## Two Accidents Result Fatally For Elmer Goad

Elmer Goad, 24, employee of the Champaign county farm, was instantly killed on Sunday night when his car rammed into the rear of another on U. S. route 10 at the Mayview cemetery.

State police said the crash was Mr. Goad's second within a few minutes and that in the first one at Ogden, the left door was torn off his car.

They said that when his car struck the rear of a west bound coupe driven by Walter George, 34, of Metcalf, Goad was thrown to the pavement and virtually decapitated. After being hit, George's car plunged into the cemetery hedge and overturned in a ditch. George was taken to Burnham City hospital and treated for cuts and bruises about the head.

Mr. Goad, a former resident of Homer, was well known as a former Golden Glove boxer. He made his home at the county farm and hospital. His wife is a nurse at the County hospital.

Elmer Goad, a son of Mr. and Mrs. Sam Goad of Homer, was born August 29, 1918, at Newman and moved to Homer 11 years ago with his parents.

He was married to Lena Grace Miller on July 6, 1940. She survives, together with his parents; three sisters, Mrs. Lucille Pate, Catlin; Mrs. Marie White, Homer; and Evelyn Goad, at home; three brothers, Corporal Duane Goad, of Camp Edwards, Mass.; Earl and Dale Goad, at home.

## Friday Snow Is The Earliest Since 1918

(News-Gazette)

Snow in September seems to be recorded only in war years. And there's a possibility that the snow and sleet on Friday, Sept. 25, may be recorded as the earliest report of snow for September on record in weather annals at the University of Illinois.

Back in September, 1918, a trace of snow was recorded at the University's station. But the date in September is not listed, according to Henry P. Etlar, the University weatherman. Although many persons failed to note the snow which fell Friday at noon, Etlar's report lists a "trace."

The snow followed closely on the arrival of autumn, which was Wednesday. Mixed with the trace of snow was sleet and rain all within a 24-hour period. Friday also marked up the coldest day since April 20, as the minimum was 35 degrees. Friday's maximum failed to climb above 48, and .83 inches of rain was reported for the 24 hour period.

September's rainfall has attained 3.77 inches, while the average for the month over a period of years is 3.24 inches.

## U. B. Church Notes

Dale Mumaw, Pastor.

Sunday, Oct. 4—Rally Day.

