

# THE BROADLANDS NEWS

VOLUME 19

BROADLANDS, ILLINOIS, THURSDAY, JULY 14, 1938

NUMBER 14

## News Items of 12 Years Ago

July 2, 1926

F. A. Messman was confined to his home by illness.

Thos. Bergfield, Mark Moore and Geo. Cook attended a ball game at Danville.

Commissioner of Highways R. L. Bowman was oiling the roads of Ayers township.

Miss Helen Smith left for a two weeks visit with relatives at Brookfield, Mo.

Misses Frances Walsh and Florence Kesterson of Champaign visited relatives here over the weekend.

Members of St. John's Aid society held their regular monthly meeting in the basement of the church.

Mesdames Jennie Nohren and Anna Lill entertained the U. B. Ladies Aid at the home of the former. A kid party was a feature of the afternoon, the guests arriving dressed as children.

## N. M. Class Entertained at Rev. Turner Home

The N. M. class of the U. B. Sunday School met at the home of Misses Julia and Dorothy Turner at Longview last Friday evening.

Willis Myers had charge of the business meeting and devotions.

Refreshments of sandwiches, salad, and cool ade were served. Guests present were Mr. and Mrs. Henry Turner, Rev. and Mrs. J. F. Turner, Rev. Elza Loomis.

Members present were Mr. and Mrs. Raymond Comer, Mr. and Mrs. Willis Myers, Mr. and Mrs. Alfred Thode; Misses Helen Warner, Julia and Dorothy Turner.

## Lodge Meets Next Monday

Broadlands Lodge, No. 791, A. F. & A. M. will meet next Monday night at 7:30.

C. T. Henson, W. M.  
Carl B. Dicks, Sec.

## FEATURES IN THIS ISSUE

Was Jeff Gray really a criminal? Read "To Ride the River With," William MacLeod Raine's new Western serial.

A Bible parable for leadership in times of emergency is found by Rev. Harold L. Lundquist who uses it as the topic for the Sunday School lesson in this issue.

A shy and demure girl is a first lieutenant in the Turkish army, the only woman air force officer in the world. Read about her in "Who's News This Week" by Lemuel F. Parton.

Carter Field comments on the popular conception of the term "yardstick" as applied to TVA and the new conception advanced by New Deal sympathizers.

## Provisions of Driver License Bill Outlined

Springfield, July 12—Gov. Henry Horner gave Illinois its long-sought drivers' license law today as he allowed a measure passed by a special session of the general assembly to become a law without his signature.

The law, planned to go in effect next May 1, would affect 2,700,000 to 3,300,000 persons, it was estimated by the office of Secretary of State Edward J. Hughes.

Drivers' license cards will bear a description and the signature of the applicant on one side, and on the other, space for recording traffic troubles which could cause withdrawal of the permit.

Adults will pay a 50-cent fee and minors 15 to 18 years 25 cents—with parents' and guardians' consent—for a three-year period. The cards are not transferable.

The bill provides examinations shall be given in the applicants' counties and shall include a test of sight, ability to read and understand traffic signs, knowledge of traffic laws and actual driving ability.

Conviction of or forfeiture of bail in three charges of speeding or reckless driving or one each of manslaughter, intoxicated driving, perjury or a felony in which a motor vehicle is used, constitutes grounds for revocation by the courts of a permit for 30 days to one year.

Penalty for driving while under suspension will be five days to three months in jail, and a maximum \$500 fine or both.

The suspension remains in force until the motorist gives proof of financial responsibility to meet damages of \$5,000 for injury or death of one person, \$10,000 for injury or death of two or more persons, and \$1,000 property damage.

## Class Meets at Virgil Henson Home, Villa Grove

The Y. W. O. class of the U. B. Sunday School met at the home of Mr. and Mrs. Virgil Henson at Villa Grove on Wednesday evening.

T. W. Bergfield had charge of the business meeting. Rev. Turner and Howard Clem led the devotions.

During the social hour a contest was enjoyed by all.

Moving pictures of various points of interest were shown, including the oil fields in the southern part of the state, the State Park in Brown County, Ind., and some local pictures.

Refreshments were ice cream in fruit molds, cake, iced tea, with carnations and ferns as favors.

Members present were Messrs. and Mesdames Howard Clem, Oscar Witt, John Nohren, Thos. Bergfield, Clark Henson, Rev. J. F. Turner, Virgil Henson, and Mrs. Ed Maxwell. Mrs. Nellie Gallagher of Villa Grove was a guest.

The next meeting will be held at the home of Mr. and Mrs. Clark Henson.

## Ice Cream Supper

The U. B. Ladies Aid will hold an ice cream supper in the Astell building, Wednesday evening, July 20. Everyone invited.

All walks of life have their dangers. Ask any pedestrian.

## PLEASE!

NEW YORK—In the World of Tomorrow, there will be no such harsh, forbidding signs as "Keep off the Grass!" At least the New York World's Fair 1939 has already introduced, on the Fair grounds, signs reading merely "Please." The young lady in the picture, Miss Betty Rafferty, is regarding the sign with genuine pleasure.

"I never liked those signs 'Keep off the Grass.' It is certainly a happy and considerate thought to use the one word 'Please.' Surely the public will both understand the meaning and will appreciate the friendliness of the request."

## Farm Accident Deaths Up 94% in Five Months

During the first five months of this year, Illinois farm accident fatalities increased 94 per cent or compare to a year ago, reports the Illinois Agricultural Association department of safety.

No one cause is responsible for this disheartening showing. Rather, it appears that a greater variety of tasks proved disastrous than heretofore.

If this increase continues throughout the year, well over 300 Illinois accident fatalities will be recorded by December 31, 1938. This toll can and will be reduced only when farm folks realize that farming is a hazardous occupation and should be so considered, says C. M. Seagraves, director of the department.

## Local and Personal

Clyde and Albert Collins of Longview, and Wayne Brewer were Chicago visitors Tuesday.

Village Clerk H. L. Krenzien places the annual appropriation bill of the village in this issue.

Harlan W. Six, School Treasurer of Ayers township, publishes his annual financial statement in this issue.

A rain, hail and electrical storm visited this locality last Tuesday afternoon. Some of our citizens report seeing hailstones as large as walnuts.

Roy Zenke and family arrived Monday from California for several weeks visit with relatives, and also to look after business matters.

Miss Phyllis Bergfield of Lake View hospital, Danville, spent the weekend with her parents, Mr. and Mrs. Roy Bergfield and family.

The Geiling family reunion was held at the home of Mr. and Mrs. August Wiese in Broadlands last Sunday with 60 in attendance. Members were present from Harrisburg, Pa., Decatur, Paris and Brocton, Ill.

## Mrs. Albert Smith Given Surprise on Birthday

Miss Nellie Smith planned a very pleasant surprise for her mother, whose birthday occurred Wednesday, by inviting the L. W. class to her home for the afternoon. Mrs. Smith received several nice gifts.

As the class meeting was to be held at the Smith home the following week and only three members were absent, it was decided to hold the class meeting during the afternoon.

Refreshments of sandwiches, cookies, apple pie, iced tea, and lemonade were served.

Before leaving all sang a birthday song and wished Mrs. Smith many more happy birthdays.

Those present were Mesdames Bessie Loomis, Olive Rayl, Ora Brown, Lydia Brown, Leona Bergfield, Ella Maxwell, Lucy Sullivan, Dophia Warner, Mary Duncan, Evelyn Smith; Misses Margaret Hudson, Leone, Nellie and Blanche Smith; Mr. and Mrs. Albert Smith.

## Local and Personal

Mrs. Leanna Miller spent Sunday with friends at Decatur.

Mr. and Mrs. John Lloyd of Arcola visited friends here on Tuesday.

Miss Mamie Darnall spent Sunday with relatives at Martinsville.

Alonzo Zantow, clerk of School District No. 201, places a notice of a public hearing in this issue.

Mr. and Mrs. Harold Wiese and daughter, Marjorie, spent Sunday with friends at Buckley.

Mr. and Mrs. Alonzo Zantow and daughter, Lois, spent Sunday at Champaign.

Mr. and Mrs. Raymond Wood of Champaign spent the weekend with Mrs. Lyda Wood.

The State Bank of Allerton publishes its quarterly statement of condition in this issue.

Mrs. Floyd Block, Mrs. D. P. Brewer and son, Carlos, were Champaign visitors Tuesday afternoon.

Geo. Dohme, B. H. Thode, Sr., and Oscar Thode motored to St. Louis to attend the ball game, Sunday.

Mr. and Mrs. Fred Newkirk and son, Carl, returned Sunday from a four weeks business visit at Mt. Carmel.

Mr. and Mrs. Jess Ward are parents of a son, born July 8, at Jarman hospital, Tuscola. His name is Willard Lemar. This is their third child, all being boys.

