The Westville News

Vol. 18 —'No. 34 | Georgetown, Vermilion County, Illinois | Friday, June 4, 1948

Now is a pretty good time to start thinking about Father's day on June 20 and to start planning what you can do for the Old Man this year.

The chug-chug of the busy farm tractor can be heard these nights until the late hours as the farmers work through twilight and under the stars putting soybeans into the soil and getting the crop season under way in this section of the world's "bread basket." Our farmer friends are almost becoming strangers to us, and we miss the merry quips and bantering which were, in less busy days, a part of their occasional "rest periods" for a trip into town for a cup of coffee and a few other things. In a few weeks, the grain harvest and haying season will be at hand and it may be late July or August before we can renew acquaintanceships with them, barring a few rainy days now and then which are likely to come, we hope.

Many from here were guests of General Motors Corp. and the C&EI railroad Monday and Tuesday afternoons and evenings for the Train of Tomorrow exhibition, and a number of our neat housekeepers noticed that the General Motors engineering and stylist experts had all details complete even to the color scheme of the window drapes and the stem glasses on the dining tables. The train was first shown in Soldier's Field, Chicago, a year ago and since then more than 2 million persons have trooped through it in all kinds of weather. This, of course, presented a cleaning problem. At first, 25 cleaners had to work an average of eight hours every night to freshen up the cars, but since then the crew, with the aid of Pullman experts, learned a few tricks so that the crew of 25 now cleans the train from observation car to diesel locomotive in three hours. A few short cuts must have been found.

We have a few folks in town who have attended the Indianapolis races since their inauguration 'way back when. We would like to hear their names for the grand prize award.

A number of familiar faces seen at the HethShows now in our midst.

Mayor Charle (Chill) Byron found the velvet-smooth ride of the Train of Tomorrow last Sunday afternoon much to his liking when he, with a number of other dignitaries, was invited to a "pre-view" of the train in a ride from Chicago Heights to Danville. During most of the ride, the speed was 79 to 93 miles an hour, with only one stop and an occasional slow-down for the crowds along the way. "Not bad," said the mayor.

Even the city folks take on an interest in agriculture—three times a day . . . Life must be worth living—the cost has doubled and we still hang on . . . The tragedy of old age is not that you're old, but that you're young . . . Seen on the door of a "wolf's" car: "Some of the world's bravest women pass through these doors" . . . Largest word in the English language—the one following the phrase, "And now a word from our sponsor."

—B. N.

A veteran of World War II says that "peace" is a dog-eat-dog way of life. "In wartime," he says, "you learned that a man could love the other fellow more than himself, if only for a day. In war, many found the only real brotherhood they ever knew. The heartbreaks of war, the separations, the regimentation, the hard way of living, all are now dimming in our memories. Many are thinking of the other side of war." Maybe he's right. As William James said: "The world, in peace, must find the moral equivalent of war." It's insane that we become more civilized through wars. We must learn to do it in peace.

Summer Evenings

These balmy evenings of early summer bring out the town wits and philosophers who, after supper, huddle together like quail in a cold rain. It is then that the tall tales are told and one and all tell jokes, talk crops and baseball and rejoice in their solid man's world, which had been temporarily threatened during the supper hour. A good, restful seat in the long summer twilight after the day's work is done when you can join in the "grass-roots" thinking! And the women folks—they, too, gather in small groups here and there and engage in sprightly conversation, plus some occasional spicy gossip. Who says life in a small town is dull?

Our Clean Story Club — A merchant became very fond of playing checkers with his dog. Day after day he was seen playing the game with the dog in the back room of his place of business.

A friend, watching the two play, asked the merchant why he seemed to enjoy the checker games with his dog.

"I just love it," replied the checker player, "As it's always a cinch to win."

"How's that?" asked his friend.

"That's easy," came the reply. "Whenever I start to make a wrong move, the dog always starts to wag his tail."

Why editors leave town: From the Vineland (N. J.) Rotary Bulletin—As a correction to a previous account, we had H. K. listed as absent last week. He was present, and we're sorry . . . From the Quebec(Canada) Chronicle-Telegraph—The St. Louis Cardinals took advantage of their 11 hits and nine walks to snore in every inning.

Body of Navy Hero To Be Returned From South Pacific

Final Burial Planned For Robert E. Kerns

CHICAGO — The casketed remains of S2/c Robert E. Kerns, son of Mr. and Mrs. Edward Kerns, 694 S. State St., Westville, Ill., a World War II member of the Navy, is being returned from overseas for final burial, it is announced by the American Graves Registration Service.

The body will arrive in Westville within the next 30 days, accompanied by a unifomed Navy escort from the Chicago Distribution Center of the Graves Registration Division.

S2/c Kerns was killed during the war in the South Pacific and was interred in the Fischaffen Temporary Military cemetery in New Guinea. The body is being returned for final interment at the request of his next of kin, Mrs. Myme Kerns, mother.

The date of arrival of the body will be available six days prior to delivery in Westville.

The local military service organizations have voluntarily offered their services for the funeral and burial.

Burglars Steal Safe, Get $1250 in Bold Kellyville Robbery

Removing a safe from the Kellyville food store of Szilagyi Bros., owned by Henry and George Szilagyi, burglars wrecked the strong box and stole $1247.92 of its contents some time monday night or early Tuesday in a bold holiday burglary, it was reported to the sheriff's office Tuesday morning.

A similar robbery was attempted in another store in the Westville area several weeks ago, when burglars tried unsuccessfully to remove a locked cabinet from the grocery store of O. VVacketta.

