Thought for the week:

Infinite toil would not enable you to sweep away a mist; but by ascending a little, you may often look over it altogether. So it is with our moral improvement: We wrestle fiercely with a vicious habit which could have no hold upon us if we ascended into higher moral atmosphere.

## Miss Margaret Carleton Bride of Edward Casteel

Miss Margaret Carleton, daughter of Mr. and Mrs. James Carleton, Lonview, became the bride of Edward Thomas Casteel, son of Mr. and Mrs. Edward W. Casteel, 501 East White street, in a pretty candlelight ceremony, solemnized at 8 p. m., Saturday, in the home of Mr. and Mrs. Claude Barber, 1105 West Green street, Champaign.

Rev. R. J. Bierbaum of St. Peter's Evangelical and Reformed Church officiated at the double ring ceremony in the presence of the immediate families and a few friends. The couple exchanged their vows before an improvised altar in front of a fireplace banked with spring flowers with tall lighted tapers in the background.

Attending the bride as her maid of honor was Miss Ruth Evans. Herbert Schloz attended the bridegroom as his best man.

For her wedding, the bride wore a beige suit with brown accessories and a corsage of yellow roses. Miss Evans wore a fuchsia suit with black accessories and a corsage of white roses.

A reception followed the ceremony.

## Don't Vote Away Our School District

Petitions asking that residents of the Broadlands community do away with their non-high school district, in order that the Allerton Community high school district may "hog" it, have been circulated. Accordingly, a goodly number of our citizens have signed the petition, not realizing just what it would mean to our school system and to our community. Wouldn't that be a pretty how-do-you-do? Do we want to become another Fairland?

Fortunately, however, people have begun to realize what a calamity it would be. And here's predicting that if the proposition is submitted to a vote, the answer will be an emphatic "no."

## Mrs. Marvin Cooper Entertains Club

The Allerton Woman's Club met Tuesday at the home of Mrs. Marvin Cooper, with Mrs. Forrest Dicks and Mrs. Pearl Wilson assisting.

**Farmers And Prices**

In view of greatly increased wages and rising prices, it is only natural that farmers should seek a revision of the obsolete parity formula and also oppose restrictions on the prices of farm products. An effort is being made by the farm bloc in Congress to bring the rewards of agriculture in line with those of capital and labor.

The farmers demand that increased labor costs should be taken into consideration in fixing agricultural prices. They also oppose the recent order of Chester Bowles raising margin requirements for traders on cotton exchanges to \$30 a bale, with an increased margin of an additional \$10 a bale for every cent a pound rise in cotton prices. The object of the order is to hold cotton prices down.

Senator Elmer Thomas, Oklahoma Democrat, chairman of the Senate committee on agriculture, has proposed an amendment to the Truman 65-cent minimum wage bill to block the Bowles order. The amendment reads:

"In order to protect the income of the producers of farm commodities, no official or agency of the government shall have authority to interfere, directly or indirectly, in altering or fixing margin requirements on the purchase or sale of any farm commodity at any commodity exchange licensed to do business in the United States."

Senator Thomas told reporters that legislators from cotton, corn and wheat belts should "pool their efforts" to prevent extension of the OPA after June 30,

its present expiration date. It is understood that Senator Bankhead and most Southern senators stand with Thomas in his contentions.

Thus it appears that Mr. Bowles has stirred up another sizeable hornets' nest through monkeying with agricultural matters, concerning which he knows little or nothing.

**Communists In U. S.**

Under the leadership of William Z. Foster, and with relations between the United States and Russia again strained, the Communists in this country are taking a more bold and aggressive line. They are being advised by their leaders to come out into the open in an effort to strengthen their membership, particularly in the ranks of labor.

Although the number of American Communists is still comparatively small, some of them have worked their way into influential positions in a number of unions, especially those of the CIO. While Philip Murray, president of the CIO, is in no sense a Communist, he has not hesitated to accept the support of the extreme left-wingers in connection with activities of his Political Action Committee.

President William Green of the AFL is strongly anti-Communist, as are most of the Federation's leaders and workers. In his campaign for recruits to Communism, Mr. Foster is unlikely to make much headway among membership of the AFL.

Whatever one may think of John L. Lewis, who recently took his United Mine Workers back into the AFL fold, it can be said that he is also anti-Communist.

As is well known, Communists in this country opposed all measures for national defense before World War II, and were active fomenting strikes up to the time that Russia was attacked by Hitler. Then they made an immediate about-face and supported war industries as a means of giving aid to the Soviet Union, under instructions from Moscow.