Mrs. Floyd Williams underwent a major operation at Jarman hospital, Tuscola, Monday. She is doing nicely, states Mr. Williams. Mrs. Williams was formerly Miss Eileen Brummett.

Mr. and Mrs. D. P. Brewer entertained at supper Wednesday evening in honor of their son Carlos' eighteenth birthday anniversary, the following guests, Leslie Cooper and family, Tuscola; Mr. and Mrs. Floyd Block, Arthur Frick and Andrew Henson.

## Mrs. Elmer Chafin is Given Birthday Dinner

A dinner was held in honor of Mrs. Elmer Chafin at the Chafin home, Sunday, the occasion celebrating her birthday anniversary.

A bountiful dinner was served and in the afternoon refreshments of ice cream and cake were enjoyed.

Those present to enjoy the day were Mr. and Mrs. Smith Shaw, Miss Hazel Hillary and Forrest Neibarger, of Brocton; Mrs. Stella Keran, Bob Craig and family, Mrs. Minnie Taylor, Mrs. John Hildreth, Newman; Mr. and Mrs. Kirt Moore, Hoop-eston; Mr. and Mrs. Dwight David, Dale David and family, James David and family, Wayne Dalzell and family, Max Seeds and family, Mr. and Mrs. Bert Seeds, Bruce David, Miss Louise Duncan, Mrs. Mary Fitzgerald, Walter Schumacher, Miss Alice David, Harold Noblitt, Mr. and Mrs. Elmer Chafin.

## Mrs. Hannah Luth Entertains Aid Society

The Ladies Aid Society of the Emmanuel Lutheran Church met at the home of Mrs. Hannah Luth on Thursday afternoon of last week.

The president, Mrs. Lena Biesterfeld, had charge of the devotionals and business meeting, after which the afternoon was spent in social conversation.

The hostess served sandwiches, pickles, home made ice cream, cup cakes and coffee.

Several guests were present, and the following members: Mesdames Marie Bundy, Alvena Sy, Lena Seider, Amelia Smith, Elsie Cress, Josephine Schweinecke, Freda Luth, Ida Windler, Esther Rothermel, Lena Biesterfeld, Bertha Kracht, Lena Nonman, Minnie Wienke, Flora Mohr and Hannah Luth.

The next meeting will be held at the home of Mrs. Bertha Kracht.

## Pension Board Okehs 12, Rejects Five Applications

The county old age pension board Tuesday afternoon approved 12 new applications for pensions. Five applications were rejected.

Those rejected were because the applicants have sufficient incomes to keep themselves, or relatives able to contribute to their support.—News-Gazette.

## Picnic at Decatur

Members of the Bridge Club held a picnic at Lake Decatur, Sunday. Those present to enjoy the day were Ray McClelland and family, Mr. and Mrs. George Cook, and nephew, Billy Barracks, Mr. and Mrs. John Nohren, Kenneth Dicks and family, Mr. and Mrs. Harold Anderson, Mr. and Mrs. Ed Nohren, daughter, Wanda, and Miss Inez Schweinecke.

Farmers are busy cutting oats and wheat in this vicinity. It is thought the oats will yield between 35 and 40 bushels to the acre. Wheat will average about 25 bushels.

Beans are looking exceptionally good at this time, as is also the corn crop, although some corn had to be replanted on account of cutworms.

## Miss Phyllis Stuebe Given Birthday Party

Miss Phyllis Stuebe was pleasantly surprised last Sunday evening when a number of friends gathered at her home to remind her of her birthday.

The evening was spent in playing bunco and outdoor games, after which refreshments were served.

Those present were the Misses Marcelle Nohren, Juanita Luth, Wilma Messman, Betty, Hazel and Esther Boyd, Edna Schumacher, Minnie Strain, Dortha and Phyllis Stuebe; Messrs. Joe Douglas, Wayne Nohren, Floyd Magill, Lawrence Sy, Gordon Hales, Arthur Frick, and Mr. and Mrs. Arnold Smith and son Roland.

## Mrs. Forrest Dicks Entertains for Guest

Mrs. Forrest Dicks of Allerton entertained several friends at a Bridge-luncheon on Wednesday afternoon in honor of Mrs. McLinn Collom, who is a guest of Dr. and Mrs. T. A. Dicks.

Those attending from Broadlands were the guest of honor, Mrs. Collom, Mrs. T. A. Dicks, Mrs. Kenneth Dicks, Mrs. Carl Dicks, Mrs. George Cook, Mrs. Oscar Witt.

## Grist Mills Once Pivot of Illinois Economic Life

The grist mill was once the pivot of Illinois economic life. Famous mills, such as the Perkins and Alger mills in Tazewell County and McKingston's mill near Groveland, in Woodford County, have been the subjects of research by workers of the Federal Writers' Project, WPA, who have compiled a guide book to the State.

As late as 1860, groups of early settlers would periodically fill their grist bags, tie them on the back of their saddles or on pack mules and proceed to mill together. The trip often occupied days and was one of the few occasions when the pioneer ventured to leave his home overnight.

Often horses that had carried their owners to the mill would be needed to help furnish power for the grinding. One settler wrote in his diary that he had been forced to leave his horse at the mill three days before the miller could grind his corn. Such conditions were particularly true at McKingston, Ohio and Panther Creek mills in Woodford County where there were no streams available for power. The McKingston mill is known to have served an area of more than fifty miles, and stories of farmers bringing produce from ninety miles away are not uncommon. Both the Perkins and Alger mills were water propelled since they were located on the Mackinaw river. Settlers could bring their grain to these mills by keel or flatboats.

## Market Report

Following are the prices offered for grain on Thursday in the local market:

No. 2 new hard wheat	61c
No. 2 new white corn	50c
No. 2 new yellow corn	50c
No. 3 new white oats	20c
No. 2 new beans	73c

Mrs. Helena Ragan and daughter of Hazel Dell are guests of Mr. and Mrs. Walter Logan.

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON

NEW YORK.—As a token of good will, President Kemal Ataturk of Turkey sends his bomb-tossing adopted daughter on a flight over Greece and the Balkans.

Feminine Bomb Tosser Has Good Aim Kurds, having out-scored veteran male fliers in a recent work-out.

When the timid and demure Turkish women started coming out from the harem, they kept right on going.

Turkey's "Flying Amazon" is Sabiha Gueckchen, twenty-four-year-old daughter of a Turkish army captain who was killed fighting Greeks in 1921.

An admiring woman correspondent described her as "shy and demure," with quick recourse to her "modish little vanity case," as she climbed from her plane after a hard day's bombing.

Sabina Best Stunt Flyer, Says Mentor She is a first lieutenant in the Turkish army, the only woman air force officer in the world.

Her French flying instructor says she is the most gifted woman acrobatic pilot in the world.

It is said no aviator in Turkey can match her in diving and stunting, but she shrinks modestly from all such, possibly unfeminine, exhibitionism, and sticks to her humdrum bombing tasks.

HERE is another diverting little news note, in sharp contrast, however, on the emergence of the modern woman. At her home in New York, Mrs. Lewis Stuyvesant Chanler presents prizes of \$750 to the winners of the annual "Intellectual Olympics," conducted by her new history society.

Happily the flying bomb put is not included in her decathlon.

Belle Gives Up Society For Religion She has been for many years a diligent and earnest advocate of peace and brotherhood, working through the international Bahai movement, of which she has long been a leader.

Her husband, now retired, is a great-grandson of John Jacob Astor, and a former lieutenant governor of New York. He is a big, gray, silent man, walking a small white poodle dog, rarely seen at his wife's salon, but a loyal partner in her endeavors.

The flaming-haired Valeska Suratt was an instrument of fate in the life of Mrs. Chanler. They were jointly engaged in a Hollywood script enterprise when Miss Suratt introduced her to Mirza Ahmed Sahrab, descendant of Mohammed and a disciple of the Abdul Baha.

DOWN in Peru, this writer knew some dilatory natives who frequently used a word which meant, "not tomorrow, but day after tomorrow and may be not then."

Dick Gets Degree 20 Years Late From ancient parchments, Trinity college dons lift the reverse expression—"nunc pro tunc," which means "now instead of then."

Baseball moguls could now say "nunc pro tunc" and hand Fred Merkle that run he didn't get in 1908. If the custom gets going, it might open the way for some European debt payments.

Mr. Barthelmess is one of the thinning line of the stars of the old silent screen who remain in the public consciousness. His mother was Caroline Harris, an actress of the Biograph days.

SEEN and HEARD around the NATIONAL CAPITAL By Carter Field

WASHINGTON.—A new idea of the "yardstick" as applied to TVA, Bonneville and other government power projects is being discussed in New Deal circles, with the positive statement in some quarters that it is really what the President and David E. Lillenthal mean when they use the word.