Estimates are that it must have taken the burglars an hour or more to wreck the 400-pound safe of Szilagyi Bros. to the extent that they could take the loot, which consisted of $942 in cash and $305.92 in checks. This money represented some of the pre-Decoration Day holiday sales receipts. The safe had been removed to the vacant lots near the store. Homes in the vicinity are scattered and are some distance from the scene of the safe wrecking. None of the residents nearby heard the marauders at work on the safe. The ruined safe was seen early Tuesday morning by Josephine Tyral, a clerk in the store, when she was coming to work Tuesday morning. George Szilagyi discovered the safe to be missing when he opened the store at 6:05, and he called the sheriff's office at once.

Deputies Hector Delanois and Elmer Morse investigated and found that the thieves had pried open the store's front door and had used a truck to haul the safe to the vacant lots. It was evident that the yeggs had been armed with sledge hammers and other tools for the combination hinges were knocked off and a hole was punched into the metal to pry off the door.

Both Henry and George Szilagyi had found the safe in place when they visited the store Monday afternoon, they reported to the officers.

ATTENDS TUCKER MOTOR CAR MEETING IN ST. LOUIS

Mr. and Mrs. Nino Damilano have just returned from St. Louis, Mo., where they attended a Tucker Motor Co. meeting, which was high-lighted by a ride in the new Tucker automobile which Nino says was one of the finest rides in a motor car he has ever had. These cars will be on the market in the near future.

Legionnaires Take Georgetown Game

Westville Junior American Legion baseball team motored to Westfield over Decoration Day to play the senior Legion team there. This is a fine team. Barbee, Sloan and Forman, a trio of players, have been offered contracts to play on the Cubs' Centralia farm in Southern Illinois.

Westville used the tactics of playing "over their heads" to keep from being steam-rollered, losing by a score of only 6-12. Some of the toughest of the Westfield boys were coached by Don Sweeley, as this is the home town of Mrs. Sweeley. The score:

The Junior Legion team motored to Georgetown last Thursday evening to play the Legion team there and had quite the easy time of it, with the final score 14-2 in favor of the home team. Some of the "old timers," graduates of last year, were asked to play another game, which ended in a 1-1 tie, darkness stopping the match. The Georgetown boys were very proud that they were given a run for their money. The score of the first game:

War Dead Honored In Decoration Day Ceremonies Here

VFW Sponsors Parade, Memorial Service

Fitting Memorial Day services were held at the War Memorial in Westville City Park Monday afternoon when Sam Latoz, commander of the Westville Post of the Veterans of Foreign Wars, presided at the brief ritual. A wreath was laid at the base of the honor roll, symbolic of the decoration of graves of all veterans, where individual flags had been placed.

The afternoon's events started with a parade from the Square to City Park, in which members of the American Legion Post, the Legion Auxiliary, the VFW Auxiliary, the Boy Scouts, school children and the Westville High School Band and twirling corps, led by Miss Marian Browning, participated.

At the memorial, the Rev. C. R. Dierlamm gave the invocation and a short address. The band played "The Star Spangled Banner," and the firing squad gave the rifle salute. Taps and the echo also were sounded.

Former Resident Dies in Oregon

Word has been received here of the death of Mrs. Eva Rater Hebert, 56, a former resident of Westville Rt. 1, in Springfield, Oreg., May 19, following an illness of about a year. Funeral services were held at 2 p. m. May 26 at the Rogers & Henderson Funeral Home, Lafayette, Ind., and burial was in Bethel cemetery there.

Mrs. Hebert is survived by her husband, Roy Hebert; four daughters, Mrs. Victor Plumert, Westville; Mrs. L. Greenwood, Lafayette; Mrs. P. Smith, Springfield, Oreg.; and Mrs. L. Mattingling, Veedersburg, Ind. She also leaves three brothers, Elmer Green, West Point, Ind.; Jesse Green, Benton Harbor, Mich.; and Dewey Owens, Lafayette. She is also survived by a sister, Mrs. N. Beers, Butler, Mo.

Congregational Church Notes

Rev. C. R. Dierlamm, Minister

The right kind of religion does not travel in a very straight line. In fact, it takes some peculiarly crooked turns. For instance, when a resolute Christian starts on a certain course of cheerful living, he goes the straight road for quite a distance until he confronts a situation that is dangerous. Perhaps a wild beast stands in the center of the pathway. To go ahead for this young man is to turn aside in a different direction and make a safe exit. This looks rather cowardly, and yet it pays to be somewhat cowardly.

To be unwisely brave might mean death. Encountering temptation and overcoming it means many an unexpected turn in the progress of the pilgrim. Give me the winding path along the precipice of danger and I am safe.

Daytime temperatures this w continued in 70's and early 80's; clear weather continued during t week.

LEGAL NOTICE

ELECTION NOTICE

TO THE VOTERS OF THE VILLAGE OF BELGIUM, VERMILION COUNTY, ILLINOIS:

NOTICE is hereby given, that a special election will be held in and for the Village of Belgium, Vermilion County, Illinois, at the Village Hall, Poling Place, located within said Village, on the 22nd day of June, 1948, at which time there will be submitted to the voters of said Village the following ordinance:

AN ORDINANCE providing for borrowing money and issuing bonds of the Village of Belgium, Vermilion County, Illinois, to the amount of $25,000 for the purpose of establishing and constructing a water works system in and for said Village and providing for the levy and collection of a direct tax, for the payment of the principal and interest of the said bonds.

WHEREAS, at this time the inhabitants of the Village of Belgium, Vermilion County, Illinois, do not have an adequate supply of water for general use or fire protection, the lack of which constitutes a hazard and danger to the public health and safety of the said inhabitants; and

WHEREAS, it is necessary and for the best interest of the inhabitants of said Village that an adequate system of water mains, valves service connections and appurtenances necessary thereunto be provided in and for said Village, all as fully set forth in the plans and specifications of the proposed improvements heretofore approved by the President and Board of Trustees of said Village and now on file in the office of the Village engineer for public inspection; being more particularly described as follows:

Water mains, connections, valves, water meters, fire hydrants and all appurtenances necessary to a water works system in and for said Village.

