

## News Items of 12 Years Ago

July 17, 1931

A son was born to Mr. and Mrs. Chester Lookingbill.

Mrs. Whitehead of Springfield, Ohio, visited her daughter, Mrs. Albert Telling.

Mrs. Nettie Dial, Haven, Okla., was a guest in the John Bahlow home.

A severe hail storm visited the Longview vicinity, damaging much of the corn.

The Szilagyi Bears of Kelleyvill defeated the Broadlands Lincos on the local diamond, 5 to 2.

Postmaster G. W. Astell moved his postoffice equipment into the Block room across the street.

## 20 Years Ago

July 20, 1923

R. L. Bowman was a Charleston visitor.

Ross Hardyman entered the Presbyterian Sanitarium, Chicago, for treatment for diabetes.

G. W. Winters of Cayuga, Indiana, visited his daughter, Mrs. Sue Harden, and family.

Mrs. D. P. Brewer entertained twelve little folks at a party in honor of Carlos on his third birthday.

## Methodist Church Notes

Pike Reynolds, Pastor.

Sunday School—10:00.  
Morning Worship—11:00.

Reverend Larence Odom, who is a student at Garrett Biblical Institute, will be the guest speaker at the Methodist Church Sunday morning, at 11 o'clock. Mr. Odom is from Georgia. His father, Dr. E. J. Odom, is national director of evangelism in the A. M. E. Church.

## U. B. Church Notes

Dale Mumaw, Pastor.

Sunday School—10:00.  
Evening Worship—The Lord's Supper. A candlelight service at 8 o'clock.

The official board will meet for reorganization of the church on Tuesday evening, July 20, at 8:30.

## Ration Reminder

Sugar—Stamp No. 13 good for 5 lbs. through August 15. Coupons No. 15 and 16 are good through October 31 for 5 lbs. each for home canning purposes.  
Coffee—Stamp No. 21 is good through July 21.

Meats, etc.—Red stamps P and Q good through July 31. Red stamp R becomes valid July 11 and expires July 31.

Processed Foods—Blue stamps N, P, Q, valid from July 1 to August 7, inclusive.

Japanese get less than 4 per cent of their food energy from meat and animal products, as compared to between 30 and 40 per cent in Western Europe.

Wheat yield per acre in pre-war Europe was about 25 bushels, compared to about a 15-bushel average in the United States and Canada. But corn per acre was 50 per cent higher here than in Europe.

## Local and Personal

Place your news items in our mail box.

Marion and Frances Dohme left Saturday for a visit with relatives at Waukesha, Wis.

Mrs. Aliee Struck returned to Salem, Wednesday, after several days visit here with relatives.

Fred Wood, Sidney Times publisher, called at this office this Thursday morning.

Wm. Messman, Mr. and Mrs. Robert Smith visited relatives in Sadorus, Sunday.

Mrs. John Paul Rayl returned Wednesday from a few days visit with Miss Irene Smith near Homer.

Mr. and Mrs. Clark Henson and son Max were dinner guests of Mr. and Mrs. Giffin Robertson at St. Joseph, Sunday.

Paul Warner of Dearborn, Mich., visited relatives here over the weekend. He is still working for the Oldsmobile company.

The Howard Carters of Danville visited in the home of Mrs. Dophia Warner over the week end.

Corporal Oliver McCormick of Camp Wolters, Texas, was recently promoted to the rank of Sergeant.

Mrs. Ralph Schweineke, daughter, Roxie Lynne, and Mrs. Hannah Luth were Champaign visitors Tuesday.

Mr. and Mrs. Jonathan Gilroy left Saturday for New York. Jonathan, who is a seaman, will be in port there for three months and his wife will remain with him during that time.

Dr. and Mrs. Mike Bosch returned to their home at Cleveland, Ohio, Tuesday, after a week's visit with Andrew Bosch and family and other relatives here.

Vernon Luth is driving a new Oldsmobile. His Chevrolet was badly damaged in a collision recently and he could not get repairs for same; hence, the purchase of a new car.

Mrs. Woodrow Woolverton, daughter, Sandra, and Mrs. Orval McCormick returned Wednesday after a few days visit with relatives in South Bend and Mishawaka, Ind. The Woolvertons visited Mrs. Woolverton's parents at South Bend, while Mrs. McCormick visited her sisters, Mrs. Herbert Potts and Mrs. George Beebler at Mishawaka.

## Long View News

Mrs. J. C. Deere is visiting her daughter, Mrs. James Ashbrook, and son, Chicago.

Mrs. George Warnes was severely burned about the head and face last Saturday when the oven of her gas stove exploded.