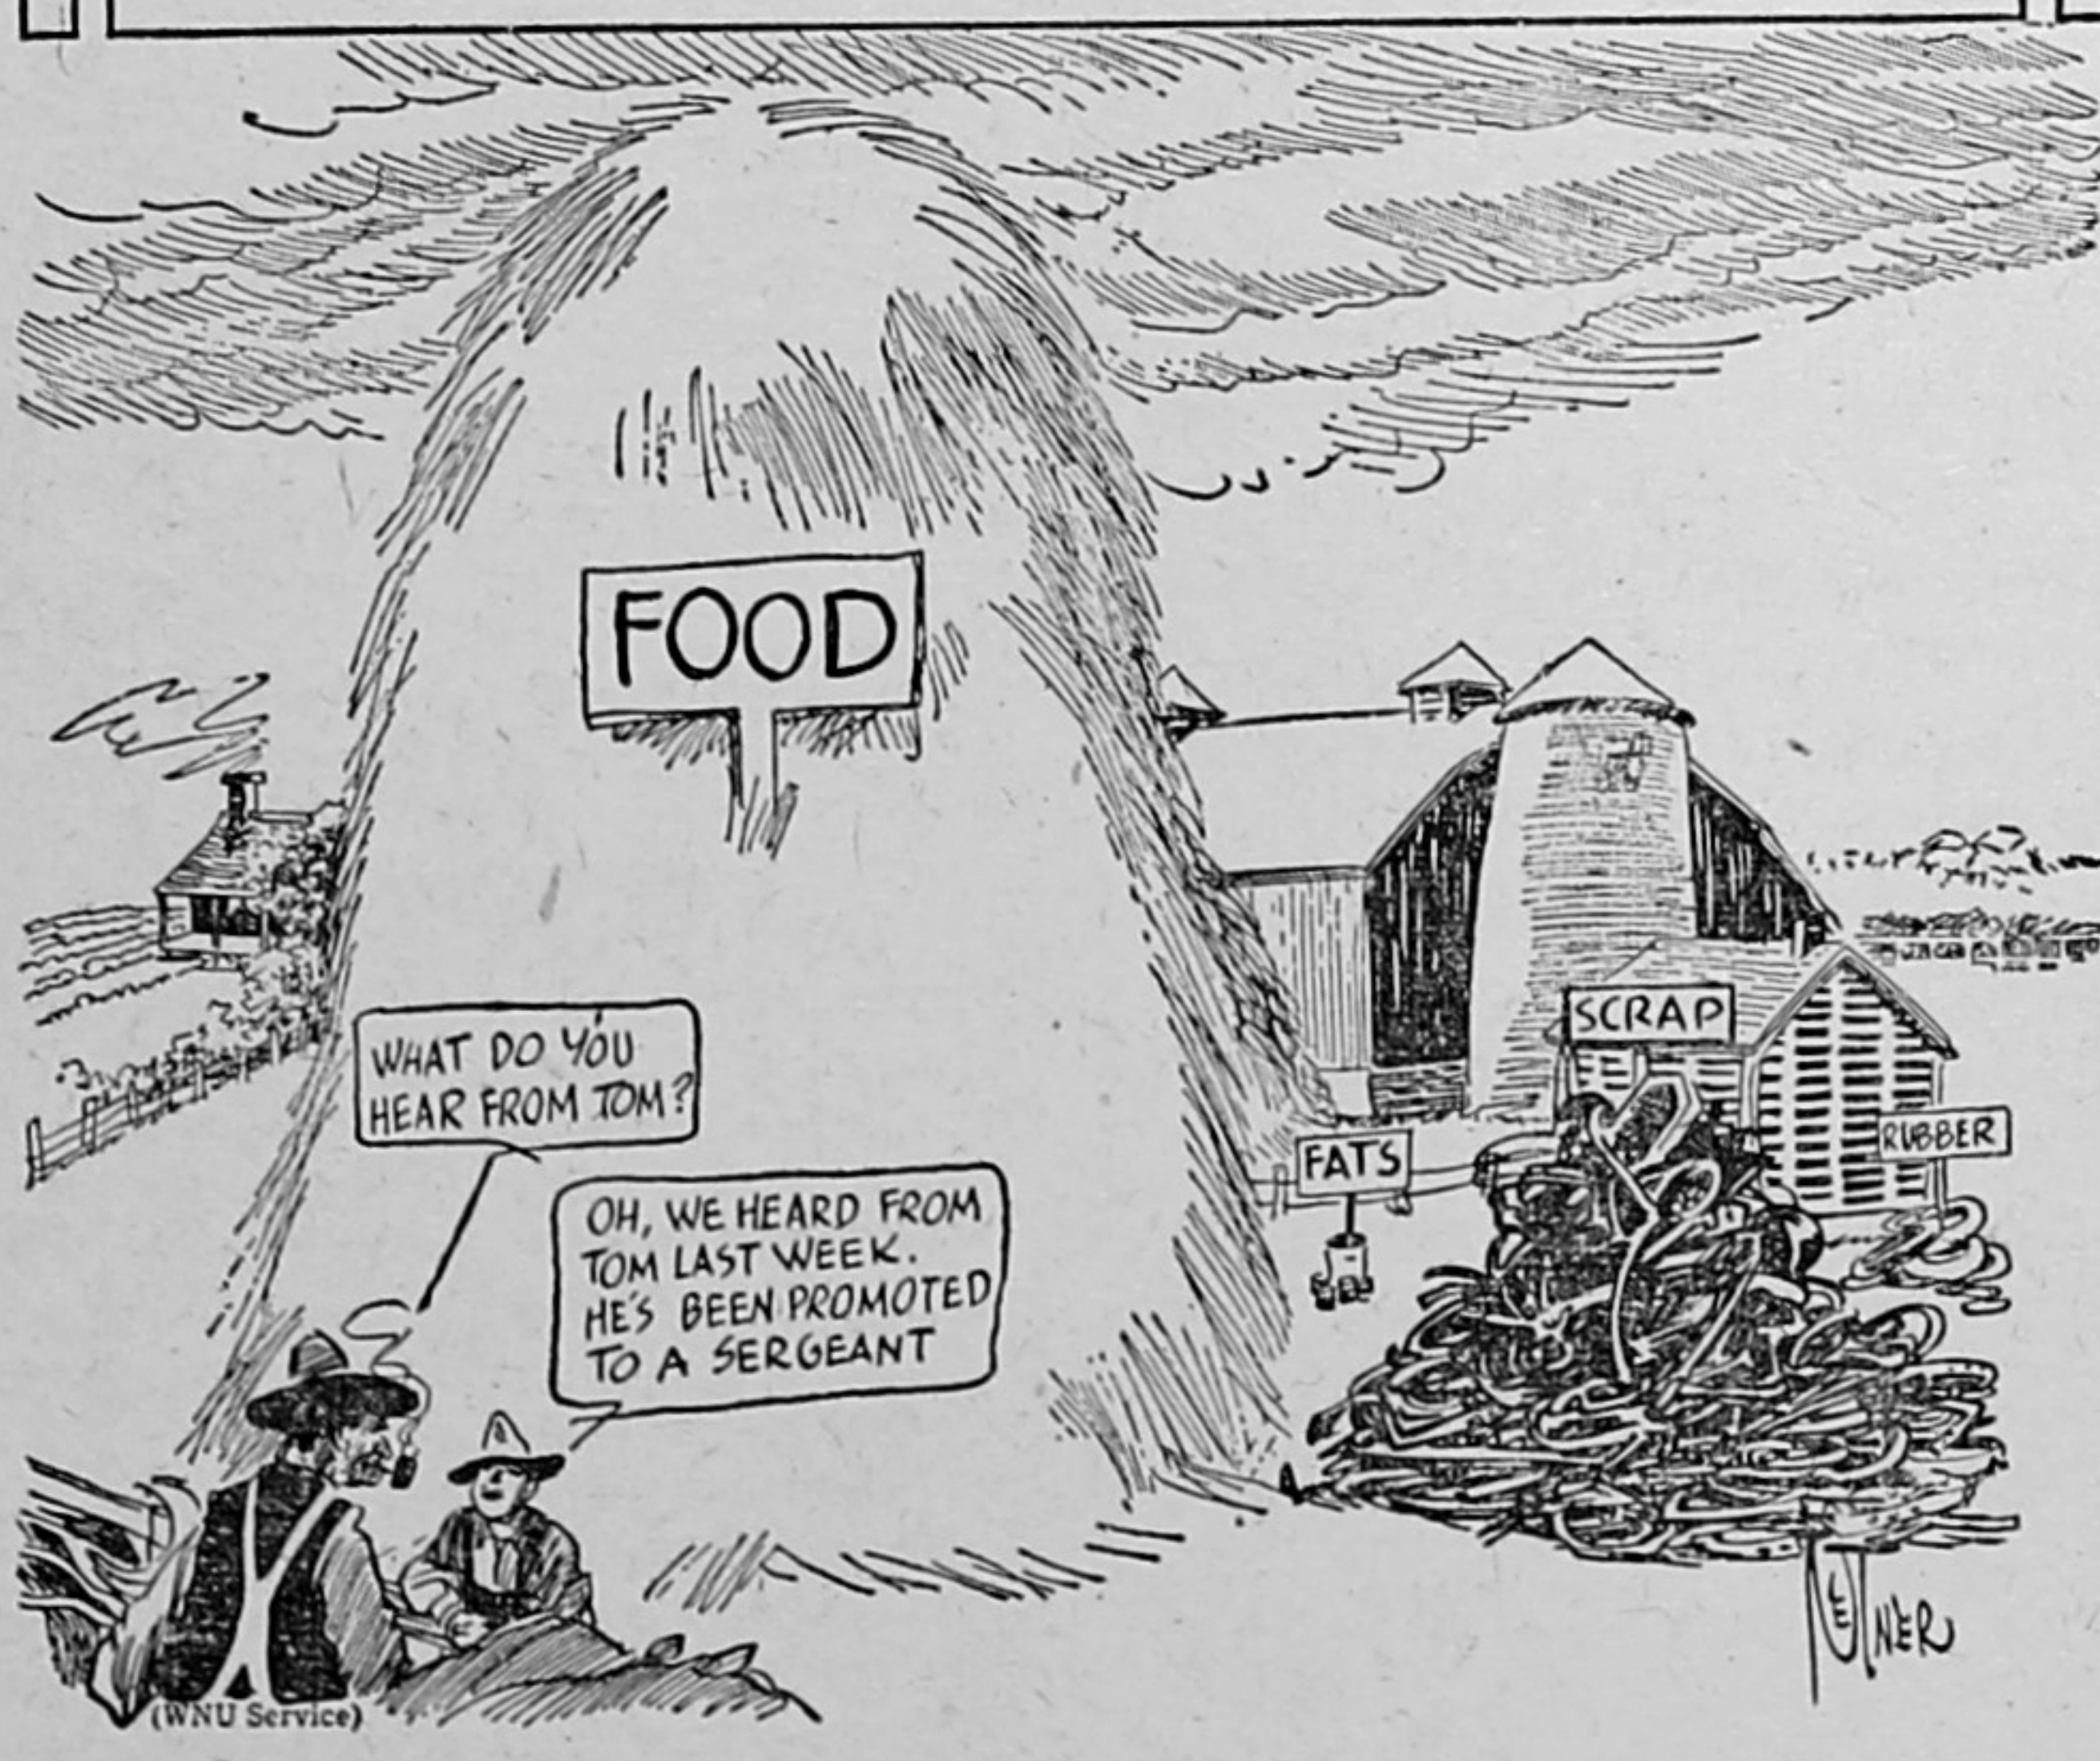

Sunday School—10:00 a. m.

Morning Worship—11:00.

The morning program will close at noon with the Sacrament of the Lord's Supper and an offering for Foreign Relief. Basket dinner at noon.

Roy Hurst, successor to Earl K. Eckerty, places an ad in this issue.

## War Harvest

## Farmers Top Bean and Corn Acreages

Champaign county farmers answered the wartime demand for more corn and vegetable oils by planting 204,200 acres of corn in 1942, it was revealed in an official report of the Soil Conservation committee released Monday.

Soybeans constituted 36 percent of the total crop acreage in 1942 as compared with 28 percent in 1941, while corn this year occupied 35 percent of the land and 34 percent last year. These percentages represent a 44,800 acre increase in soybeans and a 6,800 acre increase in corn.

Wheat, oats, barley, rye, tame hay and other non-depleting crops showed decreases in acreage for 1942 as contrasted with 1941 ranging from 3,800 acres less tame hay to 31,935 less acres of non-depleting crops.

Land percentages for these products this year are as follows: tame hay—four percent; wheat—one percent; oats, barley and rye—10 percent, and other non-depleting crops—14 percent.—News Gazette.

## Marcy Darnall, Jr. Appointed Ensign

Marcy B. Darnall, Jr., general manager of The Florence Herald, received notice on Monday of his appointment as ensign in the United States Naval Reserve, aviation branch, and is awaiting orders to duty.

He has been a licensed civilian airplane pilot for several years, and will receive additional training, probably at Atlanta and Pensacola, before being assigned to regular duties with the Navy.—The Florence (Ala.) Herald.

(Editor's Note)—The young man mentioned in the above article is the son of Marcy B. Darnall, Sr., editor and publisher of The Florence Herald, Florence, Ala., who is a brother of J. F. Darnall of Broadlands. The senior Mr. Darnall is a veteran of both the Spanish and World wars.

## You Must Register If You Want to Vote

Springfield, Illinois—Governor Dwight H. Green today issued a new appeal to all citizens of Illinois asking them to fulfill their civic duty of registering by October 6th so that they can vote in the election November 3rd. The new state-wide permanent registration law, which became effective this year, requires the registration of all voters in the state.

