Miss Cecil Maxwell visited friends at Newman.

Mrs. Mary Temple entertained the D. of K. class of the Methodist Sunday School.

Wendell Walsh of Champaign spent the weekend here with relatives.

Miss Leone Brewer of Georgetown spent the weekend with home folks.

Miss Audrey Massey of Newman spent the weekend with Miss Mildred Walker.

Kenneth Allen and Carl Dicks attended a Grand Masonic Lecturers' meeting at Champaign.

The Mother-Daughter banquet held here was largely attended about 210 being served including the waiters.

20 Years Ago

May 20, 1921

Miss Esther Loomis was a Champaign visitor.

L. F. Vickery and R. L. Bowman were business callers at Fithian.

The Broadlands Blues defeated the Philo baseball nine at Philo, 13 to 8.

Mr. and Mrs. W. L. Shumway, Mr. and Mrs. C. L. Moser and daughter were Danville visitors.

Clarence Wienke of Broadlands and Miss Bertha Rahn of Tuscola were married at the home of the bride's mother.

Members of the G. T. Club gave a farewell party for Mrs. Mildred Mortimer, who was leaving for Minnesota to make her home.

Immanuel Lutheran Church

P. E. Kerkhoff, Pastor

9:30 A. M.—Sunday School.
10:15 A. M.—Divine Worship.
Sermon: "Laodicea, the Church that Failed."

There was a noted medical school near Laodicea. The people took advantage of a remedy for weak eyes. Galen refers to an ointment originally prepared only here.

But the Laodiceans were in need of another kind of eyesalve. "Because thou knowest not that thou art wretched, and miserable, and poor, and blind, and naked: I counsel thee to buy of me gold, that thou mayest be rich; and white raiment, that thou mayest be clothed; and anoint thine eyes with eyesalve, that thou mayest see."

Methodist Church Notes

W. Earl Ballew, Pastor

The Sunday School meets at 10:00 o'clock.

The Church Service next Sunday is in the evening at 7:30.

The WSCS of the Methodist Church will hold a food sale on Saturday, May 24.

Lost—Pocketbook containing money and auto license. Reward.—Walter Logan.

Dicks Bros. to Have Formal Opening Saturday and Sunday

Dicks Bros., local funeral directors, have completed their new funeral home, and are having their formal opening this Saturday and Sunday, May 17 and 18, from 10 a. m. until 10 p. m.

Their new home is located at the corner of Grant and Green streets, which was formerly the home of the late Mrs. Maria Edens.

Their complete funeral equipment and stock of merchandise will be on display.

A most cordial invitation is extended to the general public to attend. Favors will be given to all attending.

Mrs. Harriett Smith Is Hostess to W. S. C. S.

The Woman's Society of Christian Service met in the home of Mrs. Harriett Smith with Mrs. Frances Smith as assistant hostess on Thursday afternoon of last week.

Mrs. Mary Dicks, the president, presided over the business session.

The meeting was opened with a prayer by Rev. W. Earl Ballew. Mrs. Harriett Smith had charge of the devotions reading the twenty-third chapter of Psalms as the scripture lesson. Mrs. Eva Brewer read several interesting articles for the missionary topic.

Delicious refreshments were served by the hostesses.

Guests present were Rev. W. Earl Ballew and Mrs. Bertha Kracht.

Members present were Mesdames Mary Fitzgerald, Gladys Walker, Merle Block, Ida Messman, Mary Dicks, Eva Brewer, Frances Smith, Harriett Smith, and Miss Mildred Neal.

Acre of Land Sank and Meteor Got the Blame

After a meteor had been observed by many residents in the southern part of Illinois in 1874 it gave rise to a number of speculations about an area of land in Pulaski county.

According to the Illinois Writers' Project, WPA, shortly after the meteor was said to have burst over the section, some persons discovered that an acre of land on the banks of the nearby Cache river had dropped ten feet below the level of the surrounding country. They declared that the sinking of the land was due to the impact of the meteor.

However, this explanation does not seem to have caused much excitement among the geologists, who, as far as is known, have never made a scientific study of the reasons of the phenomenon.

When Mrs. Wm. Morgan of Seattle missed her diamond ring after feeding her chickens, she suspected that one of the fowls had swallowed it. The family had chicken every day and the ring was found in the gizzard of the 18th and last of the flock.

Local and Personal

Another heavy rain visited this locality Wednesday.

Miss Marie Witt spent Tuesday and Wednesday with Mrs. G. M. Neff in Danville.

Mr. and Mrs. O. E. Anderson and Mrs. Lillie Bowman spent Sunday with Mr. and Mrs. Millard Kesterson at Milligan, Ind.

Miss Nellie Thomas of Indiana Central College, Indianapolis, spent the weekend at the Howard Clem home.

Mr. and Mrs. Raymond Wood and daughter visited in the Arthur Witt home at Brocton, Sunday.

Miss Beulah Gore of Indianapolis, spent the last of the week here with her parents, Mr. and Mrs. O. E. Gore.