WHEREAS, all the proposed improvements described hereinabove are to be constructed and installed within and for the Village of Belgium, and the President and Board of Trustees of the said Village have caused estimates of the cost of such improvements be made, and have found the cost therefor to be not less than Twenty-Five Thousand Dollars ($25,000), and

WHEREAS, this Village has no funds available for the purpose of making said improvements and it is deemed for the best interest of said Village that bonds of the Village be issued therefor:

NOW, THEREFORE, Be It Ordained by the President and Board of Trustees of the Village of Belgium that there be borrowed for and on behalf of the Village of Belgium the sum of Twenty-Five Thousand Dollars ($25,000) for the purpose of paying the cost of the construction and installation of the necessary distribution mains together with all necessary valves, connections and appurtenances thereunto in and for said Village as hereinabove recited in the preamble of this ordinance. That to evidence said loan, negotiable coupon bonds of said Village be issued. Said bonds shall be designated "Water Work Bonds", be twenty-five in number, numbered from one (1) to twenty-five (25), inclusive, be of the denomination of One Thousand Dollars ($1,000) each, be dated July 1, 1948, and become due and payable serially, in numerical order, One Thousand Dollars ($1,000) on the first day of January of each of the years 1955 to 1959, inclusive; Two Thousand Dollars ($2,000) on the first day of January of each of the years 1960 to 1966, inclusive; and Three Thousand Dollars ($3,000) on the first day of January of each of the years 1967 and 1968.

Said bonds shall bear interest from date at the rate of four percent (4%) per annum, payable July 1, 1949, and semi-annually thereafter on the first days of January and July of each year, until paid, which interest payments to date of maturity of principal shall be evidenced by proper interest coupons attached to each bond and maturing on the dates herein provided, and both principal and interest shall be payable in lawful money of the United States of America at the American National Bank and Trust Company of Chicago, in the City of Chicago, Illinois. The seal of said Village shall be affixed to each of said bonds, and said bonds shall be signed by the President and attested by the Clerk of said Village, and said coupons shall be signed and attested by said officials, respectively, by their facsimile signatures and said officers by the execution of said bonds shall adopt as and for their respective proper signatures, their respective facsimile signatures appearing on said coupons.

Section 2. That the bonds hereby authorized shall be subject to registration as to principal in the name of the holder upon the books of the Village Treasurer, such registration to be evidenced by notation upon the back of such bonds so registered. No bond so registered shall be subject to transfer except upon such books and similarly noted on the back of the bond so registered, unless the last registration shall have been to bearer. Such registration of any said bonds shall not, however, affect the negotiability of the coupons attached to said bonds, but such coupons shall continue transferable by delivery merely.

Section 3. That each of said bonds and each of the interest coupons to be thereto attached shall be in substantially the following form:

(Form of Bond)

UNITED STATES OF AMERICA
STATE OF ILLINOIS COUNTY OF VERMILION, VILLAGE OF BELGIUM

WATER WORKS BOND

No.------ $1,000

KNOW ALL MEN BY THESE PRESENTS that the Village of Belgium, in the County of Vermilion, and State of Illinois hereby acknowledges itself to owe, and for value received hereby promises to pay to bearer, or if registered, to the registered owner hereof, the sum of One Thousand Dollars ($1,000) lawful money of the United States of America on the first day of January, 19___, together with interest on said sum from the date hereof until paid, at the rate of Four Percent (4%) per annum, payable on July 1, 1949, and semi-annually thereafter on the first days of January and July in each year, upon presentation and surrender of the interest coupons hereto attached as they severally become due and payable. Both principal and interest are hereby made payable at the American National Bank and Trust Company of Chicago, in the City of Chicago, Illinois. For the prompt payment of this bond, both principal and interest, as aforesaid, at maturity, the full faith, credit and resources of said Village are hereby irrevocably pledged.

This bond is issued by said Village for the purpose of paying the cost of the construction and installation of a system of water mains, valves and appurtenances thereto in and for said Village, pursuant to and in all respects in compliance with the "Revised Cities and Villages Act," effective January 1, 1942, and all laws amendatory thereof and supplementary thereto, and an ordinance duly passed by the President and Board of Trustees of said Village and submitted to and approved by the voters of said Village voting upon the proposition at an election duly called, noticed, held and canvassed for that purpose, in all respects as by law required.

And it is hereby certified and recited that all acts, conditions and things required by the Constitution and laws of the State of Illinois, to exist or to be done precedent to and in the issuance of this bond, have existed and have been properly done, happened and been performed in regular and due form and time as required by law; that the indebtedness represented by this bond and the issue of which it forms a part does not, in addition to all other outstanding indebtedness of said Village, exceed any constitutional or statutory limitation; and that provision has been made for the collection of a direct annual tax, in addition to all other taxes, on all the taxable property in said Village to pay the interest hereon as the same falls due and also to pay and discharge the principal hereof at maturity.

This bond is subject to registration as to principal in the name of the holder upon the books of the Treasurer of said Village such registration being noted hereon by said Treasurer, after which no transfer hereof, except upon such books and similarly noted hereon shall be valid, unless the last registration shall have been to bearer. Registration of this bond will not affect the negotiability of the coupons hereto attached, which shall continue negotiable by delivery merely, notwithstanding registration hereof.

IN WITNESS WHEREOF, the said Village of Belgium, by its President and Board of Trustees, has caused its corporate seal to be hereto affixed, and this bond to be signed by the President of said Village and attested by its Village Clerk, and the coupons hereto attached to be signed by said officers, respectively, by their facsimile signatures, and said officers do by the execution hereof, adopt as and for their proper signatures, their respective facsimile signatures appearing on said coupons, all as of the first day of July, 1948.