It is the duty of all citizens who can qualify as voters to register, Governor Green said. If they do not register they cannot vote in the November 3rd election.

With the added burdens and responsibilities placed on public officials by the war emergency it is more important than ever that every voter should go to the polls in this year's election to choose competent state and national officers.

The registration applies to every county and every community in the state. Those not yet registered can do so at the office of the county clerk up to Monday evening, October 5th. On Tuesday, October 6th the registration records will be taken to the various polling places all over the state and citizens may register in their own precinct on that day. After October 6th the registration books will be closed until after the November election.

Any young person who will reach the age of 21 years previous to November 3, and thus become a voter, should either go to the county clerk's office previous to October 6 or to their voting place on October 6 and have their registration card made so that they can vote November 3. Register now. Don't wait until the final day.

## Farmers Harvesting Crops

Farmers of this locality have begun the harvesting of their corn and bean crops. Corn is good and will probably make an average of 70 bu. per acre, it is thought. The soy beans were damaged by the hard freeze recently and it is too early to tell as yet just how good this crop will turn out.

## Lodge Meets Next Monday

Broadlands Lodge, No. 791, A. F. & A. M. will meet next Monday night at 7:30.

Harold O. Anderson, W. M. Edward Nohren, Sec.

How do you account for the sugar shortage in this war? I dunno. There are as many fellows raising Cain as ever.

## Norma Partenheimer and David Rogers Are Wed

In a simple ceremony performed by Rev. Robert Frey at the St. John's Evangelical and Reformed Church, northwest of Broadlands, at 3:30 Sunday afternoon, Sept. 27, Miss Norma Partenheimer, daughter of Mr. and Mrs. Karl Partenheimer, of Broadlands, became the bride of David Rogers, Jr., son of Mr. and Mrs. David Rogers, of Akron, Ohio. The bride was given in marriage by her father.

The bride was attended by her sister, Miss Hilda Partenheimer, as maid of honor, and Miss Evelyn Burrows of Champaign, as bridesmaid.

The groom was attended by his brother, Richard Rogers, as best man.

Miss Margaret Mohr presided at the piano, and Gene Partenheimer, brother of the bride, served as usher.

