Casket bearers were Messrs. D. P. Brewer, Thomas Bergfield, Roy Bergfield, George H. Cook, Edward Nohren and O. P. Witt.

The remains of the deceased were laid to rest beside those of his wife in the family lot in the St. John's Evangelical cemetery, 134 miles northwest of Broadlands, with Dicks Bros., local morticians in charge.

John Lindsey Rayl, the son of Jessie and Dinah Rayl, was born on June 29, 1853, near Annapolis, Ind. He spent his boyhood there, grew to manhood, after attending country school.

He was married to Mary Melissa Downs at Danville, Ill., on April 19, 1876.

After spending a few years in Indiana they moved to Broadlands where they raised their family. They lived in Broadlands after that except for a few years away, first in Spring Garden, then in Peoria, Charleston and Danville, all in Illinois, and then back to Broadlands, having lived here for the past 13 years.

The wife, Mary M. Rayl, was called to her reward on Jan. 8, 1938. From that time on he has gradually failed in health.

The Angel of Death called him Sidney F. B. Wins on Dec. 20, 1938, at the age of 85 years, 5 months and 21 days. The immediate cause of his death was apoplexy.

World in Miniature to Greet Youngsters This Christmas

By JOSEPH W. LaBINE

"When I was a kid . . ." Father speaking. When he was a kid, Santa Claus brought tin trains and crockery dolls, tinker-toys and wooden wagons that somehow fell apart the day after Christmas.

So when Father walks through a 1938 toy store his eyes may well pop out at the baby doll that can be fed, bathed, powdered, dressed and rocked to sleep, or the streamlined automobile with exhaust pipe, electric lights and a horn to make youthful pedestrians get off the road. He may frown over "real" pianos and motion picture projectors, but these seemingly extravagant toys are really much more sensible than the tiddly-winks set Aunt Emma gave him for Christmas many years Old World Imitates Us.

imitations in the United States. The revolution wasn't spontaneous; a dozen years ago struggling American toy makers protested when psychologists and educators told them that jacks-in-the-box may be amusing, but certainly not very young minds, these self-appointed uplift societies forced their wares on toy manufacturers. White House Shares Yule Spirit

IN ASHINGTON .- The holiday atmosphere that grips America each December also finds its way to the White House, home of our chief executives for nearly 140 years and scene of many a colorful Yuletide party in bygone years.

White House history is rich with anecdotes of such gatherings since the building was occupied by the country's second chief executive, John Adams. For his granddaughter, four-year-old Suzannah, President Adams gave the first Christmas party ever held in the White House. Those were the days before the mansion was finished, when Mrs. Adams is said to have hung out her wash in the great East room.

Suzannah's party was a success but one of her guests broke a doll dish belonging to the little hostess. Suzannah retaliated by biting off the nose of the young guest's new wax doll. President Adams had to resort to diplomacy.

C. Houston Goudiss Asks How Do You Get Your Vitamin D? Relates Need for and Sources Of This Necessary Vitamin

By C. HOUSTON GOUDISS

THERE is scarcely a mother of a young baby today who I has not at one time or another been told to give her child cod-liver oil. Perhaps she does not know this substance must be given to the baby for the vitamin D that it contains. But fect in the diet of children. she has heard that there is something in cod-liver oil which makes it valuable to the baby's health.

have observed that the discovery The body oils of many fish also and baked kidney beans contain of a number of the vitamins came about chiefly through the efforts of investigators to discover a method of treating or curing obscure nutritional diseases. In most instances, however, carefully controlled laboratory experiments played their part in reaching the ultimate goal after some clue had been found as to what the mysterious substance might be that helped to control a baffling nutritional disease. The discovery of vitamin D was no exception!

Vitamin D and Rickets

Vitamin D is associated intimately with the prevention and cure of rickets, the most devastating nutritional disease of children in temperate climates. Indeed, it is the moderate, and in some cases the small amount of sunshine in the temperate zone that accounts partially for the presence of rickets.

Historians have given us reason to believe that this disease may have existed in England even before the Roman conquest. Certainly it appeared in a serious form, both in England and in other North European countries, in the Seventeenth century. In fact, early literature refers to it as the English disease, and the early attempts to fathom its causes were written in Latin by English and Dutch doctors during the 1600's.

In rickets, the child's head grows large and out of proportion to the body, while the leg and arm bones, and in severe cases even the ribs, are bent and twisted out of their normal shape.

Mystery of Cod-Liver Oil Cod-liver oil had been used for many years because of its supposedly "tonic" or "building" properties, when it was observed that regular doses of cod-liver oil not only cured rickets in children, but also cured the corresponding disease in adults, called osteomalacia, in which the bones become soft as the calcium and phosphorus already deposited in them are withdrawn and excreted.

Nadine's eyes had not left the master's face since the moment of his appearance.

Then, the stupendous thing that had held her in its grip seemed suddenly to spring forth.

Nadine, for the remainder of her days never ceased to give thanks for the hidden force that dragged her eyes away from the master for one fleeting second. But in that second she saw, in the box opposite a stealthy hand, holding something that shone.

Mr. and Mrs. Sentry call on old Mrs. Sentry, and Barbara, alone, receives Dan Fisher, reporter, who advises her not to talk. Phil Sentry, son at Yale, is disturbed at the possible implications and suspicion of Miss Wines' absence from her rooms for three days during August. He goes home to help. Sentry is arrested and booked for murder. Dan Fisher explains the evidence against him-that the robbery was a fake, the safe opened by one who knew the combination, changed since Miss Wines' employment there—that a back door key, a duplicate ly, "Speak up, man!" of Sentry's, was found in the girl's purse, and that Sentry, too, had been away those three days in August. Brace calls, and said reluctantly. "They've found backs up Barbara in her denial that Sentry where Miss Wines was. Phil, showing the police over the house, finds his strong box open and his gun, which only his father knew of, gone. Meanwhile, the police find the stolen money burned in the furnace. Mrs. Sentry sees her husband, who swears his innocence, and tells her he had known of the robbery and murder the night before, but failed to call the police, and came home at 12:30. Mary quarrels with Neil Ray, and runs away with Jimmy Endle to the Caribbean. Linda Dane, friend of Barbara and Phil, tries to comfort Phil. Falkran, noted criminal lawyer retained, inspires hope but not admiration. Dan Fisher, whom Barbara has been meeting at her grandmother's, tries to use influence to keep the family out of the papers, and everyone shields Barbara, on the verge of a break-

CHAPTER VI—Continued

One day when Brace was to meet Barbara at her grandmother's for tea, and arrived before the girl, the old woman spoke to him of Barbara's condition, said stoutly: "I wish someone would marry her and take her away from here! She can't stand much more. She hasn't the strength to go through all this. She shouldn't have to do it!"

He dissented gently. "People can't shirk such things. Barbara's sister did, I know; but she will always regret it. We have to accept our burdens, our responsibilities. Face them squarely."
