

# THE BROADLANDS NEWS

VOLUME 21

BROADLANDS, ILLINOIS, THURSDAY, JUNE 13, 1940

NUMBER 10

## News Items of 12 Years Ago

June 15, 1928

Rev. and Mrs. C. M. Temple visited relatives at Mattoon.

There was a large attendance at the band concert held here on Saturday night.

Kenneth Cable and Miss Florence Kreke were married at Terre Haute, Ind.

Mrs. Claude Combs and children of Stillman Valley were visiting relatives here.

Miss Beulah Gore left for Danville to take three months training at Utterback Business College.

The following enjoyed a fishing trip along the Sangamon river near Mahomet: Andrew Bosch and family, Ed Bosch and family, Mr. and Mrs. Frank Kracht, George Bosch, Oliver McCormick.

## 20 Years Ago

June 11, 1920

Prof. Claude Combs of Charleston visited friends here.

Miss Dora Messman was visiting relatives in Danville.

Mr. and Mrs. A. A. Cable returned from a visit with relatives in Ohio.

Arthur Busick and Dan Douthitt attended the Round Up, at Danville.

Kenneth and Ralph Allen, Oscar Smith and Forrest Dicks were home from the U. of I. for the summer vacation.

The following were ill with measles: Clyde Gore, Anna Edens, Naomi Zantow and Delbert Reed.

The G. T. Club initiated ten new members at the June meeting held at the home of Mrs. Oscar Witt. The club was organized at the home of Mrs. Oscar Anderson in April 1920, with nine charter members.

## When Heat Gets You Down, Try A Little Salt

Hot weather, plus hard work, means plenty of perspiration these days for farm folks, according to the Illinois Agricultural Association's department of safety. Anyone who has ever had perspiration trickle down his face and onto his lips, then tasted it, knows that it is well over on the saline side.

"Medical authorities are pretty thoroughly agreed now that the depletion of salt in the human system is a serious contributing factor in heat sickness," says C. M. Seagraves, IAA safety director. "For many years the National Guard and most factories have encouraged their personnel to take salt with their drinking water to keep up their energy and to ward off the bad effects of excessive heat."

Mr. and Mrs. W. E. Thomas, Murdock; Clyde Ramsey and family, Kemp; Delbert McCarty and family, Charleston; Lloyd Rahn and family, Tuscola, were visitors in the home of Mrs. Belle Smith, Sunday.

## James Carleton, 86, Longview, Dies Sunday

James Carleton, Sr., 86, died at his home in Longview, at 7 a. m., Sunday, June 9, 1940, of old age and complications. He had been ill for several months, and the end was not unexpected.

Funeral services were held from the late home at 2 p. m. last Tuesday, with Rev. W. Earl Ballew, of Broadlands in charge. A quartet composed of Messrs. George H. Cook, Charles Warnes, Merle Buddemeier and John Seltzer sang three songs, with Mrs. Mathews accompanying at the piano.

Burial was in Lynn Grove cemetery, 1 1/2 miles west of Block Station, with Dicks Bros., local morticians in charge.

The deceased was born near Coagh, London Derry, Ireland, March 3, 1854. He came to Chicago in 1871, and two years later he came to Longview. He returned to Chicago, where he was married to Miss Margaret Hortense Platt, on Nov. 19, 1879, and came to Longview to live. Mrs. Carleton died April 24, 1900.

Surviving are five daughters, namely: Miss Ada, at home, Mrs. Daisy Beatty, Mrs. Maude Ringo, Mrs. Ruth Fields, near Longview; Mrs. Mary Shell, Waveland, Ind.; two sons, James and Edward, Longview; a sister, Mrs. Anna McKendry, Chicago; two brothers, Wilson, Chicago; and Matthew, in Ireland; 16 grand children and one great-grandchild. One son, John, died at the age of eight years.

## Examination of Applicants For U. S. Navy, June 18

A physical examination of applicants for enlistment in the United States Navy will be conducted by the Navy Medical Examiner at 10:00 a. m., Tuesday, June 18, at the Champaign Navy Recruiting Station.

Young men between 18 and 31 who desire to take the examination must first make application in person at the Champaign office prior to the date upon which the examination is held. Those taking the examination at Champaign will be spared the expense of a trip to St. Louis, Mo., for their physical examination as has been necessary in the past. Candidates must furnish their own transportation to and from Champaign.