Immediately following the ceremony a buffet supper was served at the home of the bride's parents, to about forty guests, including the wedding party and immediate families.

The bridal couple left later in the evening for Decatur, and they are at present residing in Champaign. Mr. Rogers, who has been stationed at Chanute Field, expects to be transferred to Lincoln, Neb., in the near future.

## Miss Schumacher To Wed Fred Buescher, Jr.

Announcement is made of the approaching marriage of Miss Evelyn Schumacher, daughter of Henry Schumacher, Broadlands, to Fred Buescher, jr., son of Mr. and Mrs. Fred Buescher of Cleveland, O.

The wedding will take place on October 3 in Cleveland.

Miss Schumacher is a graduate nurse of Lakeview hospital, Danville. Mr. Buescher is a graduate of Whittenburg University and is a member of Phi Gamma Delta fraternity. They will make their home in Cleveland.

## Roll of Honor

The following is a list of those who have renewed their subscriptions and new subscribers for this paper for September:

- C. A. Messman, Homer.
- Dr. Clara W. Smith, Champaign.
- Miss Margaret Hooker, Sidney.
- Henry K. Mohr.
- Will Messman.
- Mrs. Fuller Freeman.
- Fred Cress.
- E. H. Wiese.
- Henry Seider.
- O. P. Witt.
- Dale David.
- Alfred Zenke.
- Raymond Kilian.

## Rural Mail Carriers Will Collect Junk

Chicago, Sept. 30—Rural Illinois postmen must now be able to "take it" as well as "dish it out."

The state defense council announced yesterday that 1,700 carriers had been authorized to pick up junk at mail boxes.

The first damaging frost of the season visited this locality last Monday morning. Ice found in water troughs was over a quarter of an inch thick.

## Miss Wilma Schultz, Homer, Is Bride of Vernon Luth

Miss Wilma Schultz, daughter of Mr. and Mrs. Will Schultz, of Homer, and Vernon Luth, son of Mrs. Hannah Luth, Broadlands, were married at 8:30 p. m., Saturday, September 26, in the Immanuel Lutheran Church, northwest of Broadlands. Rev. P. E. Kerkhoff, pastor of the church, performed the single ring ceremony.

Miss Loretta Wienke, of Homer, was bridesmaid, and Harley Schultz, brother of the bride, also of Homer, was best man.

The bride wore a soldier blue street length dress, with black accessories, and a corsage of white gardenias. Her attendant wore brown, and her corsage was of pink gardenias.

The bride is a graduate from the Homer Community high school, and also from a beauty culture school. She has been employed at Edna's Beauty Shop in Homer the past year.

The bridal pair left on a wedding trip immediately following the ceremony, and on their return, will be at home on the groom's farm, four and one-fourth miles northwest of Broadlands.

## Mrs. C. T. Henson Is Honored on Birthday

C. T. Henson and daughter, Miss Maxine, entertained a number of relatives and friends at a six o'clock dinner on Friday evening of last week, in honor of Mrs. Henson, the occasion being her birthday anniversary. Mrs. Henson was the recipient of several lovely gifts.

Those present were Mr. and Mrs. Glen Carleton, Mr. and Mrs. George Cook, Mr. and Mrs. Ed Maxwell, daughter, Myrtle Mae, son, Montelle, Mr. and Mrs. Thos. Bergfield, Billie Eckerty, Fred J. Mohr, Mr. and Mrs. Lonnie Zantow and daughter, Miss Lois, Mrs. Lillie Bowman, Mrs. Lillie Baker, daughters, Misses Hazel and Joan, Mrs. Bert Boyd, daughter, Miss Patricia, and son, Archie, Misses Lyla Mae Witt, Jane Anderson and Lois DeWitt.

## Three Tire Thieves Draw One To Ten Year Terms

Chicago, Sept. 30.—For stealing tires, which, he says, is "tantamount to sabotage in this time of war," Chief Justice John A. Sbarbaro of the criminal court yesterday sentenced three men to from one to ten years in prison. The same penalty was meted out to a man convicted of buying stolen tires, and one year to life terms were fixed for three men who snatched tires in filling station burglaries.

## Attends Ministers' Meeting

Rev. D. D. Mumaw attended a Ministerial Retreat at Battle Ground, Ind., Monday, Tuesday and Wednesday. It was under supervision of Bishop F. L. Dennis of Indianapolis and comprises the U. B. Ministers of the entire northwest area of the church.

More Bombs For Nazis

In the continued heavy bombing of German bases and industrial cities, the Allies are waging their only really effective offensive of the war, and one which must be causing Hitler grave concern. The whole of Germany is now within range of air attacks from England and Russia.

The situation in the air is far different from that of two years ago this month, when German bombings of Britain reached their greatest height, and the fate of England seemed in the balance. On September 15, 1940, the heaviest raid on Britain occurred, resulting in widespread destruction, but in which the Nazis lost 185 planes in a single day. Unable to stand such losses, the Germans gradually abandoned their effort to bomb Britain into submission.

This summer the whole air picture has been changed. Following several attacks in which 1,000 planes were used, the Allies have adopted a somewhat changed strategy, whereby instead of occasional big raids they are using from 200 to 500 planes almost continuously, day and night. A recent record was set when the British carried out six extensive raids in 10 nights. In the meantime American Flying Fortresses are making daylight raids with precision bombing from high altitudes with incredible success.

As an illustration of the persistency with which these raids are being carried out, it may be mentioned that important German bases and industrial cities have been bombed as follows:

Cologne, bombed 104 times; Barmen, 97; Hamburg, 94; Duisburg, 61; Mannheim, 54; Kiel, 47; Dusseldorf, 49; Essen, 42; Frankfurt, 34. These include only the largest cities heavily bombed repeatedly. Dozens of other targets have been visited often by Allied bombers, including all the ports and several interior cities in German-held territory. Recently the Russians have carried out frequent raids on cities in Eastern Germany, as well as on Warsaw, Budapest and the Rumanian oil fields. This by no means completes the long list, but it gives some idea of the tremendous air power being developed by the Allies.