Mr. and Mrs. Vernon Merry and daughter Barbara Jean, of Edwardsville, the Merton Parks family and Sandra Bolinger were guests of Mr. Merry's sister, Mrs. Davis Walker, and Mrs. Grace Parks last Sunday.

Guests of Mrs. Alice Hanley last Sunday were Betty Lou and Dennis Dyar, Milton Dyar, Alice May Hanley, and Mr. and Mrs. C. B. Hanley of Lovington. Mr. and Mrs. Clarence Dyar were there in the afternoon.

Mr. and Mrs. George Apgar had a letter, the first direct word since in April, from their son, George Roy, who was wounded in combat on the African battle front April 23. George, radio man on a bomber, states that he is again on duty with his crew, but is saving as a souvenir the bullet extracted from his wound.

On July 15, 1909, 16 women of Fairland community met at the home of Mrs. Ottie Kaiser, and formed the L. S. L. club, known far and near for their good times and neighborliness. On Thursday, July 8, the home of Mrs.

Ewin, Villa Grove, was the scene of the 34th anniversary of the founding of the club, when several members, ex-members, and daughters of members, and neighbors, met for a pot-luck luncheon.

Restricted use of automobiles prevented members from a great distance attending this year. A few of the "old timers" present were Mrs. Jennie Wise, Tuscola; Mrs. Ottie Kaiser, Homer; Mrs. Eulala Williams, Urbana; Mrs. Freda Maxwell, Broadlands; Mrs. Ada Koehn, Camargo; Mrs. Harley Cazal, Sidney; Mrs. Margaret Wegeng and Miss Etta Duncan, Villa Grove. Other guests were Mrs. Hopkins, A. C. Kaiser, Homer; Mrs. Alice Crain, Broadlands; Mrs. Ferne Knox, Mrs. Minnie Mathew, and Mrs. Lee Harshbarger, Villa Grove.

Letters were read from Miss Anna Watts, and Mesdames Dora Green, Martha Lloyd, Katherine Deere, and Lula Gillen.

Following a number of stunts and contests, several snapshots were taken.

Mrs. Eulala Williams invited the group to her home for the next anniversary.

## Betty Anderson Hired to Teach at Longview

Longview—Betty Anderson, Brookfield, Mo., has been employed to teach home economics in the Longview high school. She is a graduate of the Northeast Missouri State Teachers' college and has taught one year at Montgomery City, Mo.

With this exception, the faculty remains the same as it was last year.

## Lodge Meets Next Monday

Broadlands Lodge, No. 791, A. F. & A. M. will meet next Monday night at 7:30.

Elmer W. Mohr, W. M.  
Carl B. Dicks, Sec.

Harlan W. Six, school treasurer of Ayers township, places his annual financial statement in this issue.

Remember Pearl Harbor!

## Reception and Farewell For Ministers and Wives

The Young People's Fellowship group entertained at a hamburger fry Sunday evening, on the lawn at the Clark Henson home. The affair was in the nature of a reception for Rev. and Mrs. Pike Reynolds of the Methodist church, and a farewell for Rev. and Mrs. Robert Frey of St. John's church.

Besides the honored guests, there were about thirty-five young people present from the Methodist, United Brethren and St. John's churches.

Home made ice cream was also served during the evening.

## Mrs. Anna Laverick Hostess to W. C. T. U.

Mrs. Anna Laverick was hostess to the local unit of the W. C. T. U., Tuesday afternoon, with thirteen members and three guests present.

The meeting was opened with a prayer by Rev. D. D. Mumaw; Mrs. Laverick led the devotions; the pledge of allegiance to the flag was given; Rev. Mumaw gave a temperance talk; roll call was responded to with patriotic thoughts; group singing was led by Mrs. Gladys McClelland; and Mrs. Mumaw gave the closing prayer.

Guests present were Rev. and Mrs. Mumaw, and Mrs. Pike Reynolds.

## The Robert Freys Leave Monday For Massachusetts

Rev. Robert B. Frey preached his last sermon at the local St. John's church last Sunday. On Monday he and Mrs. Frey left for Cambridge, Mass., where Mr. Frey will receive his training at Harvard College as a chaplain in the U. S. Army.

Mr. and Mrs. Frey were very popular in this community, and their departure from our midst was a sad one, indeed.

We want your news items.

## New Methodist Pastor and Family in Parsonage

Rev. and Mrs. Pike Reynolds and two children arrived Saturday to occupy the Methodist parsonage. Mr. Reynolds, a student at Garrett Biblical Institute, conducted services here the two preceding Sundays, but his family who were still at Oklahoma City, Okla., came to Chicago the last of the week, and accompanied Mr. Reynolds here Saturday.