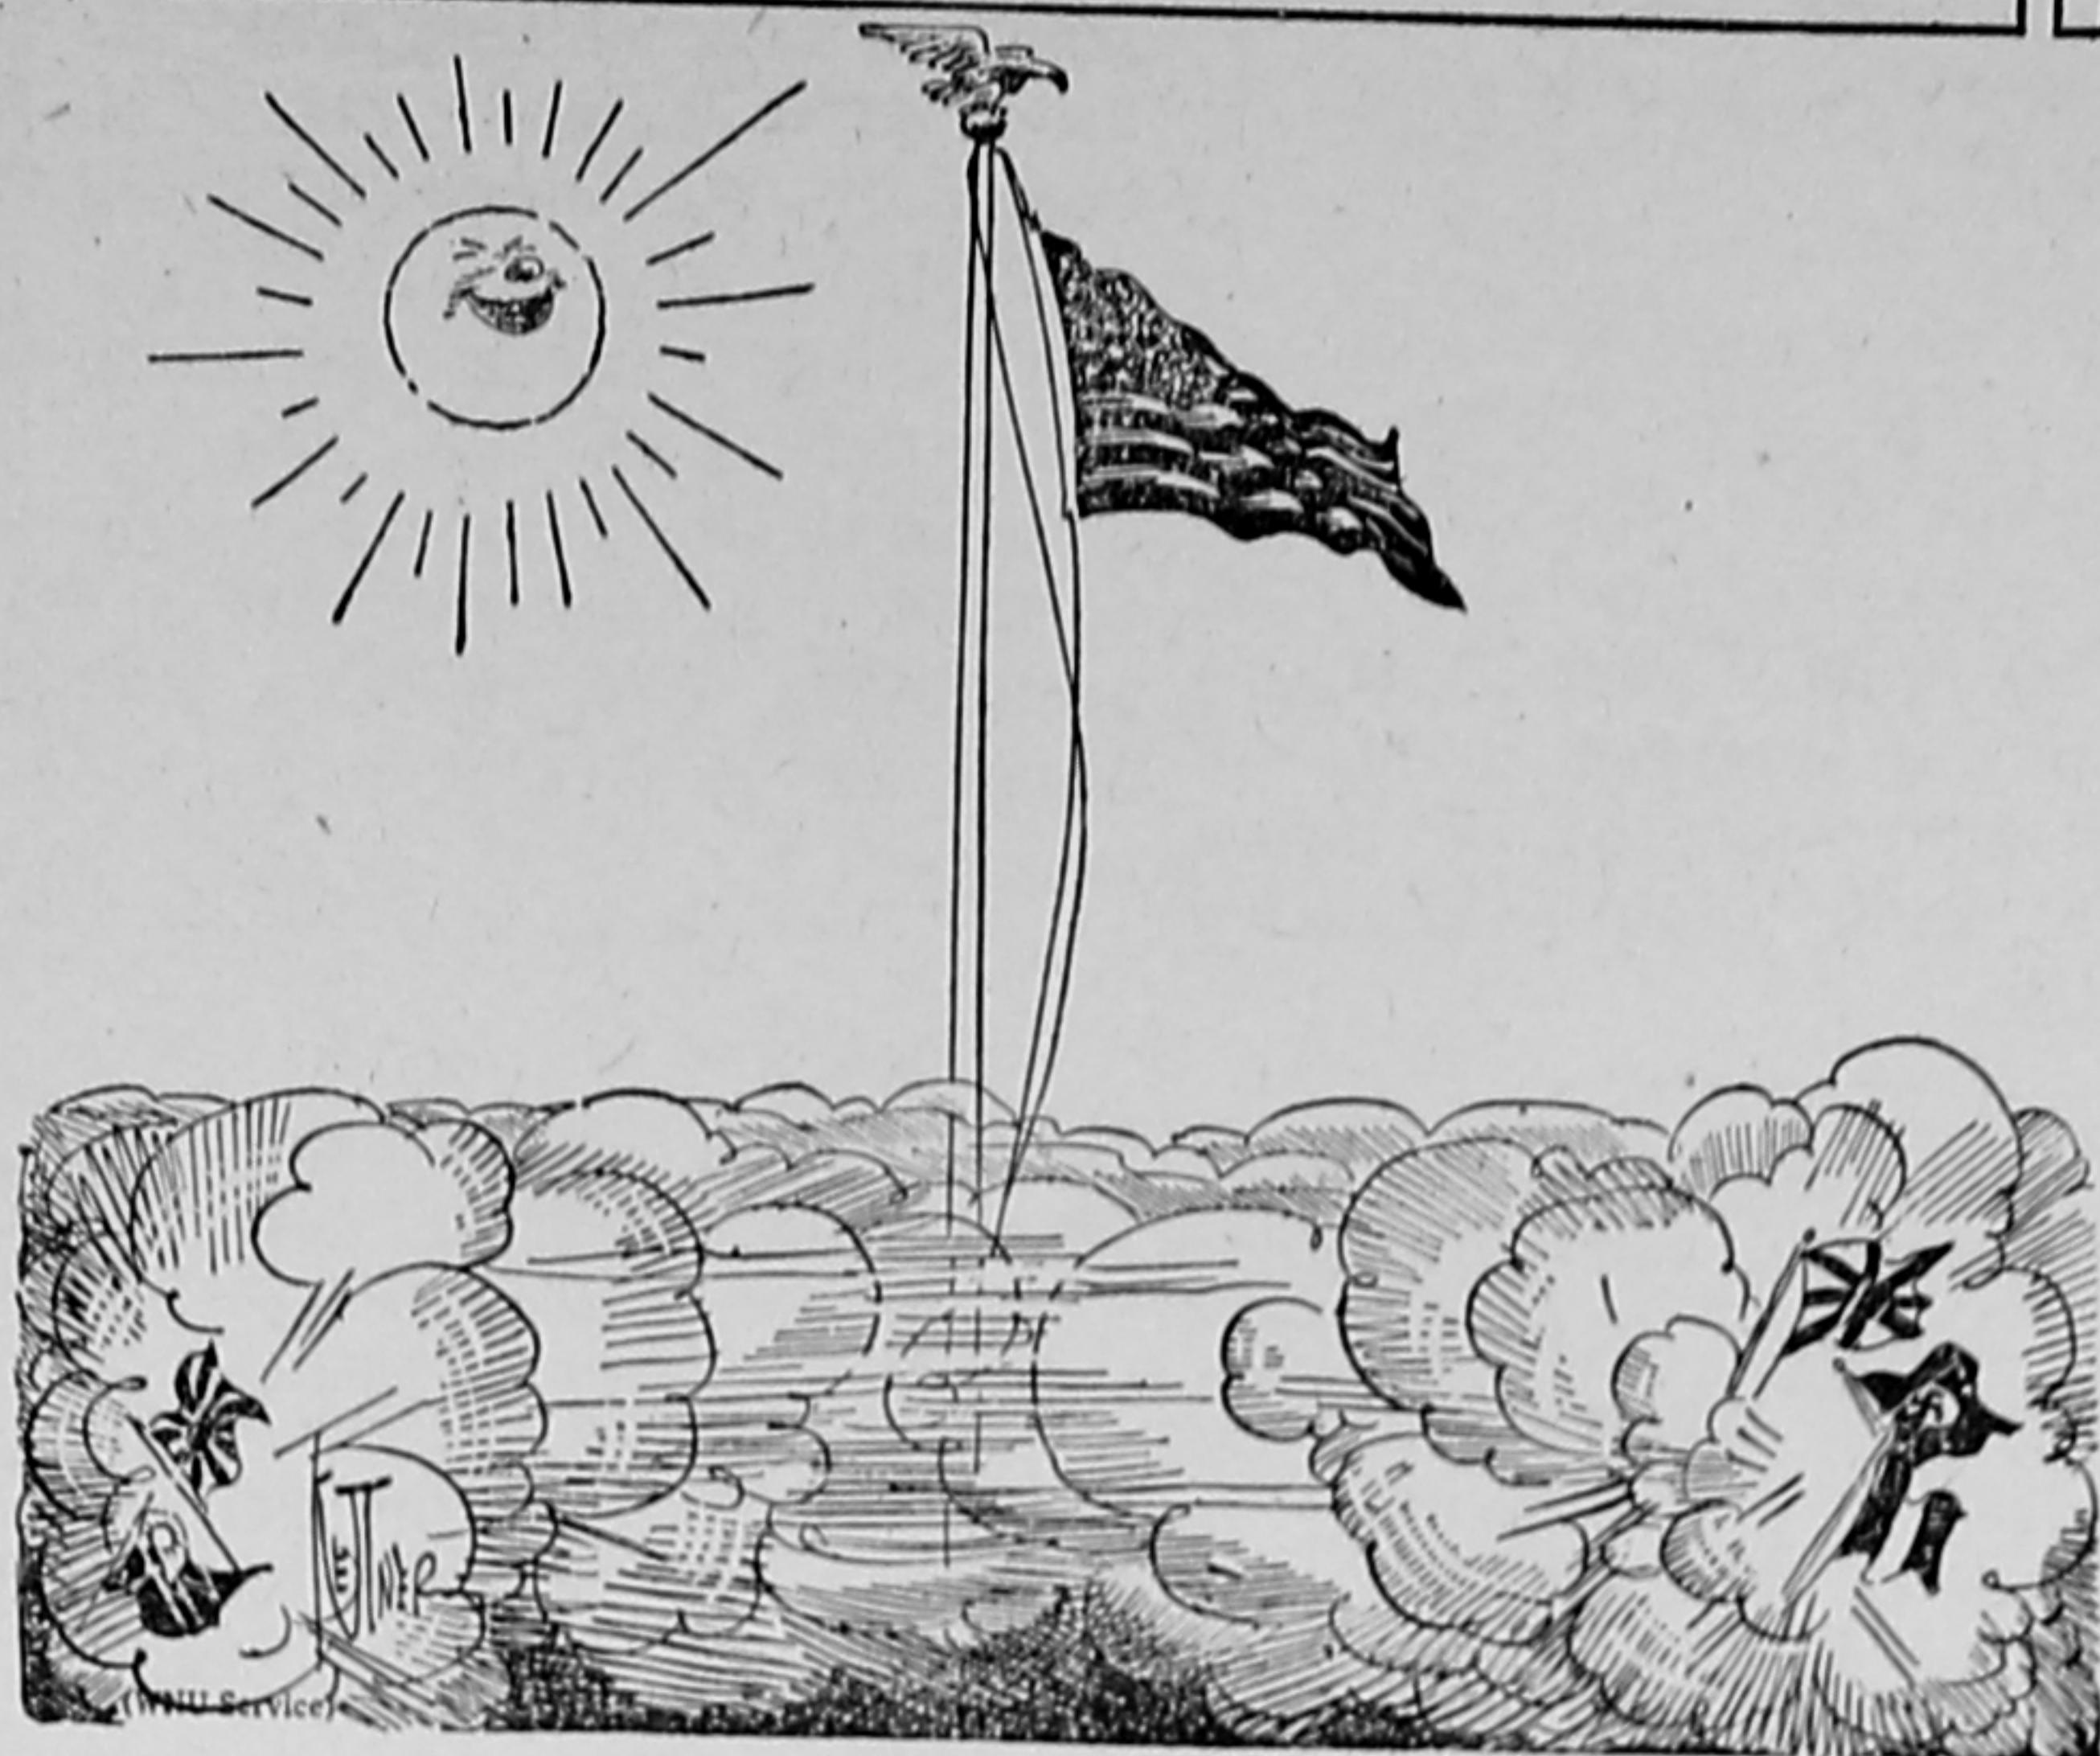

## Bus Baldwin Sustains Broken Wrist Monday

Bus Baldwin slipped and fell while working at his place of business last Monday afternoon, breaking his left wrist. He didn't realize the member was broken until Monday night when pains began to shoot through his arm. He went to Jarman hospital, Tuscola, where Dr. H. I. Conn set the member and placed it in a plaster cast.

Wynnie Mae Darley, 5 year old Homer girl, won first prize as a result of votes of the audience, in the Revue of Future Stars, recently presented by the Homer fire department at Homer. She was given \$5 for her vocal solos. Third prize of \$2 was awarded to Oliver Boyd of Broadlands for a vocal solo.

Mr. and Mrs. Clark Henson and daughter Miss Maxine were Champaign visitors Tuesday.

## Above the Clouds

## Malcolm Pigg's Half-Brother Is Fatally Injured In Fall

John Franklin Pigg, 10, of Brocton, fell 70 feet down a shaft at the Farmers' elevator at Brocton, last Wednesday afternoon at 3:45. His body was badly broken and mangled. He was rushed to the hospital at Paris, where he died at 5:45 p. m. Wednesday.

The deceased was a half-brother of Malcolm Pigg of Broadlands.

Funeral services will be held from the Brocton Christian Church, at 10 a. m., this Saturday.

## Misses Kilian, Hodgson Rank High In '40 Class

(Homer Enterprise) Marianna Kilian ranked valedictorian of the 1940 senior class of the Homer Community High school with the unusually good grade of 4.92, and Helen Ruth Hodgson was a close second with another unusually fine mark of 4.82. The honors were announced at graduation exercises here Wednesday of last week.

Ruth Lynch completed her entire high school course of four years without an absent or tardy mark. This record is unusual because Miss Lynch had made the daily trips from her country home northwest of here.

## Small Child Dies By Strangulation at Fairland

Shirley Ann, 14 months old daughter of Mr. and Mrs. Harold Addis of Fairland was strangled to death at the family home about 3:30 o'clock Wednesday afternoon.

The little girl got her head caught in the top of an apron hanging on the clothes line and when found life was so near extinct that efforts to revive her were in vain.

She is survived by her parents and one brother, Thomas.—Villa Grove News.