When the British are joined by ever increasing numbers of American planes, as is now planned, the effect on German ports, war industries and transportation facilities is bound to be devastating. For America's air might is only beginning to be felt all over the world. Just now it is one of the important factors in holding Rommel's army in check in Egypt, and is playing a leading part in operations against Japan.

The rapidly growing strength of American aviation is the most encouraging development of the year for the United Nations.

Musical Chicago

Chicago is known throughout the nation for its preeminence in many lines of activity, being the world's greatest railroad center, the greatest livestock and grain market, and standing first in several major industries.

But Chicago's cultural leader-

ship is not so widely known, particularly in music. Yet, with its four symphony orchestras of high rank, its brilliant opera, fine military bands, choral societies and other musical organizations, it may well lay claim to being the musical capital of America.

At its ninth annual Music Festival in Soldiers' Field, which seats 85,000 persons, the great stadium was filled to overflowing, many thousands being turned away, although the weather was extremely threatening.

The free concerts given each evening during the summer at Grant Park often attract audiences of 150,000 or more. Here the famous Chicago Symphony orchestra and others, besides the city's finest military bands, are heard in programs of the world's best music. This is only one of the many parks of the city where splendid concerts may be heard each summer evening.

During the winter there is a season of grand opera, featuring the world's greatest singers; many symphony concerts, and innumerable other concerts and recitals in which the most famous foreign and American artists are heard.

Really, Chicago should tell the world about these things, instead of permitting itself to be known most widely for its gangsters and shady politics.

Some Vice-Presidents

But few Americans, perhaps, would be able to tell off-hand how many vice-presidents of the United States afterward became president, and for the benefit of any who might be interested, we may recall that there were nine.

They were, in order, John Adams, Jefferson, Van Buren, Tyler, Fillmore, Johnson, Arthur, Theodore Roosevelt, and Coolidge. The first three were elected president after serving terms as vice-president, while the remaining six became president upon the death of the chief executive with whom they were elected.

John Adams served two terms as vice-president under President Washington, was elected president in 1796, but defeated for re-election in 1800 by his own vice-president, Thomas Jefferson. In fact, Adams ran third in the election of 1800, receiving 65 electoral votes, while Jefferson and Aaron Burr received 73 each. The election was thus thrown into the House of Representatives, and Jefferson was elected, Burr becoming vice-president under the system then in effect.

Martin Van Buren was vice-president during the second term of President Andrew Jackson, whom he succeeded to the presidency in 1837. Van Buren was defeated for re-election in 1840; defeated for nomination for president in 1844, and nominated but defeated in 1848.

Tyler, Fillmore, Johnson and Arthur merely served out the unexpired terms of their predecessors, although Fillmore tried for an additional term and failed.

Theodore Roosevelt and Calvin Coolidge were elected president in their own right after serving out the unexpired terms of their dead predecessors, McKinley and Harding.

Fewer Ship Sinkings

Although a spurt in submarine activities was reported recently, the general situation is greatly improved over that of a few months ago. While ship sinkings in American waters reached the peak of slightly more than 100 a month in May and June, losses in July were 68 and in August only 31.

This improvement is reflected in the recent action of marine insurance underwriters in substantially reducing the insurance rates, after months of steady increases.

No figures are available concerning the trend of submarine

sinkings in other than American waters, but it is said that it is also favorable. When strongly protected by naval convoys, losses have been comparatively light ever since the war began, and most losses have been suffered by vessels sailing singly without escorts.

It is not claimed that the submarine campaign has been beaten, or that it will ever be as long as the war lasts, but the destruction of submarines has increased while sinkings have dropped. This may have a decided effect on the morale of enemy submarine crews.

Activities of American submarines against Japanese ships have been successful to a degree which has not been recognized as widely as it is deserved. According to a recent statement by the Navy, 99 Japanese vessels of all classes have been sunk or damaged by our submarines, some of them in waters near the Japanese coast.

A considerable number of new United States submarines being added to our Navy will doubtless increase Japanese ship casualties from now on.

Sidelights

For years farmers have been annoyed with milkweed—but it now seems that this weed will shortly come into its own by saving the lives of aviators forced down at sea. It has been discovered that four pounds of the milkweed fibre in an aviator's coat would keep a 200-pound flier afloat for 48 hours. The fibre, warmer than wool and six times lighter, will replace kapok formerly obtained from Java.

Residents of Philadelphia knew that many girls were replacing men in various jobs because of their call to the service but when pretty, red headed, 17-year-old Jeanette Fanelli started delivering ice in homes in the southside section of the city, a lot of ice-man stories had to be changed. Jeanette took over the job vacated by her brother and became Philadelphia's first girl "ice-man." She'll tote 50 pounds into a customer's kitchen without a complaint.

A great portion of the fighting in this nasty mess we are in is carried on at night under the cover of darkness. And so it was with Clark Whitaker of Decatur, Ill. He was in the Far East with a Marine outfit, when suddenly twelve Japs swarmed upon him. He lashed out with fists and feet, striking all who came near. Shortly he had the upper hand and continued to hold his foe in check—until he was awakened by a sharp stab of pain, sat up in bed, rolled the cover back and found that he had broken a toe.

What You Buy With WAR BONDS

Essential in the equipment of every Soldier, Sailor, Marine or Flyer is a first aid kit, consisting of bandages and antiseptics for instantaneous use. These materials are packed into a compact box and cost about \$1.50 each.

We need millions of these first aid kits for emergency treatment. They are also used by Red Cross workers, in field hospitals and wherever needed until hospital treatment may be obtained. Even a child could buy one or more of these kits through purchase of War Stamps. Buy War Bonds and Stamps every pay day and invest at least ten percent of your income in these government securities.

U. S. Treasury Department

Prepare Now for V-I-C-T-O-R-Y AFTER VICTORY

The problem of changing from war work, after World War I, to peacetime production, plunged us into a long and grim depression.

Rural America felt this depression five years ahead of industry and business. We tried to warn labor and capital but they would not believe the warning and insisted the rainbow and the pot of gold at the end would last forever.

Finally, the bubble broke and the storm came. We had 12 million unemployed, the domestic market for farm production was gone, and even the smaller export market survived only when we loaned Europe the money to buy our products. Farm income was reduced, mortgages increased and many farmers lost their farms while industry, big and little, was at its wits' end to survive.