Since the Reynolds' lived in a furnished apartment in Oklahoma City, they were bringing no furniture with them. Being aware of this fact, several of the ladies of the church got busy and gathered up furniture and all those things which help to make a home comfortable and attractive, and had the parsonage all in readiness for the pastor and his family on their arrival.

People gave generously, and Mr. and Mrs. Reynolds are delighted with all that has been done for them. Much delicious food was also brought in.

## W. S. C. S. Meets With Mrs. Faustine Smith

The July meeting of the Woman's Society of Christian Service was held at the home of Mrs. Faustine Smith on Thursday afternoon of last week, with her mother, Mrs. Mattie Utterback, being assistant hostess.

The meeting was opened with the song, "My Country 'Tis of Thee," after which Mrs. Smith took charge of the devotions, using the subject, "World Brotherhood."

Mrs. Bertha Cook gave the educational topic, "Discovery and Training of Leaders in the Orient," and Mrs. Eva Brewer gave an interesting report on the conference. The Missionary topic, "Latin America," was read by Mrs. Gladys McClelland.

Mrs. Opal Scott of Springfield, Ohio, was a guest.

Members present were Mesdames Cora Chafin, Bertha Cook, Mary Dicks, Maude Anderson, Gladys McClelland, Nora Griffin, Helen Eckerty, Helen Ward, Leanna Miller, Eva Brewer, Pearl DeWitt, Ida Messman, Gladys Walker, Mattie Utterback, Faustine Smith, and Miss Mildred Neal.

The hostesses served cherry pie with whipped cream, and grape juice.

## Lloyd Cable, New C.&E.I. Agent Is In Charge Here

Lloyd Cable assumed his position as agent for the C. & E. I. Ry. Co. at the local station on Tuesday. Mr. Cable and family, who have been residing at Chicago Heights, moved to Broadlands, Thursday of last week, occupying the Snider property on the north side. Welcome to Broadlands—the best little town in the U. S.

"Mickey" McBride, who has been acting as agent here for the past two months, has returned to his home in Ridgeland.

## Market Report

Following are the prices offered for grain on Thursday in the local market:

No. 2 soy beans	\$1.66
No. 2 hard wheat	1.42
No. 2 white corn, new	1.13
No. 2 yellow corn, new	.98
No. 2 oats	.65

**Army Nearing Peak**

From the best information obtainable it now appears that the ultimate size of the United States Army may be somewhat less than heretofore estimated, although this is not yet certain. There are now about 7,068,000 men and officers in the Army, and it is said that the figure for the end of the year will be slightly less than eight million.

Two factors indicate some reduction in the size of the Army—the important part being played by the air forces, and the smaller number of casualties than expected in the combat so far. Total casualties in killed, wounded and captured up to the end of June were less than one per cent for the Army and about one per cent for the Navy.

But while the Army may be a little smaller than was formerly estimated, the Navy may be considerably larger than originally planned. At present the Navy, including the Marines and Coast Guard, has more than two million men, and will probably reach close to three million next year. A larger proportion of both Army and Navy will be in the Air Forces than was contemplated a few months ago.

If and when an invasion of Europe occurs, casualties are bound to be very heavy, and the one per cent of losses already suffered will seem insignificant in comparison.

While there is always the possibility of a crack-up on the German or Italian home front, Allied military strategists are not counting on it, but are thoroughly preparing for long and hard fighting ahead.

**The Rise of Aluminum**

Aluminum has had an eventful existence during the comparatively short period in which it has been produced commercially, and its present indispensable place in industry is due largely to its use in airplane construction.

While aluminum is the most common metallic element found in the earth's crust, it is never found in its native state as pure metal, but is derived from bauxite, named for a deposit found at Baux, France.

Experiments in the extraction and refining of aluminum date back to about the year 1825, but its production was insignificant until an American, Charles Martin Hall, then only 22 years old, discovered the electrolytic method of production in 1886. By an odd coincidence, a young Frenchman of the same age, Paul Heroult, made the same discovery working independently about the same time.

Aluminum sold for \$8 a pound in 1886, but within five years after Hall's discovery it dropped to \$1, and is now quoted at 15 cents a pound.

Plant capacity for aluminum production in the United States will reach more than two billion pounds annually this year, or about seven times that of 1938.

Prior to 1941 the Aluminum Company of America was the only producer of the metal in this country, but since then the Reynolds Metals Company has developed an enormous productive capacity, which is greater than that of England and France

combined in 1939.

There is no doubt that there will be a temporary drop in the demand for aluminum when the war production of airplanes is over, but it is also true that the knowledge and experience gained concerning the possibilities of the metal will be carried over to many peace-time industries.

**Strength Not Weakness**

(Christian Science Monitor)

One of the things for which the United Nations are fighting is the dignity of human life. Firing squads and mass executions may be trifles in the totalitarian States; but they are not commonplace in the democracies.