## Melvin Rowen Home Threatened By Fire

The fire siren shrieked last Monday afternoon and the bucket brigade rushed to the home of Mr. and Mrs. Melvin Rowen. The fire was soon extinguished and little damage was done. However some damage was done by the fire fighters who chopped holes in the roof and tore siding off the house. A short in the light wires caused the fire it is thought.

## Local and Personal

Mrs. Neva Crain and son Ted were Rantoul visitors, Monday.

Harry Archer and family visited in Rankin, Sunday.

Jackie Moore of Indianapolis is visiting in the Roy Bergfield home.

Andrew Henson has returned home from the Eastern Illinois State Teachers College, Normal, for the summer vacation.

Mr. and Mrs. Louis Frick attended the funeral of a relative, George Ford, at West Lebanon, Ind., Saturday.

Mr. and Mrs. Lloyd Cable of Steger visited relatives here and at Longview, Thursday and Friday of last week.

Mrs. Eva Cullom of Lander, Wyo., recently arrived for a visit with her sister, Mrs. Hattie Dicks.

Gwinn Johnson and family of Mason City, Ia., spent the past week here with Edward Maxwell and family.

Miss Leone Bergfield has returned home from Blackburn College, Jacksonville, for the summer vacation.

Kenneth Cable and family of Terre Haute, Ind., visited in the A. A. Cable home over the weekend.

Mr. and Mrs. Clyde Smith are parents of a daughter born last Tuesday. She has been named Mary Sue.

Mr. and Mrs. Elmer Mohr are parents of a son born June 5 at Mercy hospital, Urbana. This is their second child, both being sons.

A son was born to Mr. and Mrs. Lawrence Griffith of Fairland, May 31. This is their second child, the first being a daughter.

Mr. and Mrs. C. A. Elliott, Mr. and Mrs. Lyal Potter, Miss Helen Potter, of Chicago; Mr. and Mrs. Frank Frame of Los Angeles, Cal., visited at the home of Robert Potter last Sunday.

Mr. and Mrs. Earl Kresin of Homer entertained at dinner, Sunday, Arthur Ashwell and family, Herbert Ashwell and family, Arthur; Wm. Kresin and family, Earl Thayer, Tuscola; Mrs. Eva Bruhn and Everett Bruhn, Champaign.

## Averages of Pupils Taking Tests Given

The ranks and averages of pupils earning a passing average in the county superintendent's general test examination March 15 were announced Saturday by Ernest M. Harshbarger, superintendent. There were 780 pupils who took the examination, 102 in the seventh grade and 678 in the eighth grade.

Those from Broadlands Public schools and nearby schools, with their averages are as follows:

- Eighth grade—
- 96-4—Lila Mae Witt, Mound Snip.
- 94-7—Ella Maxine Henson, Broadlands.
- 93—Lois Maxine De Witt, Broadlands.
- 92-1—Everett Williamson, Lawnsdale.
- 91-5—Imogene Williamson, Lawnsdale.
- 91-2—Ralph Bosch, Liberty.
- 91-1—Jane Anderson, Mound Snip.
- 88—Lloyd Wendell Cummings, Broadlands.
- 84-3—Dale Wakefield, Liberty.
- 83-6—Harold Gene Elliott, Broadlands.
- 83-2—Loyde E. McCormick, Broadlands.
- 81-7—Lora Lorine Hardyman, Broadlands.
- 79-5—Robert Skinner, Broadlands.
- 78-2—Mildred Hillery, Liberty.
- 76-7—Ralph Hedrick, White Hall.
- 76-4—Virginia Gillewater, White Hall.
- 74-4—Howard Mohr, White Hall.
- 73-5—Rita Bosch, Liberty.
- 72-6—Charlotte Partenheimer, White Hall.
- 72-1—Eileen Bosch, Liberty.
- 70-5—John Stutz, Mound Snip.

## The Free Movie Fund Is Growing

Following are the names of those who have contributed a dollar or more for the season:

- Fred J. Mohr .....\$2.00
  - Mrs. Lillie Bowman..... 1.00
  - Ira Laverick ..... 2.00
  - Wm. Zenke ..... 2.00
  - Herman Struck ..... 1.00
  - Robert Luedke ..... 1.00
  - Alvin Zenke ..... 5.00
  - Robert Smith ..... 1.00
  - John M. Smith ..... 1.00
  - Rev. W. Earl Ballew..... 1.00
  - George Dohme ..... 2.00
  - Mrs. Leanna Miller ..... 1.00
  - Bud Pogendorf..... 1.00
  - Harold L. Smith ..... 1.00
  - Edward Nohren ..... 2.00
  - Jess Ward ..... 1.00
  - Henry Kilian, Sr. .... 1.00
  - Frank Frick ..... 1.00
  - Champaign Beauty and Barber Supply House ..... 1.00
  - O. P. Witt ..... 2.00
  - Arch Walker ..... 1.00
  - Ray McClelland ..... 1.00
  - George H. Cook ..... 1.00
  - Walter Neal ..... 1.00
- Other contributions will be added until the amount of \$50 is subscribed.

## Lodge Meets Next Monday

Broadlands Lodge, No. 791, A. F. & A. M. will meet next Monday night at 7:30. It's installation night.

Henry K. Mohr, W. M. Carl B. Dicks, Sec.

Several heavy rains have visited this locality the past week, a very heavy downpour having fallen last Tuesday.

## Children's Day Program Sunday

The annual Children's Day program of the local Methodist Church will be presented this Sunday evening, beginning at 7:30 o'clock. The public is most cordially invited to attend.

Following is the program:  
Call to the Colors—Tom Hobbs.  
Pledge to the flag—Children.  
Invocation—Rev. Ballew.  
Solo—Winifred Darley.  
Recitation—Mary Carol Smith.  
Recitation—Joe Smith.  
Recitation—Barbara Monroe.  
Recitation—Rosemary Peter-son.  
Solo—Lowell Seeds.  
Recitation—Hope Celestine Zenke.

Exercise—Beginners.  
Piano Solo—Geraldine DeWitt.  
Recitation—Allan Peterson.  
Recitation—Jo Marilyn Craig.  
Piano Solo—Darrell Dicks.  
Recitation—Mark Walker.  
Song—All.  
Recitation—Barbara Gallion.  
Recitation—David Wayne Daltzell.  
Recitation—Bobby Ages.  
Solo—Oliver Boyd.  
Recitation—Pauline Morgan.  
Recitation—LeRoy Pigg.  
Music—Zenke Trio.  
Recitation—Harold Gallion.  
Recitation—Marion Zenke.  
Piano Duet—Carol and Elaine Cooper.  
Recitation—Hugh Gallion.  
Piano Solo—Jane Anderson.  
Recitation—Audrey Poore.  
Piano Solo—Bobby Ward.  
Instrumental Trio—Tom Hobbs, Noel and Wallace Dicks.  
Recitation—Gene Paul Zenke.  
Recitation—Betty Jackson.  
Saxophone Solo—Bobby McClelland.  
Vocal Solo—Warren Richard.  
Recitation—Ginger Fassett.  
Talk—Rev. Ballew.  
Offertory—Lois DeWitt.  
Benediction—Rev. Ballew.

## Walter Thode Suffers Injury

Walter Thode is nursing a very sore left arm, having got the member cut and badly bruised last Monday night while working at the Standard Service Station. The accident occurred when Mr. Block, the proprietor, started the motor on the car on which they were working, the car going backward, catching Walter's arm between the door of the garage and the car. Walter was taken to the office of Dr. Blades, Sidney, who found it necessary to take three stitches to close the wound.

## Gun Goes Off, Newman Woman Is Injured

Tuscola, June 11—Mrs. W. O. Taylor, 48, Newman, is in Jarman hospital here with a gun shot wound in her right shoulder, which she received accidentally Monday afternoon while housecleaning.

Her grandson, Jackie Taylor, 9, who had come to visit, picked up the gun which had been laid on the radio, and it discharged. Her condition is not serious.