First, let's consider what has been the popular conception—what congress thought it was when it was voting the money for TVA. Stated briefly, the idea was that it would be demonstrated what the price of electricity should be to small consumers—literally a yardstick to determine whether rates charged by privately owned utilities were fair.

This is the only explanation of the "yardstick" that has ever been publicly considered. It is the only one congress ever thought of. It is what the average, intelligent, well-informed person thinks it is all about.

But let's look at this new conception, advanced now by people in sympathy with New Deal objectives and particularly in sympathy with the government electric projects.

According to this theory, the whole purpose is to demonstrate to the country, and to the electric industry, that if power is produced in enormous quantities, and offered to ordinary consumers at very low rates, consumption will leap up to an unbelievable extent, and hence the reduction of rates would be the soundest thing, economically, that the electric companies could do.

Note in this connection that Lillenthal was actually attacked by Arthur E. Morgan for having used high pressure methods to induce people to use more electricity than Morgan thought they could afford.

Forced Prosperity Note that Lillenthal has repeatedly insisted that the privately owned electric systems in TVA territory had literally had prosperity forced upon them by TVA competition—that is, by being forced to reduce their rates.

Note that in Bonneville what seemed to the electric industry a very bad policy, from the purely economic standpoint, was laid down. In this case the stream flow is such that there is an enormous quantity of constant power, that is, power which is available for 24 hours a day, and cannot be economically stored during the hours when the consumption might be low.

But emphatically the government does not want this. It wanted wide distribution. It was to give the household consumers for hundreds of miles around the benefit of this cheap power.

Certainly, one New Dealer pointed out, Lillenthal must have been ignoring the old yardstick conception when he reported to congress recently on the allocations as to cost of the three first TVA dams as between power, navigation and flood control.

Marked for Slaughter The latest development in the Maryland "purge" situation is that Senator George L. Radcliffe, who does not come up for re-election until 1940, is marked for the slaughter by the supporters of Representative David J. Lewis.

What happened was that Radcliffe, after announcing some time back that he was for the renomination of Senator Millard E. Tydings, later accepted the post of campaign manager for his colleague.

This seems to have taken the Lewis people by surprise. In fact, they are indignant. They are saying that Radcliffe has now shown himself in his true colors, after having posed as a New Dealer since his election to the senate in 1934.

Actually it should not have surprised any one. Again and again, while the Tommy Corcoran crowd was looking for somebody to run against Tydings, they would go to Radcliffe for advice. Always Radcliffe told them that he was for Tydings.

So while it may not have been figured in advance that he would take the chairmanship of Tydings' campaign, it should not have surprised the Lewis people that Radcliffe should be sitting in Tydings' corner.

Incidentally, the Lewis publicity indicates a rather amazing ignorance of the last few years in Maryland politics. One need only

go back to 1934 to figure that Radcliffe would be very unlikely to take any public step against Tydings.

The Case of Ritchie At that time Governor Albert C. Ritchie was still alive and active. In fact, he was the undisputed boss of the Democratic party in Maryland. He was serving his fourth term as governor, and aspired to a fifth term, although no governor before that had ever succeeded in getting two terms.

Tydings, who had been a loyal lieutenant to Ritchie, knew that his chief had slipped in personal strength due to a combination of factors. One was that too many people were getting to think that Ritchie should be satisfied with four terms, that the honors should be passed around. Another was that Ritchie had made many enemies in the Eastern Shore section of Maryland by using the militia to break up mobs in a threatened lynching.

Still another was that, rightly or wrongly, a lot of people blamed Ritchie for the fact that some of the banks in Maryland had gone sour during the dark days of early 1933. So Tydings urged Ritchie to run for senator instead of governor.

No one questions that Ritchie could easily have been elected senator. The term of a Republican was expiring, and no one would have opposed Ritchie for the Democratic nomination.

In an attempt to force Ritchie's hand Tydings brought out Radcliffe for governor, as a sort of trial balloon. Ritchie was unmoved, ran for governor and was defeated by Harry W. Nice.

Where Will It Lead? Although the intention was to put the conduct of the anti-trust investigation on a high plane, administration critics say that too much weight is put on the preliminary meetings between big business executives and the New Deal prima donnas.

Where that path will lead is by no means certain as half a dozen senators and representatives, including Senators William E. Borah and Joseph C. O'Mahoney, have their own ideas as to how to proceed. This "economic" commission has not yet organized.

Participation by congress in the inquiry was not desired by President Roosevelt, and the independent attitude of congressional members is fair assurance that it will not be dominated by the White House.

In fact, time and again Senator O'Mahoney, although an original Roosevelt man "Before Chicago," and a member of Roosevelt's "little cabinet," as assistant postmaster general, before his coming to the senate, has shown his independence.

His difference with the President on the Supreme court issue is still remembered, and with some bitterness, at the White House.

Congressional members have not been present at the meetings arranged between administration officials and various members of Secretary of Commerce Daniel C. Roper's business advisory council.

Jupiter was left on guard while the others carried the first load to the cottage. A second trip conveyed all the treasure to Legrand's cottage. Poe and Legrand estimated the wealth at a figure far less than the actual value.

That first evening beside the fire, he noticed the skull on the paper which Poe returned to him. The skull had not been on the paper when he had drawn the scabbard.

That first evening beside the fire, he noticed the skull on the paper which Poe returned to him. The skull had not been on the paper when he had drawn the scabbard.

LITERARY GEMS Poe's Tale of 'Gold Bug' Is Very Realistic

By ELIZABETH C. JAMES

AT THE time Edgar Allan Poe was living at Charleston, S. C., his friend, one Legrand, was living on Sullivan island, just off the mainland.

One night in the fall of the year, when Poe was visiting at Legrand's cottage, he found his host greatly excited about a rare scabbard that he had found on the beach. Unfortunately he had lent the specimen to an officer at the nearby army post, but he drew a picture of the bug and handed the drawing to Poe.

Elizabeth James

A few days later Poe received a summons to come at once to the cottage. At first Legrand appeared preoccupied, then he confided a mysterious plan, stating that they must leave in the late afternoon to carry it out.

Soon they were in a desolate place where the wasteland had never been reclaimed. Legrand indicated the route and Jupiter cut the path through the luxuriant undergrowth.

Legrand gave his orders: Jupiter was to climb the gigantic tree, to count the limbs, and to go out as far as he could on the seventh limb.

Legrand smiled with satisfaction. "Now drop the bug down through the left eye!" Explanations were necessary to indicate the left eye, but presently the gold bug slowly descended.

Jupiter, I'll kill you!" cried Legrand suddenly. "Which way was that skull facing?" The skull was facing the tree, so the bug had indeed been put through the wrong eye.

Legrand had this fiery touch upon her life. Barak, while undoubtedly a man of ability, evidently did not have it.

Gave Deborah and Barak a great victory, but note that it was God and not man who brought about the defeat of Jabin (Judges 4:15, 23). It was a complete victory and the enemies of Israel troubled them no more for many a day.

Dr. Wilbur M. Smith aptly points out that we should look "upon these conflicts in the book of Judges as certainly symbols of the great conflict that every Christian knows as he wrestles, not with flesh and blood, but against principalities and powers, against the world-rulers of darkness and spiritual wickedness in heavenly places.

It is not he that reads most, but he that meditates most on Divine truth, that will prove the choicest, wisest, strongest Christian.—Bishop Hall.

The warm loves and fears, that swept over us as clouds, must lose their finite character and blend with God, to attain their own perfection.—Emerson.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

Lesson for July 17

DEBORAH: EMERGENCY LEADERSHIP

LESSON TEXT—Judges 4:1-9, 12-14. GOLDEN TEXT—Who knoweth whether thou art come to the kingdom for such a time as this?—Esterh 4:14. PRIMARY TOPIC—Why Deborah Sang. JUNIOR TOPIC—Why Deborah Sang. INTERMEDIATE AND SENIOR TOPIC—Ready for Emergencies. YOUNG PEOPLE AND ADULT TOPIC—Emergency Leadership.

"Every man did that which was right in his own eyes." Such is the divine summary of what was wrong in Israel during the period of the judges (Judges 21:25). "There was no king in Israel," no competent and inspiring leadership.

I. A People in Disorder (vv. 1-3). Any people that forgets God and begins to live after the dictates of the flesh will at length come to the place where some strong man with "chariots of iron" will rule over them.

II. A Leader Called of God (vv. 4-9). God always has His man ready for the hour of need—in this case His man was a woman. Glorious indeed is the record of faithful and capable womanhood in annals of God's work on earth.

III. A Divine Victory (vv. 12-14). God gave Deborah and Barak a great victory, but note that it was God and not man who brought about the defeat of Jabin (Judges 4:15, 23).

Value of Meditation It is not he that reads most, but he that meditates most on Divine truth, that will prove the choicest, wisest, strongest Christian.—Bishop Hall.