To Prevent a Worse Depression. Our problem is to prevent even a worse depression at the end of this war. Every industry, big and little, has been retooled to produce airplanes, tanks, cannon and weapons of war. Millions and millions of dollars have been spent for this purpose.

When this war is ended it will take the same millions of dollars to turn these industries back to peacetime production.

Lessons of World War I. We learned after World War I that our country cannot prosper unless agriculture prospers. We know now that our country cannot prosper unless agriculture, business and industry, and labor are all prosperous. Whatever our personal feeling may be, the fact remains that all of these groups taken together make up our domestic market which consumes over 90 per cent of our total production.

Labor can purchase its maximum of farm products if each worker has a permanent job at good wages. The employer can pay good wages if he has something useful to manufacture and some one has the desire and the money to buy it. Jobs at good wages depend upon an employer who is making the money necessary to pay the wages.

Farm Prices Reflect Good Business. This makes it plain that with employers and business busy in useful undertakings, with all workers employed at good wages, farm prices will be good and consumption at its maximum.

The key to the situation is that employers shall have the cash money at hand to change from war manufacture to peace-time activity with the least possible delay when this war ends.

Our United States Senate is searching for a plan that will produce maximum revenue to the government to insure victory; provide a fund at the end of the war big enough and quickly enough to convert business and industry from war work to peacetime necessity, but without the government having to borrow and lend the money for this purpose after the war is over.

Here Is a Simple, Practical Plan. For the solution of all these problems there is one simple plan of outstanding practical value, based on the idea that war profits from all companies, big and little, should be used for this purpose.

The tax rate on war profits is figured at about 90 per cent. Business and industry, big and little, would be permitted, however, to deduct from their taxable war profits 20 per cent of such profits, provided the deduction is used to purchase United States Recovery bonds.

Recovery bonds would be a special kind of bond for this purpose only. Recovery bonds could not be sold or borrowed upon during the war, and neither would they pay any interest. They must be held by the purchaser until the end of the war. The day the war is over these bonds would automatically start to bear interest, could be bought and sold, and become the same as any other government bond. The purchaser could sell them or borrow upon them to obtain the money to change his business and plant from war production to peacetime production when and as he needed money to do this job.

Profits for Peace-Time Recovery. In other words, business, big or little, would be required to contribute 20 per cent of its own war profits to provide the money to change its own plants back to peacetime production.

The fairness and equity of such a plan is perfectly plain. Each company, by using 20 per cent of its own war profits to buy Recovery bonds, builds its own backlog to bridge from war production to normal peacetime activities. Big companies and small companies will buy in proportion to their size and needs until the war is over. In the meantime, our government receives the maximum in revenue to produce for victory, and we, the people, have established security against the worst depression of all time.

With such a plan adopted and in operation, we can all give our maximum to the war effort, secure in the fact that when the war is over we can quickly and safely go back to the paths of peace. The necessity for such a plan is so apparent, the evils of depression so grim and widespread that we, the people, can well afford to take time out to support our senators and congressmen in this effort to bypass another depression.

REPUBLICANS INDEPENDENT VOTERS DISILLUSIONED DEMOCRATS

The Chicago Kelly-Nash machine bosses are hoping that you will not register and therefore not be able to vote for Senator C. WAYLAND BROOKS and his colleagues on the Republican Congressional, Legislative, State and County tickets.

It is their scheme to drive in enough machine-controlled votes in Chicago to offset what they hope will be a small Republican vote downstate due to a light registration.

ARE YOU GOING TO LET THEM GET AWAY WITH IT?

Register now in the County Clerk's office at the County Seat. Don't wait until the last day of registration in your home precinct—October 6th.

TO VOTE—BE SURE TO REGISTER

Buy War Savings Bonds and Stamps

**FARMER LOSES 3 WAYS FROM UNCLEAN SEPARATOR**

Separating cream by any other method than with a centrifugal separator results in the loss of from 10 to 20 per cent of the butterfat, the University of Kentucky College of Agriculture has found. This, together with the prospect of new separators and parts becoming increasingly hard to get, makes it imperative for every farmer fortunate enough to own one to do everything possible to prolong its usefulness. An effective simple way to do this is to keep it clean.

Acids of the milk, habitually left to dry on an unwashed separator, have a damaging effect on the surfaces of the several parts. So treated, a separator is sure to "act up" before very long. Curd particles or slime tend to clog the bowl, making efficient skimming impossible. A clogged bowl causes an excess of skim milk to be forced through the cream opening, which results in a low-testing cream. The same film of dirt on the separator serves as a splendid breeding place for mold and bacteria which contaminate the

succeeding batches of milk and cream, lowering their quality and depriving the farmer of the higher price the best grade of cream usually brings. There is always the chance, too, that if enough mold and bacteria find their way into the cream, the whole batch will be rejected as unfit and the farmer will realize not a dime for his time and work.

Good care means thorough washing and actual scalding after each use of all parts of the separator that come in contact with the milk or cream. The parts should also be rinsed again just before using—to remove any dust or dirt that may have collected on them since they were washed.

Many farmers find it profitable to check on the efficiency of the separator once a month by a test of the skim milk. If the skim milk contains an excess of two hundredths of one per cent butterfat, the care of the separator has not been all it should be.

**INDUSTRY AND BUSINESS AFTER THE WAR**

Every American knows that the manufacture of automobiles has ceased for the duration of the war. The great automobile industry which in 1940 produced and sold more than 3 1/2 million cars, has been re-tooled to produce airplanes, guns, tanks and munitions of war. Where will these companies get the money necessary to resume the manufacture of automobiles when the war is ended?

The automobile industry happens to be important, and there are thousands of smaller industries which will also face the same problem.

What will the millions of workers do when the demand for war machines stops?

What will happen to the domestic market for farm products when those millions of war workers no longer have jobs?

The stage seems set for an even worse depression after World War II than we suffered after World War I unless right now we start to plan about these surpluses.

It is comforting to learn that Congress is now considering some plan to prevent, or at least to ease, any after-the-war depression.