## Market Report

Following are the prices offered for grain on Thursday in the local market:

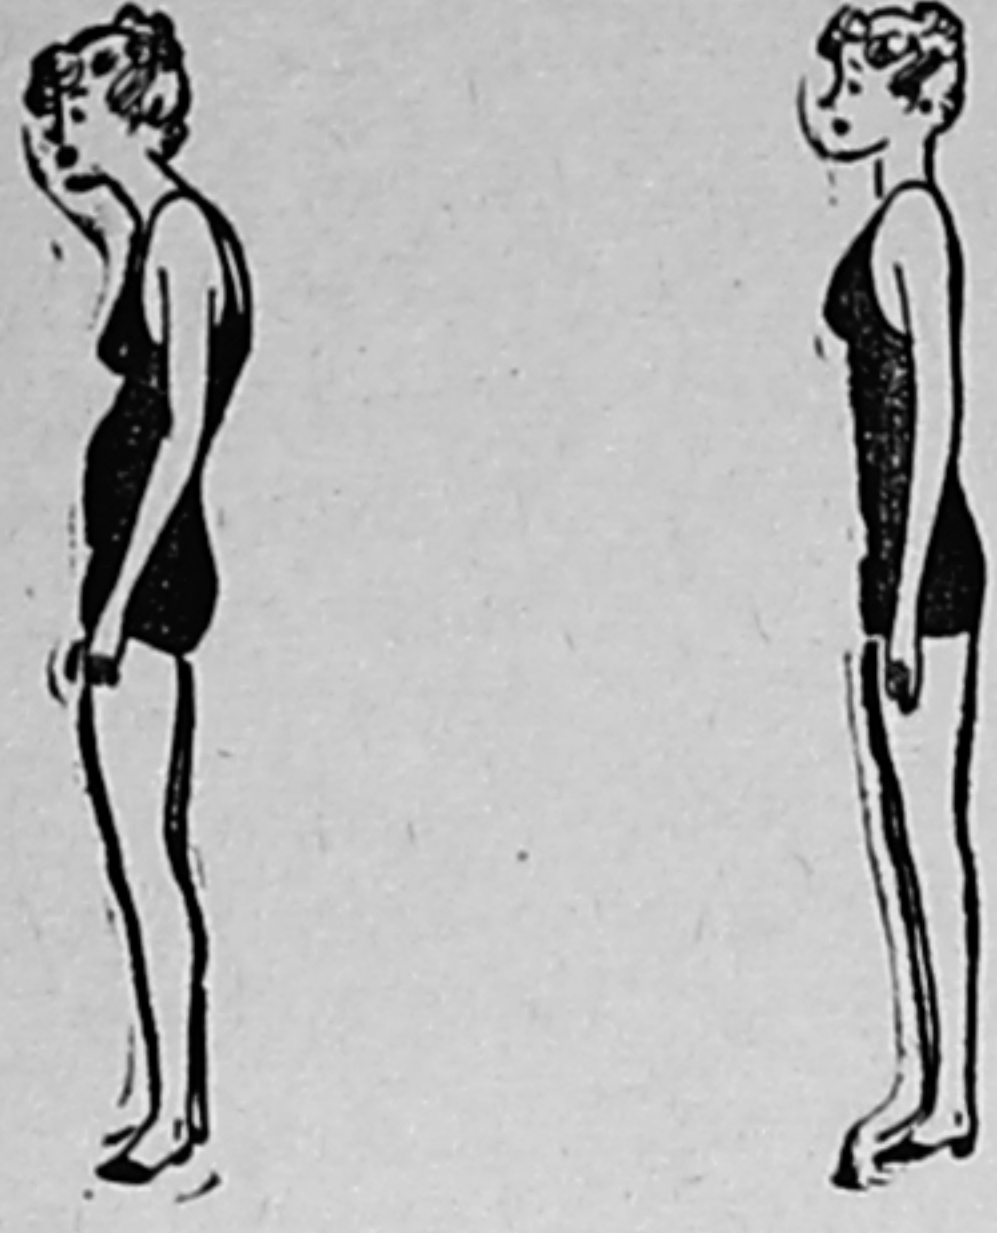

- No. 2 hard wheat ..... 65c
- No. 2 white corn ..... 65c
- No. 2 yellow corn ..... 56c
- No. 3 oats ..... 25c
- No. 2 beans ..... 65c

## Look Young By Striving For Posture

By PATRICIA LINDSAY  
© Bell Syndicate.—WNU Service.

THE way you carry yourself is not only indicative of what sort of person you are, but it either adds years to you or makes you look younger.

When wealthy ladies pay high prices for courses in self-improvement in the leading salons, the first lesson they get is a posture lesson. And the course does not proceed until the women have learned

Wrong posture, right posture.

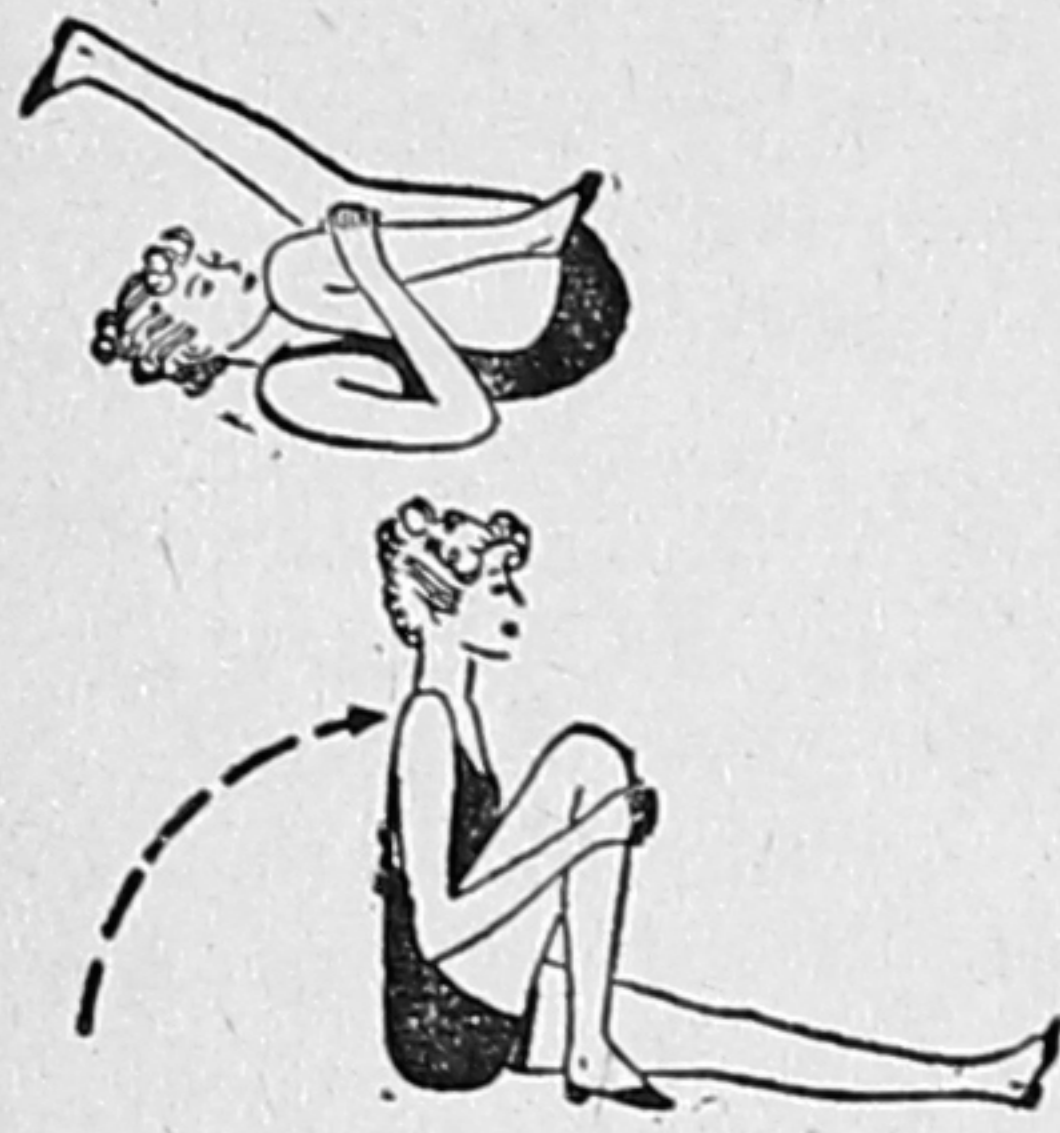

how to walk correctly and to sit correctly.

"Walk proudly," "grow tall from the midriff" and "tuck in your buttocks" as if you had been spanked, are the three most simple rules to remember as you walk. "Sit in the entire seat of a chair," "tuck in your tummy while sitting," and "don't cross your knees," will take you far in sitting posture if you will but remember them.