Mr. and Mrs. Will Johnson and daughter Miss Marjorie of Danville visited in the home of Wm. Smith, Sunday evening.

Members of Circle No. 2 of the U. B. Ladies' Aid met with Mrs. Freda Maxwell, Tuesday, and tacked comforts.

Mrs. Sally Carter and son Mike of Penfield visited in the home of Mrs. Dophia Warner, Tuesday.

Mrs. Howard Clem, son Ralph, Misses Nellie Thomas and Mamie Darnall were Champaign visitors, Saturday.

Mr. and Mrs. George Cook and the latter's mother, Mrs. Ida Eckerty, attended the American Passion Play at Bloomington on Sunday.

Mr. and Mrs. L. T. King and family of Aurora; Mr. and Mrs. Stanley Schecter of Danville, visited Mrs. Lottie Astell and sons, Sunday.

Among the Champaign visitors Monday were Ira Laverick, Wm. Messman, Mrs. Maude Coleman, Robert Potter, Henry Seider, Andrew Bosch, Rev. P. E. Kerkhoff, Mr. and Mrs. Joe Darnall.

Mr. and Mrs. Clarence Kilian and children, Mr. and Mrs. August Wiese, attended a birthday dinner given in honor of Mrs. Otho Willoughby in Brocton, Sunday.

Miss Anna Clem attended the commencement exercises for graduating nurses of St. Elizabeth hospital, Danville, Monday, being a guest of Miss Mabel Taylor of Homer.

Loren (Cull) Comer who had been in the military training camp at San Francisco, Cal., since Feb. 20, arrived home on Wednesday, having been discharged from the army. He informs us his discharge was due to the fact that he had to wear a belt because of a broken back which he sustained in 1935.

Miss Decemma Martinie of Longview visited friends here Tuesday. She closed a successful term of school at Warsaw last Friday. She will return to Warsaw this Friday where she will be employed until fall. Miss Decemma will teach the coming term at Vermilion Bridge school, northeast of Broadlands.

The Union Products Petroleum Co., Springfield, which has been drilling for oil on the Messman farm north of Broadlands, reached a depth of 1800 feet last Wednesday, at which depth a "hit" should be made if there is any oil. It proved to be a dry hole. Hence, it's all over but the shouting, and the equipment is being moved away.

The following members attended the W. C. T. U. State Conference which was held last Friday at the Congregational Christian Church in Tuscola, with Mr. Fairbairn, the state president, presiding; Mesdames Ruth Henson, Lydia Brown, Rubie Holt, Leanna Miller, Anna Seeds, Mary Fitzgerald, Faustine Smith, Grace Pugh.

Floyd Magill, who has been employed in Urbana for the past year, received word last week that he had been appointed to a clerkship position with the federal government and departed Sunday for Washington, D. C., to begin work. Floyd took a civil service examination about a year ago. His family will remain here for the present.—Sidney Times.

Romance Blossomed For Oldsters in Year of 1831

The toil of breaking the prairie land of Illinois took its toll in the early death of many pioneers. Occasionally, however, some of the more hardy lived to comfortable old ages, and romance blossomed for the oldsters according to the Illinois Writers' Project, WPA. A newspaper announcement of 1831 tells of a marriage at Winchester, Sangamon county, in which the bride was 93 and the groom 91 years young.

Dr. Will N. Hausser, veterinarian, Sidney, places his card in The News for a year's run.

Ceremony at Parsonage Unites Young Couple

Miss Lucille Fogerson, daughter of Mr. and Mrs. Laban Fogerson, Homer, and Glen Hurst, son of Mr. and Mrs. Roy Hurst, Longview, were united in marriage Sunday afternoon, May 11, at 2:00 o'clock, in the Methodist parsonage at Broadlands, the pastor, Rev. W. Earl Ballew, using the single ring service.

Miss Margaret Hooker, of the Pleasant Hill neighborhood served as bridesmaid, and Merle Fields, also of Pleasant Hill, served as best man.

The bride wore el rancho rose crepe, with white accessories, and a shoulder corsage of roses and lily of the valley. Her attendant wore sunset rose crepe, with white accessories.

The bride attended Homer high school, and was graduated in March from Summers' Beauty school in Danville. Mr. Hurst attended Longview high school, and is employed on the Perry Todd farm. Mr. and Mrs. Hurst will live in the Mrs. Lula Chapman property in Longview.

Illinois State Capitol News

By July 1, the State Division of Highways expects to have some 2,500 "No Passing Zones" on the Illinois highways marked with stripes of yellow paint and with reflectorized signs set at the beginning and end of each zone. One thousand general information signs explaining these zones are being set up throughout the state.

Judging committees for the Emmerson Memorial Farm Floral Contest are to be selected by representatives of the Illinois Federation of Women's Clubs and the Garden Clubs of Illinois. More than two thousand entries are expected in the competition. State-wide winners will receive cash prizes of \$100, \$75, and \$50, together with bronze plaques.

The fact that only 36 cases of rabbit fever were reported in Illinois during the first four months of this year leads the Department of Public Health officials to hope the disease has been checked. It is not definitely known whether the marked decrease of cases means that fewer rabbits are infected with tularemia or merely that hunters and cooks have exercised greater care in dressing the game.