**War Profits for Peace-Time Recovery**

The best plan seems to contemplate the dedication of a portion of war profits for the purpose of providing industry with the ready cash on hand to quickly change to peacetime activity and thus lessen the shock to manufacturing and agricultural surpluses when the war is ended.

A Recovery Bond program has been suggested whereby each industry, big and little, will be required to invest at least 20 per cent of its war profits in Recovery Bonds which do not bear interest until the war is ended and which cannot be sold by the purchaser until peace is declared.

Such a plan would build, at the rate of almost a billion dollars a year, a huge recovery reserve to convert war industries to peace production, launch new products and maintain employment. It would place this reserve immediately and automatically in the hands of those businesses and industries with the greatest after-the-war needs.

The moment peace is declared the "time lock" automatically releases this recovery reserve, the bonds become negotiable and begin to draw interest. Purchasers holding them will then treat them like any other Government bonds, to be sold or used to borrow money. There would be no waiting for a post-war Congressional appropriation, no red tape, and no delay in launching the business and industry offensive that may turn threatened depression into untroubled prosperity.

The plan is simple, practical and fair.

During late years science and research have discovered many new uses for present major farm crops and many new crops which can be used in industry. A plan of this character places immediately in the hands of industry the resources which can be used to finance further research and to plan for the conversion of surplus crops, surplus factory buildings and the employment of war workers in new and useful enterprises whenever this war shall cease and normal peacetime industry, business and agriculture shall be resumed.

This problem deserves the thoughtful consideration of every American. If we can have the assurance of reasonable security in the after-the-war recovery period we can throw ourselves into an all-out effort to win the war and feel that by so doing we have secured "the blessings of liberty to ourselves and our posterity."

**TOOL USERS AND TOOL OWNERS**

In a recent advertisement signed by a well-known business concern, this statement appeared: "My boss has 14 Grand tied up in me."

What that slangy use of words meant was that the average employee in industry represents a capital investment—in property, plant, machinery and equipment—of \$14,000. In other words, labor has jobs only when some business man, or group of investors, puts up the money necessary for the creation of jobs.

It was well said recently, by a student of economics, that men in governmental authority too often forget that while the rights of workers are being considered, the owner of the tools used by workers must also have some consideration.

After this war is over, the plants now devoted to military needs must be re-converted to peacetime activity; must be re-tooled for the kind of production they were engaged in when it became necessary to tool up for war. Labor will expect peacetime jobs then, but somebody must provide the money for re-converting and re-tooling. That money cannot be forthcoming unless enough profits or capital can be stored up to meet such requirements.

**The First Job**

Americans are impatient people, says the Farm Journal. Impatience never won a war. Soundly planned action, backed by enough power, wins victories. The job now is not to remake America, but to save it.

**Do You Know Illinois?**

By Edward J. Hughes  
Secretary of State

Q. When and where was Nathaniel Pope born?

A. Jan. 5, 1784, at Louisville, Ky.

Q. Where did Pope receive his higher education?

A. Transylvania University, Lexington, Ky.

Q. Where did Pope go from Kentucky?

A. To the Louisiana Territory. He was there in March, 1804, when Meriwether Lewis took possession of Upper Louisiana for the United States.

Q. When did Pope enter into residence in the Illinois country?

A. April, 1809.

Q. How long previous to this had Pope practiced in the Kaskaskia courts?

A. Since 1807.

Q. How were lawyers' fees restricted at this time?

A. In civil actions where land titles were not in question an attorney was permitted to charge \$2.50; where titles were in question the fee was doubled. For verbal advice where suit was not pending \$1.25 was allowed; for written advice in a similar situation \$2.50 could be charged.

Q. Whom did Nathaniel Pope marry?

A. Lucretia Backus, a resident of Kaskaskia, born in New London, Conn., in 1787. They were married Dec. 13, 1808.

Q. What interesting Ste. Genevieve storekeeper's account of purchases by Pope at this time is extant?

A. 6 Pees Bobbin, 75; Water Pot 1.50; 1 Lot Glass, 11.50; 2 Framed Pictures, 1.12 1/2; 2 Salt Scellors, 3.50; 1/2 Doz. Split Botm Chairs, 3.50; 1 Lot of Tin Ware, 6.00; 4 Tumblers with handles, 2.00; 1 Flat Iron, 37 1/2; 1 Lot of Needles, .45; 1 Snuffer, 12 1/2.

Q. Under what Territorial Government was Illinois at the time Pope moved to Kaskaskia?

A. The act creating the Territory of Illinois had been passed Feb. 9, 1809.

Q. What position did Pope acquire under the new Territory?

A. He was appointed Secretary within a month after the creation of the Territory.

**Household Hints**

Boil root vegetables whole in their skin unless too strong or tough. Nature grew this jacket to hold in food value and flavor.

Stuff crumpled tissue paper inside a handbag, when putting it away for awhile. This will hold the bag in shape and make it last longer.

The easiest way to season a plain cooked hot vegetable is to add meat drippings or melted fat and salt and pepper to taste, just before ready to serve.

Dip a piece of cheesecloth in kerosene and rub it over painted furniture to remove film. Dry quickly with a clean cloth to take up excess kerosene.

Before putting on galoshes make sure there is no mud or dust on the shoes, otherwise the lining of the galoshes will be soiled and leave smudges on the shoes and stockings.

Make sandwiches in advance of the hour they are to be served, wrap them in a dry cloth or wax paper, then in a damp cloth and place in a tightly covered container. They will keep fresh for several hours.

Carrots, turnips, onions, often cook quicker if sliced or diced. Serve in their own juice, or if too much, use the surplus juice in soup, sauce or gravy to make the most of minerals, vitamins and flavor.

**Pointed Paragraphs**

**South American Colors Smart**

The South American way having captured the fancy of North American women, full skirts, big tropical prints and daring Peruvian and Brazilian peasant colors—tomato red, strong yellows and dark bluish greens—add pepper and spice to the Summer fashion diet of washables. A little sugar, too, if American Institute of Laundering recommendations for washing are followed!