President Roosevelt's commutation of the death sentence of Max Stephan is tangible evidence that the processes of justice and consideration are accorded even the lowliest traitor by the highest authorities in the United States. This commutation is not likely to be regarded as a sign of weakness by the peoples under tyrants' heels in Europe and Asia, but rather, as an indication of strength and balance. What hope this act of mercy must give those people of the saner, kinder world that will come to them with victory of the United Nations!

President Roosevelt's assessment of the degrees or qualities of treason is accurate. The eight submarine saboteurs, six of whom were executed, were members of the German armed forces and came to America's shores with long-planned plots for sabotage and espionage.

Stephan apparently was just an emotional pawn in the hands of a German pilot who escaped to Detroit from a Canadian prison camp. Stephan acted without premeditation. Although his disservice to the United States was quite serious, life imprisonment seems sufficient punishment to fit his crime.

**Sidelights**

What could be more natural than for a mess sergeant to appreciate the qualities of a cook. Such was the case with S. Sgt. Willis C. Tomlinson, 33, of Wichita, Kan., who recently married Alice J. McFarland, 22, of Independence, La., the WAAC cook, at Santa Ana, Calif. It is reported that they'll make their "kitchen" in Santa Ana.

All of us have looked forward to the time when we would be able to own a 16-cylinder car. Now it appears that after the war we may have the opportunity to gratify that longing. Henry J. Kaiser, the Pacific Coast ship-builder, announces that he will build such a car and sell it for just \$400. They will be distributed by every filling station, he says.

The U. S. S. Rhodes, a destroyer, named for Lt. Allison P. Rhodes, of Walhalla, S. C., who was killed in the Solomons, was launched at Houston, Tex., recently, with christening ceremonies being conducted in sign language. Mrs. C. E. Rhodes, a deaf mute, mother of Lieutenant Rhodes, christened the ship and the entire ceremonies surrounding the event were carried with the use of this means of communication. It is reported as the first such christening of a ship in all history.

The highest paid private in the U. S. Army winds up each month the same as we—that is, broke. Pvt. Cyril G. Wolfe has 12 dependents—his wife, mother and 10 children—and as a result draws . . . but that's the story. His pay envelope each pay day contains just \$8.85 instead of the \$203.50 monthly pay he makes as the "Army's highest paid private." The difference in the amounts goes home to the wife to care for his rather large flock.

The War Department calculates that Private Wolfe receives annual pay of \$4,000, taking into consideration such items as his meals, quarters and clothing.

George Douglas, superintendent of New Orleans' Audubon Park, had much to explain recently when charged with allowing his assistants to exercise the lions from the zoo on the front lawns of sleeping citizens. One lady went so far as to insist that she saw lions padding across her yard. Superintendent Douglas explained that the noises heard were the healthy yawns of the lions in their summer cages. He said that the lions also yawned in the winter but locked in their winter cages they could not be heard as plainly and therefore seemed farther away. Also, when charged that the lions were hungry and were crying for food, he said: "They get only the most beautiful looking mule meat—every day," and sighed wistfully.

The most "dead" man in the entire country has just joined the Army for a crack at the Japs and the Germans. Earl Cummins, a 22-year-old Shawnee, Okla., youth, has been reported dead three times and was buried once. First reported dead in the New London, Tex., school disaster in 1937, he was alive enough to help 24 fellow students to safety after the explosion. Next, a man was killed by a freight train after Cummins had loaned him some clothes. Identified as Cummins from the clothing, the man was buried by the family—but Cummins was in Salt Lake City at the time. Returning from Salt Lake City by motorcycle, Cummins was delayed several days and again word got out that Cummins was dead. Cummins hopes to continue to defy death now that he's in the army.

**Do You Know Illinois?**

By Edward J. Hughes  
Secretary of State

Q. Who made the first survey of Peoria, Ill.?

A. William S. Hamilton, son of Alexander Hamilton, first Secretary of the United States Treasury. The survey was made in 1825.

Q. How did the younger Hamilton come to Illinois?

A. He was made assistant to the U. S. Surveyor General in St. Louis, and later assigned to duty at Springfield, Illinois.

Q. In what official State capacity did Hamilton serve Illinois?

A. He was elected to the General Assembly in 1824.

Q. To what honored errand did Governor Coles appoint Hamilton in 1825?

A. He was selected to meet the Marquis de La Fayette at St. Louis and conduct him to Kaskaskia. He acted as interpreter to La Fayette in 1825 as his father, Alexander, had in Revolutionary days.

Q. Is iron mined in Illinois today?

A. No, Illinois ranks high among the states in the production of pig iron, but the ore originates in the Lake Superior region.

