt that his castle of dreams might tumble that day, and he went off to fish, far up the river.

Daphne was exquisite in a silvery wisp of a dress and a wide droopy hat shadowing the deep violet of her eyes. No wonder that Andrew glowered in his partner when it came Daphne's turn to dance with him. Daphne's heart had pounded when she stepped forward to meet him, but no sooner were they actually dancing together did she become her normal, level-headed self.

Andrew was delightful. He was a most wonderful dancer. He gazed soulfully and respectfully into her eyes but—Andrew reeked of perfume and there was the faintest of makeup beneath his eyes and a becoming tint of sunburn that the sun was not guilty of on his face. Daphne smiled softly as she finished her dance with him, then fled swiftly from the garden party. She didn't take time to change her clothes but hurried to the elevated train and stayed on it as far as it went. Then she walked quickly along the river bank to a tiny grove of trees with some great rocks that lay out on the river. Josh sat there fishing, but even if a whale had been on his line, there was no heart in it. Daphne was perhaps even then in the arms of Andrew.

"Josh—dear!" Daphne hurled herself into Josh's arms. There wasn't a soul in sight and her white, silky arms went up and tightly about Josh's neck and she lifted her lips to be kissed.

The fishing rod floated down the Hudson while Daphne gloried in Josh's strong arms, his rumpled red hair and his rugged face with its broad grin.

Poughkeepsie From Indian Word

Poughkeepsie derives its name from Apokeeping, an Indian word meaning "safe harbor," or "water-fall." One of the first instruments filed in state records gives a description of a tract of land near the waterfall Poughkeepsing. Possibly, because of difficulty of pronunciation, the earlier English settlers found it easier to call the settlement Poughkeepsie. Barber and Howe, in their "Historical Collections of New York State," give the above derivation of the name, but set its organization in 1788. The first house erected on the site of the present city was built in 1702 by Myndert Van Kleeck. This book, compiled in 1841, records that the property was acquired from some of Van Kleeck's descendants by Matthew Vassar, who later founded Vassar college.

Greatest Area Yet Unexplored

"The greatest area of the earth still relatively unexplored is found in the deep oceans," writes Professor Edwin G. Conklin of Princeton.

Illinois Had Great Snow During Winter of 1831

Bitter gales whipping across frozen Illinois prairies and a curtain of snow lasting for almost six bleak months—these are the high lights of the great snow of 1831, according to records found by research workers of the Federal Writers' Project, W. P. A.

The winter of 1830-31 went down in history as perhaps the most severe ever known in the State. Many counties, notably Macon, were almost totally submerged by gigantic snowdrifts which rose to the housetops.

Pioneer families, stranded in their homes, suffered from acute food shortage. Birds and wild animals starved by the thousands and their carcasses dotted the white-blanketed fields.

Wolves, running easily over the snow crust, made short work of deer, which were trapped when their feet cut through the surface. To help these animals, Capt. David L. Allen of Decatur, according to an account, provided refuge in his cattle-pen, where he fed and protected many of them during the long winter siege.

So unusual was the great snow that early settlers looked upon it as a natural time mark for referring to both preceding and succeeding events.

LEGALS

Notice of Letting

(1) Sealed proposals will be received in the office of the Village Clerk, Broadlands, Illinois, until 9:00 o'clock a. m., July 16, 1938, for furnishing materials required in the construction of Section 2 C. S., Arterial Streets, No. 1, 4 and 5, and at that time publicly opened and read.

(2) Proposals shall be submitted on forms furnished by the Municipality which may be obtained at the office of the Village Clerk, and shall be enclosed in an envelope endorsed "Material Proposal, Section 2 C. S."

(3) The right is reserved to reject any and all proposals, and to waive technicalities. Proposal guarantee will not be required. A surety bond for the full amount of the award will not be required.

By order of H. L. Krenzien, Village Clerk.