Attaining Perfection The warm loves and fears, that swept over us as clouds, must lose their finite character and blend with God, to attain their own perfection.—Emerson.

The warm loves and fears, that swept over us as clouds, must lose their finite character and blend with God, to attain their own perfection.—Emerson.

Attractive Designs For Sheer Cottons

THESE pretty styles will make you and your daughter feel fresh and cool, and look smart and charming. They have a summery, dressy effect, and yet they are not fussy. Make them yourself, and have something very individual as well as fashion-right.

Afternoon Dress With Shirring Shirring is one of the smartest details you can choose—it's used just this way in new and expensive models—on the shoulders, to give fullness over the bust, and at the sides only of the skirt.

your dress has animation and grace, and yet the front and back are plain and won't crush and muss when you sit down. In dimity, voile, organdy, handkerchief lawn or mull, with a youthful tie belt and frills of lace, this will be the most flattering frock you own.

Bolero Frock for Little Girls. With or without the sleeveless bolero, this dress is a perfect darling for little girls! It's so simple and yet it has loads of style, with its very puffed sleeves, very full skirt, and little round collar.

The Patterns. 1505 is designed for sizes 4, 6, 8, 10 and 12 years. Size 6 requires 2 3/4 yards of 35 inch material for dress alone.

1545 is designed for sizes 12, 14, 16, 18 and 20. Size 14 requires 4 1/2 yards of 35 inch material. Three yards of lace edging for neckline and sleeves. One and one-fourth yards ribbon for belt.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 241 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

NERVOUS?

Do you feel so nervous you want to scream? Are you cross and irritable? Do you avoid those dearest to you? If your nerves are on edge and you feel you need a good general system tonic, try Lydia E. Pinkham's Vegetable Compound, made especially for women.

Brevity and Truth Brevity may be the soul of wit, but it is very far from being the soul of truth.—Holmes.

PILES AND OTHER RECTAL TROUBLES Successfully Treated! NO PAIN! NO DANGER! Work performed by leading Chicago Proctologist, Surgeon and Fluorist, Price for Examination, \$2.00.

Sentinels of Health Don't Neglect Them! Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities.

Doan's Pills The warm loves and fears, that swept over us as clouds, must lose their finite character and blend with God, to attain their own perfection.—Emerson.

## West Pointers Learn About Army Bombers

A group of cadets of the new first class at the United States Military academy inspecting one of the new Douglas bombers at Mitchell field, N. Y., where the class spent a week studying aviation methods as part of their regular summer training.

### 12-Year-Old Girl Makes Geese Pay

Fay Jacques of Manchester, Maine, though only twelve years old is said to have the largest flock of geese in New England. She started six years ago with a small flock given her by her father, E. C.

Jacques, and now hires a man to help her care for the 500 goslings she raises in a season. Her ambition is to educate herself, then buy a farm and go into business. She expects the money she makes from raising geese to pay the cost.

### Princess Beatrix Makes Her Bow

Princess Juliana and her consort, Prince Bernhard, proudly display their infant daughter, Princess Beatrix, who may one day rule the Dutch empire, at a reception at Soestdijk palace in The Hague for aged persons residing in the surrounding district. Many of these had an opportunity to see the little princess.

### Jap Commanders in China War

Gen. Hiseichi Terauchi (left, facing camera), commander-in-chief of the Japanese forces in North China and Gen. Shunroku Hata, commander-in-chief of the Japanese forces in central China, are shown at a meeting after the Nipponese had captured Suchow.

### BEACH QUEEN

Esther Walker, eighteen-year-old beauty of Oceanside, Calif., won the title of "Miss Queen of the Beaches" at a contest at Oceanside in which more than 100 comely maidens from Southern California participated.

### Anti-Freckle Helmets Baffle Sun

Prepared to repel the effects of too much sun are these five mermaids on the beach at Atlantic City, N. J. The oil-skin beach helmets are designed to protect them against freckles. From left to right the girls are: Betty Lewis, Peggy Murland, Helen Rink, Helen Price and Jean Cowan.

# WHAT to EAT and WHY

## C. Houston Goudiss Recounts The Miracle of Milk

Noted Food Authority Explains Why It Is the Cheapest and Most Nearly Perfect Food

By C. HOUSTON GOUDISS  
6 East 39th Street, New York City.

OF ALL the foods known and used by man, milk is supreme. It is a miracle of perfection—a veritable elixir of life.

Milk has powers possessed by no other food. It builds sturdy bodies for infants; strong bones and sound teeth for growing children; helps to maintain vitality in adults; and to delay the onset of old age.

It contains a greater assortment of nutritive materials than any other single food. It is the foundation of every balanced diet. Considering the services it performs for mankind—from infancy to old age—it is the cheapest food we have.

Milk is so many-sided that I always think of it as the Benjamin Franklin of foods. It is a vast treasure chest of nutrients—the most complex product of nature's chemistry. It contains nearly every chemical element of the body itself, in proportions adapted for quick and easy assimilation.

Milk fulfills six essential requirements of a perfect diet.

First: It supplies carbohydrate and fat for heat and energy.

Second: It furnishes protein that is suitable for building new tissues and repairing the millions of cells that are worn out daily.

Third: It yields minerals which build bones and teeth and regulate the subtle internal processes of the body.

Fourth: It contains every known vitamin in some degree and is abundantly supplied with the vitamins that are necessary to growth, to the smooth running of the body machine, and to the prevention of many types of infection.

Fifth: It contains water, to act as a solvent, a carrier and regulator.

Sixth: It is easily digestible.

This brief summary helps to explain the unique place of milk in nutrition. Think of it! In one food, we find protein of the highest type; carbohydrate and fat; all the vitamins; every one of the minerals demanded by the human body; water; and an easy digestibility that readily changes these ingredients into vigorous life.

#### The Biggest Food Bargain

We occasionally hear the charge that milk is too high in price—that it is a luxury to afford enough of this master food to supply a quart daily for every child—at least a pint for each adult. That is ridiculous! The cost of milk is much cheaper than the cost of illness. And milk is not a luxury, but an indispensable necessity.

I contend that no homemaker can afford not to buy milk in adequate amounts—that if she desires health, efficiency and longevity for her family, she must provide a sufficient amount of milk before she purchases any other food.

Humankind needs milk as the flowers in the garden and the

### DO YOU KNOW HOW TO Balance Your Diet?

This Free Chart Makes It Simple as A-B-C  
Helps to Safeguard Health

Planning a balanced diet will cease to be a puzzle if you send for the Homemaker's Chart for Checking Nutritional Balance, offered, free, by C. Houston Goudiss.

It lists the foods and the standard amounts that should be included in the daily diet, and includes skeleton menus for breakfast, dinner and lunch or supper, to guide you in selecting the proper foods in each classification.

A postcard is sufficient to bring you this valuable aid to good menu planning. Just ask for the Nutrition Chart. Address C. Houston Goudiss, 6 East 39th Street, New York City.

grains in the field need the blessing of rain.

Deprived of milk, children develop a multitude of ills. They become thin and weak; their resistance is low; they fall easy victims to the germs of disease; there is small hope of their reaching normal manhood and womanhood.

Nor is milk only a food for children. It is likewise essential for adults who desire to live longer, happier, and healthier lives—to fortify their bodies against the assaults of disease—to retain or regain mental and bodily vigor. It is indeed a Fountain of Youth!

#### Milk for Pep and Power

A quart of milk daily supplies from two-thirds to three-fourths of the total calories required by a year-old child. For a five-year old, it provides about half the day's fuel requirements, and for a ten-year old, one-third. Even a moderately active man could obtain one-fourth of his energy requirements from a quart of this precious fluid. It is also interesting to note that five-eighths cup of milk is equivalent in energy value to one and one-third eggs, or two and one-fourth ounces of lean beef.

A quart of milk yields more than an ounce of pure protein of the highest quality. Moreover, nutrition authorities hold that under normal conditions, it is the most completely digested and absorbed of all food proteins.

#### Milk for Minerals

As a source of calcium, milk is indispensable. Without milk, it is practically impossible for the body to obtain enough of this captain of the minerals for normal skeletal development.

It has been estimated that when the calcium requirement is met through the use of milk, the need

### Send for This Free Chart

Showing which Foods are **ACID** and which **ALKALINE**

One of the principles in planning a balanced diet is to include at least enough alkaline, or base-forming foods, to balance the acid-forming foods.

To help you distinguish the foods that belong in each group, C. Houston Goudiss offers to send a free chart listing the principal acid-ash and alkaline-ash foods. Address C. Houston Goudiss, 6 East 39th Street, New York City.

for phosphorus will also be adequately provided.

Though milk is not as good a source of iron as of calcium and phosphorus, the iron is present and in a form that can be easily utilized by the body.