Q. Has iron ore ever been mined in Illinois?

A. Yes, in the northwest section of Hardin County.

Q. What was the "Illinois Furnace"?

A. A blast furnace on Big Creek and Hogthief Creek, ten miles north of Rosiclare, Ill.

Q. How long was the "Illinois Furnace" in operation?

A. From 1839 until 1883, aside from idle intervals during and after the Civil War.

Q. Why did the smelting of local ore in Illinois cease in 1883?

A. The opening of rich deposits in the Lake Superior region had made the smelting of local ore unprofitable.

Q. What other furnace for

the smelting of iron was there in Hardin County?

A. The "Martha Furnace," 2½ miles east and north of the "Illinois Furnace." This was built in 1848 and operated until 1857.

**Univ. of Illinois Plant Is Valued At \$43,128,838**

Students and research workers at the University of Illinois have the use of a plant and equipment valued at \$43,128,838, according to the annual report of Comptroller Lloyd Morey.

Of this total, property worth \$41,635,132 is owned by the university, and the balance involves mortgages given by the University of Illinois Foundation on the new Illini Union building, Men's Residence halls, and other non-educational properties.

During the past year the value of this plant increased \$4,853,248. The major part of this increase resulted from the transfer to the University of the Research and Educational hospitals in Chicago and the Natural Resources building at Urbana. These were transferred to the University from other state departments.

The University's educational and general income during the year ending last June 30 was \$10,290,413, while the educational and general expenditures were \$9,864,498.

Of the income, state tax revenues provided 65.8 per cent or \$6,772,128; Federal government grants, chiefly for agricultural extension and research, 10.8 per cent or \$1,109,771; student fees, 13.5 per cent, or \$1,366,380; private gifts and income from endowments, 5.3 per cent or \$542,523; and miscellaneous income including earnings of educational departments, 4.8 per cent or \$499,611.

**Acid Indigestion**  
Relieved in 5 minutes or double your money back  
When excess stomach acid causes painful, suffocating gas, sour stomach and heartburn, doctors usually prescribe the fastest-acting medicines known for symptomatic relief—medicines like those in Bell's Tablets. No laxative. Bell's brings comfort in a jiffy or double your money back on return of bottle to us. 25c at all druggists.

**ITCH CHECKED**  
-or- Money Back  
For quick relief from itching caused by eczema, athlete's foot, scabies, pimples and other itching conditions, use pure, cooling, medicated, liquid D. D. D. PRESCRIPTION. A doctor's formula. Greaseless and stainless. Soothes, comforts and quickly calms intense itching. See trial bottle proves it, or money back. Don't suffer. Ask your druggist today for D. D. D. PRESCRIPTION.

**Don't Gamble** Guard Against Trouble from Minor Injuries—  
**Cuts, Scratches, Burns**  
Be wise. Guard against infections which may "lay you up." Cleanse wound instantly. Then apply effective, inhibitory antiseptic OIL-O-SOL. Used for over 40 years in thousands of factories, garages, industrial first aid stations, fire departments and homes. Pleasant to use. Combats infection; quickly helps relieve pain. Only 50c at your druggist's. Must satisfy you or your money back. Get **Mosso's OIL-O-SOL** today.

**ECZEMA**  
EASE THAT ITCH SUCCESSFULLY!  
Don't bear the torments of eczema another day. Do as thousands of happy people have—use Poslam for quick, dependable relief. At night, when itching is worst, use application of this CONCENTRATED OINTMENT brings soothing comfort and lets you sleep. 18,000,000 packages sold during 35 years show it must be good. Recommended by your doctor. Sold from coast to coast. Only 50c at all druggists.

**POS LAM**

**If You Suffer From CONSTIPATION!**  
Try This Famous British Medicinal Salts Now Being Made in U.S.A.  
In a glass of hot water put one teaspoonful of Kruschen Salts and drink about half an hour before breakfast. In 15 to 20 minutes later follow with your usual breakfast cup of hot coffee or tea. Usually within thirty minutes you get prompt and effective relief and should begin to feel bright and refreshed again. Be sure to follow the simple easy directions.  
Now keep this up for 5 straight days—just see if you too don't discover why thousands have found hot water and Kruschen Salts so beneficial in relieving that dull constricted "out-of-sorts" headachy feeling. Get Kruschen Salts today—at all drug stores.

**Mix Lemon Juice AT HOME TO RELIEVE RHEUMATIC PAINS**  
Money Back—If This Recipe Fails  
Good news travels fast—many of the thousands of folks who now take lemon juice for rheumatic pain—have found that by adding two tablespoons of Allenru to one tablespoonful of Lemon Juice in a glass of water, they get faster relief for the aches and pains caused by rheumatism, lumbago. It's no surprise either, for Allenru is a 15 year old formula to relieve rheumatic aches and pains. In fact—if it does not help—your money back. What could be fairer? Get Allenru today at any live druggist. Only 45 cents—Do it Now.