## Authority Advises These Exercises

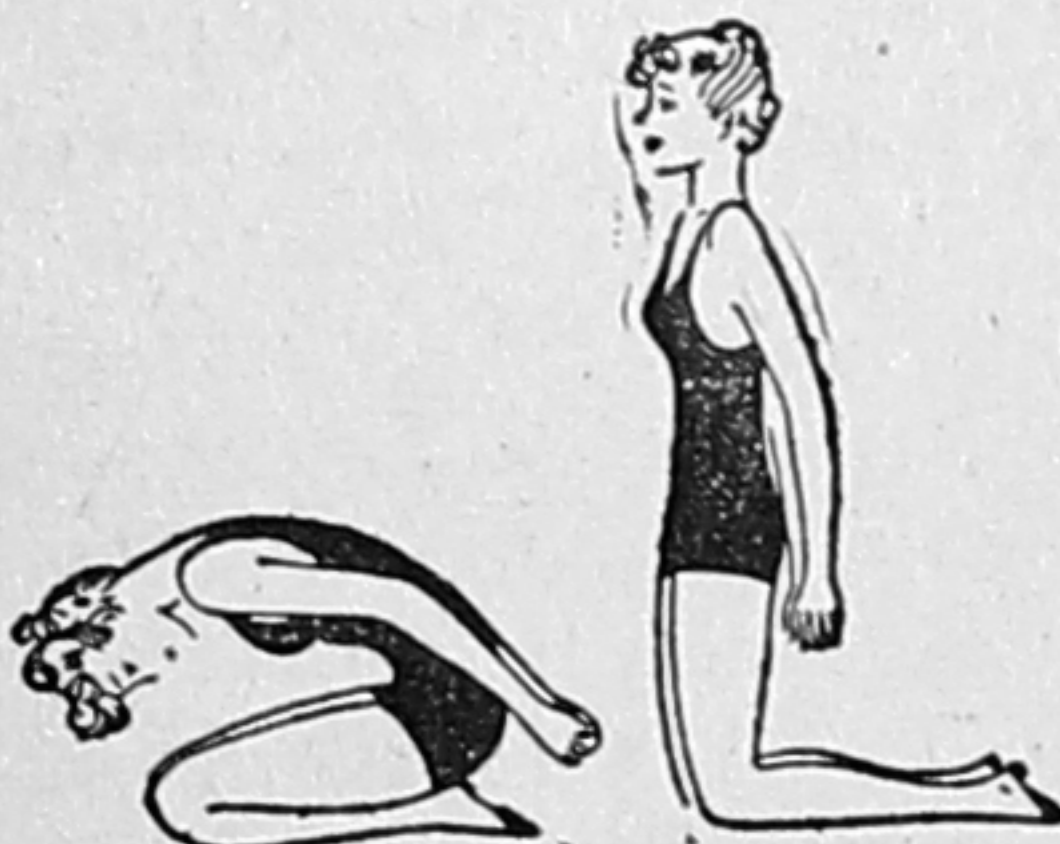

From one of the leading salons, that of Miss Dorothy Nye, I secured these two corrective exercises, which, if practiced daily, will firm the abdominal muscles and give flexibility to the hip region. Both are necessary to acquire an erect and agile carriage.

### EXERCISE 1

1. On back with right knee pulled back to chest and both hands clasped around knee.
2. Swing left leg back over head as far as you can, then come to sitting-up position. Pull from hands around knees and flatten back, keep neck and head high. Repeat with right three times. Then left three times. Twelve times altogether.

### EXERCISE 2

1. On knees, head back, hands clasped back of body and stretch downward.
2. Bend slowly forward, keeping head up and back flat until sitting on heels. Drop head to floor and relax.
3. Keeping head down, round the back, pull in abdominal muscles, and slowly raise the body. Movement begins at lowest vertebrae and slowly lifts thighs away from heels at same time. Head and shoulders rise last to original position. Repeat five times, working up to fifteen times altogether in a few days. Not difficult are they? Try going through them every day for a month.

### HINT-OF-THE-DAY

If a child possesses his own aids to body health and cleanliness he is more likely to use them. "My very own hair brush"—"My very own tooth paste"—makes him proud. If he is taught how to use them and why he must use them, a mother will have little difficulty in getting him to do so.

Of course all children go through that obstinate age when any suggestion is vetoed, when every request calls forth a lengthy argument. But even during this stage of growing pains the child is quite likely to slip off and do what he has been told to do after he has satisfied his ego by displaying his obstinance, that is, providing his earlier years have included a daily grooming routine.

### An Inventor's Regret

When Orville Wright contemplates the havoc that his innocently-conceived invention has wrought and will continue to inflict on civilization, he must have deep regret over his part in perfecting a machine that would fly. It is said that military use of the airplane has worried him for many years.

His brother, Wilbur Wright, co-inventor of the airplane, died in 1912, and was thereby spared the contemplation of the horrors his invention has brought upon the world. For although aviation has brought certain benefits to mankind, those benefits can never compensate for the terrible destruction of life and property it has made possible.

This is not said in criticism of the Wright brothers for bringing forth their epochal invention. Many others have tried to conquer the air before them, and some had nearly succeeded. It was inevitable that sooner or later men would learn how to fly.

What has happened in the case of the airplane is only another example of how a new invention or discovery intended to advance civilization may be used as an instrument to destroy it. The airplane has not only made war more terrible for the military forces engaged, but it has also made the slaughter of non-combatants inevitable.

Still, no nation can refuse to use the airplane as a weapon of war, if it hopes to continue to exist. It may be that the doom of civilization was sealed when the Wrights made their first flight in 1903.

### Life Large and Small

Some interesting reflections on the size of living things are made by the noted scientist, Julian S. Huxley, in a magazine article. Many of the facts which he relates are not only interesting, but surprising.

When we speak of living things, in the broad sense, we must include the vegetable kingdom, so the largest living things are to be found among the big trees in California. These, incidentally, are also the oldest, with an age of around 5,000 years.

These trees, some weighing nearly 1,000 tons, are massive indeed when compared with the largest animal, the whale, whose weight seldom reaches more than 100 tons. Yet a large elephant could maneuver inside a whale's skin.

Most wonderful is what we find among the smaller orders of life. We can see a flea, though with difficulty catch him, yet 80,000 would scarcely weigh an ounce.

Some of the insects which are hardly visible to the naked eye are fitted out with compound eyes, a nice nervous system, three pairs of jaws and three pairs of legs, veined wings and striped muscles. Tiny birds weighing only 10 grams, or as much as 10 large ants, fly for thousands of miles during their migrations. And ants, by the way, are the strongest living things in proportion to their size.

Man is about half-way in the scale between large and small mammals, and when grown he

contains about a hundred million cells. He requires all his brain as well as his strength to cope with the great animals on one side and the insects on the other.

## Sidelights

Japanese dead are buried with their heads toward the north, hence it is considered by the living to be unlucky to sleep with their heads in that direction. On journeys some carry a compass, in order to get their bearings at bedtime.

One Ohio town ordinance provides as follows, "When two cars come to a crossing both shall stop and neither shall start until the other is gone." If this be carefully observed there will not be many collisions, but there may be some slight congestion of traffic.

Lawrence Johnson of Ohio, happily married and the father of two children, is also justice of the peace. Wishing others to share the joys of married life, he offers to perform marriage ceremonies according to their capacity to pay, "from nothing to just a little."

J. Edgar Hoover, efficient director of the division of investigation of the Department of Justice, whose officers have rid the country of its most noted bandits during recent years, says: "Most gangsters actually are yellow rats; not one of them would go into a room with you and fight it out with fists."

An old story about Benjamin Franklin is again going the rounds, to the effect that when he wanted to marry a certain girl, her mother objected on the ground that Ben was a printer. She did not object to his trade, but said that as there were already two printing shops in the country, she didn't think there was room for a third one which he wanted to start.

## What's New

Proteolytic enzyme, a chemical agent found in the "milk" of milkweed, is being used to tenderize beef.

Sheets of steel locked together at the edges of light weight framing make up a recently developed form of building material.

A camera which will register 120,000 impressions a second in photographing electrical phenomena has been developed.

Experiments conducted by biochemists at the University of Wisconsin show that a pure vitamin found in liver can prevent and cure graying of hair in animals.

A new American record for long distance television reception has been established—a telecast from New York City to Chicago, a distance of 717 air miles. Previously a telecast from New York City could not be picked up at a point more than 90 miles away.

### Colonists Got Land By Building House

Some early settlements in Illinois were founded by colonists who agreed to make certain improvements on the land assigned to them within a stated number of years after their arrival in the state. Each person in a colony that came to the area now known as Henry county bound himself to build a house to cost about \$200 within two years, says the Illinois Writers' Project, WPA. In the event that he failed to do so, his land reverted to the colony, which paid for it at the rate of \$3 per acre.

## Plenty of Company For Pioneer Teacher

Records of pioneer days in Illinois are filled with accounts of the self-sacrifice shown by early school teachers, many of whom came into unsettled areas directly from the East.

According to research workers of the Illinois Writers' Project, one schoolmaster after walking from Pekin to Blooming Grove in Hancock county, opened a school in a log building with "no floor, no door, and cracks all around." He obtained board and lodging with a nearby settler for 37c a week. Although the settler's home was considered to be the best in the neighborhood, it housed not only the owner, his wife, and ten children, but also three dogs and two cats.

Women are not so hard to please. Just look at some of the husbands they pick out.

A newspaper is a business enterprise that prints for nothing the political propaganda the radio gets paid for broadcasting the night before.

**"The Name Is Familiar"**  
BY FELIX B. STREYCKMANS and ELMO SCOTT WATSON

**Pullman Cars**  
IN 1858, George Mortimer Pullman spent \$2,000 making over two railroad day coaches so that people could sleep in them. When he finished they were still crude, heated by wood-burning stoves and lighted by candles—but they had the arrangement of upper and lower berths characteristic of Pullman cars today.

Those two were the first sleeping cars in the history of railroading—and they were a success. George Pullman then spent \$20,000 to build a sleeping car entirely from his own specifications. It was expensively decorated and luxuriant besides being longer, higher, wider and heavier than any other railroad car. But Pullman discovered that his big luxury car was too wide for station platforms and too high for bridges.

For several years the car remained idle, but when Abraham Lincoln was assassinated, railroad officials decided Pullman's "palace car" should be attached to the funeral train and bridges and platforms were feverishly reconstructed along the way.

The success of George Pullman's sleeping car is now well known. But it is not so well known that the sleeper was named for a man who didn't have enough foresight to build his first car according to dimensions that would allow it to be pulled along the right-of-way.  
(Released by Western Newspaper Union.)