#### Milk for Vitamins

Milk is so rich in vitamins A and G, that the addition of a quart of milk daily to a good mixed diet practically guarantees against a deficiency of either of these precious substances which promote growth, help build resistance to disease, prolong the prime of life, and help to ward off old age. It also furnishes a considerable amount of vitamin B, which promotes appetite, aids digestion and helps to prevent a nervous disorder.

Milk contains a relatively small amount of vitamin D, but this can be remedied in both bottled and evaporated milk by irradiation, or the addition of a vitamin D concentrate. It is less dependable as a source of vitamin C than any other vitamin, as the amount it naturally contains varies with the diet of the cow and is reduced by pasteurization or evaporation. This deficiency is easily made good, however, by adding to the diet fresh fruits and fruit juices and raw leafy vegetables.

#### In Praise of Milk Producers

As milk is man's finest food, the men who are occupied with its production are engaged in the world's most important pursuit. They labor to provide the nation with a pure, safe, clean supply of the food that makes life worthwhile for children and helps to prolong life for adults.

Let no one say that milk is expensive. Rather let every homemaker come to realize that this magnificent food would be CHEAP AT ANY PRICE!

## Add Beauty to Your Linens

Pattern 6106. A quick "beauty treatment" for your linens—this easy-to-crochet border and simple embroidery motif! Pattern 6106 contains a transfer pattern of two motifs 6 by 11 inches, two motifs 4 by 12

#### Important Counties

Six counties of this country—Cook in Illinois, Los Angeles in California, Philadelphia in Pennsylvania, Wayne in Michigan, New York in New York and Cuyahoga in Ohio—contain one-tenth of the population of the United States and produce one-fourth of the business pay roll.—Collier's.

inches; and two motifs 5 1/4 by 6 inches; chart and directions for crochet; color schemes; illustrations of stitches; material requirements.

To obtain this pattern, send 15 cents in stamps or coins (coins preferred) to The Sewing Circle, Household Arts Dept., 259 W. Fourteenth St., New York City.

Please write your name, address and pattern number plainly.

### It Was Quite Natural for the Justice to Inquire

Mr. Justice Dunne, of the New York State Supreme court, was presiding over an action for damages, when came this dialogue:

"Did you see the plaintiff knocked down?"  
"Who, me?"  
"Yes, you."  
"No, not me."  
"Did you see the defendant at all?"  
"Who, me?"  
"Yes, you."  
"No."  
"Then why are you here?"  
"Who, me?"  
"Yes, you."  
"To see justice done."  
"Who, me?" asked the judge.

**Travel and Learning**

Soon the vacation season will be here, and many thousands of persons will visit various interesting places for the first time, some in our own country and others abroad. While recreation will be the principal aim of many, a majority will expect to learn something of permanent value during their travels.

In order that one may derive the most benefit from his travel experiences, it would be well to find out as much as possible about the places to be visited ahead of time. Then, when he actually sees the places and objects of which he has studied, he will get a more lasting impression of their significance.

Information gained from the guides and handbooks during one's travels is valuable, but it is generally superficial, and lacking in the historical background which is necessary for a full understanding, and appreciation of the famous places where history has been made.

The educational value of travel depends largely upon knowing beforehand what one wants to see, and why.

**The World's Autos**

There is an automobile in the United States for every 4.3 persons, and nine out of ten farms have a motor car. Approximately 70 per cent of all the automobiles in the world are owned in this country.

Of the total registration of 42,400,000 automobiles in the world at the beginning of 1938 the American people accounted for 29,650,000.

In this country the ownership of a car has become a casual affair. But elsewhere in the civilized world, with but few exceptions, the ownership of a car is a mark of wealth or privilege.

Germany has one car to every 58 people. Italy has one to every 105 people. Japan has one to every 526 people and Soviet Russia has one to every 686.

It is due to the American system which encourages freedom of private industrial enterprise, thus increasing production, lowering prices, providing jobs for workers and raising the living standard, that the people of this country have such a high percentage of automobile ownership.

Only in the English-speaking countries where the living standard is comparable to that of the United States is automobile ownership widespread. Canada has one car to every nine people and Australia has one to every ten. In the United Kingdom there is one car to every 22 people.

**Illinois Imported Ice in 1876**

The unusually mild winter of 1875-76 brought very little ice on the Illinois, Mississippi, Sangamon and other rivers, and ice companies were unable to stock their warehouses, research workers of the Federal Writers' Project WPA, have learned. In Cairo the shortage was felt as early as February, 1876, and distributors contracted for 1,000 cars to be shipped from Dubuque, Iowa. Other cities, including Chicago, were also forced to import ice.

**Ice Cream Supper**

The U. B. Ladies Aid will hold an ice cream supper in the Astell building, Wednesday evening, July 20. Everyone invited.

All walks of life have their dangers. Ask any pedestrian.

**Sidelights**

John Jones, a colored brick mason of Charlotte, N. C., didn't mind a bit when he found seven nice pullets had been stolen from his henhouse. The thief had dropped a pocketbook containing \$60.

Little Nancy Hurley, 6-year-old daughter of the governor of Massachusetts, has an unusual playmate of whom she is very fond. He is a husky state trooper, detailed to guard her after a kidnap threat.

The man who made America dictionary-conscious now works for Lowell Thomas, assisting in the preparation of scripts for the famous commentator's radio broadcasts, according to Newsweek. He is Prosper Buranelli, inventor of cross-word puzzles.

Miss Olene Wooten of Glasgow, Ky., had Haiden Basil arrested for wrecking her car. At the police station Basil asked the complainant to talk it over with him. In a few minutes Miss Wooten requested permission to withdraw the complaint, explaining that she and Basil were going to be married.

Miss Loreen MacDonald, 18-year-old Canadian telephone operator, will shortly marry Daniel G. Dodge of the famed automobile family. The engagement was announced by the mother of Dodge, who is now 20, and who is the beneficiary of a trust fund of more than nine million dollars. Miss MacDonald's pleasing voice proved to be her fortune.

**Interesting Notes**

Georgia produces one-half of the country's turpentine.

No Florida town is more than 75 miles from salt water.

More than 24,500,000 American families own radio sets.

The American Museum of Natural History in New York was founded in 1869.

J. W. Hickie, 83, of Clarksville, Iowa, has lived on the same farm for 82 years.

Ninety-year-old John Johnson of Pattonburg, Mo., was recently ill of the measles.

Following a trail of ashes, police found the thief who had stolen a hot stove from the home of Edith Hawton in Boston.

Isabelle Neith of Oxford, Eng. is recovering her hearing following the removal of a large fly from her ear.

Mr. and Mrs. H. W. Smith of White Plains, N. Y., agreed to pay their son's alimony of \$15 a week to his estranged wife.

A thief entered the Mossburg cemetery toolhouse in Bluffton, Ind., and stole lawn mowers, spades, shovels and rakes.

After Angela Cassella of Philadelphia dug up what he thought were 337 silver dollars in his garden, he was chagrined to learn that they were made of lead.

Farmers of Tulsa County, Okla., turned to the sheriff for help in fighting chicken thieves, who gased their chickens so they could steal them without any noise.

**Historic Hoaxes**  
 By Elmo Scott Watson

**Wolf! Wolf!**  
 FOR several years, just as regularly as winter came around, press association dispatches carried the news about hunters up in Canada having to fight for their lives against packs of ferocious timber wolves. In fact, a winter without such a wolf story was like a winter without Christmas and Santa Claus. And strangely enough all of these stories came from the town of Algoma.

And then when the whole nation had become thoroughly "wolf-conscious" (and "Algoma-conscious") J. W. Curran, editor of the Sault Ste. Marie Daily Star, confessed that it was all a hoax. He had attempted to interest outside newspapers in the resources of the Algoma wilderness and had failed. So he turned to wolves to help him. The non-existent ferocious beasts turned the trick.

Tourists were attracted to the area in increasing numbers. Even the discovery there of low grade iron ore deposits as the result of the provincial government's offering a bounty for developing iron ore beds is credited to the wolf campaign.

But after awhile Mr. Curran became tired of hearing his paper called the "Wolf Gazette." He had accomplished his purpose and in an editorial he exposed the hoax. He said, "Any man who says he was et by a wolf is a liar." Then he offered a \$500 reward for anyone who could claim that an Algoma man had been attacked by a wolf. That reward is still standing for no one has yet tried to collect the \$500. There are wolves in that region but it seems that they're not as fierce as the "Wolf Gazette" once claimed they were.

COPYRIGHT WILLIAM MACLEOD RAINE—WNU SERVICE

CHAPTER IX—Continued

—15—  
"What has Lou got to do with it?" Howard asked.

"He's one of the gang that did this. We caught him. He's our prisoner now. A hostage, you might say. If anything happens to Miss Ruth, it's all off with him."

