NUMBER 14

News Items of 12 Years Ago

July 15, 1927

Leslie Hildreth of Paris was shaking hands with friends here.

Miss Maude Stearns of Philo spent the week with her sister, Mrs. Roy Bergfield.

Harry Allen left for a trip through the states of Nebraska, Colorado and Kansas.

Misses Hazel and Anna Dohme returned from a two months sojourn in California.

Miss Grace Griffin spent the week camping with friends at Turkey Run.

Oscar Smith, Misses Helen Smith and Pearl Clester were Danville visitors.

A deal was transacted whereby the Broadlands Grain and Coal Company became owner of the Paul Kuhn & Company elevator.

20 Years Ago

July 11, 1919

Howard Clem purchased a new Ford Touring car from the De Long Motor Co.

Miss Lillie Rayl of Peoria arrived for a visit with relatives and friends.

Miss Thelma Thomas spent the weekend with relatives at Newman.

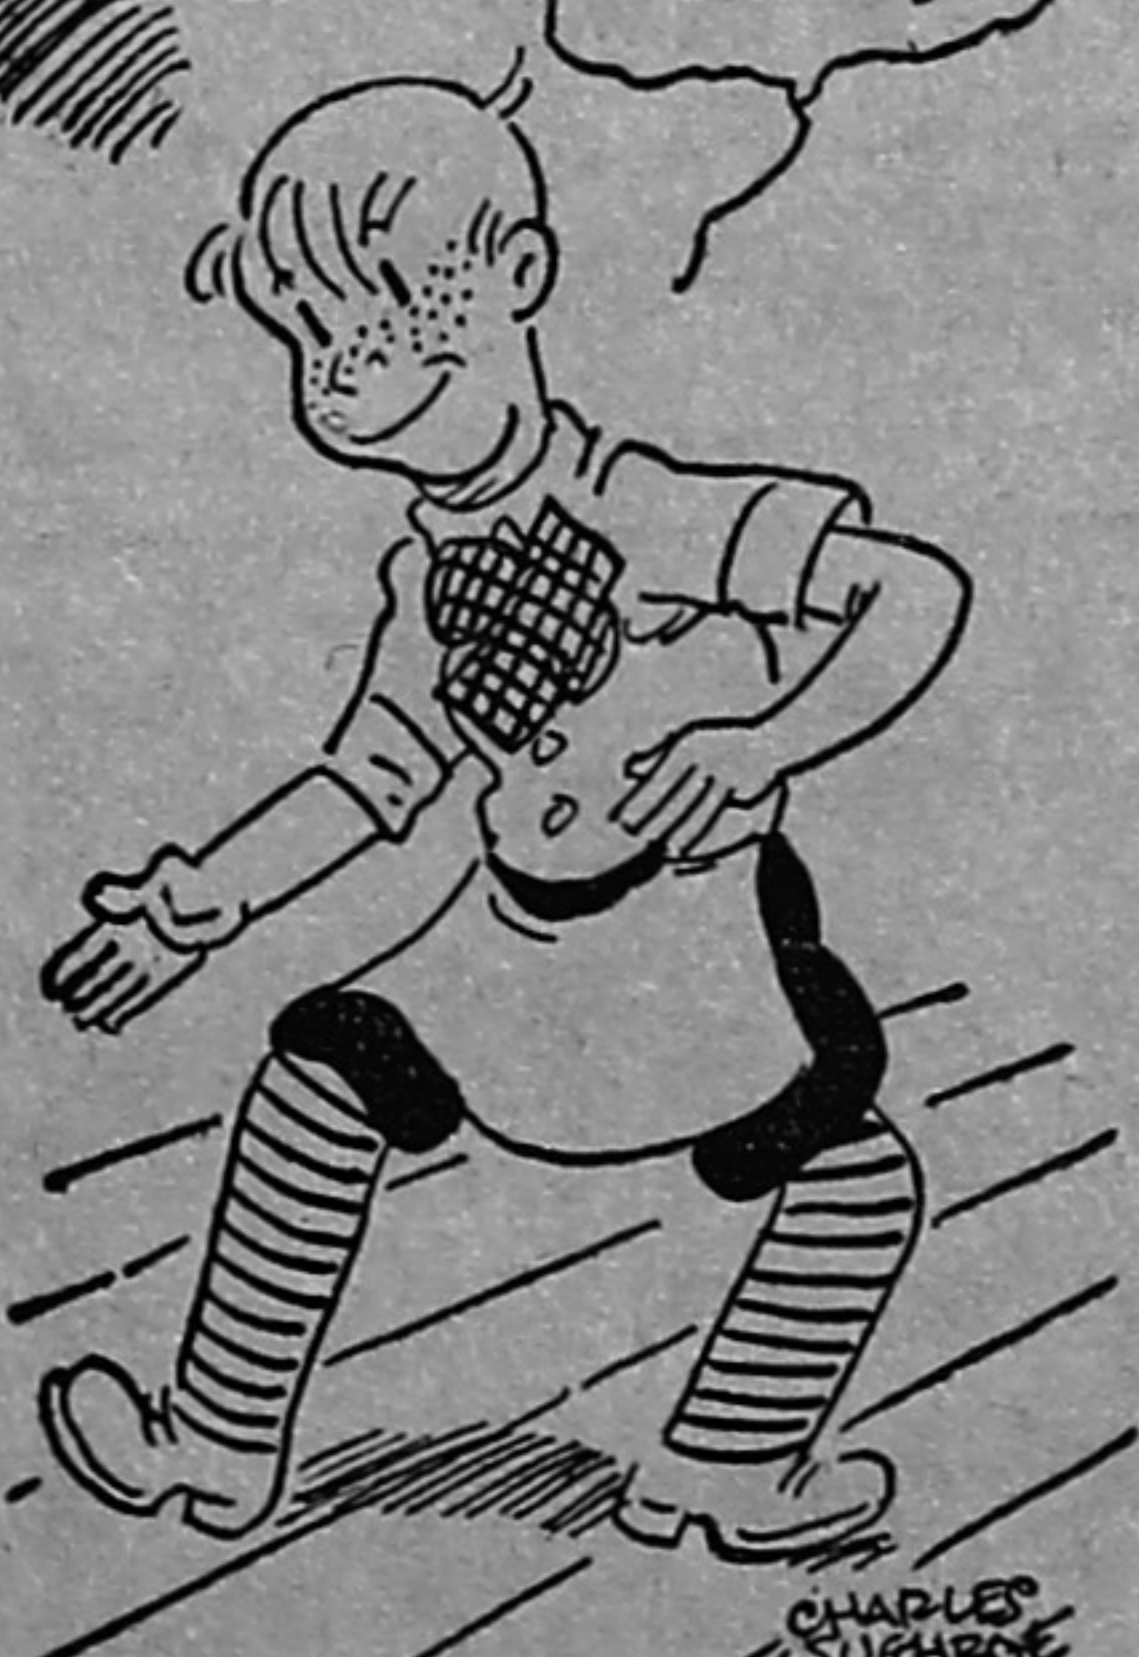

Corporal J. O. Cadwallader was home on a five-day furlough. He was returning to Fort Sheridan for a few weeks before receiving his discharge.