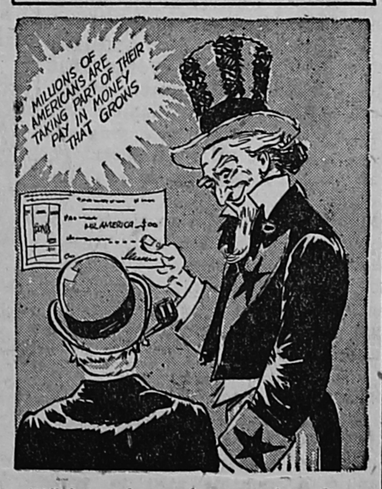
Uncle Sam Says



Millions of my nieces and nephews are increasing their take-home pay by the simple, automatic Payroll Savings Plan. Let's take one example. Suppose you tell your employer that you want to take $6.25 of your weekly pay in Bonds. In three weeks the accumulation of $18.75 will buy one $25 Savings Bond. Merely by holding these bonds to maturity in 10 years you are raising your take-home income $2.08 every week. It is obvious that the so-called deduction for Savings Bonds is not a deduction but a way for you to store up and increase your earnings for your future use.

QUESTIONS AND ANSWERS FOR VETERANS

This is another in a series of questions and answers regarding the rights of ex-servicemen and their families, as answered by Howard Bond, Veterans Employment Representative, Illinois State Employment Service, 220 N. Vermilion St., Danville. In this service, theISES attempts to answer questions most frequently asked by ex-servicemen and women.

Question: May a veteran be transferred from a state hospital to a Veterans' Hospital?

Answer: Yes, if formal application is made and a bed is available there is no legal bar. Beds are made available if condition is service connected.

Question: If a veteran is told he must be hospitalized for a service connected disability, must he accept hospitalization?

Answer: Yes, under penalty of forfeiture of his rights for compensation for the service connected disability, he must accept, unless undue hardship to the veteran or his dependents would result.

Question: I am the next-of-kin of a veteran that died and I wish to obtain an American flag for his casket. How can I do it?

Answer: A flag may be obtained through an application by a relative or undertaker to the nearest office of the Veterans' Administration. Applications are made on VA Form 2008 and such flag is given to the next-of-kin after burial.

Question: I am the widow of a deceased veteran and wish to obtain a headstone for his grave, which is in a private cemetery. How can I do this?

Answer: If the veteran is buried in a private cemetery ,an application for a headstone must be made on QM General Form 623 and submitted to the Quartermaster General, Department of the Army, Washington 25, D. C. No application is necessary for a National or Veterans' Administration cemetery.

CHRISTIAN SCIENCE CHURCHES

The subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 6, was:

"GOD THE ONLY CAUSE AND CREATOR"

The Golden Text was:

"All nations whom thou hast made shall come and worship before thee, O Lord; and shall glorify thy name. For thou art great, and doest wondrous things: thou art God alone." (Ps. 86: 9, 10).

Among the citations which comprised the Lesson-Sermon were the following from the Bible:

"Look unto me, and be ye saved, all the ends of the earth: for I am God, and there is none else. I have sworn by myself, the word is gone out of my mouth in righteousness, and shall not return, That unto me every knee shall bow, every tongue shall swear . . . . For of him, and through him, and to him, are all things: to whom be glory for ever." (Isa. 45: 22,23; Rom. 11: 36).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy:

"If what opposes God is real, there must be two powers, and God is not supreme and infinite. Can Deity be almighty, if another mighty and self-creative cause exists and sways mankind? Has the Father 'Life in Himself,' as the Scriptures say, and, if so, can Life, or God dwell in evil and create it? Can matter drive Life, Spirit, hence, and so defeat omnipotence? . . . . Spiritual causation is the one question to be considered, for more than all others spiritual causation relates to human progress." (pp. 357,170)

LEGAL NOTICE

AN ORDINANCE providing for borrowing money and issuing bonds of the Village of Belgium, Vermilion County, Illinois, to the amount of $25,000 for the purpose of establishing and constructing a water works system in and for said Village and providing for the levy and collection of a direct tax, for the payment of the principal and interest of the said bonds.

WHEREAS, at this time the inhabitants of the Village of Belgium, Vermilion County, Illinois, do not have an adequate supply of water for general use or fire protection, the lack of which constitutes a hazard and danger to the public health and safety of the said inhabitants; and

WHEREAS, it is necessary and for the best interest of the inhabitants of said Village that an adequate system of water mains, valves service connections and appurtenances necessary thereunto be provided in and for said Village, all as fully set forth in the plans and specifications of the proposed improvements heretofore approved by the President and Board of Trustees of said Village and now on file in the office of the Village engineer for public inspection; being more particularly described as follows:

Water mains, connections, valves, water meters, fire hydrants and all appurtenances necessary to a water works system in and for said Village.

WHEREAS, all the proposed improvements described hereinabove are to be constructed and installed within and for the Village of Belgium, and the President and Board of Trustees of the said Village have caused estimates of the cost of such improvements be made, and have found the cost therefor to be not less than Twenty-Five Thousand Dollars ($25,000), and

WHEREAS, this Village has no funds available for the purpose of making said improvements and it is deemed for the best interest of said Village that bonds of the Village be issued therefor:

NOW, THEREFORE, Be It Ordained by the President and Board of Trustees of the Village of Belgium that there be borrowed for and on behalf of the Village of Belgium the sum of Twenty-Five Thousand Dollars ($25,000) for the purpose of paying the cost of the construction and installation of the necessary distribution mains together with all necessary valves, connections and appurtenances thereunto in and for said Village as hereinabove recited in the preamble of this ordinance. That to evidence said loan, negotiable coupon bonds of said Village be issued. Said bonds shall be designated "Water Work Bonds", be twenty-five in number, numbered from one (1) to twenty-five (25), inclusive, be of the denomination of One Thousand Dollars ($1,000) each, be dated July 1, 1948, and become due and payable serially, in numerical order, One Thousand Dollars ($1,000) on the first day of January of each of the years 1955 to 1959, inclusive; Two Thousand Dollars ($2,000) on the first day of January of each of the years 1960 to 1966, inclusive; and Three Thousand Dollars ($3,000) on the first day of January of each of the years 1967 and 1968.