A measure designed to provide for the greatest ultimate production from the oil fields of Illinois while giving land and royalty owners and the general public the greatest possible returns from a rich natural resource has been introduced in the State Senate on the suggestion of Governor Dwight H. Green. The regulations embodied in the bill are based upon approved engineering practices. No attempt at proration is to be made.

Teachers Employed

The following rural teachers have been employed to teach the coming term:

Miss Phyllis Stuebe—Center Point.
Miss Bertha Seider—Alexander.
Miss Gaile Potter—Liberty.
Miss Helen Warner—Mound Snip.
Mrs. Nelle McPherrin—White Hall.

First Free Movie Show This Saturday

The first of a series of free movie shows to be given at Broadlands during the summer months will be presented Saturday night, May 17, starting at 8 o'clock.

A list of those contributing to the picture fund will be published in The News until the \$50 is subscribed.

Following are the names of those who have contributed a dollar or more for the season:

P. J. Limp \$2.00
Arch Walker 2.00
Hefferman Tobacco Co. 2.00
Walter Neal 1.00
Louis Frick 1.00
Ira Laverick 2.00
Henry Messman 1.00
Robert Smith 1.00

Local Unit W. C. T. U. Meets Tuesday Afternoon

On Tuesday afternoon the local unit of the W. C. T. U. met at the home of Mrs. Gladys McClelland, with Mrs. Leanna Miller assistant hostess.

The meeting was in charge of the president, Mrs. Ruth Henson. Mrs. Anna Seeds led the devotions, reading the twenty-second verse of Thessalonians, and following with interesting articles on "Alcohol Education." The hostesses served delicious refreshments, using a color scheme of pink and white.

The following were guests: Mesdames Parr, O'Neal, Johnson and Strebing, of Champaign; Mrs. Amick of Milford; Mrs. Erma Wood and Mrs. Ella Maxwell.

Members present were Mesdames Maude Anderson, Emma Jackson, Anna Seeds, Ruth Henson, Rubie Holt, Eva Brewer, Grace Pugh, Mary Fitzgerald, Faustine Smith, Leanna Miller and Gladys McClelland.

The next meeting, on Tuesday, June 10, will be held at the home of Mrs. Eva Walker.

Mrs. Lillie Bowman Entertains at Bridge

Mrs. Lillie Bowman entertained at five tables of bridge Monday night. Mrs. George Cook and Mrs. Oscar Witt won the traveling prizes.

The hostess served cheese and boiled ham sandwiches, olives, pickles, fruit salad and coffee.

Those present were Messrs. and Mesdames Kenneth Dicks, Ben Rayl, Oscar Witt, Roy Bergfield, Harold Anderson, Raymond McClelland, John Nohren, Edward Nohren, George Cook, and Mrs. Lillie Bowman.

The next bridge meeting will be held at the home of Mr. and Mrs. George Cook.

Lodge Meets Next Monday

Broadlands Lodge, No. 791, A. F. & A. M. will meet next Monday night at 7:30.

Greeley's Handwriting

Many stories have been told about the notoriously poor hand writing of Horace Greeley, the great editor, who founded the New York Tribune just a century ago, in 1841. His writing was a constant nightmare to his associates, and especially to the printers on the various newspapers which he published during his journalistic career.

One printer, being given one of Greeley's manuscripts to set up for the first time exclaimed: "My God, if Belshazzar had seen handwriting like this on the wall he would have been more terrified than he was."

Later, it is said, Greeley wrote a memorandum to his foreman, telling him to discharge the same printer because he made so many typographical errors. Before leaving the shop, the printer asked to be allowed to keep the memorandum as a souvenir. He then carried it to another foreman, telling him it was a recommendation from Greeley, and obtained a job immediately.

A couple of years before his death, Greeley was invited to lecture in Sandwich, Ill. He wrote in reply that he was greatly overworked, and as he would be sixty years old on February third, he did not feel able to accept the engagement. After much labor in trying to decipher the letter, about all the committee could make out was the "sixty" and the "February third."

Finally they guessed that Greeley meant to say that he would lecture for sixty dollars on February third, and they wrote him that the fee and date named would be satisfactory.

Sure Profit Feeding

Cattle feeding has long been considered something of a gamble, but 12 years of feeding trials at the agricultural college of the University of Illinois have proved that it can be made a "sure thing," according to F. J. Keilholz, extension editor of the university.

Not since 1930 have cattle fed the university's standard ration failed to return more than the market price of the feed they ate, and the most profitable lots of cattle returned 37 cents a bushel above the market price of the corn consumed, after deducting the cost of other feeds and all other expenses.

The most profitable ration included a protein supplement, usually soybean oil meal, which has been found so highly desirable as a protein ingredient of stock feeds through years of tests at leading experiment stations throughout the country.