In order to allay the strong antagonism to Communism in Allied countries, which had long resented the spread of Comintern propaganda within their borders, Stalin later caused the dissolution of the Comintern. This was considered by many to be only a gesture for the purpose of obtaining greater aid during the war. However this may be, Communists are now becoming more active in the Western Hemisphere, as well as Europe.

**Sidelights**

We hear of a corporal, recently returned from many months in the ETO, who doesn't have room on his good conduct ribbon for all his wild oatleaf clusters.

A school teacher, during the day's drawing lessons recently, suggested that each pupil draw what he or she would like to be when grown up. At the end of the lesson, little Mary passed in an empty sheet of paper. "But isn't there something you'd like to be when you grow up?" asked the said teacher. "Yes'um," said little Mary. "I'd like to be married, but I don't know how to draw it."

Really, there's no telling what you'll find in your coal bin these days—but the station agent at Fort Valley, Ga., found that something new had been added. During a heavy rain and wind storm recently in this Georgia community, Mrs. Frances Golfe was standing on the platform of the Central Georgia freight depot. All of a sudden a gust of wind blew her from the platform

into the coal bin where she was discovered suffering from a fractured collar bone and other injuries.

Final homage was paid Blackie recently, when seven of his comrades of World War II gave him a burial with full military honors. Blackie, a five-year-old Labrador retriever, served with these pals through 32 months of Pacific fighting and the close comradeship continued until an untimely death separated them. An unofficial "technical sergeant" Blackie was buried in Cheltenham Pet Cemetery, in Philadelphia, as an American Legion Drum and Bugle Corps sounded taps and his master, James Dadario, placed a tiny headstone on his

grave.

Do you want to know where your \$1.95 white shirt is? Well, from information just received, we can advise you that you will find it underneath the color of the \$3.95 fancy shirts being offered you. The reason for this is that the OPA ceiling on one quality of cloth used in making white shirts is 54 cents a yard, while this same cloth, run thru a press to give it color, has an OPA ceiling of \$1.70 a yard. Few white shirts are available but the supply of colored shirts is becoming plentiful.

**Zion Repeals the Blue Law Ban on Tobacco**

(Christian Science Monitor)  
Zion, March 23—The Zion city council, which earlier this month approved the opening of a public motion picture theatre, yesterday repealed another of its blue laws. The council voted to permit the sale of tobacco within the city limits, forbidden since the community of 7,000 on the shore of Lake Michigan was founded by John Alexander Dowie about 40 years ago.

**"QUALIFIED BY EXPERIENCE and TRAINING"**

*For Law Enforcement Elect* **BERT S. WALKER**

**My Pledge...** Many of my friends have urged me to again become a candidate for Sheriff and I have consented fully realizing the responsibility that is connected therewith.

History has always revealed an increase in crime following the conclusion of a war and this will throw additional Law Enforcement responsibility on the office of sheriff.

I am willing to accept that responsibility and I pledge to you an honest and conscientious administration of that high office.

**AN OUTSTANDING RECORD OF SERVICE TO THE PEOPLE**

As sheriff of your county from December, 1938, to December, 1942, I desire to call your attention to some of my accomplishments for that period.

**CURTAILING GAMBLING AND PROSTITUTION**

In less than one year after I took office all organized gambling places and houses of prostitution were closed and their operators were convicted and sentenced by our courts. This menace to our community life was abolished for the first time in 25 years in this county.

**COOPERATING WITH ARMED SERVICES**

Having served in World War I for almost two years I realized that close cooperation with the authorities at Chanute Field and the Training Schools at the University was necessary in order to suppress all influences detrimental to these training programs. The fact that there was not a town in this county "off limits" for any man in uniform, while many in the surrounding counties were not so fortunate, speaks for itself.

**HONESTY \* \* EFFICIENCY**

During my four-year term in office I turned back to the County Treasurer the sum of \$31,959.14 after the salaries of three deputies and myself were paid. These were excess earnings during my term only. This is more than 2½ times the amount any sheriff has ever turned back in this county.

The following are comments from local newspapers:  
(Champaign News-Gazette, Monday, Jan. 27,

**HELPING BUILD A GREAT UNIVERSITY**

The University of Illinois is very important to our community and it was always the policy of my office to give it the closest cooperation and assistance possible.

**WORKING WITH CITY GOVERNMENTS**

The mayors of Champaign, Urbana and Rantoul and the heads of other villages in our county, their police forces and other governmental departments, all can testify to my cooperation with them to secure proper law enforcement.