Little George Eugene Harden was run over by an automobile driven by Fuller Freeman. Fortunately the car was running slowly and George Eugene escaped with a few cuts and bruises.

M. A. Phipps, local manager and Misses Anna Zantow, Dorothy Douthit and Esther Loomis, employees of the Douglas Telephone Company motored to Tuscola where they were visitors at the company's headquarters.

ENJOYING PICNIC LUNCH AT N. Y. WORLD'S FAIR

NEW YORK (Special)—Picnickers are made to feel at home at the New York World's Fair. Pictured here is a happy group enjoying box lunches beneath brilliantly striped umbrellas which shade the picnic areas at the Fair grounds. They find luncheon a pleasant interlude of rest during their tour of the

hundreds of fascinating exhibits. And they find that the best things at the Fair are free. During the first month of the exposition the average per capita expenditure within the fair was \$1.17 and this included restaurant meals for most of the visitors.

Mrs. Lillie Bowman Entertains Y. W. O.'s

Members of the Y. W. O. class of the U. B. Church met at the home of Mrs. Lillie Bowman on Wednesday evening. President Thos. Bergfield had charge of the meeting, and Mrs. Clark Henson and Rev. J. F. Turner led the devotions.

Chinese checkers and peggity were played during the evening. Mrs. Bowman served ritz crackers, date loaf with whipped cream, iced tea and coffee.

Visitors present were Mrs. Aubrey Cole and son, and Elbert Turner, of Lincoln; Miss Dorothy Turner.

Members present were Messrs. and Mesdames Thos. Bergfield, John Nohren, Oscar Witt, Clark Henson, Howard Clem; Rev. and Mrs. J. F. Turner, Mrs. Olive Rayl, Mrs. Lillie Bowman.

Douglas County Coal Lands Are Leased

William S. Beveridge, Champaign, and associates have filed leases upon 1,500 acres of coal land in Douglas County, near Murdock, and plan to begin work within 30 days mining coal.

The leases will, however, be transferred from the name of Beveridge to that of the Douglas Coal Company which is being organized.

This action fulfills a dream of Wilbur Murdock, son of the founder of the Village of Murdock, that a thick vein of coal underlaid this area. Murdock was unable to complete plans for a coal mine and the vein has never been tapped.—Commercial News.

St. John's Evangelical Church Karl F. Albers, Pastor.

Worship service this Sunday at 10:30.

The Young People's League is invited to attend a Get-Together at Bloomington, July 16.

Mission Festival, Sunday, July 30.

Two Fritts Brothers Are Seriously Injured

Newman—Two brothers were injured, perhaps fatally, Tuesday, in a three-way auto-truck accident one mile north of Paris. Three others were less seriously hurt.

Russell Fritts, 38, Newman, and Labon Fritts, about 30, of Champaign, were reported still unconscious and in a critical condition Wednesday at Paris Hospital where they were removed following the crash. Both suffered fractured skulls and Russell was also severely cut and bruised.

At the bedside of the brothers were their mother, Mrs. Delia Fritts, and a brother, Andrew, both of Newman.

Carlisle O'Hair, Paris, riding in the truck with Leonard Drake and Ed Hill, also of Paris, has a deep cut on the leg. Palmer Griffin and Edgar Trimble, Charleston, were discharged from the hospital after being treated for minor injuries.

Griffin and Trimble, driving north, attempted to go around the truck and collided head-on with the Fritts car, headed south. The truck was forced into the ditch. All three vehicles were considerably damaged.

Hold Neighborhood Get-Together at Maxwell Home

Several friends held a neighborhood get-together at the home of Mr. and Mrs. Edward Maxwell on Thursday evening of last week. A pot-luck supper was served in the basement after which various games were enjoyed.

Those present were Harry Archer and family, A. G. Anderson and family, Bill Crain and family, Howard Clem and family, Clark Henson and family, Mr. and Mrs. O. P. Witt, Mr. and Mrs. John Bruhn, Edward Maxwell and family.

A cool and comfortable place to eat—Village Inn.

Illinois State Capitol News

The nation's largest single oil producing area is the Salem field in the heart of southern Illinois, a survey of the nation's pools by the Chicago Journal of Commerce reveals.

The Salem field produces approximately 140,000 barrels daily, 1,500 barrels more than the next largest unit at Longview, Texas, although Illinois as a whole still trails several of the larger oil producing states. The total average daily production of all Illinois fields is 245,000 barrels.

With only a month remaining till the opening of the Illinois State Fair, August 12, preparation for the big show has been speeded up considerably, E. E. Irwin, General Manager, reports.

Hundreds of entries have been made already and the big rush is expected soon under the impetus of the approaching opening date.

As in past years, the Fair will be host to the Grand Circuit horse races, and the fair management has been assured by horsemen throughout the U. S. that the finest trotting and pacing flesh will be brought to Springfield.

Soybeans planted on approximately two and one-half million Illinois acres are making a fine growth, despite weed-infested fields in some sections, according to latest reports received by the State and Federal departments of Agriculture.

The soybean, inured to climatic extremes on the steppes of Manchuria, whence it was imported to this country, is a hardy plant rendering a good account of itself if given half a chance. It is growing rapidly in popularity with Illinois farmers. In 1933, the harvested soybean crop of Illinois was worth less than one-sixth the oats crop. Last year soybeans topped oats in value, and were one of four products—wheat, hay and oats being the others—which in a rather closely-grouped order of financial value, trailed King Corn, leader of Illinois crops.

Bruce Richard Has Both Legs Amputated

Bruce Richard, 31, 603 East Springfield avenue, Champaign, suffered more than the average human's share of misfortune when a broken back received in a fall from a paint scaffold nine years ago placed him in a wheel chair for life.

The fates were not through with him, however, for shortly before noon Thursday, both of his legs, broken in an automobile accident on South First street road July 4th, were amputated in Burnham city hospital.