**NEW! "BACTERIOSTATIC" FEMININE HYGIENE**  
Gaining Great Favor With Women!  
Many doctors urge the regular use of douches for women who want to be refreshingly clean—for women troubled by offending odor, itching or discharge.  
Some products may be harmful germicides which burn, harden and damage sensitive tissues. But NOT Lydia E. Pinkham's Sanative Wash! Instead—Pinkham's Sanative Wash is an effective "bacteriostatic" (the modern trend).  
It not only discourages bacterial growth and infection but cleanses, deodorizes, relieves minor irritations and discharge. Has beneficial effect on delicate membranes. Inexpensive!

**A BEST KNOWN MEDICINE**  
made especially to relieve 'PERIODIC'  
**FEMALE PAIN**  
And Its Weak, Cranky, Nervous Feelings—  
Take heed if you, like so many women and girls, have any or all of these symptoms: Do you on such days suffer cramps, headaches, backache, weak, nervous feelings, distress of "irregularities"—due to functional monthly disturbances? Then start at once—try Lydia E. Pinkham's Vegetable Compound.  
Pinkham's Compound is so helpful to relieve such distress because of its soothing effect on one of woman's most important organs. Taken regularly thruout the month—it helps build up resistance against such symptoms. Thousands upon thousands of women report benefit! There are no harmful opiates in Pinkham's Compound—it contains nature's own roots and herbs (fortified with Vitamin B). Also a fine stomachic tonic! Follow label directions. Worth trying!  
**Lydia E. Pinkham's VEGETABLE COMPOUND**

When you want better than ordinary printing—the kind that satisfies, and you want it to cost you no more than necessary --- and you want it to impress all those who see it, and to bring the desired results---come to The News Office.

**Good Horses**

By VIC YARDMAN  
Associated Newspapers.  
WNU Features.

JIG HAYDEN rubbed his hands and smiled in greedy satisfaction when Joe Ware, owner and manager of the Welcome U dude ranch, explained about the lack of cars.

"We've found that most people," Joe was explaining to the Severances, "like the idea of getting away from the new fangled gadgets of civilization when they come out here. The Welcome U allus has got along without automobiles."

"It's O. K.," Andrew Severance mumbled, "as long as things run along smoothly."

"We got horses," the ranch owner said laconically. "An' they're danged good horses, too. Then, once every other day the beach wagon comes up from Thunderbolt."

But when the beach wagon returned to the Welcome U two days later Andrew Severance wasn't even on hand to witness its arrival and departure. He was off in the hills riding, accompanied by a cowboy named Slim North. The broker had, as Joe Ware knew he would, forgotten about his being isolated and the fact that his Wall Street office might need his attention.

Everything would have turned out fine and Joe would have chalked up another pair of satisfied customers to the long list of guests who had vacationed at the Welcome U—if it hadn't been for Jig Hayden.

Jig Hayden had come to the Welcome U because the Severances had come. But no one knew that. Every-one thought he was a school teacher on vacation. No one would have guessed that Jig Hayden had schemed and thought and dreamed

Five minutes later Mrs. Severance discovered the loss of the pearls, and announced it in hysterical tones.

for two years about the pearl necklace that Mrs. Severance carried in her box of jewelry, and which at dinner sometimes she wore even here at the ranch because her husband admired it so.

He did not make the mistake of being too eager. He waited a week. Then, on the eighth day following his advent, while the Severances were off riding in the hills, Jig casually entered their room, removed the necklace from its box and, ten minutes later, was seated beside the driver of the beach wagon as it headed back to town.

He laughed to himself as the car bumped over the rutted road. Joe Ware had seemed surprised at his sudden departure, but he couldn't do anything about it. And now they were safely away. There were no cars at the ranch, therefore no chance of being overtaken. No telephone either to warn the sheriff at Thunderbolt.

A half hour after the beach wagon had departed the Severances returned from their ride. Five minutes later Mrs. Severance discovered the loss of her pearls and announced it to her husband and the rest of the ranch in wild and hysterical tones. Andrew Severance cursed and swore and remembered how helpless they were out here, but Joe Ware only looked grim and called Slim North and issued curt orders.

The beach wagon mounted the last slope before descending into the town. Far to the right Jig Hayden perceived a thread of smoke. The train! His heart leaped.