**PERFECTING METHODS OF FIGHTING CRIME**

Shortly after taking office, I started a complete set of records with an alphabetical card index, finger prints and F. B. I. envelopes for each person entering the jail. A photographic machine also was installed and all prisoners were photographed and numbered. These have been valuable for reference by many government officials and have been instrumental in apprehending and identifying many criminals.

1941.) "Washington, Jan. 27 — Champaign County jail rates among the 16% of all jails in the country which are considered fit for general use in housing Federal prisoners, the U. S. Bureau of Prisoners reported today."

(Urbana Evening Courier, Thursday, June 30, 1942.) "Washington, D. C. — War Department records show Champaign County almost perfect in control of vice."

★ *Bert Walker* ★  
FOR SHERIFF OF CHAMPAIGN COUNTY

My pledge eight years ago was Law Enforcement. That is my pledge today. I believe my record speaks for itself and I hope the people of Champaign County will show their desire for good, honest, efficient government at the primaries Tuesday, April 9, by voting for Bert Walker for Sheriff.

Housewives are asked by the Federal Council of the Churches of Christ in America to cooperate in "voluntary rationing" of foods that are vitally needed in war devastated lands of Europe and Asia. The following is the pledge that they are asked to make: "In response to the President's request to help prevent starvation overseas, I voluntarily pledge to conserve food and to buy less, bake less, waste less bread, cake, wheat products. I will conscientiously attempt to conserve during the next six months, or while the emergency exists, about a quarter of the wheat products our household is accustomed to use." The use of less of the following is urged: all flour products, dried vegetables, canned meats, fish, milk, and fats and oils.

It is estimated that bees collecting nectar for one pound of honey will travel a distance equivalent to almost three times around the earth.

In the less sensational news of the week was the announcement that the OPA had lifted price ceilings on snowshoes, cowbells, bull rings, gas masks and cocktail shakers.

Everybody's doing it. Former Secretary Ickes and former Secretary Morgenthau have joined the ranks of news commentators. Former mayor LaGuardia has been on the air for two or three weeks.

Senator Byrd's long-standing plea for government economy must be getting results. According to Fulton Lewis, Jr., civilian employees of the government have been increased by on-

ly 29,726 since V-J Day.

On February 1 hired farm workers in the United States was 5 per cent less than a year earlier and family employment was 3 per cent less. The present employment on farms totals 7,799,000, compared with 8,051,000 a year earlier.

*The facts about the Electric*

**APPLIANCE SITUATION**

Appliances are gradually coming back, but it will be some time before they are plentiful. At this time, the demand far exceeds the supply, and those available are being spread among the various appliance dealers, so there will be few in any one dealer's windows.

The first appliances released by manufacturers are being shipped to department stores, hardware stores and home appliance shops, etc., —dealers whose very existence depends on the sale of merchandise.