As a sidelight to this overwhelming stroke of misfortune, however, was a combination of good fortune and good service on the part of the Illinois and Michigan state police departments in locating the injured man's parents, Mr. and Mrs. Harry Richard.

Mr. and Mrs. Richard were on their way for a week's vacation near Fairview, Mich., when the accident happened. Local relatives, unwilling to authorize the amputation without notifying the parents, appealed to local state police headquarters for assistance.

Mr. and Mrs. Richard were somewhere on the road, just where was unknown. The local police sent a radio message to the Pontiac state police headquarters. Pontiac obtained the license number of the Richard car from Springfield, relayed it with the description of the car to the Michigan state police.

Within less than two hours the message concerning their son had been delivered to Mr. and Mrs. Richard along the highway and a telephone call had been received from them.—Urbana Evening Courier.

Mrs. Melvin Rowen is Given Shower

A miscellaneous shower in honor of Mrs. Melvin Rowen, a recent bride, was given by Mrs. Kerna Block, Saturday afternoon, July 8.

A short musical entertainment given by Max Henson, Helen Nichols, Irene Schwartz and Leone Bergfield was enjoyed. Mrs. Rowen was the recipient of many lovely gifts.

Refreshments of angel food cake topped with pineapple whip, mints, and punch were served.

Guests present were Mesdames Thomas Bergfield, Roy Bergfield, Carl Zenke, Norman Seider, Malcolm Pigg, Clark Henson, Howard Mohr, Elsworth Nichols, Ralph Woodard, Joe Davis, Oscar Limp, Hilbert Block, John Hudson, James Sinters, Paul Hammil, John Akers, Philip Limp, Estor Block Glen Erb, T. M. Sullivan, Earl Duncan, Clarence Bergfield, Clint Coffey; Misses Wilma Messman, Margaret Mohr, Hazel Block, Irene Schwartz, Helen Nichols, Joan Davis.

Ice Cream Supper July 19

There will be an ice cream supper at the St. John's Evangelical Church, on Wednesday evening, July 19. Everybody welcome.

Lodge Meets Next Monday

Broadlands Lodge, No. 791, A. F. & A. M. will meet next Monday night at 7:30.

Henry K. Mohr, W. M. Carl B. Dicks, Sec.

Community Building Project Will be Brought to Vote

It now begins to look like the proposed community building project will be brought to a vote of the people of Ayers township within the next two or three weeks. Some of our citizens are predicting that the proposition will carry by a majority of two to one; others predict the vote will be about three to one for the building.

The community building will be a mighty fine asset to the Broadlands community and here is hoping that the same can be completed before cold weather sets in.

We hope to be able to tell you when the election will be held in our next week's issue.

Miss Norma Partenheimer Hostess to Phi Beta Deltas

The Phi Beta Delta Class of the St. John's Evangelical church met at the home of Miss Norma Partenheimer on Tuesday evening. President Harry Nohren had charge of the business session, and Miss Marcelle Nohren led the devotions.

Guests present were Misses Phyllis Stuebe, Frances Wagner, Wanda Nohren, Jean and Hilda Partenheimer.

Members present were Misses Marcelle Nohren, Pauline Limp, Mabel Bahlow, Margaret Ann Mohr, Marianna Kilian, Edna Schumacher and Norma Partenheimer; Messrs. Harry Nohren, Ralph Schumacher, Wayne Nohren and Raymond Kilian.

Mrs. Reimer Witt Entertains Ladies Aid

The Ladies' Aid Society of the St. John's Evangelical Church met at the home of Mrs. Maggie Witt, near Homer, on Thursday afternoon of last week.

Mrs. Tillie Schumacher had charge of the business meeting, and it was decided to hold an ice cream social Wednesday evening, July 19. Mrs. Ora Wiese led the devotions.

Refreshments consisted of brick ice cream, cake, cookies, iced tea and coffee.

Guests present were Mrs. Carl Benschneider and daughter Miss Marie, Mrs. Alice Schumacher, Miss Edna Schumacher and Miss Margaret Ann Mohr.

Members present were Mesdames Anna Mohr, Mary Partenheimer, Hilda Seider, Ora Wiese, Lizzie Schumacher, Tillie Schumacher, Traya Zenke, Edith Jordan, Freda Kilian, Anna Kilian, Emma Heppie, Hattie Zenke, and Maggie Witt.

Announcement

Miss Pauline Limp, who recently purchased an interest in the Anderson Beauty Shop, wishes to announce that on Tuesdays and Thursdays, finger waves, completely dried, and neck clip will be 35c. Also, fingerwave, manicure and facial for \$1.00.

Mrs. Margaret Anderson is at the shop by previous appointment only.

Market Report

Following are the prices offered for grain on Thursday in the local market:

No. 2 hard wheat, new	57c
No. 2 white corn	47c
No. 2 yellow corn	40c
No. 3 oats, new	25c
No. 2 beans, new	60c

Expectation of Life

How the average span of human life has been increased during the last three centuries is the subject of an interesting little table in Uncle Sam's Almanac for 1939. In the year 1600 it is stated that the expectation of life for a child at birth was only 20 years; now it is over 60 years.

The almost incredible increase is naturally due to the advances of medical and surgical science, and to the many safeguards to health resulting from better sanitation. These have been most effective in reducing deaths during infancy which in former times was appalling.

Even at the present time in the United States the mortality rate is more than six times greater during the first year after birth than during the second year. Fewest deaths occur between the ages of 10 and 12. At practically all ages females have a life expectancy longer than males.

The increased expectation of life at present, as compared with the past, grows less with advancing age. A person of 60 today has little expectancy beyond what one of that age had 25 or 30 years ago, although the expectancy of a child at birth is now nearly 10 years greater than in 1910.

In other words, more people live to old age nowadays, but the extreme limits of age have been extended comparatively little.

More Wonder Glass

Within a few weeks after the announcement of a new "rubber glass" by the Franklin Institute, the development of still another amazing glass product is reported from Corning, N. Y., where the great mirror for the 200-inch Palomar telescope was cast.

The newest marvel is a glass which shrinks, and which can be heated red-hot and immediately plunged into ice water without breaking. Those familiar with the possibilities of the new method of manufacture say it will rank with the most remarkable glass developments in history.

While a description of the process would be rather technical for the layman to understand, in substance it represents a removal of a part of the materials after the glass plate or vessel has been molded in the usual manner. This is accomplished by a series of treatments which leave the glass honeycombed through the removal of about 35 per cent of its original mass. Placed in the oven again, the glass shrinks to about 65 per cent of its former volume.