These tests have been conducted in the feeding of beef cattle, dairy cows, hogs, sheep, poultry and all domestic animals, with the most gratifying success. As a consequence, the demand for soybean oil meal has increased amazingly. The view of nutritional experts generally was recently expressed by a leading Illinois authority, J. W. Hayward, who said:

"In view of its established merits and availability, soybean oil meal is destined to be used in the future in ever increasing amounts as a practical protein feed for livestock and poultry."

Sidelights

While a certain senator delivered a lengthy speech on taxation recently, only six members were present in the Senate, and none of them paid any attention to his oratory.

After teaching its students for 900 years that the world was flat, El-Azher University at Cairo, Egypt, has finally adopted the spherical idea and has revised its instruction accordingly.

Mrs. Inez Swanson of Los Angeles has certificates to prove that she has been married 12 times. Relating her experiences as wife, saleslady, cowgirl and detective, she boasted: "I ain't never buried a husband yet."

When a Montreal tenant was tried for kicking his landlord down stairs, he told the judge he supposed he had a right to do that, as it was the only thing he was not prohibited from doing by the terms of his lease.

A news dispatch tells of an Ohio professional parachute jumper who had made 2,226 leaps from airplanes without an accident. He got into the news only when he was severely hurt by falling from an auto trailer.

Joseph Backlund of Kansas, blind since the age of 2, was restored to sight at 62. Many things familiar to touch were not recognized by sight. He had worked with gasoline motors as a mechanic for years, yet did not know what one was when he saw it.

Do You Know Illinois?

By Edward J. Hughes
Secretary of State

Q. May the General Assembly provide for changes of venue?

A. No, in neither civil nor criminal cases.

Q. Can special laws incorporating cities, villages, or towns be passed by the General Assembly?

A. No.

Q. May grand or petit juries be summoned by the General Assembly?

A. No.

Q. May the fees, percentages, or allowances of public officers be changed by the General Assembly?

A. Yes, but not during the term for which said officers are elected or appointed.

Q. What broad Constitutional prohibition for the passage of special laws is placed on the General Assembly?

A. In cases where a general law may be made applicable, no special law shall be enacted.

Q. What house of the General Assembly has power of impeachment?

A. The House of Representatives.

Q. How many members of the House of Representatives must concur in an impeachment?

A. A majority of the members elected.

Q. What role does the Senate play in impeachment proceedings?

A. All impeachments shall be tried by the Senate, and when sitting for that purpose, the senators shall be upon oath or affirmation to do justice according to law and evidence.

Q. How many senators must concur for conviction?

A. Two-thirds.

Q. When the Governor of the State is tried on an impeachment charge who is the presiding officer?

A. The Chief Justice of the Supreme Court.

Mrs. Florence Delisle of St. Paul complained to police that a "male" canary she had bought from a pet shop had laid an egg.

What's New

By the use of a new machine, it is now possible to make cheap firewood out of sawdust.

Injections of methylene blue have been found very beneficial in the treatment of leprosy.

An eastern scientist has discovered a serum which greatly reduces scars caused by small-pox.

Compressed air replaces oil filling in a newly devised switch for high-tension electric power plants.

A mechanical hay dryer that uses heat from low cost fuel oil has been invented at Louisiana State University.

All-rubber drums for shipping and storing acids and other corrosive liquids are now offered. They are said to be virtually indestructible.

Interesting Notes

The game of chess is so ancient that its origin is not known.

The Alaskan coastline is greater than the distance around the earth.

Miss Katherine Cuyler, young radio artist of Newark, sings in seven languages.

An average of almost 3,000 death claims are paid in the United States every day by life insurance companies.

Joseph Kenning of Lexington, Ky., crawled nearly two miles with a broken leg after being struck by an automobile that failed to stop after hitting him.

Asked what she would do with 11 umbrellas she purchased at an auction of articles left on street cars, Mrs. A. Gilmore of Seattle replied: "I'll probably lose them on street cars."

Proprietors of a grocery store in St. Joseph, Mo., encased the office safe in a block of cement to discourage thieves, but prowlers stole the block and all with more than \$500 that was inside.

Reuben Bement turned a flock of chickens loose in his barnyard at St. Petersburg, Ind. When the chickens failed to go to roost that night he investigated and found them all stuck fast in the mud.

Rex Mays Overdue For Race Victory

INDIANAPOLIS, Ind.—Rex Mays, the "California Cannonball," is out to keep a date with Dame Victory in the 500-mile Indianapolis race on May 30. He feels she's stood him up long enough. A lanky, likeable lad, Rex has been for years just about the hottest driver on the track but he just somehow never seemed able to get under the wire first. For three years out of six he has been the fastest qualified and holds the unofficial lap record for the two-and-a-half-mile oval. Last year he finished second after rain had slowed the race down and prevented him from engaging in a final-stage duel with Wilbur Shaw, the eventual winner.

This year he has again been named to drive the speedster entered by Robert M. Bowes and engineered, built and managed by Lou Meyer, retired veteran of the track. The car's motor has been revamped to increase its speed and Mays is confidently looking forward to the Decoration Day classic.