Said bonds shall bear interest from date at the rate of four percent (4%) per annum, payable July 1, 1949, and semi-annually thereafter on the first days of January and July of each year, until paid, which interest payments to date of maturity of principal shall be evidenced by proper interest coupons attached to each bond and maturing on the dates herein provided, and both principal and interest shall be payable in lawful money of the United States of America at the American National Bank and Trust Company of Chicago, in the City of Chicago, Illinois. The seal of said Village shall be affixed to each of said bonds, and said bonds shall be signed by the President and attested by the Clerk of said Village, and said coupons shall be signed and attested by said officials, respectively, by their facsimile signatures and said officers by the execution of said bonds shall adopt as and for their respective proper signatures, their respective facsimile signatures appearing on said coupons.

Section 2. That the bonds hereby authorized shall be subject to registration as to principal in the name of the holder upon the books of the Village Treasurer, such registration to be evidenced by notation upon the back of such bonds so registered. No bond so registered shall be subject to transfer except upon such books and similarly noted on the back of the bond so registered, unless the last registration shall have been to bearer. Such registration of any of said bonds shall not, however, affect the negotiability of the coupons attached to said bonds, but such coupons shall continue transferable by delivery merely.

Section 3. That each of said bonds nd each of the interest coupons to thereto attached shall be in substantially the following form:

(Form of Bond)

NITED STATES OF AMERICA
TE OF ILLINOIS COUNTY OF VERMILION, VILLAGE OF BELGIUM

WATER WORKS BOND

No.------ $1,000

KNOW ALL MEN BY THESE PRESENTS that the Village of Belgium, in the County of Vermilion, and State of Illinois hereby acknowledges itself to owe, and for value received hereby promises to pay to bearer, or if registered, to the registered owner hereof, the sum of One Thousand Dollars ($1,000) lawful money of the United States of America on the first day of January, 19___, together with interest on said sum from the date hereof until paid, at the rate of Four Percent (4%) per annum, payable on July 1, 1949, and semi-annually thereafter on the first days of January and July in each year, upon presentation and surrender of the interest coupons hereto attached as they severally become due and payable. Both principal and interest are hereby made payable at the American National Bank and Trust Company of Chicago, in the City of Chicago, Illinois. For the prompt payment of this bond, both principal and interest, as aforesaid, at maturity, the full faith, credit and resources of said Village are hereby irrevocably pledged.

This bond is issued by said Village for the purpose of paying the cost of the construction and installation of a system of water mains, valves and appurtenances thereto in and for said Village, pursuant to and in all respects in compliance with the "Revised Cities and Villages Act," effective January 1, 1942, and all laws amendatory thereof and supplementary thereto, and an ordinance duly passed by the President and Board of Trustees of said Village and submitted to and approved by the voters of said Village voting upon the proposition at an election duly called, noticed, held and canvassed for that purpose, in all respects as by law required.

And it is hereby certified and recited that all acts, conditions and things required by the Constitution and laws of the State of Illinois, to exist or to be done precedent to and in the issuance of this bond, have existed and have been properly done, happened and been performed in regular and due form and time as required by law; that the indebtedness represented by this bond and the issue of which it forms a part does not, in addition to all other outstanding indebtedness of said Village, exceed any constitutional or statutory limitation; and that provision has been made for the collection of a direct annual tax, in addition to all other taxes, on all the taxable property in said Village to pay the interest hereon as the same falls due and also to pay and discharge the principal hereof at maturity.

This bond is subject to registration as to principal in the name of the holder upon the books of the Treasurer of said Village such registration being noted hereon by said Treasurer, after which no transfer hereof, except upon such books and similarly noted hereon shall be valid, unless the last registration shall have been to bearer. Registration of this bond will not affect the negotiability of the coupons hereto attached, which shall continue negotiable by delivery merely, notwithstanding registration hereof.

IN WITNESS WHEREOF, the said Village of Belgium, by its President and Board of Trustees, has caused its corporate seal to be hereto affixed, and this bond to be signed by the President of said Village and attested by its Village Clerk, and the coupons hereto attached to be signed by said officers, respectively, by their facsimile signatures, and said officers do by the execution hereof, adopt as and for their proper signatures, their respective facsimile signatures appearing on said coupons, all as of the first day of July, 1948.

Three Mighty Important Ideas

Maybe you read, where a great encyclopedia has sorted all basic ideas into a few select groups. Under the letter "T" they have:

Temperance - Truth - Tyranny.

Sounds like a funny combination. And to philosophize a little, notice that Truth is in the center—*between* Tyranny and Temperance.

Now and then you hear folks criticize temperate people who enjoy a moderate glass of beer ... who talk about "two beers" getting some one into trouble, and claim: "There ought to be a law!"

Then Truth steps in between, and points out that two beers never got anybody into trouble—and that somebody's trying to distort the facts. No, there shouldn't be a law—*there should be Truth.*

From where I sit, those ideas are arranged just right. Temperance on one side, Tyranny on the other—and Truth in the middle—seeing that Tyranny never encroaches upon Temperance.

A View on Honesty

Are some folks instinctively dishonest?