On completion of the final treatment with heat, the glass is practically 96 per cent pure silica. It may then be subjected to the most extreme changes of heat and cold without damage. The commercial advantage of the new product is that it is for all practical purposes equal to fused quartz, yet can be produced at a price within the reach of the ordinary customer.

The statesmen know all the big questions of the hour, but can't find any answers.

It's strange how easy it is to get up at 5 to go fishing, and how hard to get to the office at 9.

Sidelights

On a tombstone at Matamoros, Mexico, is recorded the strange fact that one Servando Canales was born October 23, 1830, and died October 23, 1930, exactly 100 years later. So says Ripley.

When a recent tornado struck Anoka, Minn., an American Legion meeting was being held in the city hall, after failure to obtain the local armory for the purpose. The twister wrecked the armory, but did not damage the city hall.

James Murphy of Albuquerque, N. M., in court for intoxication, told the judge: "I don't drink anything but whiskey, coffee and water. When I can't get whisky, I take coffee, and when I can't get coffee, I take water."

A new drugless treatment for angina pectoris, an acutely painful heart ailment, is furnished by a special belt to apply pressure to the abdomen and thereby increase the flow of blood to the heart muscle. The treatment was discovered at the University of California.

According to Newsweek, the private physician to the king and queen of Italy is a Dr. Stucoli, a German Jew, whose name was originally Stuckold. Because of his skill he has been retained by the royal couple, in spite of Mussolini's anti-Jewish decrees.

All Day Church Service

Church services that began at 10 o'clock in the morning and lasted until 5 o'clock in the evening were offered to the early settlers of many Illinois communities. Preaching in the log cabins was open to members of all denominations, and ministers often joined to lead the day-long meetings.

An account of such a service, held in Montgomery County in 1822, has been found by research workers of the Federal Writers' Project, who report that the preacher, described as "big and burly," read the first two lines of a hymn and then led the worshipers in singing them. After the sermon and a second hymn, it was announced that after a short recess, another pastor would continue the service.

During the noon recess the children rushed to the fireplace with sticks or pieces of clapboard and rolled out the eggs they had brought for lunch. In the meantime, the men went to the water bucket which stood in the back corner of the room. The procedure there was described as "being rather slow as only one dipper was provided."

Hunting With a "Wammus"

The well-dressed hunter in Illinois during the 1850's could not call his wardrobe complete unless it contained a "wammus," say research workers of the Federal Writers' Project, WPA.

This garment resembled a short top coat, generous in width. Around the inside was sewn a great pocket for carrying small game. One historian observed that some pioneers found it a convenient place to conceal small quantities of food stuff, such as fruit and vegetables, found in the course of nocturnal ramblings.

Turtlephobia

An account of an early Illinois lad who suffered from "turtlephobia," contracted from a turtle bite, appeared in an early Bureau County news dispatch, according to research workers of the Federal Writers' Project. The symptoms described by the early report sound like the common ones of rabies, and the editor seems to have coined his own term when he called the ailment "turtlephobia."

Do You Know Illinois?

By Edward J. Hughes
Secretary of State

Q. Who was Russell Farnham?

A. A colorful New Englander who came to Rock Island, Ill., in 1824 and with Col. George Davenport built the first house on the mainland near Fort Armstrong in 1826.

Q. In what famous piece of American literature does Farnham appear?

A. "Astoria" by Washington Irving.

Q. By whom was Farnham employed in 1807?

A. John Jacob Astor who commissioned him to head an expedition over the Lewis and Clark route.

Q. What adventure befell Farnham on the Astor expedition?

A. Late in October 1808 he was captured by Indians at the mouth of the Columbia River. He was held captive seven years working with the squaws and learning the Indian language.

Q. What multiple functions did the house of Farnham and Davenport serve in Rock Island?

A. It was the first tavern, first stage station, first P. O., the place of the first Rock Island County election, and the first County office.

Q. What interesting facts on the economic aspects of fur trading with the Indians are revealed in Farnham-Davenport reports to the Secretary of War?

A. "In regard to the prices we have charged at selling our goods to the Indians we have to say they have been various. The most of our sales have been on credit to them in the fall of the year for the purpose of enabling them to make a hunt and support their families during their absence. On prominent articles such as blankets, strouds, etc., we have charged an advance of 25 to 50%, and minor articles at something more, and when goods have been sold for prompt pay they have not averaged us more than 12½ to 25%. These prices relate to the Sac's and the Foxes. The prices charged the Ioways have been higher because they have seldom paid more than 50 cents on the dollar of their credits and frequently nothing at all."

Q. What was the extent of business transacted over a period of seven years by Farnham and Davenport?

A. "Our credits to these Indians for the last seven years have amounted to \$136,768.62 and we have collected of that sum \$83,498.74, leaving a balance due on transactions with them in that time of \$53,269.88. This balance we do not consider yet desperate because the Indians have obligated themselves and promised to pay whenever enabled so to do."

Q. What were the sociological conditions among the Indians in the vicinity of Rock Island as revealed by the Farnham-Davenport reports?

A. "We would in conclusion remark that the Indians we trade with live on the western border of the Mississippi and the eastern border being settled with whites communication with each other is easy and very often had much to the detriment of these Indians—when we first knew them they were sober and industrious—now in consequence of the ease with which they acquire ardent spirits from their contiguity to the whites they have become drunken and worthless."

Q. When did Farnham die?

A. In 1832 at the age of 48.

Room Bureaus Set Up For New York Fair

NEW YORK (Special)—Two agencies have been set up in New York City to insure World's Fair visitors' getting living accommodations at a most reasonable price.

One is the Mayor's Official World's Fair Housing Bureau, Inc., with headquarters in the Chanin Building, 122 East 42d Street, set up by Mayor LaGuardia to locate rooms for visitors in private homes and dwellings.

The other is the Hotel Room Information Bureau of the Hotel Association of New York City, representing 180 hotels with a total capacity of 80,000 rooms. The bureau is at association headquarters, 221 West 57th Street.

Both agencies function without any charge to the visitor in finding him clean and comfortable accommodations at a price within his means. Rooms in private dwellings range in price from \$1 per night per person upward, with the average per person \$1.50.

Every Western Union and Postal Telegraph office is equipped to handle requests for rooms in conjunction with the Housing Bureau's operation. Every policeman in New York City is familiar with the plan and is equipped to give visitors first hand information on methods of obtaining registered and sponsored rooms.