G. M. Pullman

Charges of assault and battery growing out of a quarrel as to whose turn it was to use a clothes line cost two Denver women \$50. Each was fined \$25.

Stanley Jacobs of Plainfield, N. J., has collected 1,000 different kinds of powder horns made of jade, gold, pearl, ivory and bone.

**Do You Know Illinois?**

By Edward J. Hughes  
Secretary of State

Q. What important Lincoln volume appeared in 1872?

A. The Life of Abraham Lincoln; from his birth to his inauguration as president, by Ward Hill Lamon.

Q. On what was it based?

A. On manuscripts gathered by William H. Herndon who sold copies to Lamon.

Q. What did Herndon say about the book?

A. That Chauncey F. Black "wrote quite every word of it."

Q. What was the tone of the book?

A. It was cynical and unsympathetic.

Q. How was it received?

A. It was intended to be the first of two volumes but it evoked so much opposition that the second volume never was published.

Q. When did Herndon release his biography of Lincoln?

A. Herndon's Lincoln, The True Story of a Great Life, appeared in 1889. It was a three volume work.

Q. Was Herndon assisted in writing this biography?

A. Yes, by Jesse W. Weik.

Q. Was Herndon's biography successful?

A. No. It was peddled as a publisher's remainder.

Q. Was there a new edition of the Herndon biography?

A. In 1892 Appleton and Co. brought out a new edition with a new chapter on the Lincoln-Douglas debates.

Q. Did Weik make further use of the Herndon material?

A. In 1893 he brought out a book called The Real Lincoln, using the same material.

**Hogs Running Wild Terrorized Settlers**

For a time early Illinois travelers in Bureau county and surrounding areas were startled to see wild hogs roaming the country side. Historical records tell of hunters, who sometimes barely escaped with their lives, seeking the animals with guns and dogs.

To explain the appearance of these ferocious creatures, investigators have learned, says the Illinois Writers' Project, that in 1828 two Illinois drovers passing through Bureau county with a lot of hogs from McLean county lost a number of them. Within a few years these animals reverted to their natural wild state and terrorized the neighborhood in which they roamed.

When at last the hogs were hunted down and killed, the successful hunters were said to have cleared the country of "brutes which have been feared by the settlers as though they were tigers."

**New Dance Steps Tripped Protesting Old - Timers**

When changes in dance steps were made in the 1870s, some Illinois residents became skeptical of their success. One editorial writer announced in 1876, says the Illinois Writers' Project, "There is a great change in dances, the gallop has become a gliding waltz, and the waltz has become a brisk exercise, a cross between the movement of legs induced by colic and hop-scotch set to music." The same writer concluded his comments by noting that the polka was in high favor and that the minuet was to be danced at all balls and parties the following winter.

An auto expert says that every driver should learn to skid his car and then bring it out of the skid safely. If we ever learn that it will be through a correspondence course.

**Univ. of Illinois  
Has 3 Colleges  
In Chicago Unit**

Medicine, Dentistry, Pharmacy  
Are Part of City's Great  
Medical Center.

Illinois has the nation's largest College of Medicine in terms of numbers of students; it has a College of Dentistry building which by common consent is regarded as the best in the world; it has a College of Pharmacy which was the first of its kind west of the Allegheny mountains, the third in the nation, and today is one of the country's leaders, Dr. R. B. Allen, executive dean of University of Illinois colleges in Chicago, said today.

The university's colleges of Medicine, Dentistry, and Pharmacy and the associated hospital units of the state department of public welfare in Chicago are the second largest part of the city's great West Side medical center. The largest unit of the center are the Cook County hospitals having more than 3,000 beds. The center spreads over several large city blocks.

"In relation to the entire state, the University of Illinois colleges have a unique position," Dean Allen said. "Every one of the 635 medical students is a resident of the state of Illinois. The College of Pharmacy is the only approved college of its kind in the state."

Relations of the three University of Illinois colleges with the state department of public welfare are an outstanding and unique example of co-operation between state units. The department provides buildings for special research and institutional work, and the university provides the clinical and teaching staff. The patients come from all parts of the state. The buildings adjoin and are a part of the university's medical campus.

"The colleges are as much a part of the University of Illinois as those located in Urbana-Champaign on the main campus. But they are located in Chicago because here are located the hospital and other facilities which are necessary for training professional men and women in the health sciences," explains Dean Allen.

Approximately 1,200 students are registered in the university's three colleges at Chicago. The staff of 760 persons for teaching and other services includes approximately 300 instructors who serve without salary while maintaining private practices.

The plant is valued at nearly \$4,000,000. The clinics and dispensaries serve more than 67,000 persons a year. There are 635 students in medicine, 226 in dentistry, 230 in pharmacy, and some 200 graduate and special students.

Among the hospitals and institutes maintained here by the state department of Public Welfare and staffed by the University of Illinois is the Research and Educational hospital, a general hospital of 300 beds. Each year some 6,000 charity patients are selected for study and care here. The obstetrical department cares for 1,000 deliveries a year, 70 per cent in the hospital. Seven surgical operating rooms have amphitheaters for medical students to view the work of the staff experts. The cancer clinic has a 400,000 volt X-ray machine, and recently acquired 2 1/2 grams of radium for its work. The entire hospital is used for teaching medical students through practical clinical work.

The Illinois Surgical Institute for Children has beds for 130 patients. Its services include a treatment swimming pool, school rooms, and a shop for manufacturing braces and plaster casts. Patients are admitted from anywhere in the state when they are unable to pay for necessary services, or when the condition from which they suffer can be benefited by special study and has teaching value.

The Psychiatric Institute is a central research unit for all state hospitals caring for mental cases. It now has space only for 60 beds, but a new building to be occupied this summer will provide for 150 more beds for this department and the department of Neurology and Neurosurgery.

The Institute for Juvenile Research is unique in that it is studying the causes, prevention, and treatment of juvenile delinquency in all forms. No other state has a service organized in this way. Its studies in the growth and development of children are of special medical interest.

Dean Allen calls attention to a unique example of collaboration between not only two colleges of the University of Illinois but colleges located on the two campuses—that at Chicago and that at Urbana-Champaign. This example is the study of the effect of atmospheric environment on the functioning of the body in health and disease.

This study of air conditioning is being carried on jointly by the College of Medicine at Chicago and the College of Engineering at Urbana-Champaign. The engineers are experts in studying the equipment, the physicians in studying the effects on humans.

**1,500 Editorials Read  
In WILL Program**

More than 1,500 newspaper editorials are read every year in the "Illinois Editorial Review" program presented twice a week over the University of Illinois non-commercial radio-station, WILL (580 kc.). It is the only educational non-commercial broadcaster in the state.

Two hundred copies of Illinois daily and weekly newspapers are read each week to prepare the "Illinois Editorial Review." The papers include some 25 daily and 50 weekly publications from all parts of the state.

The University of Illinois has the world's first association of dads of college students. It was organized in 1921. Current officers of the University of Illinois Dad's association are Perry Graves, Robinson, president; George F. Meharry, Tolono, vice president; Chauncey L. Finck, Urbana, secretary-treasurer. Directors are John R. Fornof, Streator; Roy J. Soltsburg, Aurora; Frank H. McKelvey, Springfield; Wert Herrick, Clinton; C. C. Glasscock, Mattoon.

**Long View News**

Paul Stout, son of Mr. and Mrs. Ernest Stout of Mahomet, has been hired as band instructor at Longview high school. He is a graduate of Millikin University, Decatur, class of 1940.

Mr. and Mrs. A. J. Paine and son of Chicago will arrive for a visit in the B. C. Paine home Saturday. Miss Ada Paine who has spent the past two weeks in Chicago will return with them.

Children's Day services will be held at the Christian Church next Sunday morning. The program to have been given last Sunday evening will be presented at 7:30 p. m. the coming Sunday.

Mr. and Mrs. James Parks, and the Merton Parks family attended a birthday dinner in the Marion Norton home at Montezuma, Ind., Sunday. Father of the host, B. J. Norton, was the guest of honor.

Over one hundred people, relatives of the William Taylor family, and a few friends, were guests in the Rev. J. A. Parker home last Sunday, where a basket dinner was served, honoring twelve guests whose birthdays were in June.

Mrs. Charles Bengston entertained the J. F. F. club on Thursday afternoon of last week. Rook was the diversion, high score award going to Mrs. Vivian Dalzell; second to Mrs. Fanny Churchill; low to Mrs. Daisy Daniels. Mrs. Merle Buddemeier was a guest. A two-course luncheon was served by the hostess.

The Longview W. C. T. U. met Wednesday afternoon with Mrs. Edythe Warnes. The program consisted of a temperance playlet, a vocal number "Close to Thee" by Mrs. Loyd Warnes, and a piano solo by Wayne Warnes.

Members present were Mesdames Cora, Edythe, Mabel and Blanche Warnes, Elsie Driver, Effie Parker, Helen Fansler, Anna Baptist, Jane Sperlin, Daisy Davis and Etta Hagerman.

