A PEOPLE DELIVERED

LESSON TEXT-Exodus 6:6-8; 13:17-22. GOLDEN TEXT-I will trust, and not be Display Per Column Inch.. fraid; for the Lord Jehovah even the Lord, is my strength.—Isaiah 12:2.

"Is thy God able to deliver thee?" was the question asked of Daniel in the lions' den (Dan. 6:20). It is in the minds and on the lips of many in every hour of crisis.

God is able to deliver. Moses his complaint that the Lord had done nothing for his suffering people (Exod. 5:22), the Lord revealed only able but ready to take them out of their bondage.

I. God's Promise (6:6-8). Moses was to remember that he was dealing with the Eternal One, unchangeable, and always true come to pass (v. 2, 3).

So often men in dealing with God think of Him in terms of their own tion of God, not a manlike idea of Him. God is the infinite and the Eternal One with whom we have no decide. right to quarrel, and whose dealings with us are too high for us to judge (Ps. 139:1-6).

was established (v. 4). He had heard their cry (v. 5), and His deand see God work.

That word "wait" is a little one. querulous and despondent when they have to wait or when they are laid aside for a time.

just a religious sentiment. It is a fact, and it is proved by history. II. God's Plan (13:17-19).

There was a direct, easy road along the coast of the Mediterranean up to Canaan, but God with His pillar of cloud and fire did not lead in that way.

How strange that He should take the other way.

was one of intelligent planning, not just impulse or chance. He knew

God has a plan, not only for the nations, but also for individuals, for will for us, for it is good, acceptable and perfect (Rom. 12:1, 2).

memory of his assurance was a blessing to his descendants, and they honored it and him. What about our faith in God?

III. God's Presence (13:20-22). Our God does not just send a plan or program to His people. He is always with them and is ready to go before them.

God's plan is made known to His people as they follow Him step by step. This means that there must be guidance, moment by moment, if His plan is to be worked out. nces Hitler's death. He gives such guidance and it is only when His children fail to follow it that the pattern of life becomes der at Reims. confused.

in which Christians have widely divergent experiences. Some know the sweet, unconfused daily experience of God's hand upon them, caring for even the minor details (or are they minor?) of life. Others have known the directive power of God | ill as prime minister. in some life crisis, but not in the ordinary affairs of life. Many, and perhaps most, think of divine guidance as a spiritual theory of which the preacher talks, but know nothing of it in their own lives.

Faith-or the lack of it. Those who pan. trust Cou accept and receive His lessed leadership moment by moment. It is as simple as that. Others reach out and take it when the pressure of life makes them cast themselves on God. Others simply muddle along "doing their best," which is not their best, for God is eral Motors. not in it.

The pillar of cloud, which became

lective farms by the state, and problems being faced by and for the rights to its use cannot be bought, sold or leased. The government establishes terms for the use of the land, draft animals, farm implements and farm buildings, all of which belong to the state. The state also controls wages and other sources of income of the people.

Earnings of individuals, as permitted by the government, belong to them, and they are albequeathed.

may be taken from its owner if up and drawled: What train?" he fails to keep it in repair. Citizens are allowed to have money savings, but cannot lend them at interest. As a general principle, no one can make a profit from the labor of others. All profits from farming and other enterprises, after wages and other ex penses are paid, go to the state.

The state has the responsibile ity of maintaining schools, public health services and other facilities for the general welfare, so far as possible. Universal compulsory public education for | 段 children was established in 1930.

There is no doubt that the general condition of the mass of the Russian people under Communism up to 1941 was greatly improved over conditions which | 段 and tempt them to return to the fleshpots of Egypt. So He took them in the Pacific was yet to come, the war gave the country a set the war gave the country a setback which it will take many years to overcome.

> Even under the best circumstances Communism cannot offer a way of life that would appeal to people who have enjoyed real freedom, such as we have known in the the United States.

## War Birth Rate High

During the war the number of births in the United States reached an all-time high, with a peak of 2,935,171 in the year 1943. This was the culmination of a steady increase since 1939. Since 1943 the birth rate has slightly decreased, the number for 1945 2,779,500.

Throughout the war the number of births averaged approximately twice the number of deaths. Between January 1. 1942, and July 1, 1945, 10,569,-000 births were reported. Dur-July 26 - Labor party wins ing the same period there were about 265,000 deaths reported in action, while 5,137,000 persons died from all other causes. In July 28-Bomber crashes into spite of the war, the death rate for this period was the lowest in our history, averaging about 10.5 persons per 1,000 of population, as compared with more than 14 per 1,000 in 1915.