On making the application for a room the visitor pays a deposit of 50 cents per night per person for which he receives a receipt. The receipt may be presented to the landlord in lieu of cash as part payment for the room.

Interesting Notes

Thieves stole a 600-pound safe from the Moose building, hauled it to the city limits of Normal, Ill., and blew the bottom out of it to obtain \$450.

When the eaves of a park building in Shelby, Ida., caught fire, firemen discovered that a sparrow had carried a lighted cigarette stub to its nest.

A Persian cat belonging to Mrs. Katherine Stull of St. Louis returned thin and footsore after being absent from its home two years.

During an airplane round-up count of wild life for the Biological Survey, a herd of about 400 wild horses not hitherto known was discovered in Wyoming.

Oil Strike of 1897

Back in 1897, a unique oil strike at Varna, Marshall County, struck terror to the citizens. A newspaper writer reported that "water from the town well has tasted of oil for some time and it was thought that some one had thrown kerosene into it," according to research workers of the Federal Writers' Project, WPA. When a resident who was determined to clean out the well, lowered a lantern into it, a gas explosion blew the platform and pump from their foundations and shook the whole place.

Woodman, Spare that Tree

In 1871, the seriousness of the rapid depletion of Illinois timberlands was realized, and farmers were advised to turn their attention to raising trees.

Two bills on the subject were then being considered by the Illinois Legislature, research workers of the Federal Writers' Project, WPA, have learned. One proposed to exempt from taxation all land set apart for tree culture; the other offered a bounty of half a cent for every tree over six feet high except those raised for sales by nurserymen.

The Prize

By WILLIAM SNYDER
(Released by Associated Newspapers
WNU Service.)

FULL of his news, Martin Stevens let himself in with his latchkey and hurried across the hall to the living-room without taking time to remove his overcoat. His wife was sewing by the west window, her eyes straining over the material in the last of the daylight.

"Is that you, Martin?" she murmured without looking up.

"I did get it right, Alice," he almost shouted, startling her so that she dropped the needle she was threading.

"Got what?" irritably, as she searched for the needle. "Close the door into the hall, Martin; it lets in a draft. What did you say you got?" her tone more amiable as she located the needle.

A little dashed, her husband closed the door and took off his overcoat before he answered, but he could not keep a note of exultation out of his voice then.

"That puzzle thing I was trying to work the other night, when all of you made fun of me and said I couldn't do it. I sent it in just for fun and I won a prize."

The staid man of business was as pleased as a child who has received a good school report. And Mrs. Stevens was excited now.

"Isn't that splendid? I can order the new curtains and the rug for the dining-room. I'll call up right away—Arnold's won't be closed yet."

"But—" he began futilely, for she had gone.

He took a step or two after her, then shrugged his shoulder. Oh, well, he had been meaning to tell her that she could get the curtains and rug anyway.

He was settling into a chair by the fire when the door flew open and Suzette bounced in, charming in her bright green frock and little black hat.

"Oh, papa," she shrieked (shrieking was her "line" just now), "mamma says you got the prize for that funny contest. Now I can have a permanent at Anton's and a new evening coat, can't I." It was a statement, not a question. "Give me a check now, and I'll get the coat and an appointment with Anton in the morning. A hundred and fifty will do both of them. Who would have thought I had such a smart dad?"

"But, Suzette, I can't—I didn't—"

Her soft red lips had begun to quiver, her blue eyes to fill.

"Why, papa, you're going to divide with us, aren't you? If mamma can have the curtains and things she wants, surely you'll let your little girl have a little old permanent and a coat for dances. My old one looks just horrid with the new long dresses."

Then she brightened, for her father was taking out his checkbook resignedly. She hung over him, chattering fondly, until the magic slip was signed, then she danced out, waving it in the air to dry the ink.

The front door slammed, and Suzette shrieked at the new arrival. "Look Wilfred, papa won that prize puzzle he was working at the other night and won a lot of money. See what he gave me," as she stuck the check tantalizingly under her brother's nose.

When Wilfred dashed in Martin Stevens' fountain pen was already poised over the check-book.

"What is your pet desire of the moment, son?" he queried with a grimace that went unnoticed.

"Gee, dad, you're a lucky one, aren't you? If you could let me have fifty, I'd go on that week-end trip with the fellows. Thanks a lot, dad—see you at dinner."

A moment later a light step in the hall presaged the entrance of Aunt Lucy, her delicate face beaming.

"Well, Martin, Alice just told me of your good fortune. I am so glad that you can give me something now to help with the settlement girls. Twenty-five would be about right. I thank you in behalf of the settlement."

"Hello, Martin, you lucky dog!" boomed a hearty voice. "Ha, ha—I found you out. Yessir, your Suzette told my Elsie about it. Now, old man, you'll have to come across with that subscription to the new club-house. I'm going to put you down for five hundred. Easy come—easy go—ha, ha! See you tomorrow."

Martin sank limply into his chair before the fire, and drawing a neat slip of blue paper from his wallet contemplated it ruefully. It read:

"Pay to the order of Martin Stevens 25 dollars as tenth prize in the Whatsis puzzle contest."

Harp an Old Instrument

An instrument of great antiquity, the harp remained practically unchanged until the beginning of the Eighteenth century, when Hochbrucker introduced a pedal. The harp owes its perfection to Sebastian Erard, who in 1810 brought out a double-action harp, compassing 8½ octaves with seven pedals, which raised the pitch either a half or whole tone. The frame is of sycamore, the sounding-board of deal, in the center of which is placed a strip of beech, where the pegs are inserted.

New York Skyscrapers Form Back Drop For Air View of Fair

NEW YORK (Special)—This remarkable air view of the New York World's Fair shows the World of Tomorrow that has sprung up against the background of New York City of Today.

The Trylon and Perisphere, theme of the New York Fair, are seen dominating the 1216½-acre tract. At the lower right is the international area with its magnificent foreign pavilions grouped around the Court of Peace below the Lagoon

of Nations. At the lower left is the Court of States. The picture shows the Fair's close proximity to Broadway and the skyscrapers of upper Manhattan.

Actually the Fair is only 10 minutes from Broadway by Long Island Railroad, and about 25 minutes by subway. By motor the trip requires about 30 minutes, with 5 parking fields furnishing ample space. New roads and bridges have prevented congestion of traffic.

Chintz-Covered Lamp Shades You Can Make

By RUTH WYETH SPEARS
 "DEAR MRS. SPEARS: I have a pair of lamps for my dressing table, and I would like to use some of my curtain material to cover plain shades. Can you tell me how this is done? C. H."