He felt suddenly like whistling; had, in fact, puckered his lips to do so. Two horsemen suddenly emerged from the brush beside the road. Each held a gun. Jig Hayden's face whitened. He blinked. The horsemen were Joe Ware and Slim North. Jig hesitated only for a fraction of a second, then snarled his rage and reached inside his coat. His fingers closed about the automatic in its shoulder holster—and unclosed. A gasp escaped his lips. Slowly he slumped forward, and would have pitched to the ground but for the supporting arm of the driver.

Joe Ware, smoking gun still in hand, rode up close, smiling thinly, contemptuously.

"You see," Joe Ware explained to Andrew Severance later, "we have good horses at the Welcome U. And horses out here are much more important than new fangled gadgets like automobiles. They ain't bothered by such things as sage and cactus and mesquite and outcroppings. It's only ten miles to the station by horse, thirty if you follow around the road where the automobiles hafta go."

**Quiet and Shy**

By MEREDITH SCHOLL  
Associated Newspapers.  
WNU Features.

WHEN there are two men and a girl involved there is bound to be trouble. Especially when the girl is as good looking as Simone Mill.

She had reddish hair and greenish eyes, and she liked sports. We invited her to spend a couple of weeks with us at camp, not knowing, of course, that Val Marcus was going to surprise us with a visit. We hadn't planned on Val. In fact, we had hoped that Simone and Neil Spangler, who painted pictures for a living and owned the camp across the cove where he lived with motherly Mrs. Nesbit, his housekeeper, would find a good deal of interest in each other.

Simone, who had been used to the big strong athletic type, liked him. They got along fine. Then Val arrived, and we decided she had been only marking time with Neil until somebody more like herself came along.

I'd met Val out west the summer before and asked him to drop in and see us if he ever came east. He was too handsome for his own good. More, he had that natural, instinctive co-ordination between brain and muscles that makes good athletes.

The first few days Val was with us Simone didn't see Neil. That made me feel bad. I know Neil and I know Val. The latter is too loud, too sure of himself, too boastful. In the final analysis he wouldn't be able to give a girl as much as Neil.

"You dope," I told him the day I walked over and found him sitting on his front porch brooding, "if you love the girl, why don't you do something about it? You do love her, don't you?"

He smiled without rancor. "Yes," he said. "She's the first girl I've ever really loved."

"That's dandy!" I told him sarcastically. "So you love the lass and you're willing to sit here like a bump on a log and watch a windbag like Val Marcus walk off with her."

"There isn't anything I can do," he told me patiently. "She's had a week to find out what I'm like. It's only fair that she has a week to find out what Val's like. Then she'll have to make her own decision."

"Well, I'll be —!" I stalked back through the woods. Simone and Val had gone swimming. Mary, my wife, was alone on the porch. "That dubber!" I told her. "Sitting there as calm as you please and letting this guy with the movie actor profile sell his girl the idea what a wonder he is." I told her what Neil had said.

Mary smiled. Curiously, there is a similarity about Mary and Neil. They are both quiet and shy, yet they both seem to get what they want.

"I wouldn't worry about Neil," she said. "Neil's smart."

That may be all right. I could agree with her that Neil was smart. But so was Val Marcus. Besides being smart Val was good looking and smooth.

In the week that followed Mary had Neil over to dinner almost every night, and seeing him again had its effect on Simone. After all, there was definitely something about Neil that had an appeal. You could see that half the time she was undecided and worried and unhappy. Val could see it, too, and he apparently worked on the premise that the less Simone was exposed to Neil the better his chances would be. So after dinner he always suggested a swim, or canoeing in the moonlight or climbing a mountain or something; things at which he was good. Neil, the dope, never made any objections. Half the time, though Simone urged him; he didn't accompany them. It made me disgusted.

In fact, I was about ready to admit that Neil didn't, after all, have the stuff I thought he had. Then one night just before dinner he came by in his outboard and asked Val to go fishing. He knew, he said, where there was a big one they could knock onto before time to eat.

Val couldn't very well refuse. Simone and Mary and I sat on the porch and watched them put across the lake. Neil headed directly for the opposite shore and when they were about half a mile out he cut his motor. It was a still, clear evening, so still that you could hear very small sounds out on the lake. You could hear the rattle of things in the boat. You could hear the sound of voices.

Dusk had come. We three sat very still. We could hear Val's boastful tone. "Say, women are all alike. Why, in college I had a dozen of 'em chasing after me." We could hear Neil's voice. It was low and indistinguishable. Then Val again: "The thing to do is be smart. Forget the marriage stuff. Make 'em love you. That's where the percentage is. Now you take Simone—" Just then Mary rattled a newspaper. I coughed. Simone got up and went quickly into the house.