Frenchman Will Race If Blockade Permits

INDIANAPOLIS, Ind.—If the vicissitudes of war permit, Rene LeBegue, the French speed star, will offer hot competition to the American drivers in this year's 500-mile Indianapolis Motor Speedway race. In Vichy, France, LeBegue is trying desperately to get clearance through the British blockade for his two French cars. If he succeeds in unwinding the red tape he will add a lot of color to the racing scene. For LeBegue drove in last year's race amidst dramatic circumstances and finished tenth—in the money. He and a colleague, Rene Dreyfus, were released from the French Army for the purpose. He qualified but Dreyfus, driving the same kind of car, failed. Two days before the race LeBegue's car developed motor trouble and mechanics worked ceaselessly night and day switching the motors of the two cars. LeBegue rolled up to the starting line just in time for the gun.

The Cleveland police department has erected this traffic sign in a public square: "Jeepers Creepers, Use Your Peepers."

When William Harder, a first aid teacher in London, was demonstrating stretcher drill to his pupils, he fell and suffered two broken ribs.

A burglar alarm is being installed in central police headquarters in Chicago. The station has been robbed twice in recent months.

As a hobby, John Dagman of Dorris, Calif., whittles hundreds of miniature boats and sends them to crippled children in hospitals. In 1940 he carved 1,050 and sent them to 12 different states and Canada.

Police in Greensboro, N. C., recently arrested two men for stealing manhole covers, charging that they broke up the heavy discs and sold them for junk.

★ 29 MILLION!

A record never before approached!

★When the 29,000,000th Ford rolled recently from the assembly line, an all-time record for the industry was set. 29,000,000 units built by the same management and all bearing one name—a name that has become one of the best-known trade-marks in the world!

It is significant that this achievement comes at a time when our country is making a mighty effort to re-arm swiftly. For to further that effort, to help speed it along in any possible way, we have offered the vast facilities of the Rouge Plant and every ounce of our experience.

As you read this, a new \$21,000,000 Ford airplane engine plant, started only last fall, is nearly completed. A new magnesium alloy plant, one of the few in the

country, is already in production on lightweight airplane engine castings. Work is right now under way on a new \$18,000,000 plant for mass production of big bomber assemblies. Orders have been filled for military vehicles of several types, including army reconnaissance cars, staff cars and bomb service trucks.

In the midst of this activity for National Defense, building the 29 millionth Ford car is simply one part of the day's work.

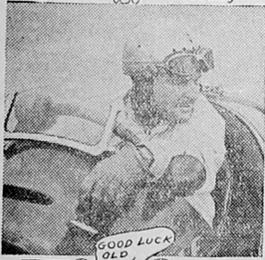

The public has acclaimed the 1941 Ford car as the finest in Ford history. Ford Dealers are enjoying their greatest sales and expecting their best year since 1937.

It is good to be producing the things America needs, and to be setting records on the way!

FORD MOTOR COMPANY

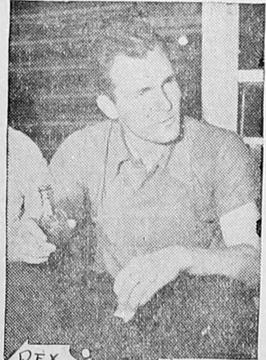

Wilbur Shaw Shoots For Fourth Race Win

INDIANAPOLIS, Ind.—If ever a man had a chance for sports immortality that man is Wilbur Shaw. Shaw will be shooting for his fourth victory in the 500-mile Indianapolis Motor Speedway race on May 30. Only two men in the history of racing have won the "500" three times—Shaw and Louis Meyer. Now that Meyer has retired from piloting race cars, Shaw goes on to seek his fourth victory. If he does it, it will be tantamount to Bobby Jones' famed "grand slam" in golf, Henry Armstrong's capture of three boxing titles and other miraculous sports performances that are open seasons to the Hall of Fame. The smooth, Dapper Shaw is one of the brainiest and most daring drivers that ever put foot to accelerator. Shaw will be back this year with the same Maserati with which he glided to victory and the \$20,000 first prize last year. The greatest money winner in the history of the track, Shaw will be shooting for that pot of gold again in addition to the signal honor of being the first four-time winner.

Rex a Bridesmaid But Never a Bride

INDIANAPOLIS, Ind.—"Always a bridesmaid but never a bride" might well apply to Rex Mays, the heavy-footed California race driver. For a number of years, Rex has been just about the hottest thing on the track in qualifying trials for the Indianapolis "500" but never yet has been able to crash the select circle of winners. Last year was his best bid. He ran second to Wilbur Shaw but feels he could have won had not a rain slowed the race down for 125 miles and prevented him from making a late bid for victory. This year he will again drive the speedwagon entered by Robert M. Bowes and engineered, built and managed by Lou Meyer, retired veteran of the track. But it will be faster even than it was last year when Mays took it around for an unofficial lap record of 132.40 miles an hour. Riding that kind of a mount, Mays is confident that on May 30 he will graduate from the bridesmaid class.