The increase in population between 1940 and 1950 is expected to be 13,000,000, compared with an increase of less than 9,000,000 between 1930 and 1940. The United States is perhaps the only white nation among the belliger-

Which is the UAW-CIO really after? Is it seeking facts—or new

economic power? Does it want to know things—or run things?

These questions concern you as well as General Motors.

For years the facts about General Motors have been made public.

In spite of this, the UAW-CIO demands a chance to look at our books, with the hint that we could meet Union demands "if the truth were really known."

We have firmly declined to recognize this as a basis for bargaining:

## 1 The Full Facts are Published

How much General Motors takes in each year-how much it pays employes-how much it pays to stockholders-how much it pays in taxes-how much net profit we make-and many other facts are plainly stated in annual reports and quarterly reports.

These are broadcast to 425,000 stockholders from coast to coastsent to newspapers and libraries. Additional copies are free for the asking.

## 2. All Figures are Thoroughly Checked

Every General Motors annual statement is audited by outside auditors. Similar figures are filed with the Securities & Exchange Commission.

Does the UAW-CIO honestly believe that General Motors would or could deceive these experts?

## 3. Basis of Collective Bargaining is Defined

The Wagner Act lays down the rules for collective bargaining. These cover such areas as rates of pay, hours of work, working conditions.

No mention is made of earnings, prices, sales volume, taxes and the like. These are recognized as the problems of management.

## 4 Something New has been Added

The obvious fact is that the UAW-CIO has gone beyond its rights under the law-and is reaching not for information but for new power-not for a look at past figures, but for the power to sit in on forecasting and planning the future.

A "look at the books" is a clever catch phrase intended as an opening wedge whereby Unions hope to pry their way into the whole field of management.

It leads surely to the day when Union bosses, under threat of strike, will demand the right to tell what we can make, when we can make it, where we can make it, and how much we must charge you-all with an eye on what labor can take out of the business, rather than on the value that goes into the product.

## 5. This Threatens All Business

If the Union can do this in the case of General Motors, it can do it to every business in this land of ours.

Is this just imagination? Union spokesmen have said, "The Union has stated time after time that this issue is bigger than just an ordinary wage argument, that it is bigger than the Corporation and bigger than the Union."

For Labor Unions to use the monopolistic power of their vast membership to extend the scope of wage negotiations to include more than wages, hours and working conditions is the first step toward handing the management of business over to the Union bosses.

We therefore reject the idea of a "look at the books" not because we have anything to hide but because the idea itself hides a threat to GM, to all business, and to you, the public.

## Interesting Notes

There are more than 6,000 phinlic libraries in the United States.

One of the world's deepest holes drilled for oil, in Brazoria County, Tex., is still drilling and now is below 16,555 feet.

We often hear the expression while complimenting a friend "He hasn't an enemy in th world," but Tennyson reminds us that "He makes no friends who never made a foe."

In the 52 years since its first successful commercial production, rayon has grown so rapidly that its world consumption exceeds that of wool, is 13 times greater than silk, and is surpassed only by cotton.

World cotton stocks are the largest on record, amounting to 26.5 million bales, of 478 pounds, at the end of last July. This total compares with 26.1 million bales in 1944, 24.1 million in 1943 and 22 million in 1939.

Everything has its usefulness. For instance, the soil would soon foul and become unproductive but for the existence of earthworms. However, we cannot understand for what earthly use the mosquito is created. Perhaps to teach the virtue of patience!

Sixty-five percent of an egg's weight is water. So to get more eggs keep plenty of clean, fresh water before hens at all times. On cold freezing days give hens lukewarm water to drink. This will cause flock to drink more water-vital to maximum eggs production.

HARRY: "I don't know what they'll weigh up, Judge, but my cattle and poultry sure have been gettin' fatter since I started to use distillers' dried grains in their ration." OLD JUDGE: "You're about the tenth one who has told me that, Harry. How do you account for it?"

THE OLD JUDGE SAYS...

HARRY: "The by-product recovered from grains used by distillers is very high in vitamin and protein content. It's the best feed supplement we can get to balance the rations we feed our dairy cows, live tock and poultry. Mixed with original grain, these distillers' dried grains have a much greater feeding value than the original grain has." OLD JUDGE: "Have any trouble getting all you need?"

HARRY: "Yes, at times, even though the distillers produced 1,200,000,000 pounds of it for the year endin' last June, I hope they'll be in a position to produce a lot more next year."

OLD JUDGE: "Then I guess nobody can tell you grain is wasted in distilling." HARRY: "Not me, Judge - I know."