The following ladies from the Broadlands Unit were guests: Mesdames Leanna Miller, Ruth Henson, Ida Messman, Eva Walker, Mary Fitzgerald, Maude Anderson and Lydia Brown; also Mrs. Carl Proehl and Miss Clara Warnes of Longview.

Mrs. Wilbur Warnes and Mrs. Loyd Warnes, also guests, assisted the hostess at the tea table, where angel food cake, fresh strawberries, and fruit punch were served.

**"The Name  
Is Familiar"**

BY  
FELIX B. STREYCKMANS  
and ELMO SCOTT WATSON

**Solon**

WHEN we want to say that a man is wise we call him a solon and we call lawmakers solons, too. This doesn't mean that we think all lawmakers are wise men—heaven forbid! The reason is that the world's original lawmaker on a big scale was a very wise man and his name was Solon.

That name isn't just a first name or a last name—it is all the name the man had and all he needed. He lived so long ago that the population was small enough to let men get by with one-word names. Solon was one of the original Seven Wise Men of Greece and was born in Athens about 640 B. C.

He wrote or rewrote practically all the laws that were in existence during his time and was the first lawmaker to devise a code that gave people rights instead of merely prohibiting them from doing this or saying that they must do that. Besides regulating private and public life, his code reformed the calendar, the system of weights and measures, the monetary system. His laws were crudely written on wooden cylinders and set up in public places for everybody to read. This must have been just a matter of form, because in his day about the only ones who could read were the ones who wrote the cylinders.

**Hog Cholera May Cause  
Trouble, IAA Warns**

According to the law of averages, Illinois farmers who fail to protect their 1940 spring pigs against hog cholera are in for plenty of headaches, warns S. F. Russell, director of livestock marketing for the Illinois Agricultural Association.

Low pork prices and a late spring are two of the reasons cited by Russell to support his belief that cholera might cause serious damage to Illinois swine herds this summer. Farmers, he points out, usually are not as willing to protect low-priced hogs against the highly-contagious disease as they would be if prices were better. As a result, the danger of cholera infection is just that much greater. In addition, says Russell, the development of spring pigs may have been held up somewhat by cold, wet weather and therefore the animals are good cholera prospects if not vaccinated.

**Farm Bureau Reports  
Record Membership**

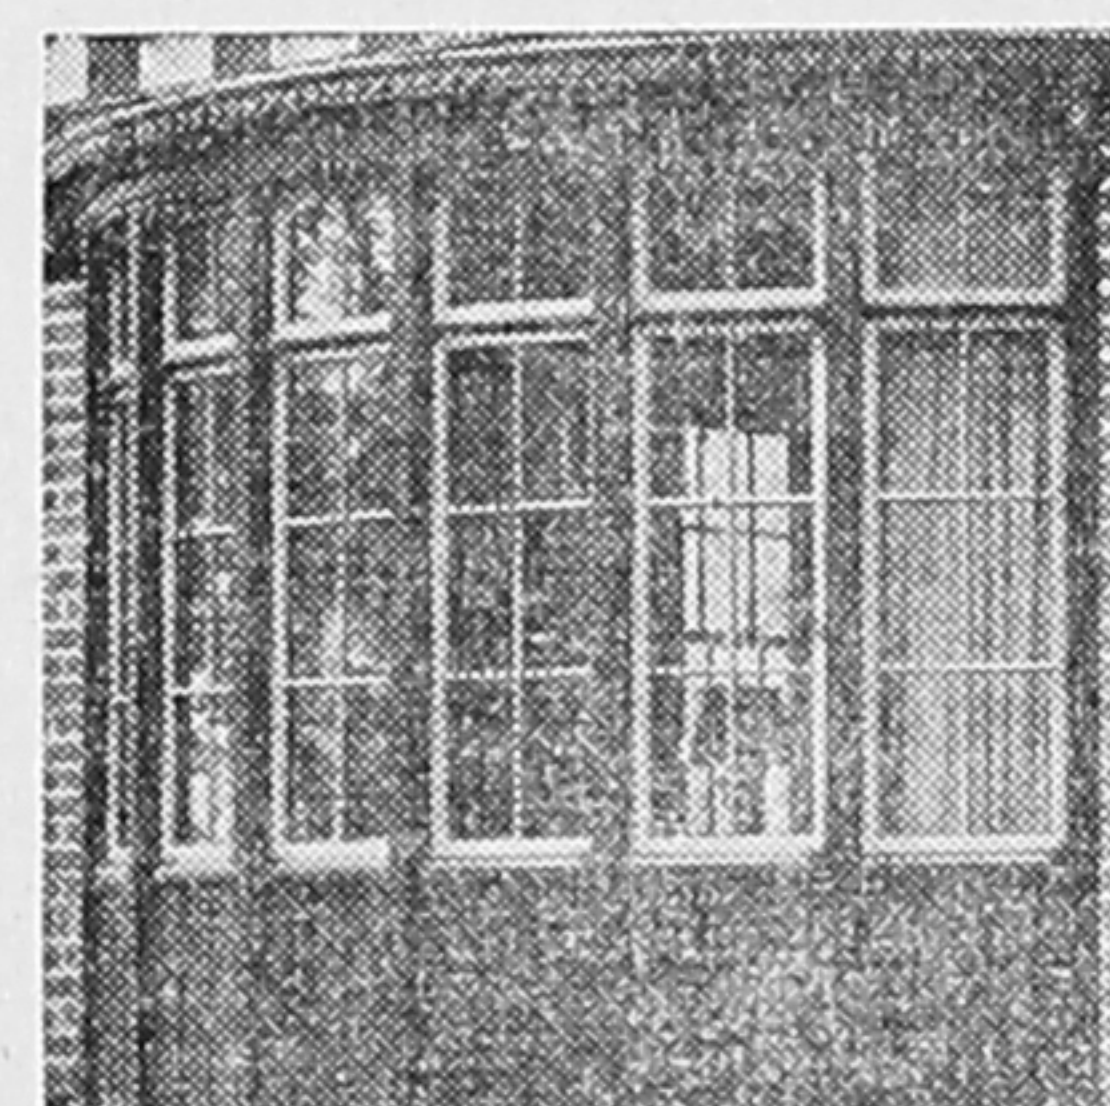

Farm Bureau membership in Illinois has reached its highest point in many years, according to information received by the Champaign County Farm Bureau from O. D. Brissenden, director of organization for the Illinois Agricultural Association.

The addition of 6,262 new members during the first five months of 1940 brought the membership in the Illinois Agricultural Association and county Farm Bureaus to a record high of 73,357, Brissenden reported. The number of new members signed has already exceeded the quota for this year, he said.

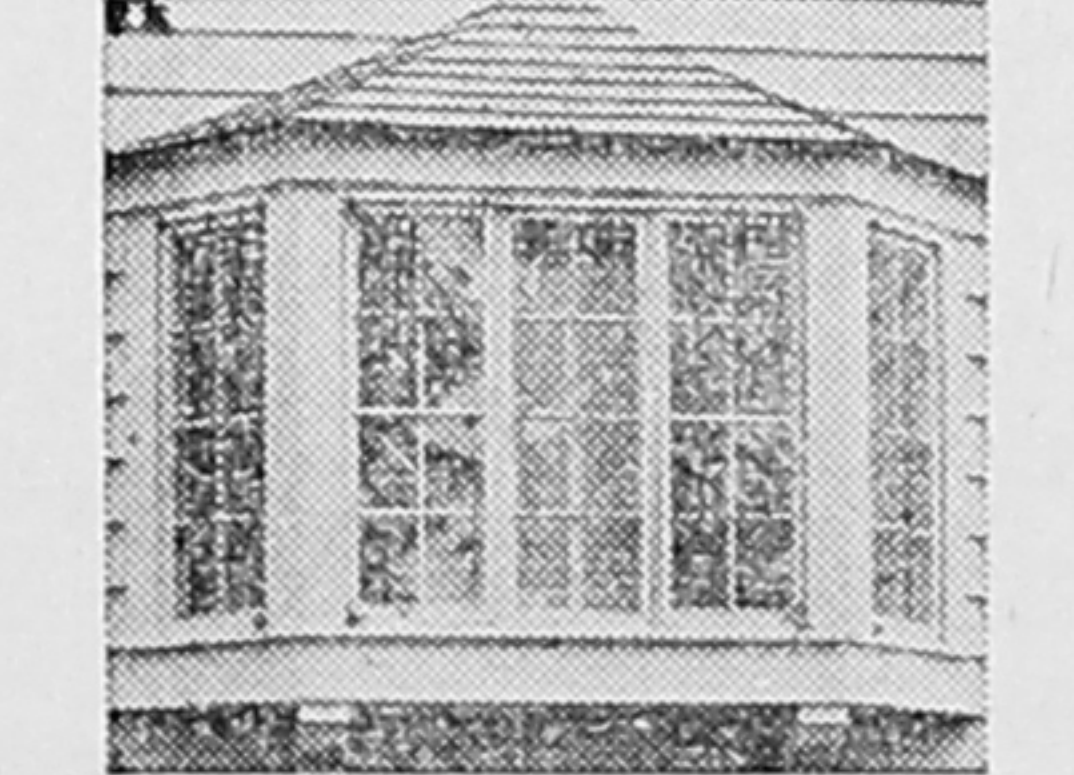

Jerry Reed of Champaign is visiting relatives here this week.