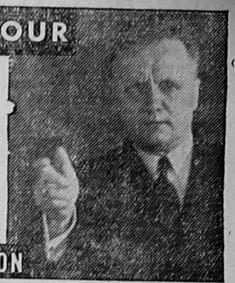

ONLY THREE-TIME WINNERS STILL RIVALS ON TRACK

INDIANAPOLIS, Ind.—When racing men sit down to gab about the greats of the game the names of Shaw and Meyer are mentioned with awe. Wilbur Shaw and Louis Meyer are the only three-time winners of the Indianapolis 500-mile race and both will be seeking victory again on May 30. But Shaw will be there in the role of driver and Meyer's interest is now that of the owner-engineer. Louis Meyer was one of the most skillful drivers that ever zoomed a car around the Hoosier oval. The cool Californian whizzed to victory in 1928, 1933 and again in 1936. He retired from competitive driving in 1939 after his car pinwheeled out of the race when he was within grasp of victory. So now Meyer has turned to other aspects of the business—engineering and building of race cars. He is now associated with owner Robert Bowes of Indianapolis and this year will again put on the track the motored comet with which Rex Mays set last year's qualifying record. Meyer master-minded Mays into second place last year and many race fans believe he would have been first but for a rain that slowed the field down. Although Meyer has retired from the driving end of the game, there is nothing to prevent him from coming out of retirement and driving for a fourth victory, just as Shaw will do this year. Shaw, the Dapper Dan of racing, is one of the brainiest drivers in the business. A first rate athlete, natty dresser and excellent after-dinner speaker, he is one of the highest type champions in the sports world. As a driver he is known for that enviable combination of daring and good judgment. Should he succeed in winning again this year, as he did in 1937, 1939 and 1940, he will certainly be entitled to a special niche in Sports' Hall of Fame.

Hero To Racing Pals, Miller Is Ace Driver

INDIANAPOLIS, Ind.—Modest Chet Miller is afraid he'll never be able to live down the fact that he's a hero. The only way to take the public's mind off it, he feels, is to become the winner of the 500-mile Speedway race. And that's what he'll be shooting for come May 30. Miller earned himself an undying place in the hearts of racing men when he sacrificed an opportunity to win the 1939 Indianapolis race to save the life of a fellow-driver. Miller was running third when Bob Swanson and Floyd Roberts crashed on the southeast turn. Swanson was thrown in the path of Chet's car and rather than strike him, Miller deliberately ran into the inside wall. His car turned over and Miller himself went to the hospital. Aside from such proven courage, Miller is one of the smoothest drivers in the game. He has competed in 11 Indianapolis classics and has finished among the first ten on six occasions. His mount this year will be a Boyle entry which means that combination of car and driver will be a distinct threat, as usual.

Lodge Meets Next Monday
Broadlands Lodge, No. 791, A. F. & A. M. will meet next Monday night at 7:30.

Why not plan now to go "All-Electric" this year? You'll never regret taking this step toward greater convenience, better health and year around saving.

Make Yours An All-Electric Home This Year

CENTRAL ILLINOIS PUBLIC SERVICE COMPANY

New Illini Union Activity Center on U. of I. Campus

Worth of \$1,500,000 Building Proved by Use; Center for Students, Alumni, Visitors.

Although open only a few months, the new Illini Union building at the University of Illinois has more than proved its value to the campus. It is a center of activity for the 14,000 students and faculty at Urbana-Champaign and a center for the University's 150,000 alumni and the thousands of parents and visitors who visit the campus.

It has been called "one of the most beautiful buildings in America." Its architecture was inspired by the colonial restoration of Williamsburg, Virginia.

The \$1,500,000 structure was erected under a trust agreement between the University of Illinois Foundation and the University with funds made available through a Federal grant and a private loan to cover building costs. Furnishings and equipment were provided by alumni and other friends of the institution.

Payments by students and faculty members will amortize the loan and provide maintenance funds. Food and other services are operated at cost. Neither the building, nor its furnishings or operation are costing the state's taxpayers a cent.

Erection of the Illini Union building has been a favorite project of President Arthur Cutts Willard. He emphasizes its importance as "a distinguished social center for campus life to develop a democratic student spirit and informal friendships among students, faculty, and alumni, and to serve as an inspiration for better living."

Illinois is one of the last of the large universities to build a Union, but in the new building it has a structure whose beauty and architectural merit, combined with democratic utility, promises to receive wide notice.

Included in the building are lounges for students and faculty, dining and cafeteria rooms, fountain-lunch service, a ballroom and banquet room, browsing library, ticket sales windows, meeting rooms, bowling alleys, game room, and other facilities to make it the natural center of student and faculty life.

Also in the Illini Union are the offices of the Alumni association and Foundation, centers of the alumni world. As the "front door" to the campus, the Union is a point of first call for alumni, parents, and other visitors.

Home Heating Study Expanded at U. of I.

Because of pioneering research started nearly 25 years ago at the University of Illinois, thousands of American homes are heated more efficiently and economically today. Homes of the future will be even more comfortable because the research not only is continuing, but is being expanded.