Judging by the conduct of some persons with whom we occasionally come in contact, the inclination is to believe that a certain percentage of the population is "born dishonest."

After putting the question to a psychologist recently, we were told that such a belief is not sound, judging by the scientific standards of human behavior. This psychologist stated that it is doubtful whether any person is instinctively dishonest. He added that you might say that no one is "born honest," either. His view is that instinct prompts us to go after what we want by the shortest route. Since dishonesty, therefore, is always the longer way around, nobody is naturally inclined to bother with it to any great extent, unless he feels "he must."

It is pointed out that a child automatically tells the truth if he is not frightened, and even adults become dishonest only when they have lost faith in their ability to succeed by less devious methods.

This strictly scientific viewpoint of the psychologist offers some interesting food for speculation. It is our belief, however, that example and early training will do far more to inspire honesty and many other virtues than merely an urge to get what is desired by the shortest possible route.

Open Hands

A man clenches his fists. He has in his hands a two-fisted symbol of force. He is ready to fight! His mind has become tense. Thoughts of anger and fear surge into consciousness. He approaches another man with fists clenched, and now watch the latter clench his own. He, too, is ready to do battle. Of course, they may not come to actual physical blows, but they are meeting in an atmosphere charged with antagonism and mistrust. Their minds are closed as tightly as their fists.

Now let this man open his hands. As he opens them, he will find his tension leaving. His body will begin to relax. His mind will open up. The open hand can hold no weapon; it can conceal no knife or treachery. It is a symbol of peace, understanding, good will.

It takes an open hand to pat a man on the back, to help pull a man up to higher ground, to join hands with others in a common cause, to type a letter, to paint a picture, to perform an operation, to design a building, to plant a garden, to turn the pages of a book. Closed fists make clubs of hands. They are only good for fighting or pounding tables. Open hands can go to work in thousands of constructive ways.

Let's take a look at our open hands. They are tools with which to serve, make friends, and reach out for the best in life. Open hands open the way to achievement. Why not put them to work?

You need not tell all the truth, unless to those who have a right to know it all. But let all you tell be the truth. —Horace Mann

The best of all governments is that which teaches us to govern ourselves. —Goethe

All overmuch governing kills the self-help and energy of the governed.

A wise man will make haste to forgive, because he knows the full value of time and will not suffer it to pass away in unnecessary pain. —Rambler

Forgiveness ought to be like a canceled note—torn in two, and burned up, so that it can never be shown against one. —H. W. Beecher

Illinois FFA To Convene June 14

(Special)

URBANA — More than 1200 Illinois high school agricultural students will meet on the University of Illinois campus June 14-16 for the state's twentieth annual convention of the Future Farmers of America.

According to J. E. Hill, State F. F. A. Adviser, 700 voting delegates from the state's 440 local chapters will be on hand for the 3-day meeting. Additional representatives from the chapters will place total attendance between 1200 and 1500.

One of the highlights of the program will be the selection of 14 Illinois candidates for the American Farmer degree. Final action on these candidates will be taken at the national convention next fall.

In addition to the American Farmer candidates, approximately 280 boys will be awarded the Illinois State Farmer Degree. These awards are based upon outstanding accopmlishments in farming, leadership, co-operation and activity in local chapters. From this group of winners, four will be named district Star State Farmers One of those four boys will receive the highest recognition as Star State Farmer of Illinois.

Officers include Kenneth Cheatham, Smithtboro, president; George Lewis, Mt. Sterling, vice-president; Edward Heine, Hampshire, secretary-treasurer; and Virden Trotter, Adair, reporter. Each of the 20 sections of the state is under the direction of a vice-president. New officers and vice-presidents for the sections will be elected on the last day of the meeting.

The College of Agriculture and the College of Education of the University of Illinois are co-operating with the State Board for Vocational Education in sponsoring the convention.

The actions of men are like the index of a book; they point out what is most remarkable in them.

The area of Shawnee National Park and Cave-in Rock State Park in southern Illinois is an attractive destination for weekend tourists, according to the Chicago Motor Club's travel bureau.

Located on the Ohio river at the end of State Route 1, Cave-in Rock State Park provides 65 acres of sweeping views from its steep rocks, Indian mounds and historical cave-in rock.

Fort Massac State park, east of Metropolis, is famous as the site of the fort built in 1775. Its 456 acres contain excellent fishing.

Harrisburg is headquarters for the Shawnee National Park, which lies to the south of U. S. 45 and Illinois 34. It is the important coal mining and commercial center in the region of southern Illinois known as Egypt.

Plan Now for Health In Swine, Is Advice

(Special)

URBANA — Illinois farmers with spring pigs at the weaning stage should make a systematic survey of their swine breeding stock while planning for their fall litters, says Dr. M. E. Mansfield, extension specialist, University of Illinois College of Veterinary Medicine.

To help increase the number of pigs farrowed this fall, eliminate unhealthy, inefficient and inferior animals, Dr. Mansfield says. Only healthy sows and gilts with characteristics for high meat-producing efficiency should be carried over as breeding stock.

Whether you have grade or purebred swine, it would be a wise policy to have your herd tested for brucellosis, a disease causing more trouble in Illinois each year. Reactor boars and sows should be removed and new purchases quarantined and tested to presvent infecting healthy animals.

The swine herd's physical examination also should include a check for mange and cases of chronic erysipelas. Lame, unthrifty animals with swollen joints might have erysipelas. These animals should be culled from the herd, says Dr. Mansfield.

Save-Gasoline Drive Started by Oil Co.

How motorists can save gasoline so there will be enough for all will be told by Standard Oil Company (Indiana) as part of an extensive summer advertising campaign. Standard believes voluntary public co-operation in conservation measures and expansion of petroleum facilities to provide more supply are the American way to meet the record demand for petroleum products.