Here is a method that is shown for a living room lamp in Book 1. It may be used for a shade of any size. You will need the top and bottom rings from an old lamp shade. A cardboard foundation is cut to fit these, and the chintz or other fabric is pasted to the edge of this.

The AB line in the pattern diagram is as long as the diameter of the bottom ring. The dotted

vertical line is approximately as long as the depth of the shade. The CD line is as long as the diameter of the top ring. Draw the diagonal lines to touch the ends of the AB and CD lines. Place a tack where they meet at E. Place a pencil through a loop in a string, as shown, and draw the bottom line of the shade making it as long as the measurement around the bottom ring plus a half inch. Shorten the string and draw the top to fit the top ring allowing for a half inch lap.

NOTE: Book 1—SEWING, for the Home Decorator, and No. 2, Gifts, Novelties and Embroideries, are now 15 cents each, or both books for 25 cents. Readers who have not secured their copies of these two books should send in their orders at once, as no more copies will be available, when the present stock is sold. Your choice of the QUILT LEAFLET showing 36 authentic patchwork stitches; or the RAGRUG LEAFLET, will be included with orders for both books for the present, but the offer may be withdrawn at any time. Leaflets are 6 cents each when ordered without the books.

Everyone should have copies of these two books containing 96 How to Sew articles by Mrs. Spears. Send your order at once to Mrs. Spears, 210 S. Desplains St., Chicago, Ill.

Strange Facts
 Regional Moods Ears to Hear With Who Is Perfect?

Motion-picture producers, wishing to adapt movies to different regional tastes, have been known to make pictures with two types of endings—a tragic one for the East and West coasts and a happy one for the Middle West.

Among the remarkable physical features that have been produced in animals through selective breeding are the enormous ears of the "lop-eared" rabbits. Some on record are six inches wide by twenty-eight inches long.

In at least 90 per cent of the American people, the left eye is nearer to the nose than the right eye.

An analysis of the 400 most important inventions and discoveries made throughout the world in the past 400 years shows that 95 per cent of them originated in four countries: United States, Great Britain, France and Germany.

The tropical American vine called the ceriman, Monstera deliciosa, bears a peculiar fruit that resembles a pine cone and is about a foot in length. This fruit deteriorates inch by inch as it ripens, and must be eaten as it matures, a period that extends over several days.—Collier's.

Household News By Eleanor Howe

KEEP COOL WITH REFRIGERATOR MEALS See Recipes Below.

Refrigerator Meals

It's a smart stunt to get meal preparation out of the way in the cool of the morning. Knowing that dinner's ready and practically waiting to be served helps you to look and feel cool, calm and collected, and it leaves you free for "vacationing" during the hot hours of the day.

Here's a menu that can be prepared in the morning, almost down to the last sprig of parsley, so that it will be ready to serve at the appointed dinner hour with only a little additional work.

- Pineapple Upside Down Loaf
Tomatoes Stuffed With Macaroni
Buttered Fresh Peas
Minted Pear Salad
Hot Biscuits
Strawberry Fluff
Biscuits. (Makes 12-14 Biscuits).

- 2 cups flour
4 teaspoons baking powder
1/4 teaspoon salt
1/2 cup shortening
1/2 cup milk

Sift dry ingredients together and cut in shortening. Add liquid slowly. Turn dough onto lightly floured board, pat to 1/2-inch thickness, and cut in rounds. Place on greased cookie sheet. Brush biscuits with melted butter and store in refrigerator until 20 minutes before dinner. Bake in hot oven (450 degrees) for 15-20 minutes.

Pineapple Upside Down Ham Loaf.

- Sliced pineapple
Whole cloves
1 1/2 pounds ham (ground)
3/4 pound veal (ground)
1 green pepper (minced) 1/2 cup
1 cup rice (cooked)
2 tablespoons onion (minced)
1/4 teaspoon pepper
1 teaspoon salt
1 egg (beaten)
1/2 cup chili sauce or catsup
1/2 cup water

Dot several slices of pineapple with whole cloves. Arrange in the bottom of a loaf pan.

Combine meat, green pepper, rice, onion and seasonings. Add egg, chili sauce (or catsup) and water. Shape into loaf, and bake at 375 degrees for one hour. Turn out onto platter. Serve hot or cold.

Buttered Fresh Peas.

Simply place the shelled peas in a saucepan, partially filled with water. Set in refrigerator, then just before dinner, cook in this same water. For variety, sprinkle finely chopped garden mint over peas before serving.

Tomatoes Stuffed With Macaroni.

Remove the centers from the desired number of tomatoes and fill with cooked and seasoned macaroni, topped with slices of cheese, or better yet, if the refrigerator divulges some freshly kept, left-over macaroni

and cheese, this may be used instead, with a buttered crumb topping. Chill until dinner time, then bake in a hot oven (400 degrees) for about 20 minutes.

Minted Pear Salad.

- 1 package mint-flavored gelatin
1 cup boiling water
1 cup cold water
1/4 teaspoon salt
5 or 6 pear halves (canned)

Lettuce
Salad dressing. Dissolve gelatin in boiling water, add cold water and salt. Let stand in refrigerator until cool. Dip pear halves in cold gelatin mixture and

arrange in ring mold. Place in refrigerator until set, and fill the mold with the cooled gelatin mixture. Chill until firm. Serve on large platter with a small bowl of salad dressing and lettuce for garnish.

Strawberry Fluff. And for dessert, combine whipped cream, sliced strawberries and marshmallows cut in quarters. Place in sherbets and chill for several hours or overnight.

Get Your Copy of This New Book. Just imagine being able to turn to a helpful little book for the answers to puzzling questions about home-making. Tips on how to save work while ironing, how to remove old paint and varnish from furniture, what to do when your net curtains tear and the budget just won't permit a new pair, the answers to these and many other questions will be found in Eleanor Howe's useful little book "Household Hints." Send 10 cents in coin to Eleanor Howe, 919 N. Michigan Avenue, Chicago, Ill., and get your copy of "Household Hints" now.

Pure Cellulose Curtains Look Like Rare Chintzes

Pure cellulose curtains that look like printed linens and rare chintzes are making home-decorating history for 1939. So low is their cost that an entire house can be redraped for less than \$10, and when the curtains are soiled they can be thrown away and replaced for a cost equal to or less than the cost of laundering.

Looking like vellum and feeling like fine percale, these materials are soft, pliable, with permanent drapability and "hand." They are available in a wide number of patterns and designs in rich, sunfast colors. Coming completely finished and ready to hang, with matching tie-backs, the drapes are sold in three lengths.