It is no arm-chair theorizing. Nor is it done with models. Heating plants in homes are studied in winter operation. Equipment is studied in the laboratory under controlled conditions. Summer research is preparing the way for expansion of winter heating into year-around home air conditioning by the addition of summer cooling.

Study of warm-air heating has gone on every winter since 1924 in a typical 10-room frame house, the university-operated Research Residence, erected at the campus by the National Warm Air Heating and Air Conditioning association.

The study of steam and hot-water heating of small homes was given impetus during the winter when a typical six-room brick veneer modern small home was built at the university by the Institute of Boiler and Radiator Manufacturers.

26 Business Researches At U. of I. Listed by U. S.

Twenty-six business research projects recently completed or now under way at the University of Illinois College of Commerce are listed in the first U. S. Department of Commerce survey of such university activities throughout the nation.

The university's business research projects are listed in 15 of the 28 fields into which the survey is divided. The number of fields is exceeded only by the University of California, and equalled only by the University of Pennsylvania and Duke University.

Of the 26 University of Illinois projects, 22 were scheduled to be completed by the end of 1940. Fifteen of the projects are those of faculty members, and 11 those of graduate students.

Citizenship Is Required.
No person may be a member of the University of Illinois faculty or employed in any other capacity unless he is a citizen of the United States or has taken steps to acquire citizenship, with the exception of distinguished foreign scholars, scientists, or lecturers who come to the campus for a definitely limited time.

Only 1c a Day Is Family Cost For University

U. of I. Budget Request Is Less Than 1/4¢ Per Day Per Citizen.

Less than one cent a day from the average Illinois family—less than one-fourth of a cent per individual—is what the University of Illinois is requesting in tax money for the coming biennium from the legislature. This money is both to operate the university, to meet some long-deferred needs, and to increase its service to the people.

In return for this "less than a penny a day," every Illinois family has the privilege of sending its children to the state university, and every citizen benefits throughout his life from the university's research for the improvement of the state and the nation's agriculture, industry, homes, and health.

The university's total budget estimates amount to \$9,227,583 per year, but of that sum \$2,263,317 will be from the institution's own income from federal grants, student fees, residence halls, farms, etc. This leaves \$6,964,271 to come from tax funds.

Since the 1940 census reported 7,374,155 persons in Illinois, the university's request amounts to less than 90 cents per individual—or \$3.59 for an average four-person family—for the year.

This is to operate and maintain a publicly owned educational and research plant worth \$39,000,000, an investment built up over the more than 70 years since the university was founded. It represents an investment of \$4.32 for every man, woman, and child in the state.

For this investment, and for the \$3.59 in tax money it is being asked to pay for current operating and maintenance, what does the Illinois family get from its state university?

First, it has available a place where its children may obtain a college education, or training in the professions, at a minimum cost and still of the very best.

Second, it has a place which trains workers to serve the public—doctors, dentists, teachers, agriculturists, engineers to build roads and bridges, architects to design homes and buildings, administrators to direct commerce and government, and in general, workers in hundreds of fields of service and leadership.

Third, it has a publicly owned and publicly directed center of research and investigation into practically every field of human endeavor. Results of the university's research are published for the benefit of all, not restricted for the profit of an individual or a corporation. The university expends special effort to carry these research results to the public through teaching, meetings, publications, and publicity.

The latest financial report of the University of Illinois shows the following expenditures of operating funds: instruction and scholarly investigation or study, 53.2 per cent; organized research, 13.4 per cent; state-wide extension, 7 per cent; libraries, 4.8 per cent; operation and maintenance of plant, 14.9 per cent; administration and general expense, 6.7 per cent.

New Housing For Students Opens in Fall

A new long-time program of men's housing at the University of Illinois campus in Urbana-Champaign will be carried a step further this fall when the university's new \$700,000 Men's Residence hall units are opened.

They are being built without cost to the state through a private loan which will be repaid from income of the buildings. Charges for room and board for the September - June school terms will be \$425 for single rooms and \$376 per person in double rooms.

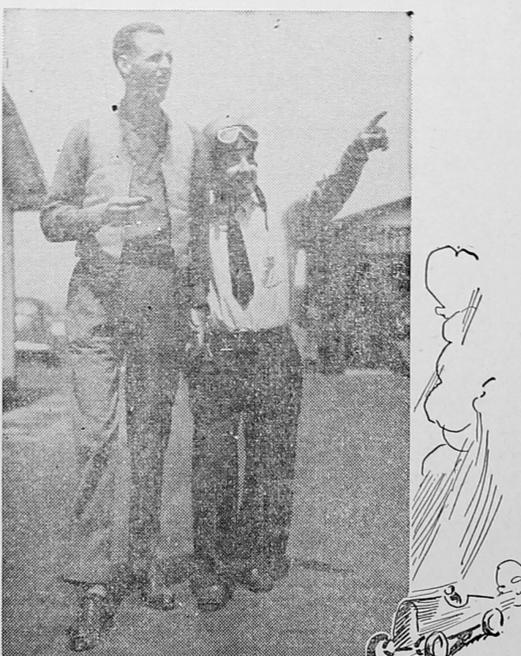

"These rates are slightly higher than average rooming houses, but lower than average fraternity costs," according to S. Earl Thompson, acting director of student housing.