Newspapers, radio, outdoor posters, a gasoline conservation display card and curb signs at service stations, and a folder on "How to Save Gasoline" for dealers to give motorists will be used in the advertising campaign throughout the 15 mid-west states where Standard of Indiana markets, according to Ralph C. Weaver, Georgetown, agent for the company.

Voluntary gasoline conservation measures which the advertising will suggest to motorists include: Eliminate unnecessary driving; organize carpools.

Drive at moderate speeds. Increasing speed from 40 to 60 miles per hour increases gasoline consumption about 40 per cent.

Avoid "jack rabbit" starts and prolonged low-gear operation.

Keep tires properly inflated.

Keep car in efficient operating conditionsd by having spark plugs serviced, valves flushed, frequent oil changes, etc.

How so far more than 5000 independent service station dealers have attended 80 Standard Oil training schools in 74 cities to learn gasoline-saving methods as well as other services for better car care will also be told in the advertising. Every two weeks 250 dealers enter merchandising clinics and when they meet all requirements they are awarded "Service Specialist" plaques for display at their service stations.

Mr. Weaver said the summer advertising campaign will include seven weekly advertisements in newspapers. A total of 1766 newspapers, including 1293 weeklies and 473 dailies, with a combined circulation of more than 16,000,000, will be used.

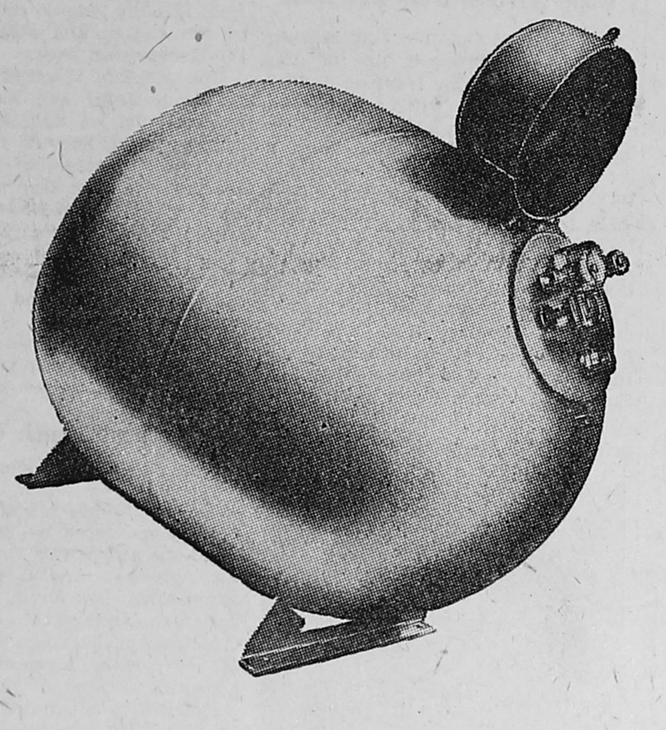
BOTTLE GAS 5c IN WESTVILLE

INSTALL YOUR OWN TANK
FILL IT ONCE A YEAR FROM OUR TANK TRUCK

Bottle gas prices are not high, when you consider all the handling and time required for service Propane price has been increased three times and freight rates have advanced twice. Therefore your price per pound you pay your dealer, has of necessity, been increased. He still makes no large profit.



These tanks hold 439 lbs. of gas, which is a year's supply for the average family. Your cost is $22.16 including tax, for one fill.

No more running out of gas, as you can SEE how much remains in the tank.

They meet the requirements of American Society, Mechanical Engineers.

National Board of Fire Underwriters standards permit these tanks being placed right next to your home. THEY ARE SAFE.

TRAVEL AND HANDLING FOR A BOTTLE OF GAS TO REACH YOU

Propane goes by tank car or transport from refinery to bottling plant. Bottles are filled and trucked to a central point. Dealer then gets them into his possession by his own pickup, or via freight or truck. When you run out of gas, you get it from your dealer. From refinery to you, a small profit must be charged for each operation. Also, the owner of the bottle, plus the owners of all equipment handling propane between you and the refinery, must add enough cost to replace the equipment. We repeat: bottle gas is not high.

Do Your Investments Pay 10 Per cent Upward?

Tank, regulator **and 439 pounds of gas** cost less than $165.00, meaning that you are losing MORE than 10% on an investment, if you use as little as 400 pounds a year, at 9c a pound. After completing blank space as to your own experience, decide what percent an investment must yield to make it attractive to you. Then come in and see if our price meets your investment standard, plus no more running out of gas during preparation of a meal.

REMEMBER!

No one who bought equipment from us was out of gas longer than it took our truck to reach them. We receive propane by tank car and transoprt and our own truck hauls from two refineries.