Little Niceties Make Cheerful Guest Room

Summer guests will appreciate a cheerful guest room—one that has its own style furniture and not just miscellaneous discarded pieces. Essential as the bed itself are a chest of drawers for odds and ends, a smart vanity for the feminine visitor and a bedside lamp and table.

A chaise longue and some good books and magazines will help take care of those in between moments. Most important of all, for comfort's sake, are a good mattress and a good spring.

Logs for the Apartment

There are now fireplace logs suited to the apartment dweller. They are compressed under great pressure out of sawdust and shavings so that each log is bone dry, clean, uniform in size (4 by 12 1/2 inches), and has no splinters. There is almost no storage problem, as each log burns for four hours, and a month's supply can easily fit into the closet along with the umbrella and galoshes. These logs give off a colored flame—blue, orange, purple or green—very much like fires made from driftwood.

Dining Bay Excludes Flies

If you want to eat outdoors in warm weather, but the flies make the meal a nuisance, how about adding a bay to your living or dining room? You can sit with windows on practically three sides of you, but by screening them, banish the annoying and unsanitary little insects.

Sealing Jellies

Paraffin used for sealing jellies should be "smoking" hot, since it sterilizes as well as seals. Tilt the glass in order that the melted paraffin may form a seal around the side of the glass as well as a covering for the top.

FARM TOPICS

SLEEPING SICKNESS PRECAUTION URGED

Two Doses Immunize Horses For 8 Months.

Horses treated with two doses of chick embryo vaccine to prevent sleeping sickness are immune to the disease for a period of at least eight months, it is indicated by immunity tests being conducted by the division of animal pathology and hygiene, college of agriculture, University of Illinois.

Further tests on immunity will be conducted at the agricultural college to keep veterinarians and live stock owners informed with reference to the period of immunity established by the vaccine.

In the meantime, it is suggested that all good horses be immunized immediately with two doses of chick embryo vaccine to avoid losses which were reported in 85 different counties last year.

Horses that had the disease and recovered last year and horses that were vaccinated should be revaccinated, it is recommended by staff members of the division of animal pathology and hygiene.

It is hoped that tests under way at the college of agriculture will determine if horses are immune longer than eight months.

Suspicious clinical cases of sleeping sickness in horses have been reported from different sections of the state. However, tests of materials submitted to the laboratory of animal pathology and hygiene have as yet failed to yield the virus of the disease.

Mulching Commendable For Soil Conservation

In order to preserve its strength, soil must be protected with some kind of covering to prevent rains from washing away the finer particles. In the opinion of Russell E. Underwood, extension soil conservationist at the New Jersey college of agriculture, Rutgers university, the use of mulch is valuable in this respect, especially where specialized crops prohibit the use of soil-conserving rotations.

"When specialized crops are grown on sloping land and clean cultivation is practiced to control weeds and check evaporation of soil moisture, the soil is exposed and very vulnerable to dashing rains," Mr. Underwood explains.

"Mulch should be applied in strips across the slope so as to cover from one-half to two-thirds of the land area. This applies to mulch grown on available adjacent land. Frequently, however, the mulch crop could be grown and not harvested but allowed to remain on the land for protection against erosion. Oats, barley and sudan grass planted in late summer will make fairly good growth before being killed by winter freezes. Such material offers good protection against winter erosion and has the advantage of being anchored to the soil so that it is not washed or blown away."

Nature Toes the Mark In Control Laboratory

Night or day, sunlight or darkness, temperature control within a fraction of a degree, and plant-life that can be "put to work or put to bed at will," all are under the control of scientists in a specially-designed chamber at the New York state college of agriculture.

The exactness of control is probably the greatest yet achieved in any laboratory, and the aim is to unravel the mystery of plant "vigour," the quality that makes any one stock superior to others, either in yield, disease-resistance, or in other ways.

In plant breeding, it is known that when two inbred or purebred strains are crossed, the result (a hybrid) may be astonishingly better than the parent stock. This is referred to as "hybrid vigor." Why and how this happens are subjects of study by plant physiologists.

Farm Topics

One of the best ways to cut the cost of growing heifers is to provide improved pastures.

Records kept by dairy herd improvement associations increase the sales value of good grade and purebred animals.

Horses of good draft type, fine quality and energetic, kindly dispositions do the most work, endure heat well, and sell for highest prices.

Shifts to high analysis fertilizers are creating a need for more exact labeling, including the content of the secondary elements in the mixtures, say U. S. department of agriculture chemists.

The practice of fertilizing land with phosphorus bearing material is older than written records. The first acid phosphate fertilizer was made in 1842 by John Lawes, an Englishman who treated bones with sulfuric acid to make the phosphorus more readily available to plants.

PATTERN DEPARTMENT SEWING CIRCLE

daytime? Then 1778 is just what you want! A square-necked, youthful basque frock, with circular skirt, upped sleeves and a tiny waistline, it will look summery and refreshing even on the hottest day, with your big hat and white shoes. For this, choose silk print, linen, gingham or lawn.

1778 is designed for sizes 12, 14, 16, 18, 20 and 40. Size 14 requires 4 1/2 yards of 35 inch material with short sleeves. 1 3/4 yards of trimming.

Send your order to The Sewing Circle Pattern Dept., Room 1324, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

Simple Headache St. Joseph GENUINE PURE ASPIRIN advertisement.

DO YOU go in—or rather out—for active sports? Then there's a place in your life for the pretty play frock (1767) with short tennis skirt, sunback, and bright bands of braid. A little short-sleeved jacket and head kerchief are included in your easy pattern. In pique, gingham or chambray, it will make your vacation smarter and gayer.

Cool Daytime Frock. Are you looking for something cool, becoming and different for

Identical Twins

Many cases where parents could not distinguish between their own twins are on record. Yet only 30 out of 100 pairs look, act and behave alike. Twins do suffer similar ailments. In England, a pair had toothaches at the same time, had identical teeth extracted. Another pair, living 100 miles apart, suffered rheumatic attacks at the same time. Twins often get identical ideas. One visiting Scotland bought a gift for his brother. Returning to England, he found his twin had bought a duplicate gift for him.—Washington Post.

Local and Personal

Miss Lois Zantow is visiting relatives at Portageville, Mo.

Oscar Gallion and family visited relatives at Murdock, Sunday.

Ed Patton and family of Metcalf were Sunday guests of Mr. and Mrs. Wm. Patton.

Miss Geraldine Jackson of Champaign came home Sunday for a ten days vacation.

Mr. and Mrs. Lyle Vermilion of Rantoul spent Sunday in the James Jackson home.