"Contracts will be for the academic year only, with preference given to Illinois residents and to new students," he said. "The student will be offered modern housing facilities and equipment, and meals in the building prepared under the direction of a trained dietician."

The University has had women's residence halls since 1917. They set a high standard in quality accommodations for co-ed housing at the campus. The Men's Residence halls are expected to do the same for men.

Their opening this fall will climax a five-year campaign by the university and student groups to provide better men's housing. At present, of the more than 9,000 men on the Urbana-Champaign campus, one-fourth live in the 60 fraternities, and the rest in private homes or private dormitories and a small dormitory the university took over two years ago.

THORNE AND PETILLO LONG AND SHORT OF RACE DRIVERS

JOE THORNE KELLY PETILLO

INDIANAPOLIS, Ind.—The long and short of it among the race drivers are lanky Joe Thorne and dumpy little Kelly Petillo. But long or short, they've both got their hearts set on winning the 500-mile race at the Indianapolis Speedway on May 30.

Thorne is a millionaire who is in the game for the sheer love of motors and speed, although he is not averse to hauling down a chunk of prize money when the opportunity offers. A consistent driver himself, Thorne has been finishing better and better every year in the annual mo-

tor classic. Last year he finished fifth, his best position to date.

Besides his own mount, Thorne is expected to have at least one other car in the race.

Petillo, despite his size, or maybe because of it, is one of the most colorful figures in the business. Winner of the 1935 Indianapolis race, he has plenty of "foot" when the chips are down. He moves into turns at terrifying speed and scoots down the straightaways like a newly sprung arrow, all of which makes him a great favorite with the rail birds, win or lose.

Orange and Blue Echoes

L. V. H. S.—Long View, Illinois.

The foods class is giving a tea next Wednesday afternoon at three o'clock. The public is invited.

Mrs. Baker, Joan Baker, Esther Crane, Marie Monger and Miss Pershing were guests at a six o'clock dinner given Thursday evening by Hazel Baker.

Ada Ringo was hostess to a six o'clock dinner Tuesday evening at the high school. Guests were Mrs. Ringo, Evelyn Hedrick, Mary Wilson, Marjorie Gorman and Miss Pershing.

Longview was one of the twenty schools which competed in the judging contests last Friday at Sidell and Indianola. Longview ranked first in dairy judging, second in grain, third in fat stock, and when events were added up ranked fourth as a school. Those judging in dairy were Irvin Toppe, Ralph Schumacher, Claire Noblitt, Albert Culton; in judging fat stock were James McIntyre, George Akers, Ralph Clem and Eugene Ward; those judging in grain were Veras Turner, Leon Ayers, Kenneth Rothermel and Carol Martinie; those in poultry were James Hagerman, Ralph Anderson and Lolas Turner. All of these teams will go to the state contest in June. Irvin Toppe and Eugene Ward, after weeks of study, won well deserved blue ribbons in judging dairy and fat stock. Leon Ayers received 6th place in judging grain.

Long View News

Rev. and Mrs. J. A. Parker went to Homer on Thursday of last week where they attended a dinner honoring William Taylor on his birthday.

The WCTU met Tuesday afternoon in the home of Mrs. Irene Davis with twelve members present. Devotions were led by Mrs. Mabel Warnes. With Mrs. Myrtle Warnes at the piano, Mrs. Mabel Warnes and Mrs. Edythe Warnes sang a lovely duet. After the business session Mrs. E. C. Hagerman presented the lesson on "Child Welfare Legislation." Refreshments of grape juice, cookies and tea were served.

The Longview high school reed quartet, Margaret Mohr, Hilda Partenheimer, Inez Schweineke, Wanda Nohren; and the soloists, Fern Davis, oboe; and Mildred Leerkamp, cornet, left Tuesday for Flint, Mich., to compete in the Regional contest. Accompanying them were Paul Stout, Thelma Elson, Mr. and Mrs. H. H. Jarman. They expect to return by way of Holland, Mich., for the Tulip Festival in progress there.

The Longview high school ag. classes went to the district grain, poultry and live stock judging contest. Fat stock judging team, McIntyre, Akers, Ward and Clem took first place, with Eugene Ward placing first in individual judging in the same class. Dairy team, Culton, Toppe, Noblett and Schumacher took second, with Irvin Toppe placing first in individual judging in this class. Leon Ayres placed sixth in individual grain judging. Longview took 4th place in total points in all events.

Music in the air seems to have bothered Illinois residents some fifty years ago. The complaints from home owners along the Mississippi shore were directed against steam-driven Calliopes carried by river boats.

A newspaper of the time, says the Illinois Writers' Project, W. P. A., contained a consoling thought without affecting the

music-makers. It called attention to the recent discovery of a lad in Ohio who had learned to imitate a Calliope with his own vocal cords and lung power, and did the part so successfully that he could be heard for two miles.

"When that lad goes serenading," the writer observed, "there is no doubt about the presence of music in the air."