"What d'you mean, he's one of the gang that did this? Lou doesn't go around carrying girls up into the hills, if that's what happened, though so far I can't make head or tail of it." Howard looked reproachfully at the L C man. "You hadn't ought to talk that wild, lawless way, Dan. About stringing up Lou, and crazy talk like that. Be reasonable. First off, tell us the story. Begin at the beginning. Let's hear what happened. . . . Will you have a drink?" He pushed the bottle toward Brand.

"I will not," Brand said curtly. "No need to begin at the first of it, Sherm. You know that better than I do. Through yore spies you found out some Mexican smugglers were going to run silver through Live Oak canyon to Tough Nut. You sent five of yore gang out to waylay them."

"Wa-ait a minute, Dan." Howard raised a fat hand to stop him. "No such a thing. Some of the boys headed for Tough Nut to see the elephant. They may have gone by way of Live Oak canyon. I wouldn't know about that."

"It isn't more than 40 miles off the direct route to Tough Nut," Brand said contemptuously. "Don't try to load me, Sherm. I know what that outlaw bunch went to Live Oak for. We found two Mexicans they had rubbed out and the pack-mule with the silver. Yore crowd was still shootin' when we took a hand."

"The Mexicans must have attacked them," Howard protested. "That would be the way of it."

"Sure. When a brush rabbit gets nerve enough to spit in the eye of a rattlesnake. Like I said, Lou is our prisoner. That boy hasn't any sand in his craw. He wilted right off and blabbed all he knew. Don't waste my time trying to lie. Here's the nub of it. Two of yore men slipped away from us up a side canyon. They cut across to the L C ranch-house and picked up Miss Ruth. After she had rustled grub for them, they took her with them into the hills."

"What two men?"  
"Morg Norris and Kansas."  
"I'm not responsible for what that killer Morg Norris does," the fat man burst out. "You know that, Dan. He's a bad hombre. Long ago, soon as I saw what he was, I washed my hands of him."

"Lee holds you responsible. So do the rest of us. You can't get away with that, Sherm. Every decent man in this country will be against you in this thing. If that devil Norris hurts Miss Ruth, you'll be in a jam. Don't think anything else for a minute."

The big moon face of Howard was pallid. The reverse at Live Oak was bad enough. Not much chance to play innocent with Lou a prisoner. But this crazy adventure of Morgan Norris was ruinous. Sherm did not know which way to turn. Lee Chiswick hated him, anyhow. The oldest son of the L C ranchman had been a private in the Texas Rangers and had been killed while on duty. The father of the dead boy had always suspected Howard of betraying the youngster to his death, though he had never been able to prove it. If this girl was injured, Lee would go hog wild. His revenge would never stop at Norris—not even at Lou Howard.

"We want to be reasonable, Dan," he said. "I wouldn't have had this happen for all the money in the world—if it has happened. I can't believe it. Morg is a good-looking fellow. Maybe he just persuaded her to ride along a ways. If it was Morg. We want to be sure of that."

"Morg left a note," Brand said quietly. "Besides, the girl who works at the ranch got away and told us. What's the sense in trying to fool yoreself? If it is yoreself and not me you're trying to load, I'm here to tell you to get busy. Send some of yore scalawags out to shoot down Norris. Get Miss Ruth back somehow safely. If you don't, you're out of luck, Sherm." The face of the foreman was harsh and grim.

Howard mopped his perspiring face with a bandanna. He made up his mind to sacrifice Norris. It was too bad Mile High was present, since it would be fatal for the idea to get out that he would not stand by any of his gang in trouble. But even Mile High must see they had to throw Morg to the lions after doing such a thing.

"We'd better talk turkey," he admitted. "First thing is to get Miss Chiswick back. I can promise to put 30 men to combing the hills inside of two hours, Dan. I'll go the limit on this thing."

"Good, if you send them to the right place," Brand made blunt answer.

"I don't know where he is any

more than you do," Howard cut back sharply. "And I won't have you saying I do, Dan. There's one thing more I'll say. My boy Lou isn't in this. If you—or Lee—or any of his riders—do that boy any harm, I'll never quit till I've cleaned up the whole Chiswick nest. You can put that in your pipe and smoke it."

"All I'm saying is that you'd better find Miss Ruth and get her home," Brand replied, frowning at him.

The foreman turned and strode out of the room.  
Mile High said to Howard angrily, "Is it yore idea to throw down on Morg?"

The lifeless eyes of Howard slid round to meet those of the other. "Don't always be a lunkhead, Mile High. What has this fellow done but throw down on you and me and all of us? You know this country won't stand for such stuff as he has just pulled off. He'd know it, too, if he wasn't crazy. We've got to play our hands to save ourselves. When Morg Norris took this girl with him against her will, he signed his death-warrant. Don't you go signing yours. We're going after

He pushed through the brush for half a mile.

Morg to get him. You had better get you a horse and trail along with one of the posses. You'll find it's doggoned good insurance against a few years in the pen at Yuma."

CHAPTER X

Jeff Gray had to fight down an impulse to hurry. It would be folly to wear out the horses getting to the Walsh cabin, only to find out that Kansas had sent them on a wild-goose chase. After all, the man was one of the gang. What more likely than that, under instruction of Norris, he had been trying to direct the pursuit in the wrong direction when he freed Nelly?

With a heavy heart Jeff admitted to himself that this was very likely a job that could not be done in a hurry. He might have to sleep on Norris' trail for a week. The fellow knew every pocket in these hills. If Kansas were false-carding, they might not find the outlaws at all.

The two men traveled steadily, Sorley in the lead. The little Irishman was a good guide. He had an instinct for short cuts, and he held his horse to the fastest gait that would not sap its strength. They flung the miles behind them, moving always deeper and deeper into the hills.

"Much farther?" Gray asked once, his mouth set to a grim straight slit.

"Not so far," Sorley answered. "That's Crowfoot over to the left. We're swingin' round it now."

They circled back of the mountain, dropped into a gulch, and clambered up its stony bed. Near the top of the canyon Sorley stopped his horse.

"The cabin is in a little park just over the ridge," he said. "What do we do? Bust right down on them? Or wait till it's dark?"

"Better have a look first from the ridge," Gray suggested.  
They left their horses just below the lip of the park, climbed up to the ledge, and looked down. No smoke rose from the house. There were no horses in the corral, but one saddled bronco was grazing near the spring.

"They sure have been here," Sorley said. "But they have done gone, and in some hurry, looks like. Didn't even take time to unsaddle. Why-for did they leave one of the horses here?"

Gray was looking down at something sprawled out in front of the cabin. "They didn't need but two horses," he said, his voice harsh

and cold. "One of them stayed here." He pointed at the still body. A pulse of excitement hammered in the scrawny throat of the linerider. "Begorry, you're right. There has been a fight, and one of them got killed."

The younger man differed. "Not a fight, but a murder. For some reason Norris made up his mind to get rid of Kansas. He did so, and then lit out. I'm going down."

"Look out for a trap," the old-timer advised.

"Don't think it's that. Two of the horses have gone."

But Gray did not take any unnecessary chances. His rifle was across the saddle as he rode down into the park. He made sure nobody was in the house before he took a close look at the dead man.

"Kansas, like you said," Sorley looked at his companion and then looked away. Both of them were thinking of what this meant to Ruth. "They can't be far ahead of us, if we knew which way they had gone."

It would be possible to find in what direction they had started, but both the men knew there was little chance of running down Norris in hundreds of miles of rough mountain terrain.

Sorley began to quarter over the park looking for sign.

"He shot Kansas in the back of the head, from off to one side," Gray mentioned.

"The horses headed up toward that patch of little pines near the ridge," Sorley called to him. "Two of them. Morg was in a sweat to get away."

"Yes," Gray's voice raised in sudden excitement. "Come here, Pat. Someone left a message for us."

Sorley ran to him. He pointed to some writing scratched in the sand. The old man read it aloud slowly.

"Wild Horse basin."

"It's meant for us," Gray said. "Either the girl wrote it—or Norris did. It's signed with her initial, but that doesn't mean a thing. The scoundrel may have left it to fool us. The letters are done kinda shaky, as if she had made them in a hurry, on the sly." His eyes were back again on the writing.

"That's right," agreed the linerider. "If Norris had done it, he would have fixed the letters deeper, so we wouldn't miss seeing them. I'd say Miss Ruth wrote it."

"Where is Wild Horse basin?" Sorley pointed to the north. "Up in the high hills, back thataway. Say, how would the girl know where he was heading for?"

"She might have heard him say—or Kansas may have told her before he was killed. Likely Kansas made some move to help her. Morg wouldn't have shot him if he hadn't figured the other fellow was turning against him. Let's get going."

"For Wild Horse basin?"  
"Yes. I have a hunch the girl did that writing. Morg never would have thought of it."

Sorley looked down at the dead man. "I hate not to bury him before we go, even if he was a scalawag. But we've got to jump. It will be night soon."

