"America's largest Christmas party" in 1944 is being sponsored by church women of all major Protestant churches of the United States, and will provide Yuletide cheer for the families of Japanese and Japanese Americans now confined to some eight relocation centers in the western states - groups moved by the Army from the Pacific coast. The Home Missions Council of North America is leading in the movement which is now in its third year. There are about 65,-000 evacuees in the centers, according to government figures, and most of them are children and other innocent victims of the war.

Republicans Urged To Vote for LUCAS

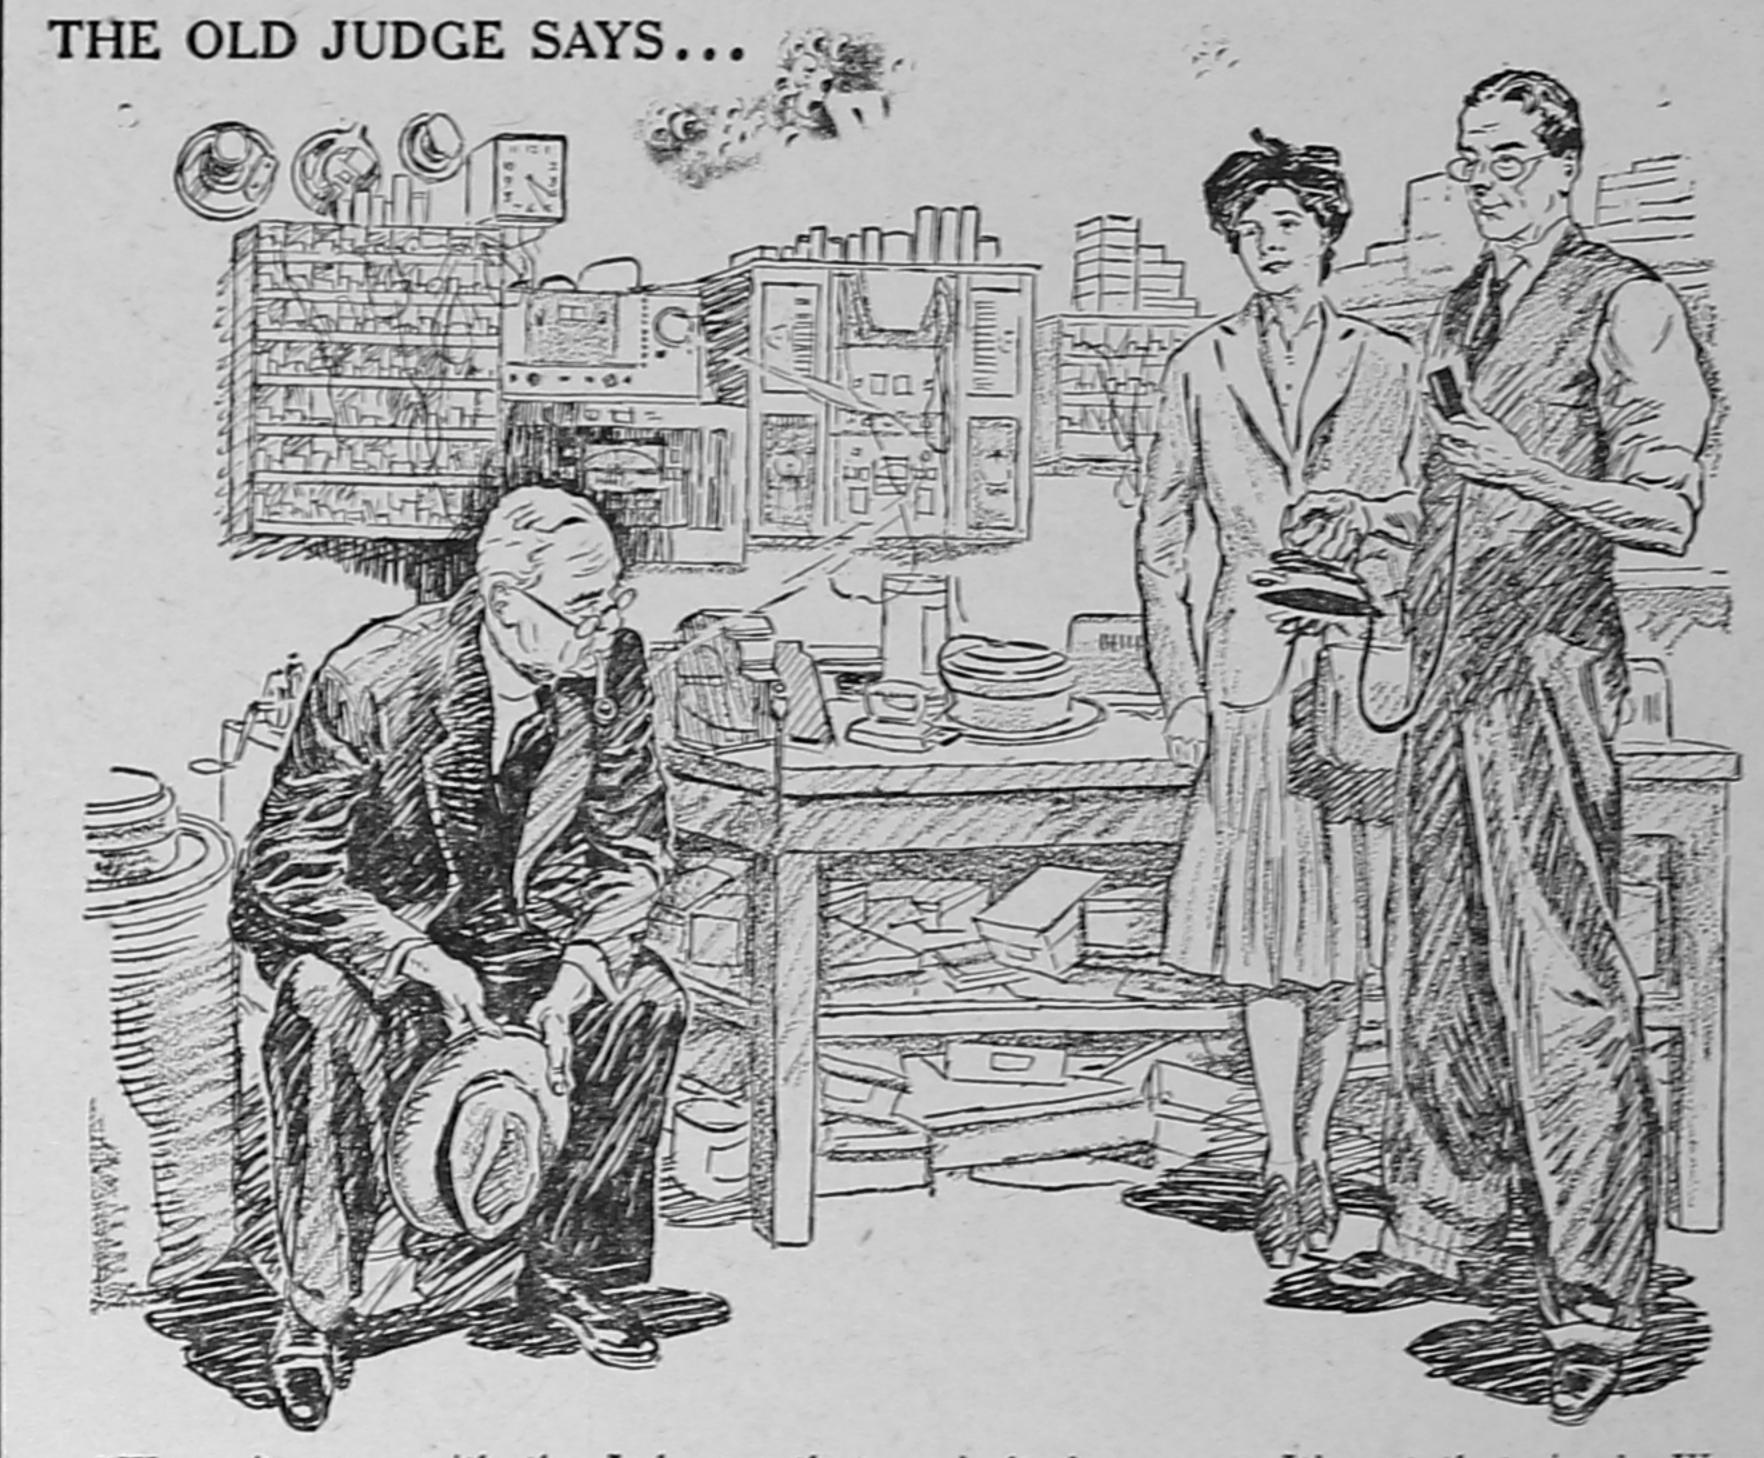

From the Pekin Daily Times: "Every Illinoisan knows that Senator Scott W. Lucas is all out, 100 percent, unqualifiedly and unwaveringly

for world peace. Because of this the Times expects to reason with its Republican readers; and in the name of their sons who have died, or of those sons for whom they have present desperate fears, the Times expects to ask Republicans this year to put the fate of the world above politics, and vote this fall for Scott W. LUCAS."

- From the Chicago Daily News (a Republican paper:) "As a man, on the issues, on his record of courage and independence, we support Scott W. Lucas."

"We can't argue with the Judge on that point, can we Mabel? It's not fair to penalize the many for the actions of the few."

"That, folks, is exactly what we would be doing in this country if we ever voted for prohibition again. Authorities who have made a careful study of the problem, report that only about 5% of those who drink abuse the privilege occasionally... 95% drink sensibly. Probably doesn't compare with the number of folks who overeat and do other things to excess. Prohibition certainly

isn't the answer. It's not that simple. We had nearly 14 years proof of that, didn't we?

"The real answer is education and better control. In fact, the responsible members of the distilling industry are working constantly toward that end. They don't want anybody to abuse the use of their product any more than the three of us do."

"If everybody would take that sensible attitude, Judge, and cooperate as more and more are now doing, we'd be a lot better off a lot quicker."

Penelope was very wise-wise to keep working and never, never to give up. I shall try to be more like her, Tom. . . . "

The radio music stopped. There was utter silence until a young voice called from upstairs, "Mummy! Did the lady's husband come back?"

"Yes," Dorothy answered, "after a long time Ulysses came home. Now go to sleep, darlings. Good night."

She listened to their muffled responses. "Yes, Ulysses came home," she repeated to herself.

Glancing at Tom's picture again she suddenly, happily, matched his reassuring smile with her own.

Sulphuric Acid

In peacetime the largest share of the sulphuric acid used in the United States is consumed in the fertilizer industry. It serves to break

down insoluble phosphate rock, converting it into superphosphate of lime which dissolves easily in the soil and can then be drunk up as food by plant roots. The second largest amount is used

in petroleum refining, where helps to tear the complex oil to pieces.