Mr. and Mrs. Kenneth Cable and daughter of Terre Haute, Ind., visited in the A. A. Cable home over the weekend.

Marie, Robert and Roberta Poore of Crawfordsville, Ind., are visiting at the Emil Schumacher home.

Oscar Witt and family, Roy Bergfield and family visited Mark Moore and family at Indianapolis, Ind., Sunday.

Ronald Cable and family of Chicago visited Mr. and Mrs. A. A. Cable and other relatives here Sunday.

David Freeman of Henry, was in Urbana on Sunday to see his mother, Mrs. D. F. Freeman, who is a patient in Carle hospital.

Mr. and Mrs. Fred Messman were Sunday guests of Rev. and Mrs. C. M. Temple at Lacon. Mary Frances Temple accompanied them home for a visit.

Guests at the Kerna Block home over the weekend were Mr. and Mrs. P. E. Hammil, Mrs. James Sinters, Mrs. John Akers and son, of Indianapolis, Ind.

Lon Thomas, Mr. and Mrs. Howard Clem and son Ralph, Wilbur and Nellie Thomas visited relatives near Prairieton, Ind. on Sunday.

Mrs. D. F. Freeman entered Carle Memorial hospital, Urbana, for observation and treatment, on Thursday of last week. At the present time she is in a serious condition.

Bernard Jackson and two sons and Miss Nora Moreman of Danville were visitors in the James Jackson home, Sunday. A third son was born to the Bernard Jacksons on July 4.

Mr. and Mrs. Leonard Thomas and daughter of Jackson, Mich., visited relatives here Sunday morning. Mr. Thomas returned to Jackson Sunday evening, Mrs. Thomas and baby remaining for a longer visit.

Mr. and Mrs. Floyd Hardyman returned home Saturday after a two weeks visit at Waukegan. "Toidy" visited the boys at the Great Lakes Naval Training school on Thursday of last week, sitting in for a big feed at the noon hour.

Members from Broadlands attending the Stragaard-Dahl reunion at Crystal Lake Park, Urbana, Sunday, were Kenneth Dicks and family, Hugo Dewitt and family, Walter Logan and family, Bobby McClelland, Byron Struck and Tommy Hobbs attended as guests.

Hugo Dewitt and Herbert Krenzien motored to Peoria on Tuesday to see the 1940 line of Crosley refrigerators, radios and cars. The boys took a ride in the Crosley car. The coupe sells for \$325, and the sedan for \$350. It's a two cylinder car and will run 50 miles per hour. The car will run 60 miles on a gallon of gas it is said.

Long View News

H. H. Jarman was ill the first of the week but is better now.

Billy Schrader of Danville, has visited for several days in the Roy Hurst home.

Mrs. Everett Chandler was brought home from Jarman hospital, Monday.

Jimmy Phelps and the Misses Alice and Helen Norman were Danville visitors Sunday evening.

Junior Churchill, Andrew Henson, Ray and Paul Boyd have gone to the Citizen's Military Training Camp at Jefferson Barracks for a month's stay.

Miss Frances Martinie accompanied a group of girl scouts to McCormick's Creek State Park near Spencer, Ind., for a week's outing.

Fifth annual reunion at South Raymond Schoolhouse, Sunday, July 16, with basket dinner. All former teachers, students, and friends are invited.

The Longview W. C. T. U. met Tuesday, July 11, at the United Brethren Church, with an eleven o'clock service, a pot-luck dinner, and an afternoon service at one-thirty. Thirty-five were present, including Mrs. W. B. Oneal, and others from Urbana; Mrs. Fullerton, Tuscola, president of the Douglas County group; and several from Pleasant Hill; also Mrs. Flora Maxfield of Villa Grove, who sang "My Task," accompanied by Mrs. Lois Warnes Dollahan. Misses Betty and Alberta Culton of Newman gave several vocal numbers. Speakers were the Rev. W. E. Ballew, Rev. J. A. Parker, Mrs. Cora Warnes. Mrs. Dollahan also gave a short talk with "We, the Government," as her subject.

The whole world was shocked recently at the loss of three submarines, American, English and French. Everybody spoke about the terrible loss of life and expressed sympathy for the wives and families of the men who died under water. Hundreds of thousands of dollars will be spent to bring those submarines to the surface, if it is at all possible, and to determine the cause of these terrible accidents.

While we are discussing these submarine fatalities, have you and I thought about the daily traffic toll? Ten times more persons were killed by automobiles on our highways during the days we were discussing these submarine accidents than died in the submarines. These families deserve sympathy, too.

You and I can help to eliminate these accidents by driving carefully and by supporting the many safety campaigns sponsored by organizations. It's smart to drive carefully.

A busy man was using the telephone.
I want Murray Hill double-two double-two, he said.
Two-two-two-two, replied the

exchange girl.
All right, said the man, patiently, but right now get that number—I'll play train with you later.

Annual Appropriation Bill
An ordinance making appropriations for the corporate purposes of the Village of Broadlands, Illinois, for the fiscal year commencing on the first day of May A. D. 1939, and ending on the 30th day of April A. D. 1940.
Be it ordained by the Board of Trustees of the Village of Broadlands, Illinois:
Section 1. That the following sums, or so much thereof as may be authorized by law, be and the same are hereby appropriated for the corporate purposes of the Village of Broadlands, Illinois, to defray all necessary expenses and liabilities of said Village of Broadlands, as herein-after specified, for the fiscal year commencing on the first day of May A. D. 1939, and ending on the 30th day of April A. D. 1940, to-wit:
For repairing and maintaining streets and alleys \$2500.00
For street lighting \$600.00
For maintenance of fire department \$625.00
For salaries of employees of police department \$200.00
For printing of ordinances, official reports and official notices \$175.00
For salaries of village officers \$100.00
For special attorneys \$100.00
For repairs to village buildings \$300.00
For mowing weeds along village streets and on village property \$100.00
For contingent fund \$200.00
For fire protection purposes, 2 Mill tax levy authorized by voters \$196.75
Totals \$5,096.75
Section 2. The said several sums of money are hereby appropriated from moneys received and to be received by the Village of Broadlands, Illinois, from all sources.
Section 3. This ordinance shall take effect and be in force from and after its passage and approval.
Passed by the Board of Trustees of the Village of Broadlands, Illinois, this 12th day of July, A. D. 1939.
H. L. Krenzien, Village Clerk.
Approved by me this 12th day of July A. D. 1939.
H. C. Harris, President of the Board of Trustees.
