IMPROVED' UNIFORM INTERNATIONAL CUNDAY

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for April 13

Lesson subjects and Scripture texts se-lected and copyrighted by International Council of Religious Education; used by permission.

THE KINGDOM ESTABLISHED

LESSON TEXT-I Samuel 9:1, 2; 11:12, 13; 15:1, 22-26, 34, 35. MEMORY SELECTION-Blessed is the nation whose God is the Lord.-Psalm 33:12.

A major crisis had come in the history of Israel when we left them in our study of January-March, 1946. They were ready to change their form of government. They no longer wanted God to rule them directly through his representatives, but wanted a king like other nations round about them.

God acceded to their request and instructed his servant Samuel to that period in their history which led to their ultimate captivity and disgrace. We shall study together during the next three months the facts and factors involved in the rise and fall of the nation of Israel. Our lesson concerns their first king, Saul, the son of Kish, who promised to be a great and good king, but who failed through disobedience.

I. Saul-a Choice Man and God-Chosen King (9:1, 2; 15:1).

To begin well is to be far on the road to success. Here was a man of excellent quality, "a choice young surpassed him. What a splendid recommendation for the prospective ruler!

attractive. That is not as great a factor in success as some think, but it does have a bearing on a man's influence over others.

Most important of all, this man Saul was the one whom not only the people but also the Lord had chosen. The Lord sent Samuel (15:1) to anoint Saul as king, and to give him the key to success as ruler-obedience to the voice of

II. Saul-an Obedient and God-Blessed King (11:12, 13).

The attitude of a man toward his enemies is often the test of his character. Bitterness, hatred, reveiled hostility with a purpose of ultimate destructionthese are the common reactions of men toward them who oppose them.

Saul, who was not essentially different in his own spirit (as we shall see later), was a man after God's tion in every detail, and perhaps street and asked if she had talkown heart in his early reign, for he comes nearer to attaining it than was obedient to the Lord.

Some "worthless fellows" despised Saul and refused to recognize him as king. The urge of the flesh to destroy them was aggravated by and energy, and so far as is wanted to put them to death for their disloyalty to the king, but Saul | ing from the podium. in true kingly spirit, and recognizing that he reigned by the good grace of the Lord, decreed that there was to be no revenge, but rejoicing.

The story which we touch on so briefly here is one that teaches the eternal truth that the way of bless-God.

ruin and personal disaster that which had begun with such promise one.

III. Saul-a Disobedient and God-Rejected King (15:22-26, 34, 35).

must be utter destruction of the Amalekites and their possessionssomething like the burning of a dis-

HAROLD L. SMITH Broadlands, Ill.

Announces Details of \$20,000,000 Price Reductions

Details of the recently announced International Harvester policy of making price reductions to save users of our products approximately \$20,000,000 a year have now been worked out.

We have reduced prices on 163 models. These cover 12 basic models of farm tractors, 123 basic models of farm machines, 16 basic models of industrial tractors and engines, and 12 models of motor trucks, as well as certain motor truck attachments. The new lower prices are effective as of March 10, 1947.

These reductions were made not because of any decline in demand, but because we believe nothing is more important to this country than to lower the prices of the goods people buy.

While prices have not been changed on all products, we have made reductions wherever possible, in the amounts possible. Prices of many of our most popular products have been substantially lowered.

Altogether, more than half of the company's customers will be benefited by the reductions, which range from 1% to 23.8% and from \$2.50 to \$300 per item, based on list prices, F.O.B. Chicago.

Since the people have demanded that the government withdraw from price control in peacetime, the responsibility to keep prices in check is back where it should be-in the hands of business and industry. The business outlook makes it possible for us to move toward the goal of lower prices, and we have felt a duty to act as promptly as possible.

Our ability to maintain these lower prices will depend on the supply and price of materials we buy from others and on uninterrupted production at reasonable wage levels.

The prices listed here carry out our announced policy that "Any price is too high if it can be reduced."

25 More Types of Products

Plows-52 models reduced from \$9.00 to \$20.00 (3% to 10.7%).Cultivators-13 basic models reduced \$5.00 to \$10.00 (4.5% to 7.4%).

Listers and Middlebusters-7 models reduced \$5.00 in each case (2.8% to 4%). Corn Planters—4 basic models reduced \$5.00 in each

TELL OPERATOR TO REVERSE CHARGES

From where I sit ... by Joe Marsh

And That Ain't Hay -Or Is It?

I guess all of us secretly hanker, from time to time, for the good old days and the good Aldfashioned pleasures. Leastways, Buddy Richards done a thriving business reviving the old-time hayride.