It is easy to have the last word in argument with your youngster if that word is "Yes."

**MODERN TREND TO  
MORE WINDOWS PUTS  
STRESS ON QUALITY**

A radial bay of casement windows so popular today.

An angle bay popular for breakfast rooms.

A multiple bank of double hung windows, often used at the end of the living room.

Windows and More Windows Is Trend in New Homes Today

No matter how you look at windows you're going to see more and more of them in new homes. Light, airy rooms mean just one thing—more windows—and that is definitely the trend in home construction today.

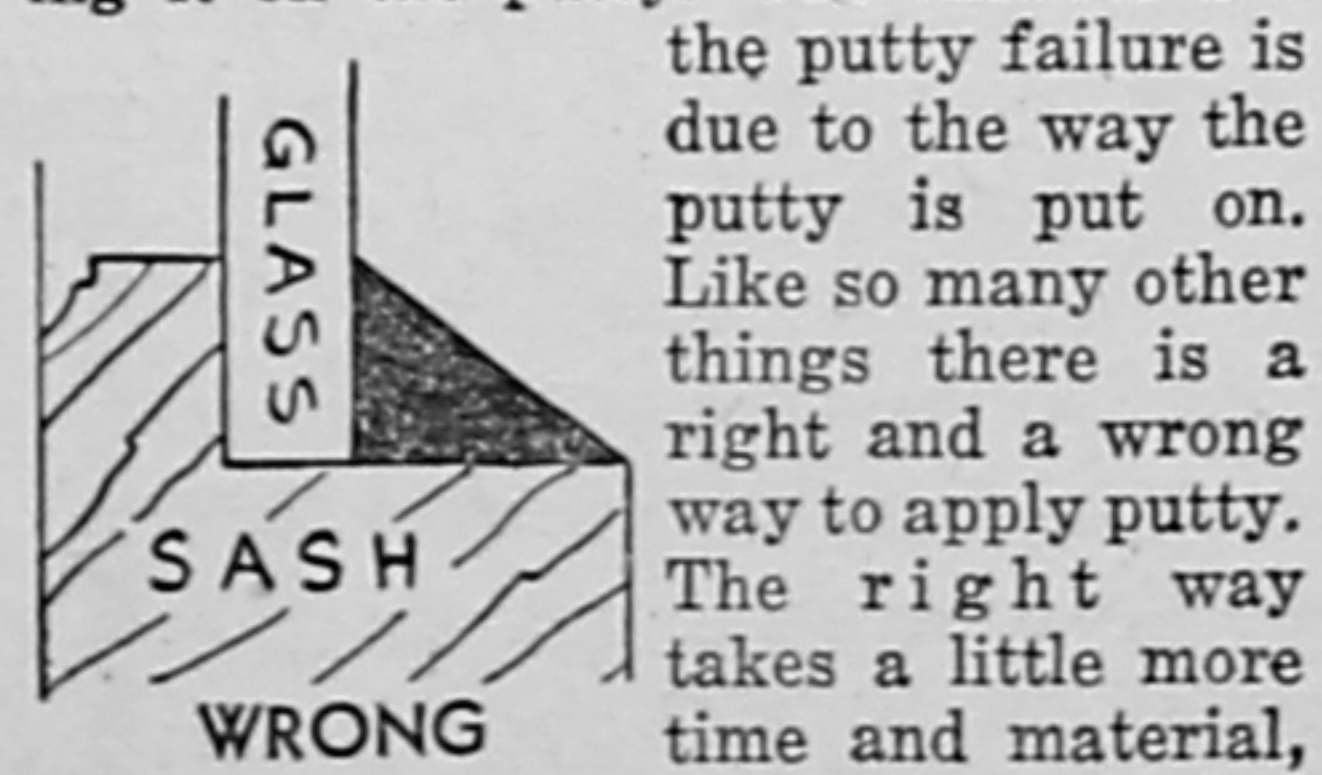

And the more windows you have in your new home, the more you've got to watch quality construction in the windows you buy. Windows can add much to the enjoyment of your new home if they're good windows, and if they're poor ones, they'll add plenty of headaches.

Window "Pains" Gone  
Rattling, sticking, leaking windows are a thing of the past with the complete factory fitted window units as manufactured today. Maybe that is why architects and contractors the country over are favoring more windows because, at last, the "pain" has been taken out of them.

New Features  
Such features as inside double glazing, screens that are removed from the inside, condensation controls, and hinges that allow both sides of the glass to be washed from the inside are part of modern casement windows today. Similar improvements have been made in the popular double hung windows. Double action weatherstrip, noiseless pulleys, and flat weights that allow for narrow modern lines are a few of the outstanding innovations.

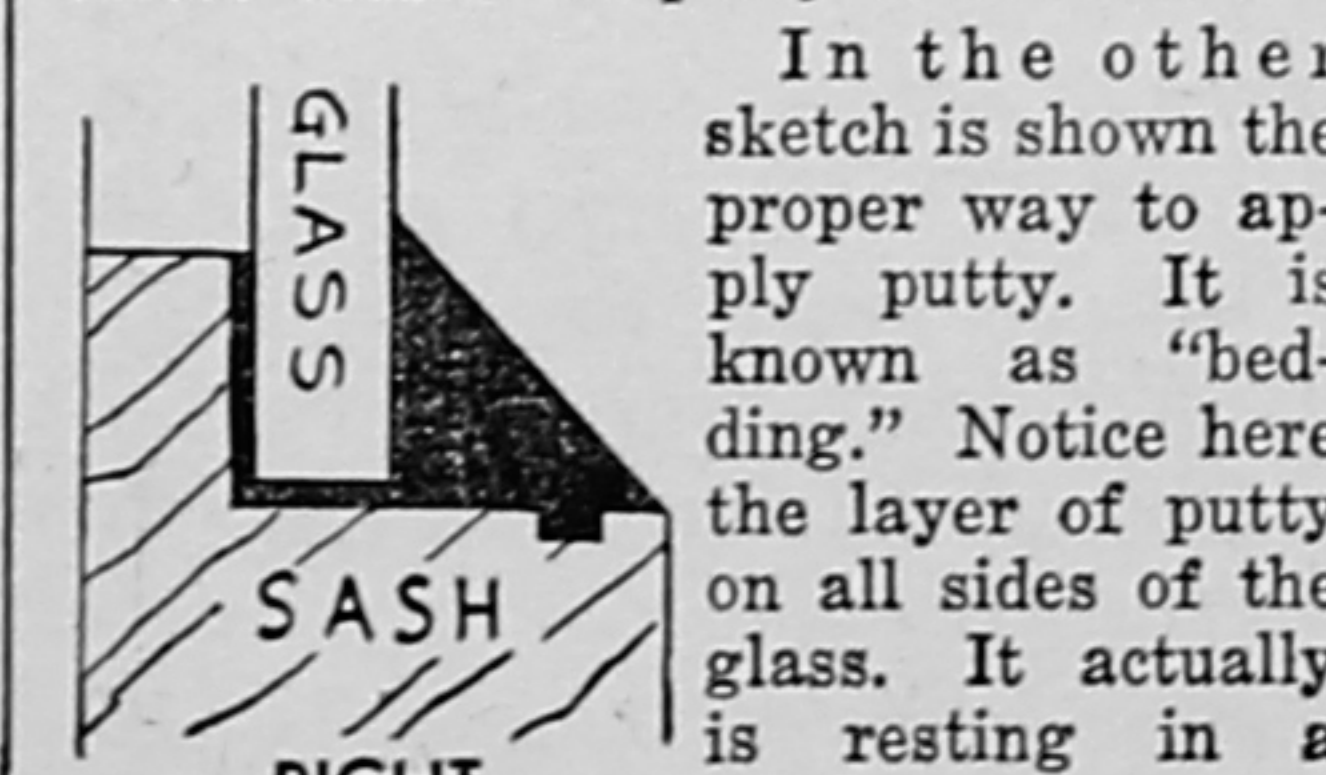

**PUTTY FAILURE OFTEN DUE  
TO POOR APPLICATION**

When you see the putty cracking away from your windows in big chunks, don't be too quick about blaming it on the putty. The chances are the putty failure is due to the way the putty is put on. Like so many other things there is a right and a wrong way to apply putty. The right way takes a little more time and material, which is the reason you do not find it on windows that are made to sell at a price.

In one sketch, we show you the ordinary way that putty is applied to

windows. This method is quick and cheap, but it is usually temporary because swelling of the wood from the inside causes the putty to crack off.

In the other sketch is shown the proper way to apply putty. It is known as "bedding." Notice here the layer of putty on all sides of the glass. It actually is resting in a "bed" of putty. Wood and glass do not come in contact with each other. Notice also the putty groove which anchors the putty.

Donald Elliott attended a business conference in the Urbana Courier office, Urbana, Tuesday.

Mrs. Helen Nichols and Joan Baker spent Wednesday in Oakwood.