They carried the body into the cabin and covered it with two gunnysacks.

The riders followed the trail left by Norris and his prisoner. Once out of the park, Sorley waited only to make sure of the direction taken by those in front of them. He struck into the hills, dipping across gulches and winding round the shoulders of elephant humps. The country grew wilder and more rugged. Sometimes they were in a region of stunted pines. More often the hills were dry and scarred with rock outcroppings. From the summits they could see a saw-toothed range

lifting its crest into a sky of violet haze. Behind a crotch of the hills the sun was setting. Already dusk had softened the vivid tints of orange and scarlet to a faint pink glow. Night soon would sift down upon the highlands.

The pursuers dropped down into the basin, came to a little stream tumbling down through the rocks. Sorley pulled up his horse.

"No use going any farther," he said. "Got to wait till we can see. All we'd do is get lost if we kept traveling."

Gray read the despondency in the old linerider's voice. He understood it because his own heart was sick. What Pat said was true. They might as well throw off and make camp. "There's one thing," he said. "If they came here, Norris would camp on a creek. Maybe on this one, since it's the first he would come to in the basin. You fix up something to eat while I drift up along the bank for a ways."

"Sure," Pat answered hopelessly. "Won't do any harm."

The younger man swung from the saddle and turned his horse over to Sorley. "Reckon I'll make better time on foot," he decided.

The stars were pricking out of the sky. Black, shadowy outlines marked where the hill boundaries had been. In the vast emptiness Jeff had an acute sense of insignificance. He was an atom in an immense universe. His will to do held no more potency than that of one of the trout in this rippling stream.

He pushed through the brush for a half a mile or more. Abruptly he stopped. In front of him, two or three hundred yards distant, was a light which he knew must come from a campfire. A hot gladness poured through his blood.

Swiftly, with as little rustling as possible, he moved toward the camp. It was in an open place, close to the bank of the stream. On the edge of the clearing, as Jeff drew near, he made out the vague shadow of horses. Two figures were seated by the fire. He heard the murmur of a voice.

Gray crept forward with more care. There was no immediate hurry. Norris sat cross-legged at his ease. He had no faintest suspicion that there was any friend of Ruth Chiswick within a score of miles.

He was talking. The slur of his mocking speech came to Jeff before the words.

"I sure picked a fine spot for our honeymoon, sweetheart," he jeered. "A million candles in yore bedroom, honey. I'd say you were in luck I picked you up. Some break for you to get me instead of that pink-ear Lou Howard."

The girl's head was low. Jeff could see she was sobbing. Her courage had washed out. There could be no help in heaven or on earth for her now, she must be thinking.

Norris rose, stretched himself, and yawned, his arms above his head. The man's evil smile looked down on her. He opened his mouth to speak, but words were frozen on his lips. From out of the brush came a chill crisp order.

"Keep yore arms right up where they are, Norris."

The figure of the outlaw grew rigid. A man was coming out of the scrub, revolver in hand.

"Don't make any mistake," Gray ordered, "or it will be yore last." He moved toward the outlaw slowly.

Fragments of thoughts raced chaotically through the brain of the bad man. He yielded to a desperate impulse and dived back of the fire, dragging at his gun.

(TO BE CONTINUED)

## Geologist Sees Third Ice Age in Next Two Thousand Years' Period

A new ice age, the third, in geological history, is being indicated by measured risings of parts of the eastern hemisphere, according to Prof. F. X. Schaffer of the University of Vienna, writes a Berkeley, Calif., United Press correspondent. Dr. Schaffer, who is an internationally known geologist, said that exhaustive measurements taken at Stockholm show that in the last 50 years Sweden has risen about eight inches, while similar measurements in Finland show that that country has risen 10 inches in 34 years.

"An increase in the altitude of a continent," declared Schaffer, "or even a portion of a continent by approximately 600 feet lowers the annual average temperature by one degree, centigrade. We know that a decrease in the present temperature of Scandinavia by about three degrees centigrade would start a glaciation in Europe as big as that of the Quaternary, in which period the last ice age took place."

"During the last period of glaciation ice covered one-fourth to one-fifth of the present area of continents. Before that time man had appeared on the eastern hemisphere and he moved south ahead of the

oncoming ice until he reached Africa, where he was secure.

"A study of the deposits left by glaciers in Sweden shows that the flow started northward some 12,000 years ago. In other words, it took the ice 5,000 years to recede to its present limits in the polar areas, where it has remained for 7,000 years."

"At last, however, signs indicate that it is again getting ready to move southward, and unless those signs should fail it should start within the next 2,000 years."

### Oysters Are Prolific

Oysters are very prolific. The Atlantic coast species spawn five or six times during the season—from May to August. An oyster may discharge as many as one-half billion eggs in a season. Only a few survive. Less than one per cent hatch and reach maturity. The eggs hatch and the young begin to swim in a few hours. At the end of the day they form a bivalve shell, then attach themselves permanently to rocks or other submerged objects. They feed on microscopic water life and grow rapidly.

## Winners in Cake Recipe Contest

Some of the Prize-Winning Cakes Baked in the Experimental Kitchen Laboratory of C. Houston Goudiss.

THE home economists on the staff of the Experimental Kitchen Laboratory, maintained in New York city by C. Houston Goudiss, who conducts our "WHAT TO EAT AND WHY" series, have reached their decision concerning the prize winners in the recent Cake Recipe Contest. Winners have already been notified and have received their checks.

The first prize of \$25.00 went to Mrs. D. F. Kelly, 1004 Charles St., Whitewater, Wis.

### Second Prize Winners.

The five second prizes were awarded to Mrs. H. Harshbargen of 2427 Fifth Ave., Altoona, Pa.; R. A. Williams, 12075 Rosemary Ave., Detroit, Mich.; Mrs. C. A. Burns, Box 788, Oakland, Miss.; Miss Sadie Cunningham, Avonmore, Pa.; and Mrs. Laura Meyer, 107 Pleasant St., Plymouth, Wis.

### Third Prize Winners.

Mrs. T. H. Fjone, Flaxville, Mont.; Mrs. Lester Ralston, 127 South Judd St., Sioux City, Iowa; Mrs. Harry A. Kramer, 16 Marin Road, Manor, Calif.; Mrs. F. D. McDonald, Route 1, Amherst, Texas; Vera Tygar, Commodore, Pa.; Mrs. George Ahlborn, R. D. No. 1, Mt. Pleasant, Pa.; Mrs. B. A. Robinson, Box 578, Emmett, Idaho; Jean Guthrie, 4712 Campbell St., Kansas City, Mo.; Mrs. Walter Richter, Bonduel, Wis.; Mrs. P. C. Blakely, Alden, Mich.

### Honorable Mention.

Emogene Williams, Damon, Texas; Mrs. Simon Moen, Norma, N. D.; Mrs. Dick Collins, Masonville, Iowa; Mrs. B. F. Herman, Box 1118, Crosby, Miss.; Mrs. Paul Lorenz, P. O. Box 225, Strathmore, Calif.; Mrs. S. S. Arantz, Simpson, Nev.; Mrs. Vida Hilger, Box 257, Rockland, Mich.; Mrs. Grace H. Peterson, Box 335, Amherst, Wis.; Mrs. Cecil Skinner, Bedford, Wyo.; Mrs. Joe Furnace, 317 West Twentieth St., South Sioux City, Neb.

### Magnificent Cakes Entered.

The judges report that they have never seen a finer collection of cakes assembled at one time. Because almost all the cakes were so exceptionally good, it was extremely difficult to choose the win-

ners. But a most careful scoring system was used, and the cakes were checked for general appearance, including shape, size and crust, both color and character; flavor, including odor and taste; lightness; crumb, including texture, rated as to its fineness, tenderness, moistness and elasticity, color and grain.

C. Houston Goudiss has said that he regrets that every woman who entered the contest could not win a prize. He offers his congratulations to the winners and his thanks to the many other homemakers who helped to make this Cake Contest such a splendid success.

**HOUSEHOLD QUESTIONS**

**Hemming Curtains.**—Hems and rod casings of curtains should be made the same width so the curtains may be reversed to distribute the wear.

**Drying Striped Blankets.**—When drying blankets that have colored stripes, hang them so that the stripes are perpendicular to the ground; any dye that runs is then less apt to go into the rest of the blanket.

**Moths Like Soiled Cloths.**—Moths do not attack clean woolen articles as readily as soiled ones.

**Filling Nail Holes.**—A mixture of sawdust and glue can be used to fill nail holes in woodwork.

**Tarnished Silver.**—Moist table salt will remove egg tarnish from silverware.

**Starching Curtains.**—Some laundresses claim that if curtains are dry before being starched they will keep clean longer.