Based on their tested recipes for washing colors and fabrics safely, the Laundry Institute recommends that tomato red never be washed with any other color except red, and strong yellows with no other colors except yellows. Dark bluish green, however, may be washed with dark browns, dark blues, purples, or dark greens without marring true color tones. And, because most of these colors are found in linen-like rayons, water definitely on the coolish side, no more than 70 degrees Fahrenheit, should be used for washing.

**Trailers—Jobs—War Bonds!**

The average income of families in trailer coaches at various war construction sites is well over \$250 a month—and average expenses are less than \$125! Most of the difference goes into war bonds.

**Unions 'Fully Protected'**

Labor unions "now have complete statutory protection from external attack," and "are more secure (under the law) than the church, than the political party, than any other private institution known to democracy," the Inland Steel Company argued in a recent War Labor Board case in which imposition of the closed shop in industry was in dispute.

**Methodist Schools Replan**

The 125 Methodist colleges and universities throughout the nation have revamped their schedules in order to provide students with the same high type of curriculum under the geared-up wartime programs, as has always characterized their institutions.

Department stores all over the country are reporting the best yard goods season in history.

**Local and Personal**

Mrs. Lettie Eckerty spent Thursday with friends at Hume.  
 The infant daughter of Mr. and Mrs. Thos. Tuttle died this Thursday morning.  
 Mrs. O. E. Gore and Miss Mildred Jones were Danville visitors Wednesday afternoon.  
 The Glen Taylors are parents of a son born this Thursday morning.  
 Oscar Gallion and his barber-shop quartet will sing at the basket dinner at the Pleasant Ridge church, this Sunday.  
 Frances Dohme, daughter of Mr. and Mrs. George Dohme has been in a Danville hospital the past three days for observation.

Mrs. Floyd Block and sons spent the latter part of last week at Lafayette, Ind. Mr. Block brought them home Sunday.  
 Mr. and Mrs. Adolph Anderson and daughter, Miss Jane, visited relatives at Indianapolis, Sunday.  
 Levi Hardyman and family, Mrs. Creyola Gilroy and Miss Mamie Darnall visited in the Joe Williford home in Danville, Sunday.  
 Mr. and Mrs. Harold Smith and children, Mr. and Mrs. Chas. A. Smith and Will Smith attended a six o'clock dinner in the home of the Claude Smiths in Danville, Sunday evening.  
 Mr. and Mrs. Orron Hardyman returned the latter part of last week after a two weeks visit with Mr. and Mrs. George Vermillion at Norfolk, Va. Mrs. Vermillion returned home with them. Mr. Vermillion is a commissary in the U. S. Navy.

**Long View News**

Rally day will be observed at the Christian Church Sunday. A basket dinner will be held at the Merton Parks home.  
 Lawrence Butler and family will move to Broadlands, where Mrs. Butler will have charge of the telephone switchboard.  
 Mrs. Mattie Risinger went to Champaign Saturday to visit her sister, Mrs. Mary Willis, before returning to her home at Princeton, Ind.  
 Mrs. Phil Eraci returned to her home in Chicago Thursday after visiting her brother, James Fitzgerald at Outlook sanatorium, and William Fitzgerald at Longview.

Guests in the Mrs. Maggie Smith home Sunday were her children, Russell Smith and family, Longview; Mr. and Mrs. Earl Smith, Braidewood; Henry Turner and family, Decatur; Gerald Gaines and family, Villa Grove.  
 Harry Devoogd, 25-year-old shoemaker of Boone, Iowa, is strong and healthy and full of patriotism, but Harry was turned down by the army because he has a club-foot. But, after an appeal to President Roosevelt, Harry is going to realize his ambition and serve his country as a soldier. Through a special order from the President, a special interview was arranged and on Wednesday Devoogd was inducted into the army. He will repair shoes while the others march.

Housewives can help in meat rationing by using more of the foods that are plentiful. Make meat go farther by serving more stews and hash. Have a cheese dish instead of porkchops, chicken instead of beefsteak.

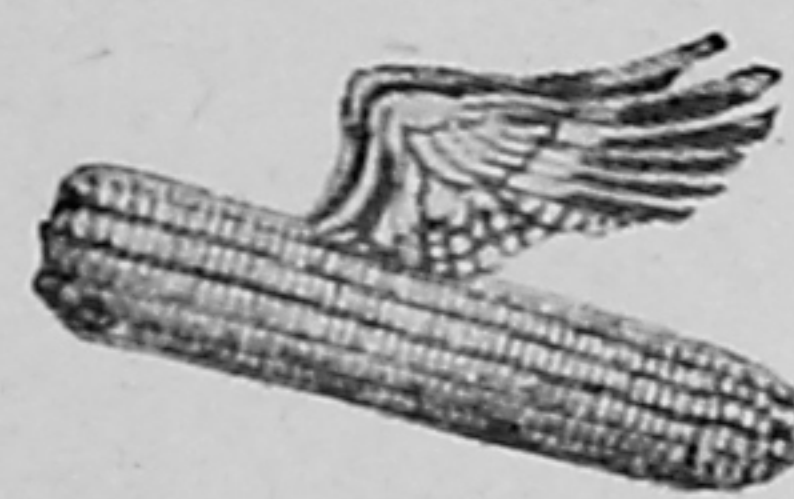

Is your subscription paid?

Apply turpentine with a fine brush to white marks made on the table by hot dishes. Household ammonia and water, half and half, may have the same effect but should be taken up immediately with a wet cloth to prevent the wood from softening.

Casey—It's an elegant time I had Saturday night, but the devil a bit of it I can remember after midnight.  
 O'Brien—How do you know you had a good time, then?  
 Casey—Sure, and I heard the officer telling the judge about it Monday morning.

Remember Pearl Harbor!

**What You Buy With WAR BONDS**

The Navy is making a plea to civilians to turn in their binoculars for military use during the War. The Army and Navy both need binoculars for navigation and scouting purposes. Depending on the power of the lenses, they cost from \$50 to \$80 each.

If you have a set of 6 x 30 up to 7 x 50-power lense binoculars loan them to the Army or Navy. If not, your purchase of War Bonds and Stamps will help buy this equipment for our fighting forces. At least ten percent of your income in War Bonds every payday will do the job . . . and provide the "eyes" through which a scouting pilot may spot an enemy battleship.