With a team of horses, and a stout straw-bedded rack, Buddy can take as many as thirty adults -at fifty cents a head!

Two or three times a week they start from Town Hall, and go out along the river; stop for a friendly glass of beer at Shoreside Tavern;

and come home by way of Pound Ridge . . . nine miles in all.

Not very exciting, you might say. But from where I sit it's not excitement that we need these days-but those simple country pleasures that are part and parcel of America—the old-fashioned hayride, with its song and jollity; the horseshoe games; the friendly glass of beer; and the good companionship that they engender.

Smile Awhile

There is just as much horse sense as ever, but some days we think the horses have it all!

Grace tells me she's taking hot baths regularly to get her weight down.

Yes, she calls it the scorched girth policy.

An English undertaker found a donkey lying dead in his back yard and went to inform the po-

What shall I do with it? he asked the officer in charge.

Do with it? Bury it, of course, said the officer, laughing. You are an undertaker, aren't you?

Certainly I am, replied the undertaker. But I thought it my business to come 'round and inform the relatives first.

A party of clergymen were attending a Presbyterian conference in Scotland. Several set out to explore the district and came to a river spanned by a temporary bridge. They didn't see the notice that said the bridge was unsafe, and started to cross. The bridgekeeper ran after them in protest.

It's all right, said the spokesman, not understanding the reason for the old fellow's haste. We're Presbyterians from the

"I'm no' caring about that, said the old Scot bridgetender. but if you dinna get off that bridge ye'll all be Baptists!"

Household Hints

For safety's sake pick up small pieces of broken glass with dampened absorbent cotton.

To "fluff-up" the tufts on a newly washed bedspread, brush the tufted design lightly with a small brush.

Dust won't be scattered all around if you sprinkle water on a newspaper before emptying the vacuum bag on the paper.

When painting woodwork coat the door knobs and locks with vaseline. Any paint that splashed on these surfaces can be easily wiped off later.

It's time for your sewing ma chine to have a spring cleaning. For cleaning, use kerosene or cleaning fluid. Oil and adjust. Use good oil, for poor oil often is more damaging than no oil.

Dark closet walls can be robbed of their drabness with a can of paint. Colors used in the closet should harmonize with the color notes of the bedroom, whether the bedroom is painted or papered.

Soften hardened brown sugar by placing the approximate amount you plan to use in a bowl and covering the bowl with a heavy, wet cloth. Let stand for an hour, or longer if necessary, until sugar is soft enough to measure.

To wash a sweater and have it keep its shape, wrap it in a bath towel to absorb moisture, then lay it flat to dry. Either take measurements before washing the sweater or cut a flat pattern to mold it into its proper size as it dries.

Why it takes 6% to make the grade...

Impartial research polls show that, on the average, people think we make 15%. They also think a fair return would be 10%.

15%

What We Make

But for the year 1946, with the biggest peace-time traffic in history, the railroads earned only . . . 2 34 %. This is less than one-half the comparable earnings for other industries.

The reasons for this low return are not hard to find. Since 1939 railroad wages have increased 52% and the prices of fuel, materials and supplies

have gone up $61\%_{10}$ %. But freight rates have just recently been increased an average of only 17%-a year after the effective date of the last big wage increase.

What About This Year?

It is estimated that the return for 1947, even with the recent freight rate increase, will be only about half the 6% minimum return required to provide . the improvements and service needed: This will be because of increased costs of materials and supplies; because certain wage increases granted in 1946

were in effect for only part of 1946 but will be in effect for all of 1947; because of increased special payroll taxes on railroads; and because of a decline in passenger business.

What Does This Mean To You?

The answer is "Plenty!" Your standard of living is the highest in the world because of MASS PRODUCTION. But mass production would not be possible without MASS TRANSPORTATION, which the railroads provide at low cost.

Why 6% Is Needed

The kind of service your standard of living requires takes a lot of money for new equipment and improvements. To carry out the post-war improvement program for better equipment, tracks, terminals and modern safety devices, a minimum return of 6% is needed.

So when the railroads make only 23/4 cents on each \$1.00 of their net prop-

2 3/4%

erty investment, it concerns you.* The funds for future new equipment and improvements must come from railroad earnings and also from investors: They will furnish money on reasonable terms only if they have confidence in the future earnings of the railroads:

You Have Another Stake In This

Even if you do not own any railroad stocks or bonds, insurance companies and savings banks do. So you still have a special interest in seeing that the railroads are allowed Enough to do a good

job . . . for you. We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.

*On total property investment, the railroads made only 2.19%.