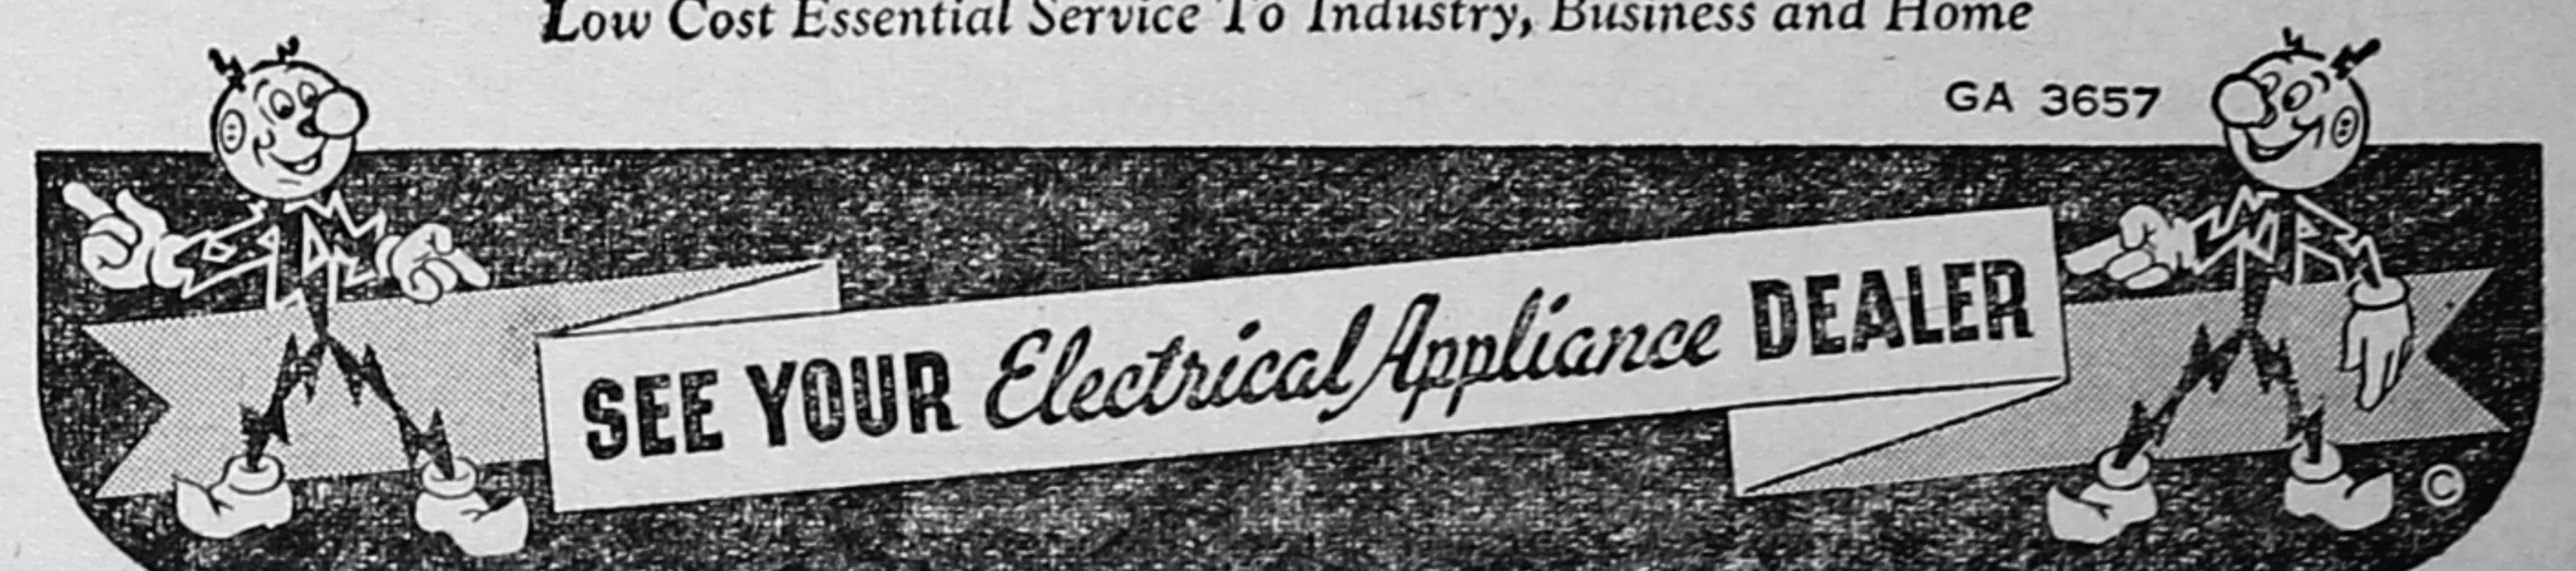

This Company, because appliances were only incidental to its principal business of providing Low Cost electric service, has waived all claim to them in favor of the appliance dealer. This Company's policy has always been "See Your Dealer—Or." Our policy now is "SEE YOUR DEALER."

Your dealer will be glad to give you helpful information about appliances you want and answer questions you may have. As the new appliances become available, he will help you select the models to fit your needs.

**CHARLES W. CLABAUGH**  
 REPUBLICAN  
 FOR  
 Representative In General Assembly

For eight years CHARLES W. CLABAUGH has represented the 24th District in the General Assembly of Illinois. He has worked aggressively and intelligently for those principles of government to which the most people of this District agree. He has been independent and forceful in his actions in the interest of the people of the State and this District. Representative Clabaugh made a successful stand against Cook County Politicians and Organized Radicals who attempted to "take over" the government of Illinois through Senatorial Reapportionment and a Constitution Convention. He led the opposition to the 100% assessment bill, which were vigorously opposed by Illinois Agricultural Association, local Farm Bureau and business groups. Representative Clabaugh has made no attempt to build up a "political patronage" machine to re-elect himself. But has spent his legislative time and efforts in the interest of good government and sound economy, believing that is the best recommendation for continued public service. His endorsement by Illinois Agricultural Association, various educational groups, the Illinois Federal Labor and many business and professions organizations have proved the wisdom of his belief.

The clearest thing about today is its confusion.