I saw Neil alone two days later. Val had gone home, angry and puzzled. "Congratulations, Neil. Simone told us the good news. Bet you'll be happy together." I paused. "Don't mind saying I thought you'd lost your grip there for awhile."

He grinned, that slow, shy grin. "Confidentially, I don't mind telling you I thought we never would get a clear, quiet evening."

**Smile Awhile**

Idleness is many gathered miseries in one name.

The way to climb high is to remain on the level.

An old man in his second childhood is no more foolish than the young man in his first babyhood.

Steno—Howja spell "sense?"  
Boss—Dollars and cents or horse sense?

Steno—Well, like in, "I ain't seen him 'sense."

Friend—I understand your wife came from a fine old family.

Bridegroom—Came is hardly the word for it. She brought it with her.

My husband plays tennis, swims and goes in for physical exercise. Does your husband take any regular exercise?

He most certainly does. Why only last week he was out seven nights running.

Jimmy, age 6, the youngest of eleven children, was taken to the hospital to see his father who was quite ill. Jimmy was quiet, almost reverent, until time came for him to leave. Then he tipped up to the bedside and whispered in his father's ear:

"Kin I see the baby now?"

**Time Tables**

C. & E. I.

Northbound	12:48 a. m.
Southbound	1:19 p. m.
Star Mail Route	
Southbound	6:40 a. m.
Northbound	4:30 a. m.

Figure It Out Yourself. How can you effectively join in saving all the little children of the world from human slavery, death and injury from the Nazis and Japanese? Put more and more of your pay into war bonds every payday. Your savings will go to war in the form of war equipment and other munitions. How much more should you put into war bonds? The only ones who can answer that are—you and your family. It's up to you to decide just how much more you'll do to win the war.

If you were fighting in the Solomons or in Africa or forcing a landing in Europe you'd like to feel that the folks at home were back of you—all the way—you'd be proud of your family and your friends if you knew they were buying war bonds not at 10 per cent or 15 per cent, but with every cent beyond that which they need for necessities.

U. S. Treasury Department

**What You Buy With WAR BONDS**

Frequently the Navy, the Coast Guard and the Signal Corps finds it expedient to relay messages without benefit of telephone, telegraph or radio. That is when the semaphore system is employed.

Like a single flag in the "Wig-wag" system, the purchase of a War Savings Stamp or Bond, in itself has an infinitesimal effect upon the entire war effort, but when 130 million determined people set their minds to make our War Bond drives successful, the result is anything but infinitesimal.

U. S. Treasury Department

**Keep Vitamins In Home-Canned Tomatoes**

The tomato rates respect because it is chockful of vitamins (A and C), those invisible spark plugs that keep one feeling fit.

Because tomatoes are an important food, it is imperative that every one not needed for immediate use be saved by canning, but they must be canned right, else there will be

Photo Courtesy Ball Bros. Co.

little or no vitamin C left in them. Undue exposure to air after the skins are removed and over-cooking in an uncovered container destroy vitamin C. This is one reason that tomatoes should be prepared and canned as quickly as possible. Usually whole tomatoes have more food value than tomato juice, partly because a considerable amount of vitamin A is lost in the pulp that fails to go through the strainer when the juice is made, but mainly because greater exposure to air destroys vitamin C.

If you want first-class canned tomatoes, use freshly gathered, firm-ripe, sound fruit—one small bad spot can ruin a whole batch. Wash the tomatoes before scalding; scald a few at a time. Remove all core, slip off the skins, and cut away green spots. Pack the tomatoes tight into clean hot jars—this is best done by pressing each tomato down with a wooden spoon. Add salt to season to suit your taste—the usual amount is one teaspoon to the quart. Seal jars according to manufacturer's instructions and process 35 minutes in hot water bath. If tomatoes are not fresh from the garden, process 45 minutes.

No juice can be better than the fruit from which it is made, so be sure to use strictly fresh, firm-ripe, red tomatoes, which are free from all decay. Wash well and cut away any green spots or weather cracks. Weather cracks are those splits that form around the stem ends when hot sunshine follows a hard rain. Such tomatoes are unfit for canning or juice unless used immediately after picking. Leave the tomatoes whole and steam or bake them until they are soft; then press through a fine sieve, preferably a cone-shaped one; reheat the juice to simmering; pour into sterilized jars and process 30 minutes at simmering. The pulp will separate from the juice unless a very fine sieve is used or if too much heat is applied at any time. Oh, so you boil the juice in an open kettle until it is thick? Well, that's a fine way to get rid of most of those precious vitamins.

The best tasting juice is that made by pressing whole home canned tomatoes through a sieve just before serving. Any seasonings liked may be added before canning but the juice will be better if seasonings, except salt, are added when the juice is opened for serving, and even the salt may be left out.