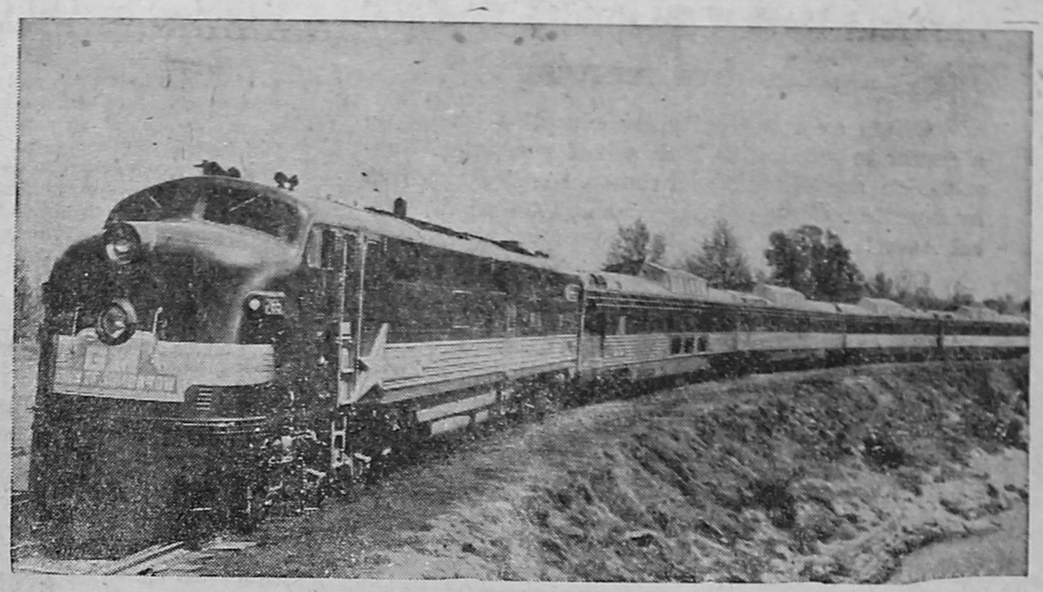
Hundreds Here See Train of Tomorrow



Something entirely new in railroad car design, a far cry from the shoe box lunches and the dirt and bleakness of an old-time railroad coach, was presented this week in Danville in the exhibit of the General Motors Train of Tomorrow.

The upper view shows the train, packed with mechanical marvels with astra domes on each car and a depressed car floor, resulting in four floor levels with ramps or steps connecting them. An unrivalled view of the landscape is provided.

In the lower view, the stairway in the background leads to an upper level astra dome, constructed of special glare and heat resistant safety glass. The seats are the famous "Sleepy Hollow" design made from studies of human measurements by Dr. Ernest A. Hooton, noted anthropologist of Harvard University. The train is powered by a standard 2000-horsepower diesel locomotive, manufactured by Electro-Motive Division of General Motors.

Mayor Charles Byron of Westville, Mayor C. E. Spang of Georgetown and Fred Pletcher of the Westville News and Georgetown News were among those who were passengers with a number of Danville and county dignitaries and politicians on the General Motors Astra-Dome Train of Tomorrow on the C&EI railroad from Chicago Heights to Danville Sunday afternoon.

Bonner Jones was on the exhibition staff at the public exhibit of the train at the C&EI freight house yards Monday and Tuesday afternoons and evenings, and local state police officers Elmer Allen was on guard duty as hundreds from this area passed through the beautiful four cars, "Star Dust," "Sky View," "Dream Cloud" and "Moon Glow," and through the 2000-horsepower diesel locomotive car.

"Out of this world" was the phrase used by some of the local passengers on the "pre-view" ride in attempting to describe the velvet smoothness of the ride, the lack of sway and the silent travel on a fairly rough roadbed. The view from the cab in the nose of the diesel engine was magnificent as was the landscape view from the lofty astra domes.

The train's design, permitting the astra domes and the lower level compartments that can be turned to a wide variety of uses, is a combination of the engineering of the Electro-Motive Division and the creative ability of styling specialists and the General Motors styling section in Detroit. A basic change in floor beam construction in railroad passenger cars has permitted the multi-level construction as the most outstanding innovation. There are actually four levels of passenger accomodation, with short ramps and stairways providing easy movement from the various levels. The train is air conditioned, with inter-car-locomotive telephone connections and radio.

General Motors Corp. executives with the train were James H. Smith, Saginaw, Mich., general manager of the Central Foundry Division; French Bassett, Saginaw, division director of sales; Verne Richter, Saginaw division director of personnel; J. E. Fitzgerald, Chicago, regional manager of public relations; Roland Seward, manager of the train; and Elmer Braun, manager of the Danville plant. C&EI officials included President John Budd; C. M. Roddewig, vice-president and general counsel; H. R. Sampson, vice-president in charge of traffic; and W. M. Templeton, Danville, superintendent of operations.

Body Arrives from Far East

The body of Cpl. T-5 Roy Macklin Jr., who was killed in line of duty near Khorramshahr, Iran, on June 8, 1945, will arrive with military escort in Georgetown at 2:55 a. m., daylight time, Friday morning, June 4, for final burial in Georgetown cemetery. Temporary interment had been made in the El Alia Temporary Military cemetery in Algeria.

The casket will remain in state in the Houghton Funeral Home, where brief funeral services will be held at 2:30 p. m. Saturday, Rev. O. K. Shaffer, Danville, service officer of the Illinois Veterans Commission, will officiate. The full military rites of the American Legion will be given by officers and members of Dornblazer Post 203. The Legion's ritual for the dead will be given at the graveside, to be conducted by Roy Jr.'s uncle, Ross Macklin, who is county chaplain of the Legion and also chaplain of the Georgetown Post.

Cpl. Macklin received his training at Camp Grant and Normoyle Ordnance Depot at San Antonio, Tex., after enlisting Feb. 12, 1943. He went overseas in September of that year. He met death in Iran while serving on a weapon carrier as a part of a huge truck convoy. The carrier, driven by an Army lieutenant, was wrecked in a collision on a mountain road. Both Roy Jr. and the lieutenant were killed, another soldier on the weapon carrier died three days later, and a fourth, the sole survivor of the crew, sustained severe injuries.

Georgetown Youth Center Hires Full-Time Director

The Georgetown Youth Recreation Center, sponsored by the Lions Club in co-operatiion with the city council, the American Legion and other organizations, has hired William Rook assistant coach of the high school, as director for the summer at a salary of $40 a week. Most of the summer activities will be in the town park. Registration of youths of the ages through high school will be Monday.

Miss Eileen Winland, daughter of Mr. and Mrs. Ernest Winland, a student at the University of Illinois majoring in physical education, has been hired as assistant director.