**Are You a 'Canny' Canner?**  
By JOSEPHINE C. BOND.

Do you get 100 per cent returns from your canning efforts? It isn't always enough to do "lots of canning." You may have 500 full jars in your cellar at the end of the season, but if 100 of these leak because of cheap or old rubber rings, you are only getting an 80 per cent return on your labor.

One of the greatest mistakes the housewife canner can make, I have found, is to yield to the mistaken clerk who substitutes "unknown brands" for advertised brands produced by reputable manufacturers. Substitution may be all right at times, when an item can be used up in a short time. But when it comes to jar rings—play safe—buy a recognized brand.

There is a lot of difference in jar rings. The rubber used in them is compounded, or mixed, in much the same way that the batter for a cake is mixed, and, like cake batter, unless the recipe is tested and the ingredients of the best, the results will be disappointing. Inferior jar rings will "check" or crack and allow air to seep into the jars.

**Gold Rush Crime Wave**

Crime was rampant in San Francisco during the gold rush during the early fifties. Up to 1854 there were 4,200 homicides and 1,200 suicides, while the records of the next few years showed many deaths by violence, the high mark being reached in 1855 with 585. In 1851 the Vigilance Committee was formed to attempt to free the city of most of the lawless element. By 1856, when it came together a second time, order was restored in the community. More than 8,000 citizens served on the two committees.

Smith looked up from his paper and handed it to his wife. "Wrong sort of heading that, isn't it?" he said, pointing to the line, "Woman's Talk."  
"Why wrong?" she inquired.  
"Well," replied he, "there is only half a column beneath it."

### The Garland Clock

By CLARISSA MACKIE  
© McClure Newspaper Syndicate,  
WNU Service.

EDITH STACEY came out of the little old-fashioned house looking as youthfully sweet as ever—except for her blue eyes which were full of trouble.

The Stacey's race had been with poverty, especially since the war which had claimed two sons—the father had died at home during that awful period. So there was only Edith left, and she was the sole support of her mother.

Edith went back into the house and paused in the front hall looking up at the grandfather's clock in one corner. Grandfather Garland's clock had always been admired and envied by their friends. Mrs. Stacey had been a Garland, and the clock had been given to her by her grandfather who made his home with her until his death. "The clock will bring you luck, my dears," he used to chuckle; "I invested a small fortune in it."

Edith put on her hat, kissed her mother good-by and tiptoed out of the house into the village street. Determination was written all over her serious face when she entered Andrew Landon's jewelry store and clock repairing place. It was a small store, and Andrew was rather a big young man so he filled it

### SHORT SHORT STORY

Complete in This Issue

rather awkwardly. He was very homely with nice blue-gray eyes that seemed to become very deep and shining when he beheld Edith.

"Good morning," said Edith, putting her hand across the counter.

Andrew held it as long as he could. "You look ill this morning, dear," he said anxiously. "I wish you would let me carry these responsibilities for you. Your mother needs a son as well as a daughter."

"Dear, you couldn't just yet. It would ruin your business. I did come to ask your advice, Andrew."

"It's about grandfather's clock."

"What about it?"

"I want to sell it—have you a customer?"

"There's a man up on the Point who is just finishing his sixty-thousand dollar new house."

"How much would he pay?"

Andrew named a sum that took Edith's breath away. "That's the limit," he added.

"He can have ours, today. Will you come and get it, dear?"

Edith was dusting the clock just because she liked to touch the familiar old friend, and she polished the shining faithful face with a few words of apology for letting it go. Andrew came in and examined the clock thoroughly.

"It has never failed to go and it has always kept good time," said Edith in the tone in which one whispers of the dear departed. "Grandfather put in new weights years ago—the old ones are upstairs in the garret."

Andrew detached the weights and balanced them in his hands. "Heavy," he said in a surprised tone. Then he bent closer, and scraped the surface of the weights with his penknife. "Bring me the old iron weights, dear," he said excitedly.

When the old ones had been attached and the old clock was ticking away once more, Andrew beckoned Edith to the window. "Look at this dear," he said.

Edith looked down at the new weights and saw a yellow gleam where the black paint had been scraped away. "It looks like—gold," she whispered.

"It is solid gold—the other is the same, Edith—that is what Grandfather Garland did with the gold he found in 'Forty-nine.' Had it melted down into these weights for the clock—and kept a fortune in reserve! The old weights are in the clock, after sixty-eight years rest, and these—oh, my dear, we can keep the clock, your mother can have the operation now and an income for the rest of her life."

"And we can get married very soon, Andrew," whispered Edith softly, while the friendly old clock ticked a cheerful blessing.

**Clever Camel**

Those who know a good deal about camels claim that they are the most useful animals in the world. The camel has been called the train of the desert, and it can travel 30 miles a day for weeks on end. No other creature seems to possess anything like the same stamina under similar conditions, states a writer in London Tit-Bits Magazine. Abstinence from food and water for days does not seem to impair its efficiency. The hair is woven into mats, carpets and clothes, the hide into tents, shoes and thongs. The beast provides meat and milk, and its dung is used for fuel. The camel has another asset which can be relied upon. It has an excellent homing instinct, and animals have found their way 750 miles across the Australian desert when those who have ridden them had no means of finding out their direction.

### (OFFICIAL PUBLICATION) Report of Condition of

Notary Public.

### Savings Clubs

**B**ANKING institutions in thirty-eight States are now operating New York World's Fair 1939 Savings Clubs, according to a report just made to Grover A. Whalen, President of the Fair Corporation.

The popularity of these clubs arises from the fact that they enable individuals and families easily to finance a trip to the Fair next year through gradual accumulation of the necessary funds instead of by single demand upon financial resources. The slogan of the plan is: "Save Today to See the World of Tomorrow."

Some of the banks which have instituted the World's Fair Savings Clubs are operating them in connection with Christmas and Vacation Clubs, these having for long been in successful existence.

In one of the Southern States, such Fair clubs have been organized in colleges to aid students to set aside part of their allowances to provide means of visiting the Exposition next Spring. Banks are also utilizing the plan to encourage saving by school children.

Attendance at the Fair is expected to reach 60,000,000, according to present estimates.

### Local and Personal

Mr. and Mrs. Willis Myers and son spent Sunday with relatives at Champaign.

Clark Henson, daughter, Maxine, and Hazel Baker visited the oil fields at Centralia, Sunday.

Mrs. Thanks Tuttle who has been visiting Mrs. Ora Brown has gone to Villa Grove to visit for a few days.

Mrs. Oscar Gallion and daughter, Barbara, returned Monday after a ten days' visit with relatives at Springfield, Ohio.

Miss Beulah Gore, accompanied by her mother, Mrs. O. E. Gore, left Monday for a visit with Clyde Gore and family at Flint, Mich.

Mr. and Mrs. Lawrence Griffith, Kenner Wood and Smith Hamilton of Fairland visited at the A. S. Maxwell home, Sunday evening.

Robert Trimble returned to Indianapolis, Wednesday, after a week's visit with Mr. and Mrs. Frank Kracht. Mrs. Trimble and son, Leland, remained for a longer visit.

George Lewis and daughters, Marzelle and Maxine, and Miss Mary Brown of Dana, Ind., Walter Seider, Mr. and Mrs. Melvin Place were guests at the John Bahlow home, Sunday.

## Annual Appropriation Bill

An ordinance making appropriations for the corporate purposes of the Village of Broadlands, Illinois, for the fiscal year commencing on the 30th day of April A. D. 1938, and ending on the 30th day of April A. D. 1939.

Be it ordained by the Board of Trustees of the Village of Broadlands, Illinois:

Section 1. That the following sums, or so much thereof as may be authorized by law, be and the same are hereby appropriated for the corporate purposes of the Village of Broadlands, Illinois, to defray all necessary expenses and liabilities of said Village of Broadlands, as herein-after specified, for the fiscal year commencing on the 30th day of April, A. D. 1938, and ending on the 30th day of April A. D. 1939, to-wit:

For repairing and maintaining streets and alleys	\$2500.00
For street lighting	\$600.00
For maintenance of fire department	\$625.00
For salaries of employees of police department	\$200.00
For printing of ordinances, official reports and official notices	\$175.00
For salaries of village officers	\$100.00
For special attorneys	\$100.00
For repairs to village buildings	\$300.00
For mowing weeds along village streets and on village property	\$100.00
For contingent fund	\$200.00
Totals	\$4900.00

Section 2. The said several sums of money are hereby appropriated from moneys received and to be received by the Village of Broadlands, Illinois, from all sources.

Section 3. This ordinance shall take effect and be in force from and after its passage and approval.

Passed by the Board of Trustees of the Village of Broadlands, Illinois, this 6th day of July, A. D. 1938.

H. L. Krenzien,  
Village Clerk.

Approved by me this 6th day of July, A. D. 1938.

H. C. Harris,  
President of the Board of Trustees.
