American People Face Acid Test in Treasury's 2nd War Loan To Raise Groceries 13 Billion Dollars in Three Weeks The Nation Dare Not Fail in This Greatest Financing Task in History-"They Give Their and Meats Lives-You Lend Your Money." Washington, D. C.—Coming as it does upon the heels of in-come tax payments, the people of America will face an acid test this month when the Treasury's Second War Loan drive opens April 12 with an objective of thirteen billion dollars to be raised We will pay cash for cream. through sale of Government securities. A substantial part of this huge financing, the most stupendous ever undertaken by any government in the world's history, must ROY HURSI be loaned by people in ordinary walks of life. High Government officials have -(Successor to Earl Eckerty) battle fronts who are now carrying the offensive to the enemy at every stage. It is obvious to every thinking man and woman that as the United Insurance - Real Estate - Notary Public Nations take this offensive against the dictators, the cost of war opera-

-

tions increases in proportion. The American people must no longer think of war costs in terms of equipping a soldier, building a tank or plane or a ship. We must now think in terms of the cost of battles, invasions and new offensives. Attacking armies cost more money than equipping that army and we must meet that increased cost by buying more War Bonds and Second War Loan Securities.

pointed out that the nation must not | above what can be bought this year fail in this duty to our men on the because of restrictions and rationing . . . approximately 40 billions of dollars which should go into Government Bonds. It should be the objective of every

American to invest these loose dollars, idle dollars, in Government securities, not only from a patriotic standpoint, but from the standpoint of their own financial security.

They give their lives-Government Bonds, and over and You lend your money.

0

There is available during the Second War Loan a type of Security to fit every pocketbook.

#### Are Wild Dollars

Every dollar of these forty billions of dollars available, which is not invested in Government securities during this War Loan Drive is a "wild" dollar which, together with its mates, will tend to increase inflation. Uncontrolled inflation might

raise the cost of living to a point where the dollar is worthless. It can happen. It happened in Germany after the last war when the price of a loaf of bread cost more than an

annual wage. Invested in Government securities, your dollar will work for you. It will hold down inflation because it is harnessed in war work; it will help buy food, transportation, munitions for our boys on the front lines and And that is the theme of the Sec- it will be earning interest that, tocome back to you later to help you Financial experts who know mone- buy the things you cannot buy today

A steadily declining trend in the number of motor vehicles fatalities in Illinois and a marked increase in the proportion of deaths resulting from auto-train collisions is reported by the State Division of Highways.

During March there were 102 deaths on the highways, compared to 169 deaths in March last year, a decline of 40 per cent.

The growing proportion of deaths resulting from auto-train accidents is ascribed mainly to the fact that many more trains are being run these days to handle wartime business.

#### Placards to Be Awarded Farmers In Scrap Drive

-----

Placards designating all - out cooperation in the war effort will be awarded Illinois farmers who have contributed all available salvage to the spring scrap drive.

Lt. Gov. Hugh W. Cross, the chairman of the conservation committee, Illinois State Council of Defense, said a special drive for 167,000 tons of metal from farms, homes and small industries outside the Chicago metropolitan area is underway. The award which reads "All American Farmer -- My Scrap Iron and Waste Materials Have Gone To War" bears the state seal and the War Production Board emblem. The card is printed in red and blue ink on a white background. In addition to the signatures of county salvage chairmen, the names of Gov. Green, chairman of the state council of defense, Lt. Gov. Cross, and Ben Regan, WPB executive secretary for Illinois, appear on the placard.

IF we should lose the war, life would not be worth living.

"But we won't lose it," you may say.

Listen, brother—in this world nothing's sure, unless you make it so. Just think! Every extra bond you buy will help provide the weapons to save the lives of many American boys! Isn't that alone worth every effort, every economy you can make? You bet it is!

Place your news items in our mail box at foot of stairway. This month it's up to us here at home to do our part, and then some, to make Victory surer—and quicker! To do it, we've got to lend Uncle Sam 13 billion *extra* dollars.

It isn't easy—but war isn't easy and Victory isn't cheap. It takes money—and more money—to buy planes, ships, tanks, guns and a million other things our boys must have to deliver that final, paralyzing knockout punch.

And it's a whale of a lot easier for us at home to lend our money than for our boys to fight through the hardships and dangers of deserts, swamps, jungles, ice-fields and sub-infested seas! There are 7 types of U: S. Government securities to meet the needs of every purse. They offer the finest investment in the world —liberal interest, plus securities guaranteed by Uncle Sam himself.

A volunteer worker for the 2nd War Loan Drive may visit you soon. Welcome this unselfish patroit—and buy all the bonds you can. But don't wait for that call. Go today—to your bank, investment dealer, broker, post office or bond booth and invest to your uttermost limit. Even if it hurts, it's nothing compared to the agonizing impact of a bayonet thrust, a flesh-tearing torpedo fragment or a bone-crushing bullet. So dig deep, brother, and do it NOW!

There are 7 different types of U.S. Government securities - choose the ones best suited for you!

THEY GIVE THEIR LIVES ... YOU LEND YOUR MONEY!
